

Table of Contents

Preface and Scientific Committee

Latent Heat Storage in Plasters with Incorporated PCM Water Dispersion J. Fořt, A. Trník and Z. Pavlík	1
Basic and Thermal Characteristics of Render with Crushed Brick M. Čáchová, E. Vejmelková, M. Keppert and L. Fiala	7
Design of the Lightweight Gypsum Using Point Criterion M. Nazmunnahar and A. Vimmrová	13
Experimental Determination of Material Characteristics of New Type of Plaster M. Jerman and J. Žumár	21
Properties of Lime Plaster with Hydrophobic Admixture P. Volfová, M. Pavlíková, R. Pernicová and Z. Pavlík	27
Classification of a-SiO₂ Rich Materials M. Záleská, M. Pavlíková and Z. Pavlík	33
Influence of Selected Pozzolanas on Basic Physical and Mechanical Properties of HSC E. Vejmelková, M. Čáchová and J. Kořátková	39
Study of Mass Changes of Cement Pastes as a Function of Age Using Thermogravimetry L. Scheinherrová, A. Trník, T. Kulovaná and R. Černý	43
Refractory Composites with Mineral Additive M. Jogl, P. Reiterman, O. Holčapek, F. Vogel and P. Konvalinka	49
Ceramic Waste Powder as an Active Pozzolanic Material for Cement Based Composites T. Kulovaná and Z. Pavlík	55
Influence of Plasticizer on Properties of Blended Cement Concrete K. Polozhiy, J.A. Siddique and P. Reiterman	61
Properties of Concrete with Lower Amount of SCM E. Vejmelková, D. Koňáková and P. Rovnaníková	65
Physical and Mechanical Properties of Cement Pastes with Blended Binder Containing Fine Milled Glass M. Kočová, J. Pokorný, M. Pavlíková and Z. Pavlík	71
Low Cost Cement Floor Screed K. Polozhiy, J.A. Siddique and P. Reiterman	77
Moisture Resistance and Durability of the Ternary Gypsum-Based Binders M. Doleželová, L. Scheinherrová and A. Vimmrová	81
Pore Structure and Hydric Characteristics of Renders with Blended Binder M. Čáchová, E. Vejmelková and K. Polozhiy	89
Application of a Transient Method for Investigation of Water Vapour Transport Properties of Autoclaved Aerated Concrete J. Žumár, Z. Pavlík and R. Černý	95
Experimental Assessment of Moisture Storage Functions of Different Types of Sandstone M. Záleská, J. Žumár and M. Pavlíková	101
Mechanical and Water Transport Properties of HSC with Different SCMs J. Kořátková, D. Koňáková, E. Vejmelková, P. Reiterman and J.A. Siddique	105
A Contribution to the Analysis of Water Vapor Transport in Porous Building Materials T. Korecký, J. Žumár and R. Černý	111
Transport of Liquids in Porous Rocks M. Keppert, M. Čáchová and D. Koňáková	117
Behavior of Cement Composites Loaded by High Temperature V. Špedlová and D. Koňáková	121
A Contribution to the Treatment of Salt Damage in Historical Buildings I. Antepara, I. Medved', J. Žumár and R. Černý	127
Effect of CO₂ Exposure on Mechanical Resistivity of Cement Pastes with Incorporated Ceramic Waste Powder J. Pokorný, M. Pavlíková and Z. Pavlík	133

Influence of Cracks on the Properties of Self-Compacting Concrete D. Koňáková, J. Kořátková and E. Vejmelková	139
The Influence of Chloride and Nitrite Solution Exposure on Mechanical Properties of Industrially Produced Plaster Mixtures J. Pokorný, M. Pavlíková and Z. Pavlík	145
Static Modulus of Elasticity of Concrete P. Reiterman	151
Comparison of Stress-Strain Diagrams in Different Age of the Cement Matrix for Textile Reinforced Concrete F. Vogel, O. Holčápek and P. Konvalinka	155
High Strength Concrete Matrix for Textile Reinforced Concrete Production in Special Curing Conditions O. Holčápek	161
Mechanical and Thermal Properties of HSC with Fine Natural Pozzolana as SCM J. Kořátková, M. Čáchová, E. Vejmelková and P. Reiterman	167
Refractory Cement Composite Reinforced by Various Types of Fibers O. Holčápek, P. Reiterman and M. Jogl	173
Reinforced Cement Composites – Effect of Hybrid Fibres on Selected Properties D. Koňáková and E. Vejmelková	179
Binder for Refractory Cement Composites – Hydration, Changing due to High Temperatures and Fracture Energy O. Holčápek, P. Reiterman and P. Konvalinka	185
The Effect of Elevated Temperature on High Performance Fiber Reinforced Concrete J. Fořt, J. Pokorný, D. Čítek, J. Kolísko and Z. Pavlík	191
The Experimental Testing of the Tensile Strength of the Steel Fibre Reinforced Cement Matrix J. Machovec, F. Vogel and P. Konvalinka	197
