

Table of Contents

Preface

Chapter 1: Materials for Biomedical Application

Synthesis and Characterization of Hydroxyethyl Cellulose/Chitosan Incorporated with Cellulose Nanocrystal Biopolymers Network	
F.H. Zulkifli, S. Khan, S.M. Kabeb and N.H.M. Shah	3
Morphological and Characterization Analysis of PCL/Estradiol Electrospun Membrane for Bone Regeneration Application	
D.F. Khrisna, N.M. Zain, N. Mohd Daud, F. Abdullah, N.A.N. Nik Malek and S. Saidin	9
Comparison of Organic and Inorganic - Modified Halloysite Nanotube for Improved Drug Delivery of Aspirin	
K.M.E. Piolo, C.A.J. Samonte, C.S. Emolaga and J.C. Millare	15
Heating Efficiency of Green Synthesized Fe_3O_4 Nanoparticles Utilizing <i>Moringa oleifera</i> Extract for Magnetic Hyperthermia Applications	
M.Y. Darmawan, R.M. Tumbelaka, N.I. Istiqomah, A.D. Nugraheni and E. Suharyadi	21
Effects of PVA, PVP, and Glycerol on the Viscosity of a Transdermal Patch	
J. Tathimongkon, A. Chaijaruwanich, W. Nakkiw and W. Wattanutchariya	27
The Development of Artificial Saliva with Oral Wound Healing Property	
S. Thaweeboon, R. Srichan, S. Mala and B. Thaweeboon	35
Morphology and Wettability Analyses on Electrospun Polyvinyl Alcohol/Elastin Nanofibers at Varying Voltages and Composition	
K. Vangetaraman, A. Asiri, S. Sivalingam, A.A. Shafi, K. Jemon and S. Saidin	41
A Study on Microstructural and Optical Properties of Green Synthesized Fe_3O_4/Mesoporous Silica Nanoparticles	
M.E. Saputra, N.I. Istiqomah, L.A. Nikmah, L. Rumiyanti, R.M. Tumbelaka and E. Suharyadi	47

Chapter 2: Mechatronics

Monitoring Method of Ball Rolling Motion with Quaternion-Based Signal Processing	
H. Hanai, Y. Mita, T. Hirogaki and E. Aoyama	55
Passing through the Vicinity of a Singularity on Off-Line Teaching for End-Milling by Industrial Robot	
D. Kato, T. Ayumu, S. Masataka, T. Hirogaki and E. Aoyama	61
Study on the Influence of Tool Runout on the Stability of Chatter Vibration Based on Image Estimation of Machined Surface Pattern after Side-End Milling	
T. Taniguchi, T. Hirogaki, E. Aoyama and N. Ozaki	69
