

Table of Contents

Preface

Chapter 1: Functional Ceramics

Effect of Bi³⁺ and Fe³⁺ Ions Substitution on Electrical Response of BaTiO₃ Ceramic	3
N. Gouitaa, F.Z. Ahjyaje, F. Abdi and T. Lamcharfi	
Structural Refinement, Dielectric and Electromechanical Properties of (1-x)NBT-xKBT Piezoceramics in the Morphotropic Phase Boundary Region	11
M. Mesrar, N. Gouitaa, N.S. Echatoui, F. Abdi and T. Lamcharfi	
Impedance Spectroscopy and Study of Electrical Properties of Pb(Zr_{0.52}Ti_{0.48})_{1-x}Fe_xO_{3-x} (0≤x≤0.20) Ceramics	37
M. Ahabboud, N. Gouitaa, F. Abdi and T. Lamcharfi	
Effect of Pb_{0.8}La_{0.2}Ti_{0.95}O₃ Doping on the Electrical and Dielectric Properties of CCTO Compound Synthesized by Hybrid Method	49
M. Slaoui, N. Gouitaa, A. Harrach, F. Abdi and T. Lamcharfi	

Chapter 2: Advanced Materials

Study of Polymer Inorganic Composites for Electromagnetic Radiation Absorption Using Potassium Titanates	73
V. Lebedev, D. Miroshnichenko, O. Shestopalov, A. Hrubnik and B.B. Nyakuma	
Optimization of the Technology of Creating Sensitive Gas Sensors Based on Zinc Oxide	81
N. Minska, R. Ponomarenko, R. Shevchenko and O. Antoshkin	
Thermohydraulic Analysis of Aqueous Dispersions Effectiveness with TiO₂ and Al₂O₃ Nanoparticles in a U-Shaped Geothermal Probe	87
T. Rymar and O. Stanislavchuk	
Potentiometric (pH-Metric) Methods of Studying Acid-Base Properties on the Surface of Dispersed Materials	95
Y. Danchenko, V. Andronov, H. Olijnyk, A. Kosse and M. Rastorhueva	
The Relationship between Specific Electrical Resistance and the Readiness of Coal Coke	103
V. Vladymyrenko and I. Shulga	
Optimal Process Parameters of the Binder to Reduce Air Pollution and to Improve the Emission Effect from Composite Production	109
A. Kondratiev, O. Gaidachuk, T. Nabokina, S. Shapoval and O. Semkiv	
Study of Smart Bioactive Humic-Polymeric Hydrogel Transdermal Materials	121
K. Lebedeva, A. Cherkashina, T. Tykhomyrova and V. Lebedev	

Chapter 3: Friction Stir Welding Technologies

Development of the Working Techniques Required to Apply Friction Stir Welding in Liquid Environment	131
L.N. Botila, I.A. Perianu, G.V. Mnerie, E.F. Binchiciu, A.A. Geana and M. Marin-Corciu	
Friction Stir Welding in Liquid Working Environment (SFSW) of EN AW 1200 Aluminum Alloy	143
L.N. Botila, I.A. Perianu, M. Marin-Corciu, A.A. Geana, I. Duma and R.N. Popescu	
Computer Aided Thermal Analysis of the FSW Tool Geometry	155
M. Marin-Corciu, L.N. Botila and A.A. Geana	
Fracture Characteristics of EN AW 1200 Tensile Test Specimens Joined with FSW and SFSW Processes	163
E.F. Binchiciu, L.N. Botila, M. Nicolaescu and G.V. Mnerie	
Friction Stir Spot Welding of Steel Structures - A Brief Review	175
T. Georgescu, E.L. Nitu, M.D. Iordache and L.N. Botila	

Mechanical Properties of Welded by Friction Stir Welding Aluminium Alloy AA 5754	
N. Ferdinandov, D. Gospodinov, M. Ilieva and R. Radev	185
Finite Element Modeling and Verification of the Plunge Stage in Friction Stir Welding	
I. Draganov, D. Gospodinov, R. Radev and N. Ferdinandov	193
Influence of Welding Tool Geometry on the SFSW Joint Dimensions of the EN AW 1200	
Aluminium Alloy	
G.V. Mnerei, L.N. Botila, I.A. Perianu, I. Duma, E. Dobrin and E.F. Binchiciu	205
