

# Table of Contents

## Preface

## Chapter 1: Metal Processing Technologies

<b>Regarding the Use of Special Stamping Devices Obtained by Electrical Erosion in the Automobile Industry</b> D. Popescu and I. Geonea	3
<b>Temperature in Turning Process of Pure Titanium and Ti6Al4V Titanium Alloy</b> D. Panduru, E.N. Patru, M. Bica and N. Craciunoiu	11
<b>Results Regarding the Temperature in Milling Process of Aluminum Alloys and Stainless Steel</b> E.N. Patru, D. Panduru, M. Bica and N. Craciunoiu	17

## Chapter 2: Mechatronics, Machines and Equipment

<b>Study on Blade Geometric Design and Advanced Control for Horizontal Wind Turbine</b> M.C. Călin, L. Matei, M. Muat, M. Pandealea and M. Iliescu	25
<b>Study on the Use of Robotic Arms in Logistics and Manufacturing: A Short Review</b> M.L. Proistosescu Necsoi, E.L. Niu and C.A. Gavriluă	35
<b>Manipulators Used as Endoscopic Instrumentation of the Urinary Tract</b> O. Antonescu, V. Veliscu, I.D. Geonea and P. Antonescu	47
<b>Critical Vibrations for Turbine Elements</b> T. unescu, I. Ștefan, B.A. Olei and I.D. Savu	55

## Chapter 3: Conceptual Approaches in Automotive Engineering

<b>Researches in the Field of Electric and Hybrid Mobility at the Automotive Engineering Research Centre of the National University of Science and Technology Politehnica Bucharest - Pitești Branch</b> L. Călin, D.G. Marinescu and V. Nicolae	65
<b>GASTER Electricway 4WD Concept with Compressed Natural Gas, Continuously Variable Transmission and Electrified Rear Axle</b> L. Călin, D.G. Marinescu and V. Nicolae	79
<b>Constructive and Functional Optimisation of a Fuel Tank in the Supply System of a Spark Ignition Engine</b> I. Dumitru, L. Racilă, G. Paraschiv, L. Matei and C. Drăghici	95
<b>Enabling Technologies and System Architectures for Autonomous Vehicles</b> T.G. Oprica, I. Dumitru, D. Burghilă, L. Simniceanu and L. Matei	105
<b>A Short History of Electric Vehicles</b> L. Racila, I. Dumitru, T. Oprica and L. Matei	115

## Chapter 4: Living Conditions and Environmental Quality in Urban Areas

<b>Selection of Heat-Insulating Materials for the Thermal Rehabilitation of a Building</b> M. Demian, G. Demian and L. Grecu	123
<b>Selection of Materials for Noise Control in Buildings Using a Multicriteria Decision Method</b> G. Demian, L. Grecu and M. Demian	133
<b>Green Roofs for Office Buildings: Benefits to Mass Transfer and Energy Efficiency</b> V. Iordan, M. Călbureanu, N.M. Marinache, A. Ionescu, D. Călbureanu and R. Malciu	143

<b>Modelling of the Improvement of Living Conditions in the Apartment Blocks Built before 1989 and Rehabilitation through Thermal Insulation, Using Ubakus Heat and Mass Transfer through Walls Program</b>	
A.M. Codiă, N.M. Marinache, A. Stăncu and D.M. Călbureanu	155
<b>The Importance of Using Appropriate Materials When Renovating Old Masonry Buildings - Case Study: Church from the End of the XIX-Th Century</b>	
A.M. Codiă, N.M. Marinache, A. Stăncu and A. Ionescu	161
<b>Modelling and Processing of the Dynamic Modular Facades Manufactured by the U Bending Technology</b>	
L.M. Ciurezu-Gherghe, C. Teisanu, B. Hurezeanu, M. Mamuleanu, G. Sima and O. Gingu	169
<b>Developing and Using Some Indices for Studying the Evolution of Surface Water Quality</b>	
L. Grecu, G. Demian and M. Demian	181
