

Table of Contents

Preface

Chapter 1: Composites

Development of Bamboo Based Nylon 66 Composite through Friction Stir Processing-An Attempt S. Dhasan, P. Shome, U. Khound, S. Das, J. Bhukhan and B. Das	3
Influence of Silicon Carbide Incorporation on Thermal and Ablation Properties of Carbon Fabric-Phenolic Resin Composites B. Praveen Kumar and N.V.S. Naidu	9

Chapter 2: Materials for Electrochemical Energy Storage Devices

Quasi Solid Polyzwitterion- Polyacrylamide Electrolytes for Rechargeable Zinc-Ion Battery P. Kitpimonkul, A. Khampuanbut and P. Pattananuwat	17
3D-Printed Flexible Polyacrylamide/Alginate Gel Polymer Electrolyte for Zinc-Ion Batteries N. Wongduangpa, N. Poompiew, C. Aumnate and P. Potiyaraj	23

Chapter 3: Functional Materials

Impact of Pre-Silica-Coating on the Luminescence Properties of Silica-Coated Indium Phosphide Nanoparticles M. Ito, N. Yamauchi, K. Nakashima and Y. Kobayashi	31
Influence of Chelants and Catalyst on Luminescence of $\text{CaAl}_2\text{O}_4:\text{Eu}^{2+}$ Phosphors for Optical Temperature Sensing Applications S.H. Yang, Y.Y. Tsai and C.C. Ho	39
Strain Sensing Enhancement of 3D-printed Polyurethane through Surface Deposition of Carbon Black C. Thongkerd, N. Poompiew, K. Chinaakatakul, C. Aumnate and P. Potiyaraj	45
Polyol Synthesis of Bimetallic FePt Nanoparticles over h-BN Substrate A.S. Konopatsky, V.V. Kalinina, D.V. Barilyuk and D.V. Shtansky	51

Chapter 4: Additive Manufacturing Technologies

Influence of Density of 3D Printing Using the Fdm Method on Productivity and Mechanical Properties of ABS V. Petrović, A. Čabrilo, V. Blanuša, P. Balaban, B. Savić and G.V. Mnerie	59
Fiberglass Reinforcement of Additively Manufactured Polymeric Specimens via FDM Process N. Trihenea, V.. Constantin and D.A. Predu	67
Comparative Analysis of Mechanical Characteristics: Ultrasonically Compacted vs. Conventionally Additive Manufactured Polymeric Samples E.F. Binchiciu, M. Corciu Matei, G.V. Mnerie and V.. Constantin	73
Review of Potential Capabilities of 3D Printed Parts Reinforced with a Non- Newtonian Fluid for Enhancing Impact Resistance M. Corciu Matei, N.A. Sîrbu, S.V. Galatanu, N. Trihenea and A.I. Biholar	81
Stress and Strain Analysis for a Topological Optimized Beam G. Murariu, I.A. Perianu and S.V. Galatanu	87
