Preface

Chapter 1: Advanced Functional Materials

Hexacyanoferrate as an Active Material for Zinc-Ion Batteries S. Lee, P.M. Nogales and S.K. Jeong	
Ultrasound-Assisted Anthocyanins Extraction from Purple Cabbage for Optical Biosenson of Wound Healing Monitoring	
K. Vilcahuaman, M. Elgegren, A. Donaryre, J. Nakamatsu and S. Kim	9
Chapter 2: Chemical and Food Engineering	
Hydrogen Production from Rice Husk: Techno-Economic and Life Cycle Analysis K.C. Kong, C.L.M. Eh, A.N.T. Tiong, J. Kansedo, W.P.Q. Ng, C.H. Lim and B.S. How	17
Improving Efficiency of Heat Pump Dryer Using R32 Refrigerant by Nanofluid P. Somsila, E. Boonthum, A. Namkhet and U. Teeboonma	23
Comparative Study on Performance of Passive and Active Solar Dryer E. Boonthum, S. Sirichana, A. Namkhet and U. Teeboonma	33
Chapter 3: Applied Technologies in Architecture	
Visual Renovation of Cultural Heritage Buildings through Advanced Construction Materials - 2D-Printed Protective Cladding on Facade Scaffolds V.M. Tepeliev	43
