

Table of Contents

Preface

Chapter 1: Structural Metals Processing

Parameter Design of Sand Casting to Minimize Shrinkage Defects, Porosity Defects and Incomplete Defects

S.R. Muzaqqi, S. Suprayitno and Y.R.A. Pradana 3

Hardness and Microstructure of TiN Coating on Aluminum Alloy with DC Sputtering

M. Margono, D.B. Darmadi, T.D. Widodo, S. Suprpto, T. Sujitno and M. Kozin 11

Chapter 2: Friction Stir Welding

Friction Stir Welding between Marine Grade Aa 5083 and HSLA Steel

M. Sahu and S. Ganguly 21

Microstructure and Mechanical Characteristics of Friction Welded Joint between Alumina and Aluminum Casting Alloy

T. Takahashi, S.T. Nguyen and M. Kimura 27

Optimizing Micro Friction Stir Spot Welding (mFSSW) of Aluminum Alloy AA1100 Using Neural Network Model

T.H.S. Atmaja, L.A. Safitri, P. Rupajati and A.S. Baskoro 35

The Effect of Friction Stir Weld (FSW) Process Parameters on Tensile Strength, Macro Structure, and Hardness in Results of AA7075 Butt Joints

M.F. Ardiansyah, L.A. Safitri, P. Rupajati and A.S. Baskoro 43

Chapter 3: Polymers and Composites

Incorporating Graphene Nanofiller for the Improvement of Hydrophobic Properties of Cassava Peel Starch Bioplastic

A.N.F. Ganda, D. Wulandari, F.Y. Utama, W. Warju, D. Riandadari, D. Puspitasari and L.C. Manggalasari 53

The Effect of Bleaching Variation on Schoutenia Ovata Korth Fiber as a Composite Reinforcement

A. Andoko and R. Prasetya 59

Microcrystalline Cellulose as Composite Reinforcement: Assessment and Future Prospects

C.H. Wibowo, D. Ariawan, E. Surojo and S. Sunardi 65

Effect of Silanized Zirconium Oxide (ZrO₂) Filler on Hardness of Acrylic-Based Denture Teeth

H.H. Ilma, F.R. Ashary, F.K. Asghar, A.I. Kaloka, B. Airlangga and S. Sumarno 81

Chapter 4: Recycling and Applications of Natural Materials

Influence of Orthophosphoric Acid Activation on the Quality of Activated Carbons

M.N. Amadou Kiari, A.T.S. Konan, O. Sanda Mamane, H. Kone, G.D. Fanou, M. Siragi Dounounou Boukari, M.H. Ibrahim Grema, M.M. Malam Alma and K.B. Yao 91

Physical and Morphological Characterisation of Typha Australis Fibres

A. Gaye, N.A. Sène, V. Sambou, P. Balland and P.B. Gning 99

Optimization of the Co-Production between the Rice Husk and the Pulp of the Cashew Apple Produced in the Natural Region of Casamance

O.K. Faye, P.B. Himbane and L.G. Ndiaye 111

Study of the Physic-Mechanical Properties of a Typha Concrete Composites: A Possible New Material for Sustainable Construction

E.M. Elhaj-Maham, B. Diouf, E.H.B. Ly and M. Manga 121

Normal Water Effect on the Thermal and the Mechanical Properties of Jute Yarns Y. Ben Smail, F. Lmai, A. El Moumen and A. Imad	133
Optimizing Aluminum Melting with Sustainable Biomass Fuels: A Case Study of Ulin (<i>Eusideroxylon zwageri</i>) Wood and Galam (<i>Melaleuca cajuputi</i>) Wood T. Suprianto, M. Kasim, A. Ela Heka and D. Darmansyah	145
