

# Table of Contents

## Preface

### The Initial Life and Short Crack Propagation Life for Low Carbon Steel Based on Dislocation Method

Y.L. Yang, Q.C. Meng and W.P. Hu 1

### Calculation and Analysis on the Soft Soil Foundation Settlement with Elastic-Visco-Plasticity (EVP) Model

J.R. Guo, X.C. Zheng, J.Q. Zhang and Z.M. Zhao 8

### A Comparative Study of Viscoelastic Boundary Parameters for Bedding Rock

H.Y. Hu, X.J. Zhou and C. Tao 17

### Effect of GGBFS on Compressive Strength and Durability of Concrete

M.C. Chi, J.H. Chi and C.H. Wu 22

### Structure Lightweight Optimization of Truck Axle on Fatigue Failure

L.H. Kezhi, F.Y. Gao, X.L. Li, D.W. Zhang and B.L. Xiao 27

### Friction and Wear Characteristic of Electroplating Cu Coating on 0Cr18Ni9Ti Stainless Steel

W.H. Wang, F.Q. Xie, X.F. Yao and X.Q. Wu 33

### An Improved Method for the Preparation for New Antibacterial Dressing Crosslinked with Carboxymethyl Chitosan

Q. Wang, K. Gong, C.B. Cao, J. Guo and X.J. Wang 39

### Preparation and Characterization of Silica Gel from Bagasse Ash

C. Channoy, S. Maneewan, C. Punlek and S. Chirattananon 44

### Molybdenum Oxide Particles Doped in Hole Transport Layer to Enhance the Efficiency of Flexible Polymer Solar Cells

C.F. Ou and M.C. Hsieh 49

### Mechanism of Cathodic Plasma Electrolytic Deposition on Ti6Al4V Alloy in $\text{Al}(\text{NO}_3)_3$ Ethanol-Aqueous Solution

S.Q. Wang, F.Q. Xie, X.F. Yao and X.Q. Wu 54

### Analysis of Melt Temperature Effects on Rapid Solidification of Al Alloy Structure

H.S. Chen and S.T. Zhuang 59

### Upgrading the Ti/TiN Film Depositions on KP-1 Steel by Using the Anode Ring Bias Voltage

U.H. Hwang 65

### Cellulose Hydrolysis by Acidic Ionic Liquids Enhanced with Microwave Heating

H.Y. Ma, Z.P. Zhao and P. Lu 75

### Experimental Estimation of the Elastic Modulus of Non-Hazardous Waste Incineration Bottom Ash Aggregates by Indentation Tests - Microanalysis of Particles by Scanning Electron Microscopy

L. Sow, S. Kamali-Bernard, O. Bartier, G. Mauvoisin and F. Bernard 80

### Preparation and Characterization of the Hydrophilic Polysulfone Ultrafiltration Membrane

X. Wang, Z.P. Zhao and P. Lu 85

### Preparation and Catalytic Performance of the Porous Polysulfone Microspheres Enabled by Immobilized Ionic Liquids for Esterification

Y.D. Zhao, Z.P. Zhao, S. Li and P. Lu 90

### Effect of Expansive Agent on Concrete Filled Steel Tube

H. Li, J.P. Liu, Q. Tian and F. Guo 95

### Strain-Rate Dependence of Compressive Yield Strength of Titanium Grade 4 with Coarse-Grained and Ultrafine-Grained Structures: Experimental Results and Theoretical Calculation

I.V. Smirnov and A.Y. Konstantinov 100

### The Effect of the Carbon Fiber on Concrete Compressive Strength

D.J. Liu, M.J. Chen, L. Xue, F. He and J. Hu 106

### Experimental Investigation on Physical and Mechanical Behavior of Kathmandu Clay

B.K. Dahal, J.J. Zheng and R.J. Zhang 112

<b>Experimental Study on the Strength and Damping Properties of Polymer Recycled Concrete</b>	
W. Liu, J.X. Zhou, F. Zhang and G.T. Li	117
<b>Comparison of Different Extrapolation Models for Materials in the Closed-Extruding Fine Blanking Simulation</b>	
M. Deng, J.P. Niu, Y.L. Ma and L. Lv	123
<b>Analysis of Design and Calculation of Wall Protection for Railway Cable Well Construction</b>	
J.W. Zhang and X.X. Tang	129
<b>Behavior of CFST-RC Pier under Different Ground Motions</b>	
R. Yadav, B.C. Chen, H.H. Yuan and Z.B. Lian	134
<b>Measurement of Acoustic Properties of the Safety Anti-Skid Modification - ROCBINDA™</b>	
P. Kozak, R. Matuszkova and M. Radimsky	140
<b>Experimental Study on the Performance of Timber Frame Wall Panels in Mediterranean Construction</b>	
T. Basiricò, D. Enea, M. La Gennusa and G. Sorrentino	146
<b>Study on the Induction Quenching Process and Fatigue Testing for Cr-Mo Steel Ball Screw</b>	
X. Ding, Y.H. Gai, B.M. Li and M.S. Li	154
