

Table of Contents

Machining of Hastelloy-X Based on Finite Element Modelling F.H. Çakır, M.A. Sofuoğlu and S. Gürgen	1
A Modified Peric Model for Al-Mg Alloy Sheet with Rate-Independent Initial Yield Stress at Warm Temperatures Y. Zhang, Q. Zhang, Y.T. Sun and X.R. Qin	8
Inclusions in Continuous Steel Casting: Formation, Characterization, Tracking and Influences on the Quality of the Product A. Eiman, J. Hamidreza, H. Sayed Ahmad and S.R. Mohsen	13
Study and Elucidation of Fractal Dimension in Anionic and Cationic Clays: Relationship between Fractal Dimensions to the Amount Adsorbed and Pore Size S. Bahah, S. Nacef, C. Derradji, B. Djellouli and B. Abdallah	25
Performance Optimization of Pressure Sensor Based on Suspended Gate MOSFET K. Salah and K. Fouad	43
Analysis of Bending of Ceramic-Metal Functionally Graded Plates with Porosities Using of High Order Shear Theory M. Slimane	54
The Affectivity of Various Wind Condition and Shear Wall Opening in Multi-Story Building on Displacement by Changing Shear Wall Location and its Configuration R. ALTOUHAMI, D. Yeoh, L.S. Hong, H. Ali and A. Radwan	71
Thermodynamic Analysis of the Stirling Duplex Machine A.G. Hèyihin, C. Awanto, M. Anjorin and F. Lanzetta	80
