

Table of Contents

Preface

Buckling Mechanism Simulation for Thin-Wall Components Made by Laser Powder Bed Fusion	
R. Tangestani, A. Chakraborty, T. Sabiston, L. Yuan and É. Martin	1
316L-Si Austenitic Stainless Steel Elaborated by Additive Manufacturing Process: Porosity and Dislocation Density Estimation	
S. Aberkane, B. Mehdi and R. Badji	7
Effect of Isothermal Annealing on Residual Stresses and Fatigue Properties of LPBF 316L Steel	
M. Jaskari, A. Hamada, T. Gundgire, A. Järvenpää and P. Karjalainen	13
Fatigue Life and Impact Toughness of PBF-LB Manufactured Ti6Al4V and the Effect of Heat Treatment	
T. Rautio, M. Araya, M. Jaskari, H.A. Bhatti and A. Järvenpää	19
Overview: Additive/Subtractive Hybrid Manufacturing of Heat Resisting Materials	
P. Wanjara, S. Atabay, S. Sarafan, J. Gholipour, J. Soost and M. Brochu	27
The Influence of the Deposition Speed during Friction Screw Extrusion Additive Manufacturing of AA6060	
S.S. Rezaeinejad, S. Strik, T.C. Bor, M. Luckabauer and R. Akkerman	33
Production of a Ti6Al4V Automobile's Lower Control Arm with EBM	
D. Mirabile Gattia, A. Palombi, A. Coglitore, F. De Pascalis, M. Nacucci, F. Palano, A. Tati, G. Barbieri, M. Richetta and U. De Angelis	41
Design Strategies towards the Optimization of 3D Additive Manufactured Lattice Structures	
C. de Crescenzo, M. Richetta, A. Fava, I. Papallo, A. Lanzotti, M. Martorelli and A. Gloria	47
Processability and Solidification Microstructure of Al-10Si-4.5Mg Alloy Fabricated by Laser Powder Bed Fusion	
Y. Otani, N. Takata, A. Suzuki, M. Kobashi and M. Kato	53
Process Parameter Prediction in Laser Powder Bed Fusion Using an Artificial Neural Network	
N. Nudelis and P. Mayr	59
Advantages of Hybrid Neural Network Architectures to Enhance Prediction of Tensile Properties in Laser Powder Bed Fusion	
F. Funcke, T. Forster and P. Mayr	65
Low-Environmental Impact Surface Treatment on SLM-Produced AlSi10Mg Aluminium Alloy	
A. Acquesta, A. Manzo and T. Monetta	73
Functionally Graded Steels Obtained via Electron Beam Powder Bed Fusion	
C. Botero, A. Koptug, W. Sjöström, E. Jiménez-Piqué, A. Şelte and L.E. Rännar	79
Towards Laser Metal Deposition of Modified PH 13-8Mo Powder	
G. Aydin, A. Şelte, J. Andersson and M.A. Valiente Bermejo	85
Triply Periodic Minimal Surfaces Manufactured by Electron Beam Powder Bed Fusion: Approaches and Challenges	
A. Koptug, D. Khrapov, M. Surmeneva and R. Surmenev	91
High Temperature Tensile Properties and Microstructure of Ni20Cr Alloy Fabricated by Laser Powder Bed Fusion	
S.S. Joshi, C. Keller, W. Lefebvre and E. Hug	97
Effect of Relative Weight on Compression Behaviour of 3D Printed Porous Structure Made of Aluminium Alloy	
K. Monkova, P.P. Monka, G. Pantazopoulos, A. Toulfatzis, S. Papadopoulou and M. Korol'	103
Effective Strategies for Electron Beam Additive Manufacturing of Graded Metal Interfaces between Stainless Steel and Vanadium	
C.L. Hawk, L.B. O'Brien, R.A. Bloom and J.S. Carpenter	109
Thermomechanical Response of an Additively Manufactured Hybrid Alloy by Means of Powder Bed Fusion	
C. Aranas Jr., K. Nyamuchiwa, K. Chadha, J. Pasco and T. McCarthy	117

Mechanical Behaviour of Maraging Steel Processed by Powder Bed Fusion via Laser Beam (PBF-LB) in Different Build Orientations	
N.C. Santhi Srinivas, K. Chattopadhyay and V. Jaydeep	123
High-Throughput Simulations of Phase Precipitation in Additively Manufactured Al Alloy	
N. Barschkett, S. Carrion Ständer, G. Matheson, A. Evirgen and E. Kabliman	129
Laser-Powder Bed Fusion Additive Manufacturing of NiCrBSi Self-Fluxing Nickel Alloy, Material Health - Process Relationship	
A. Ty, M. Mokhtari, Y. Balcaen, O. Dalverny, J. Rigaud, J. Rocchi, A. Votié, J.M. Cloué and J. Alexis	135
High Volume 3D Printer and Developed of High-Volume Extruders for Gelatin and Liquids	
A. Engels, M.T. Hauschultz, H. Jacobs and A.H. Foitzik	143
Microstructural and Mechanical Characterization of Large Surfaces after Laser Cladding by Wavering of Nickel Coating on Cast-Iron Molds Used in Glass Industry	
F. Bourahima, T. Lauridant, C. Guasch, A.L. Helbert and T. Baudin	151
Laser-Based Directed Energy Deposition of Ceramic Nanoadditivated AA7075 Powder Alloys	
P. Rey Rodriguez, A. Lazaro Martinez, G. Castro Regal, R. Sanchez Cruz, C. Alleaume, C. Prieto Rio, T. Pabel and E. Kaschnitz	157
Alloy Design for AM: A Ferritic Alloy for Applications in Corrosive Alkaline Environment	
D. Mirabile Gattia, L. Pilloni and G. Corallo	163
