## Editorial and Review Panel Members

## I. Sustainable Development and Technologies

<b>A Conceptual Model for Sustainable Product Design</b> A. Romli, P. Prickett, R. Setchi and S. Shoe	3
<b>Eco-Design of a Basin Mixer in Geometric Modeling Phase</b> R. Gaha, A. Benamara and B. Yannou	7
<b>Improving Green Product Design with Closed-Loop Product Recovery Information</b> Y.T. Ng, W.F. Lu and B. Song	12
<b>Research Trend of Green Design</b> Y.M. Li and Y. Xiong	16
<b>Methodology for an Integrated Life Cycle Approach to Design for Environment</b> J.S.C. Low, W.F. Lu and B. Song	20
<b>Defining the Social Dimension of Sustainability in Product Design</b> M. Watkins	24
<b>Glass Fibre Reinforced Composites from Recycled Polymers</b> A. Ianakiev and H. Cheah	28
<b>Structural Analysis of Horizontal Tidal Current Turbine Main Shaft</b> F.K. Kong, Y.W. Zhu and Y.T. Li	32
<b>Development of Buoy-Type Wave Energy Generating Device</b> F. Zhang, B.Y. Song, K. Li and S. Zhang	36
<b>Environmental Impact Assessment: Challenges in Use of Methods and Tools in France and in Russia</b> N. Sirina, S. Rohmer and E. Fortyguina	40
<b>Comparison of Different Life Cycle Impact Assessment Software Tools</b> Z.M. Ren and D.Z. Su	44
<b>Case Studies of Taiwan's Fuel Cell System Demonstration Program</b> C.M. Liu, Y.L. Lin, C.C. Yang, S.Y. Huang and L.C. Wen	50
<b>Comparative Analysis of LED Commercial Lighting Systems</b> J. Leijting	54
<b>Enabling (Bio) Materials: Feasibility Study for its Implementation in Development of Sustainable Lighting Product</b> D. Jin and S. Goldbach	58
<b>Assessment of Low Cost, Sustainable, Reflective Layers for Optical Mixing</b> W. Peels, K. Cheng, J. Hu, J. Jiao, D. Jin, H. Rebergen, P. Sun and R. van Wijk	62
<b>Biomimicry: Natural Systems <i>In Situ</i> Analysis, Aimed to Rain Water Harvesting</b> A.S. Ortega, R.V. Uribe, J.D.H. Delgado, S.A.U. Cobos, M.A.R. Toledo, E.R. Gutiérrez and A.H. Zimbrón	66
<b>Combined Design of a Compact Production System and Services for Sustainability</b> N. Mishima	70
<b>Product Innovations and Eco-Sustainability: An Approach to Evaluate the Relationships</b> A. Papetti, M. Germani and M. Mandolini	74
<b>Forming the Nucleus of a Novel Ecological Accounting System: The myEcoCost Approach</b> J. von Geibler, K. Wiesen, R.S. Mostyn, M. Werner, N. Riera, D.Z. Su, S.É. Björling, T. Domen, J. Smith, A. Jenkins and S. Kresse	78
<b>Total Quality Environmental Management Toward Sustainability: Need and Implementation in Libyan Food Industry</b> A. Saad, D.Z. Su, P. Marsh and Z.M. Wu	84
<b>Development of an Online System for Recycling Consumer Electronic Products Using the Internet, NFC and RFID Technologies</b> W.J. Peng and D.Z. Su	90

## II. Product/Industrial Design and Design Methodologies

<b>Information Flows and Design Intent in the Core of Future Product-Services in the Field of Manufacturing Industry</b> M. Lanz, E. Järvenpää and P. Andersson	103
<b>Framework of Man-Machine-Environment Application System Engineering throughout Life Cycle of Large Scale Vessel</b> Z. Shang, S.F. Zhu and C.H. Qiu	107
<b>Formalization of Reconfigurable Mechanisms in Task Based Conceptual Design Method</b> H. Darbinyan	111
<b>A Fast Approach of Locating Complex System Design Errors</b> Z.Y. Chen, S.B. Huang and L.L. Han	115
<b>Coordination of Design Processes in Two Perspectives of Computer Aided Design</b> L. Kotulski, A. Sędziwy and B. Strug	119
<b>Application of Baseline in Configuration Management for Aerospace Product Design</b> Y. Zheng, S.Y. Li, J.T. Xi and H. Wu	123
<b>An Ontology-Based Framework for Ergonomics Knowledge Classification and Representation</b> Y.Z. Jiang, S.F. Zhu and Z. Shang	127
<b>A Design of an Optical System of Liquid Filled Lens which can Adjust the Focus</b> D. Shaw and H.A. Hsieh	131
<b>Prosthesis Analysis Based on TRIZ</b> R.I. Flores-Luna, J.M. Dorador-González and A. Espinosa-Bautista	135
<b>Module Matching Method Based on the Gray Theory</b> J. Li	139
<b>Factors Influencing Furniture Sales in High-Income Segments of Society</b> M.H. Kazemifar and Y. Khodadadeh	143
<b>Graph Based Method for the Modelling of Crumpled Structures</b> S. Rohmer, A. Merat, V. Floderer and A. Copinet	147
<b>Study of the Technical Feasibility and Design of a Mini Head Screw Extruder Applied to Filament Deposition in Desktop 3-D Printer</b> Z.C. Silveira, M.S. de Freitas, P. Inforçatti Neto, P.Y. Noritomi and J.V.L. Silva	151
<b>A Feature-Based Section Curve Reconstructing Strategy</b> H.T. Zhu and L. Cong	155

## III. Engineering Design

<b>Criteria for the Design of Converters and Breakers in Low Voltage DC Distribution Systems</b> D.W. Meng, Y.F. Lu, Y.M. Xu and X.F. Wang	161
<b>Simulation Research on Small Scale Wind Power Generation System Connected to DC Micro-Grid</b> S.X. Qian, Y.S. Xiong, Y. Zhan, J.W. Xu and X.M. Shen	165
<b>Handling and Stability Study on Non-Rod Aircraft Tractor in Backward-Motion</b> H.B. Liu and N.J. Wang	169
<b>An Experimental Stress Analysis of a Jib Crane</b> A. Candas, S. Kurt, I. Gerdemeli and E. Kayaoglu	173
<b>Experimental Stress Analysis of Elevator Guiding Equipment</b> M. Altuntas, O. Salman and C.E. Imrak	177
<b>The Diamond Wire Saw Test Bench Design and Loading Analysis</b> Y.R. Zhang, L.Q. Wang, L.B. Guo and D.Y. Liu	181
<b>The Application of BESO in Vibration Damping of Ship Plate</b> X.Y. Teng, J.S. Han and L. Peng	185
<b>Free In-Plane Vibration Analysis of Annular Plates with General Boundary Conditions</b> D.Y. Shi, X.J. Shi, W.L. Li and Z.R. Qin	189

<b>Dynamics Analysis and Vibration Isolation Design of Shared Foundation on Marine Turbo Generator Set</b> C. Liu, C.H. Qiu and L. Gao	193
<b>The Research on Shell Strength and Pressurize Reliability of Underwater Vehicle Mating Device</b> Z.L. Zhang and L.Q. Wang	197
<b>The Application of the Fireproof Wood Treated with Fire Retardant in the Warship Cabin</b> W.B. Zhang	201
<b>Influence of the Thermal Assembly Process on the Stress Distributions in Shrink Fit Joints</b> M. Lorenzo, J.C. Pérez-Cerdán and C. Blanco	205
<b>Interference Fit Stress Concentrations with Full Chamfered Hub</b> J.C. Pérez-Cerdán, M. Lorenzo and C. Blanco	209
<b>Modeling and Optimization of Process Parameters of a DF-CCP Etcher Chamber</b> X. Xu, J. Feng and L. Tian	213
<b>Design of a Long Distance Unidirectional Piezoelectric Motor Based on Non-Resonant Inchworm Principle</b> W.F. Guo, J.J. Qu, J. Ding, Y. Qin and Y. Li	217
<b>Study on the Adsorption of Carbonized Micron Wood Fiber Filter for the Nanoparticle Emissions of Diesel Engine</b> D.F. Du	221
<b>Parametric Camshaft Mechanism for Adaptive Building Envelope and Kinetic Building Ornaments</b> F.U. Sjarifudin	225

#### **IV. Production, Manufacture and Engineering Materials**

<b>Service Engineering: A Framework of Integrated Manufacturing System</b> Q.Y. Chen, Z.H. Wu, Z.W. Deng and L.C. Luo	231
<b>Production Scheduling for Sustainable Manufacturing Systems</b> S. Ichoua and A. Pechmann	235
<b>An Approach for Manufacturing Process Representation in Product Lifecycle Management</b> N. Shariatzadeh, G. Sivard and L. Lindberg	239
<b>Capability-Based Adaptation of Production Systems - Practical Case Study in TUT-Microfactory Environment</b> E. Järvenpää, M. Lanz and R. Tuokko	245
<b>Open Shop Dense Scheduling Algorithm Based on Semi-Matching Theory</b> Y. Zhan, H.T. Zhu and Y.G. Zhong	249
<b>State of the Art and Analysis of Design for Assembly of Large and Heavy Parts</b> H.L. García-Guerra and J.M. Dorador-González	253
<b>Provision of Long Item Materials</b> M. Straub, S.J. Zhang, C. Manz and K. Hapeshi	257
<b>Research on Measuring Accuracy Improvement for Tool Presetter</b> J.S. Liu and J. Qian	261
<b>Effective Forming Processes of Hub Forging from Aluminum Alloy AlCu<sub>2</sub>SiMn</b> A. Gontarz	265
<b>Additive Tooling for Tube Hydroforming</b> S.P. Soe, D.R. Evers, C.H. Le and A. Romli	269
<b>Application of Unstructured Finite Volume Method in Structural Static Mechanics</b> W.D. Chen, Y.C. Yu, X.D. Wu, J.C. Li, P. Jia and F.C. Zhang	273
<b>Electrodeposition and Tribological Properties of Self-Lubricating Sn-Ni-PTFE Composite Coating</b> L.X. Ying, J.T. Yang, Y. Liu, Z.K. Yang and G.X. Wang	277
<b>Research on the Surface Roughness Parameters of Micro-EDM</b> Z.J. Chen, J.H. Shen and Y.T. Dai	281
<b>Research on Statistical Parameters of 3-D Roughness for Micro Wire Electric Discharge Machining Surface</b> L.B. Guo, H. Cui, B. Zhang and Z.H. Zhang	287

<b>Improvement Arithmetic Method of Space Parameters of 3D Roughness for MWEDM Surface</b>	
L.B. Guo, B. Zhang, H. Cui and Z.H. Zhang	291
<b>The Mechanism of Electrochemical Discharge (ECD)</b>	
M. Karnik, A. Ghosh and R. Shekhar	295
<b>Rule Extraction from Support Vector Machine and its Application to Hot-Dip Galvanizing</b>	
J.G. Wang, B. Yang, W.X. Zhang and B. Qin	300
<b>Accelerated Production of White Pepper Using Integrated Mechanical and Enzymatic Solutions in an Automated Machine</b>	
M.F. Ashari, M.D. Ibrahim, A. Husaini and A. Zulkharnain	304

## V. CAD/CAM/CAE

<b>Innovative Approach for Teaching Graphical Engineering Focused on CAD/CAM/CAE Systems</b>	
J.C. Pérez-Cerdán, M. Lorenzo, A. Reveriego and C. Blanco	311
<b>Transactional Model of Graph Transformations in Computer Aided Design</b>	
L. Kotulski and B. Strug	315
<b>Numerical Study on Mechanical Characteristics of Steam Turbine Valve Disc</b>	
D.Y. Qu, Z.Y. Guo and C. Liu	319
<b>Numerical Analysis of Feed Rate Influence on Hollow Hub Shape during Rolling Extrusion Process</b>	
J. Bartnicki	323
<b>Study on the Model of the Torch Tracks of CNC Flame Cutting of Rectangular Steel Pipes</b>	
K. Xue, Y.Q. Li and H.F. Wang	327
<b>Manufacturability of Sheet Metal Design with the Help of Product Data Management (PDM)</b>	
M. Huhtala, M. Lohtander and J. Varis	331
<b>Disassembly Sequence Planning of Steam Turbines for Virtual Maintenance</b>	
H.T. Zhu and L. Cong	335
<b>Disassembly Sequence Planning Based on Poisoning Ant Colony Algorithm</b>	
W.L. Wang and X.J. Shi	340

## VI. Gearing, Mechanical Transmission and Mechanisms

<b>Problem Analysis of Conoprobe in Gear Measurement Application</b>	
J.S. Liu and J. Qian	347
<b>Optimal Tooth Surface Modifications in Face-Hobbed Hypoid Gears</b>	
S. Vilmos	351
<b>Computerised Tooth Profile Generation of Conjugated Involute Internal Gears</b>	
C. Fetvaci	355
<b>On Strain of Gear Meshing Thermo-Mechanical Coupling</b>	
Y.M. Hu, F.J. Zhang and Y.M. Shao	359
<b>Prediction of Heat Generation and Temperature Distribution in High Speed Preloaded Ball Screws</b>	
A. Oyanguren, I. Ulacia, J. Larrañaga, A. Gallo, A. Arana and R. González	363
<b>Implications of Contact Parameters on the Dynamics of Chain Drives</b>	
C. Pereira, J. Ambrósio and A. Ramalho	367
<b>Development of Friction Properties Experimental Device of Mechanical Seal Material in Vacuum Working Condition</b>	
F. Zhang, B.Y. Song, J.P. Sun and S. Zhang	371
<b>Study on the Tribological Properties of PTFE-Based Composites Materials Sliding Pair under Extreme Environment</b>	
F. Zhang, T.Y. Sui, B.Y. Song and Y. Cao	375
<b>The Effect of Bearing Surface Finish on Engine Performance</b>	
K.D. Nyamugure, D. Cheshire and A.H.C. Barber	380

<b>The Research on Oil-Air Lubrication in Grooved Sliding Bearing</b> J.L. Wang, L.Q. Li and S.G. Liu	384
<b>Shear Traction and Sticking Scope of Frictional Contact between Two Elastic Cylinders</b> Y.P. Zhao, Q.B. Wang and Y.M. Zhang	388
<b>The Research on Oil-Air Lubrication and Oil Lubrication in the Sliding Bearing</b> L.Q. Li, S.G. Liu and J.L. Wang	393
<b>The Research on the Lubricating Property of Oil-Air Lubrication in the Sliding Friction Element</b> S.G. Liu, L.Q. Li and J.L. Wang	397
<b>The Application of Improved Cyclical Spectrum Density Method in Fault Diagnosis of Rolling Bearing</b> M. Li, X.J. Wang and J.H. Yang	401
<b>Dynamic Synthesis of Adaptive-Mechanical CVT</b> K.S. Ivanov, G. Ualiev and B. Tultaev	405
<b>Investigation of the Operational Behaviour of Wide V-Belts in CVT Applications</b> F.H. Schaefer	413
<b>On the Development of a Manipulator Type Parallelogram 3-DOF for the Optimization Trajectory</b> V.H. López Enríquez, V. Granados Alejo, R. Martín Del Campo Vázquez and F.J. Santander Bastida	417
<b>The Vibration Modeling and Analysis of Stewart Platform-Based Machine Tool</b> X.J. Yang, G.L. Sun and B. Li	421
<b>Design and Analysis of a Novel 5 Dimensional Active Vibration Isolator with Parallel Mechanism</b> J.K. Liu, S. Wang, B. Li and Y. Hu	425
<b>Analysis and Simulation of Deployable Modularized Truss Mechanisms</b> G. Li, Z.Q. Deng, X.Z. Qi, B. Li and R.Q. Liu	429
<b>Mechanism Design and Modal Analysis of Vertical-Axis Tidal Turbine</b> W.D. Zhao, Y. Li and Y.T. Li	433

## VII. Machine Condition Monitoring

<b>An Ensemble Dynamic Time Domain Averaging Method for Gear Fault Detection without Tachometer</b> H.F. Xiao, X.J. Zhou and Y.M. Shao	439
<b>Diagnosis of Low-Speed Helical Gears Based on Hilbert Demodulation and Empirical Mode Decomposition</b> B.Y. Song, Z.J. Xie, F. Zhang and J.P. Yang	443
<b>Prophase Failure Prediction of the Mechanical Transmission Systems Based on the Biological Evolutionary Algorithm</b> X.H. Chen, L. Xiao, Z.X. Liu and C. Liu	447
<b>An Energy-Efficiency Wireless Sensing Method for Mechanical Failure Signal</b> X.M. Liu, S. Han, Y.J. Zhou and Y. Yao	451
<b>A Time-Efficiency Multi-Channel MAC Protocol for Wireless Sensor Networks</b> S. Han, X.M. Liu, Y. Yao and Y.J. Zhou	455
<b>Cold Rolling Strip Off-Tracking Online Monitoring Method via Wireless Sensor Network with Self-Powered Nodes</b> J.H. Yang, M. Li and K.H. Huang	459
<b>Experimental Research on the Feature Extraction of Underwater Transient Signal</b> S.J. Sun and Y. Li	463
<b>Investigating the Design of Condition Monitoring Systems to Evaluate Surface Roughness under the Variability in Tool Wear and Fixturing Conditions</b> J. Abbas, A. Al-Habaibeh and D.Z. Su	467
<b>Coupling Effect between Gear Backlash of Friction Plate and Axial Separation Gap in Multi-Friction Pairs</b> S.L. Li, J.L. Pan and X.Y. Zhao	471
<b>Research on the Optimization Method of the Friction Plate Backlash</b> S.L. Li, L. Gao and H. Zhang	476

<b>Analysis of Vibration Characteristics of Friction Plate Based on Rigid-Flexible Coupling Model</b>	
S.L. Li, J.L. Pan and H.B. Yin	480
<b>A Method of Chatter Marks Identification Based on Autocorrelation-Threshold</b>	
L.M. Wang, Y.L. Yuan and Y.M. Shao	485
<b>An Exact Series Solution for the Vibration of Mindlin Rectangular Plates with Elastically Restrained Edges</b>	
K. Xue, J.F. Wang, Q.H. Li, W.Y. Wang and P. Wang	489
<b>Intelligent Design and Control of Outdoor Lighting, Complexity Issues</b>	
I. Wojnicki and L. Kotulski	494

## VIII. Finite/Boundary Element Methods

<b>Strength Analysis of the Static Load Test Frame Based on ANSYS Workbench</b>	
G.J. Li, C.M. Yan and A. Luo	501
<b>Analysis of Functionally Graded Rectangular Plate by ANSYS</b>	
W.M.K. Helal and D.Y. Shi	505
<b>Dynamic Analysis of T-Shaped Plate with General Boundary Conditions</b>	
D.Y. Shi, Q.S. Wang and X.J. Shi	509
<b>Fatigue Life Analysis of Wire Rope Strands with Finite Element Method</b>	
I. Gerdemeli, S. Kurt and A.S. Anil	513
<b>Design and Finite Element Analysis of Gantry Crane</b>	
I. Gerdemeli and S. Kurt	517
<b>Modal Analysis on 600 Wh Energy Storage Flywheel Rotor System</b>	
Z.Y. Ren, J.N. Liu, Y.J. Han and W.Q. Teng	521
<b>FEM Analysis of Helical Rolling of Steel Balls</b>	
Z. Pater	525
<b>Analysis of Instability for the String-Net Structure in the Deployable Antenna</b>	
A. Luo, H.P. Liu, Y.F. Wang, J.H. Song, W.T. Ma, W.J. Mao and Q.F. Zeng	529

## IX. Optimisation, Simulation and Computing Technologies

<b>Epistemic and Methodological Challenges of Dynamic Environmental Assessment: A Case-Study with Energy Production from Solar Cells</b>	
B. Laratte and B. Guillaume	535
<b>Classification of Mutation Operators Applied to Design Models</b>	
J. Strug	539
<b>Mutation Testing Approach to Evaluation of Design Models</b>	
J. Strug	543
<b>Research on Evolutionary Topology Optimization in ANSYS</b>	
D.Y. Shi, J.S. Han, L.C. Kong and L. Lin	547
<b>Multi-Object Multi-Discipline Probabilistic Design of High-Pressure Turbine Blade-Tip Radial Running Clearance</b>	
W.Z. Tang, C.W. Fei and G.C. Bai	551
<b>Simulation Study on Feed Rate Optimization Technique Based on Generalized Predictive Control</b>	
X. Li, H.B. Liang and S.Z. Zhang	555
<b>Standardising Academic Transfer Tool: Converting Curriculum Documents to XCRI Format Using UML</b>	
Y.J. Zheng, P. Alcover, C.C. Maia and T. Awoniyi	559
<b>Curriculum Design within a Semantic Information System</b>	
Y.J. Zheng, G. Dafoulas, G. Abeysinghe and C.C. Maia	562
<b>Research and Implementation of an Improved Canny Edge Detection Algorithm</b>	
D.D. Han, T.C. Zhang and J. Zhang	566
<b>Recognition and Extraction of Debris Parameters in Traffic Accident Picture</b>	
X.J. Du and H.H. Guo	570

<b>Simulation of Pedestrian Colliding with Microbus Windshield</b> X.J. Du and J.P. Li	574
<b>New Virtual Application for Improving the Students' Understanding of Ternary Phase Diagrams</b> D. Vergara, M.P. Rubio and M. Lorenzo	578
<b>Interactive Virtual Platform for Simulating a Concrete Compression Test</b> D. Vergara, M.P. Rubio and M. Lorenzo	582

## **X. Manufacturing Informatics**

<b>Advanced Design Optimisation by Means of Multiobjective Evolutionary Algorithms: The Case of Two Real World Applications</b> E. Benkhelifa, A. Tiwari and M. Abdel-Maguid	589
<b>Locator Layout Optimization for Checking Fixture Design of Thin-Walled Parts</b> X.H. Zhou, W. Liu, Q. Niu, P. Wang and K. Jiang	593
<b>A Sugeno-Type Fuzzy Expert System for Rough Turning</b> J. Ratava, P. Luukka, M. Lohtander and J. Varis	597
<b>Façade Optimisation Using a Point Equilibrium Methodology</b> D. Cheshire, R. Edmondson and P. Savidge	601
<b>The Capability of the Laser Based Additive Manufacturing Process in the Manufacture of Fractal like Heat Transfer Devices</b> M. Lohtander, S. Valkeapää and J. Varis	605
<b>Monitoring and Digitising Human-Workpiece Interactions during a Manual Manufacturing Assembly Operation Using Kinect™</b> V.A. Prabhu, A. Tiwari, W. Hutabarat and C. Turner	609
<b>Numerical Simulation and Optimization of Drill Pipe - Martian Soil Model</b> H.W. Xue, Z. Song, J.F. Zhang, S.Y. Jiang and B. Li	613

## **XI. Robots and Control**

<b>The Analysis and Control of Exoskeleton Upper-Limb Rehabilitation Robot</b> L. Wang, Z.Q. Yin and Y.H. Sun	619
<b>A New Design of Climbing Robot with TRIZ Theory</b> Y.X. Huang, L.C. Kong and W.T. Liu	624
<b>Study on a New Type of Clearing Stump Robot</b> X.L. Guo and Y.G. Wang	628
<b>Longitudinal Associated Stability Analysis of Mobile Robot in Rough Terrain</b> M. Bai, H. Xu, L. He, W.X. Guo and C.H. Qiu	632
<b>Walking Stability Analysis of Multi-Legged Crablike Robot over Slope</b> X. Chen and G. Wang	636
<b>Track Link-Terrain Interaction Simulation Based on Terramechanics</b> G.B. Li, L. Dai, M.H. Xu and F.Y. Shi	640
<b>Design and Implementation of a 3D Range Scanner for Mobile Robots</b> G. Aslan, E.I. Konukseven and B. Koku	644
<b>Integrated Approach for Multi-Robot Spot-Welding Cell Design and Welding-Point Allocation</b> S. Pellegrinelli, N. Pedrocchi, L. Molinari Tosatti and T. Tolio	648

## **XII. Engineering Management and Enterprise**

<b>Effective Management of Engineering Projects using 4Es Model</b> G. Agyekum-Mensah, A. Knight, C. Pasquire and C. Coffey	655
<b>Pricing and Emission Reduction Strategy of Manufacturer with Carbon Emission Constraints in Low Carbon Supply Chain</b> X. Liang, Y. Xiong, Y.Z. Hou and S.M. Xia	659

<b>Emissions Reduction Cost-Sharing Contract through Green Innovation under Carbon Emission Constraints</b> X. Liang and Y. Xiong	663
<b>Price and Carbon Emissions Level Decisions in a Two-Echelon Supply Chain: Insights from Carbon Labelling</b> Y.H. Cheng, Z.K. Xiong and Y. Xiong	668
<b>Analysis of the Barriers to Environmental Management Systems Implementation in the Libyan Oil Industry</b> A. Irhoma, D.Z. Su and M. Higginson	672
<b>When Does the Trust Prohibit the Technology Transfer between Two Manufacturing Firms? A Perspective of Transaction Cost Economics</b> S.M. Xia, Y. Long and Y. Xiong	678
<b>Relationship between Technology Standards and Technology Spillovers Effect of Foreign Direct Investment Based on Product Life Cycle</b> X. Liu, Z.Y. Huang and S.M. Xia	682
<b>Study of Technology Spillovers Effect with Foreign Direct Investment Based on Technology Standards</b> X. Liu, Z.Y. Huang and Y.Y. Chen	686
<b>A Review of Problems Faced by ERP Consultancy and Client Organizations in China</b> J.C. Hou	690
<b>Rebuild Technology Transfer in the Presence of Remanufacturing Dealer</b> J. Cao, Y. Xiong and Y.Y. Chen	695
<b>Remanufacturer-Manufacturer Collaborative Model in the same Channel under Three Channel Power Structures</b> K. Wang and Y. Xiong	699
<b>The Adaptability of Products to E-Commerce: Transaction Cost Economics Perspective</b> Y. Long, S.M. Xia, Y. Xiong and X. Liang	703
