

Table of Contents

Design Optimisation of Internally Reinforced Beams Subjected to Torsion Loading H.M. Silva and J.F.B. de Meireles	1
Design Optimisation of Internally Reinforced Beams Subjected to Bending Loading H.M. Silva and J.F.B. de Meireles	18
Analysis of MHD Non-Newtonian Fluid over a Stretching Sheet with Thermophoresis and Brownian Moment K. Avinash, R.H. Reddy and A. Oyem	33
The Influence of Boundary Condition on the Impact Behavior of High Performance Fabrics S. Gürgen	47
Effects of Process Parameters on Material Removal Rate and Surface Roughness in Wedm of H-13 Die Tool Steel K. Singh, K. Goyal and D.K. Goyal	55
Improvement of Hardness and Biodegradability of Natural Based Bioplastic - Effect of Starch Addition during Synthesis N. Eko Wahyuningtyas, H. Suryanto, Sukarni and N.D.I. Sari	67
Kinetic Studies on the Thermal Synthesis of Fluorapatite: Model Free and Model-Fitting Methods J. Hamidreza, H. Sayed Ahmad, S.R. Mohsen, A. Eiman and H. Naseri	75
Statistical Modeling and Optimization of Coag-Flocculation Process of Phosphate Removal from Aqueous Solution Using Ox-Eye Seed (<i>Chrysanthemum leucanthemum</i>) as Coagulant K.A. Babayemi, D.O. Onukwuli and O.A. Okewale	90
Effectiveness of Geogrid for Protecting Polder in Sundarban Coastal Region A.B.M.T.U. Chy, S. Barua and M.A. Ansary	96
Assemblage of Urban Small Parcels in Three Different Scales with the Emphasize on the Citizenship Participation, Case Study: Tehran - Iran S.A. Siyahrood, A. Ebrahimi and M.J. Mahdavinejad	112
RETRACTED: Gait Analysis of Pedestrians with the Aim of Detecting Disabled People A. Mukhtar, M.J. Cree, J.B. Scott and L. Streeter	120
Complementarity between Solar and Wind Energy Potentials in Benin Republic M. Aza-Gnandji, F.X. Fifatin, A.H.J. Hounnou, F. Dubas, D. Chamagne, C. Espanet and A. Vianou	128
Economic Power Dispatch with Emission Constraint and Valve Point Loading Effect Using Moth Flame Optimization Algorithm A.A. Elsakaan, R. El-Sehiemy, S.S. Kaddah and M.I. Elsaid	139
