

Table of Contents

Preface

Chapter 1: Advanced Composite Materials

Evaluation of Marine Atmospheric Environmental Adaptability of 3238A/CCF300 Composite Material

J.K. Wang, J.M. Wang and M. Liu 3

Stress Intensity Factor of E-Glass Fiber Reinforced Polyester Composites

M. Osaretin, S.O. Edelugo, P.U. Akpan, C.O.A. Agbo, P.A. Ozor and N.I. Sukdeo 9

Post-Buckling Analysis of E-Glass Fiber Reinforced Thin-Walled Cylindrical Composite

B.N. Ugwu, J.N. Ani, T. Suoware and S.O. Edelugo 21

Weibull Technique for Evaluation of Swelling: Composite Graphite Resin Electrode for Electrochemical Treatment of Gold Mining Wastewaters

K.O. Olayanju, K.A. Bolorunduro and I.A. Oke 31

Chapter 2: Biocomposites

Enhanced the Bagasse Corrugated Fiber Composite Roofing Properties with Adhesive Substances

P. Bharuedha, S. Prayoon and B. Kittisak 43

Flexural Strength of Kenaf Fibers/Epoxy Bio-Composites: Content of Kenaf Fiber, Curing Times and Curing Temperatures

H. Suherman, I. Vatra, T.A. Suherman and I. Irmayani 49

Mechanism and Kinetics of Water Absorption of Plantain Fibre Reinforced Bio-Composites

P.E. Imoisili and T.C. Jen 55

Effect of Mercerization on the Crystallographic, Macromolecular, and Thermal Properties of Plantain Fibers for Fiber Reinforced Composite

P.E. Imoisili and T.C. Jen 63

Chapter 3: Nanostructured Materials

Comparative Examination of Cellulose Nanosphere from Corn Husk and Rice Straw

R.C. Tilwani, P.A.N. de Yro and H. Nakano 73

Mechanical Properties Response of Heat Treated Recycled Aluminium Alloy Reinforced with Gold Nanoparticle (AuNps) Extracted from Aloe Vera Leaf

T.M. Azeez, S. Akande, O.M. Ikumapayi, J. Kayode and S.A. Afolalu 81

Novel Enhancement Opportunities in the Thermal and Electrical Conductivity of α -Al-CNTs+AgNPs Nanocomposites

P.A. Ozor, V.S. Aigbodion and N.E. Nwobodo-Anyadiegwu 91

Chapter 4: Electrical Engineering Materials

Effect of Micro and Nano Particles of Al_2O_3 and SiO_2 on Electrical Tree Inhibition in Epoxy Resin Insulator

M. Foitong and A. Suksri 101

Assessment of the Arc Resistance of 3D-Printed Insulation Materials for Outdoor High-Voltage Applications

P. Khaigunha, A. Suksri and T. Wongwuttanasatian 107

Nano-Titanium Dioxide Filler Particles in Soybean Methyl Ester for an Improvement of Electrical Breakdown Strength of Soybean Vegetable Oil as a Transformer Oil Substitute

N. Khonchaiyaphum, T. Wongwuttanasatian and A. Suksri 113
