

Table of Contents

Preface

Exclusion of Organic Dye Using Neoteric Activated Carbon Prepared from <i>Cornulaca monacantha</i> Stem: Equilibrium and Thermodynamics Studies A. Sharma, G. Sharma, A. Kumar, Z.M. Siddiqi and G. Sharma	1
Preparation, Structural and Electrochemical Properties of PVC Based Magnesium Molybdate Ion-Exchange Composite Membrane for Desalination of Food Industry Waste Water M.M. Ali Khan and M. Naushad	16
Calcium Carbonate and Cellulose/Calcium Carbonate Composites: Synthesis, Characterization, and Biomedical Applications M.G. Ma, S. Liu and L.H. Fu	24
Hydrogel: Polymeric Smart Material in Drug Delivery R. Das, H.S. Samanta and C. Bhattacharjee	45
Hydrolyzation of Edible Starches: Their Preparations and Properties S. Grace and K.C. Liew	63
Microcellular Foam Injection Molding of Thermoplastics Using Green Physical Blowing Agent S.J.A. Rizvi	77
Microencapsulation of Natural Antioxidant Compounds Obtained from Biomass Wastes: A Review A. Valdés García and M.d.C. Garrigós Selva	112
Evaluation of Electrochemical Properties, Study of Chemical and Mechanical Stability Supported with Ionic Transport and Surface Charge Density Mechanism of PVC Based Cobalt Tungstate Cation Exchange Membrane M.M. Ali Khan and A. Khan	127
Materials and Methods of Contraception D. Khanam	137
Studies on Synthesis and Ion Exchange Properties of Sulfonated Polyvinyl Alcohol/Phosphomolybdic Acid Composite Cation Exchanger M. Rathore, A.J. Khanam and V. Gupta	149
A Novel Biodegradable Cinnamic Acid Grafted Carboxymethyl Cellulose Based Flocculant for Water Treatment P. Pal, J.P. Pandey, R. Rahul and G. Sen	156
