

Table of Contents

Preface

Chapter 1: Steel, Alloys and Metallurgical Technologies

The Effect of Finely Divided Martensite of Austenitic High Manganese Steel on the Wear Resistance of the Excavator Buckets Teeth	
V.I. Bolobov, S.A. Chupin, V.S. Bochkov, E.V. Akhmerov and V.A. Plaschinskiy	3
Use of Magnetic Anisotropy Method for Assessing Residual Stresses in Metal Structures	
E.A. Krivokrysenko, G.G. Popov, V.I. Bolobov and V.E. Nikulin	10
Analysis of the Causes of Cracks in the Production of Ingots and Forgings from Austenitic Stainless Steel 08X18H10T (AISI 321)	
A.D. Davydov, O.O. Erokhina, S.V. Ryaboshuk and P.V. Kovalev	16
Detection of Intermediate Phases in Metal Alloys	
K.Y. Shakhnazarov and E.I. Pryakhin	23
Producing Steels with Special Properties Using a Jet Heat Treatment System	
Y.V. Gulkov, A.V. Turyшева and I.V. Vinogradova	30

Chapter 2: Special and Functional Materials

Structure-Properties Correlation of Lead Selenide-Lead Selenite Composite	
V.V. Tomaev and A.G. Syrkov	39
Composition and Properties of TiO₂ Sol to Produce a Photocatalytic Composite Material	
E.N. Gubareva, V.V. Strokova, Y.N. Ogurtsova, P.S. Baskakov and L.P. Singh	45
Physicochemical Properties of Zirconium Oxide Nanopowder Synthesized in Low-Pressure Arc Discharge Plasma	
I.V. Karpov, A.V. Ushakov, E.A. Goncharova, E.P. Bachurina and A.A. Shaikhadinov	51
Acid-Base and Luminescent Properties of Gd₂O₂S: Tb Luminescent Phosphors Synthesized in a Reducing Atmosphere	
A.V. Rodionova, V.I. Kuular, T.S. Minakova, P.S. Ustabaev and V.V. Bakhmetyev	57
Influence of Structural Parameters of Cutting Ceramics on Quality of Processing of Machine Slideways of Metal-Cutting Equipment in Selective Formation of Instrumentation	
I.V. Gorshkov and M.A. Popov	64
Improvement of Semiconductors Quality Using Isotopic Nanoengineering	
N. Legkiy	74
Investigation of the Magnetic Nanoparticles Interaction on Inert Carriers	
V.A. Gafarova, I.R. Kuzeev and A.M. Schipachev	80
Using Optical Activation to Create Hydrogen and Hydrogen-Containing Gas Sensors	
K.M. Salikhov, N.D. Stoyanov and T.V. Stoyanova	87

Chapter 3: Thin Films, Coatings and Surface Engineering

The Formation of Contrasting Nanofilms on a Metal Surface for Bar Coding	
D.A. Konchus and A.V. Sivenkov	97
Thin Films of Nanocrystalline Vanadium Dioxide: Modification of the Properties, and Electrical Switching	
A.L. Pergament, O.Y. Berezina, S.V. Burdyukh, V.P. Zlomanov and E.A. Tutov	103
Application of Taguchi Method and Anova Techniques to Maximize HVOF Spraying to WC-12Co	
V.C. Dinh, T.H. Nguyen and K.L. Nguyen	109
Studying Adhesion between a 67Ni18Cr5Si4B Alloy Powder Coating Produced with the High Velocity Oxygen Fuel Thermal Spray Method HVOF and a Substrate Surface of a Worn C45 Steel Shaft	
V.C. Dinh, T.H. Nguyen and K.L. Nguyen	117

Development of Flux for Protection of the Surface of Liquid-Metallic Low-Melting-Point Fusible Melt	
A.V. Sivenkov, O.S. Chirkova, D.A. Konchus and A.V. Mihailov	126
Improving the Wear Resistance of Piston Rings of Internal Combustion Engines when Using Ion-Plasma Coatings	
V.A. Krasnyy, V.V. Maksarov and D.D. Maksimov	133
Investigation of Ni-Al Intermetallic Thin Films	
V.N. Malikov, A.V. Ishkov, A.A. Grigorev, D.A. Fadeev and M.A. Ryasnoi	140

Chapter 4: Modelling and Computational Analysis of Materials Properties

Comparative Thermodynamic Analysis of the Behavior of C₆₀ and C₂₈ Fullerenes when Heated in an Inert Medium	
N.M. Barbin, V.P. Dan, D.I. Terentyev and S.G. Alexeev	151
Isopropyl Nitrate Structure and Vibrational Spectrum Analysis Using Quantum-Chemical Method	
R.M. Shaikhullina	158
Discrete Element Simulation of Powder Sintering for Spherical Particles	
I.I. Beloglazov, A.V. Boikov and P.A. Petrov	164

Chapter 5: Minerals and Industrial Waste Processing

Analysis of the Effect of Nanosilicates on the Strength and Porosity of Cement Stone	
D.A. Zimina, C.A. ZhapkhandaeV and A.A. Petrov	175
Application of New Materials for Red Mud Immobilization	
V.Y. Piirainen, A.A. Boeva and T.Y. Nikitina	182
Microanalysis of Oil Shale of the Leningrad Field	
S.N. Saltykova	188
Influence of Temperature on the Total Surface Area of Nanopores of Leningrad Deposits Oil Shale	
M.Y. Nazarenko	194
X-Ray Studies of Vein Quartz from Shungite Rocks	
Y.L. Rigaeva, N.N. Rozhkova, A.A. Kovalchuk, T.A. Ekimova and E.V. Tikhomirova	200

Chapter 6: Materials for Biomedical Application

Synthesis of Y₂O₃: Eu Nanosized Phosphor Using Hydrothermal Technique and Rapid Thermal Annealing (RTA)	
A.B. Vlasenko and V.V. Bakhmetyev	209
The Effect of Nanostructured Hydroxyapatite Coating on Distraction Osteogenesis	
N.A. Kononovich, A.V. Popkov, E.N. Gorbach and D.A. Popkov	216
Antioxidant Properties of a New Water-Soluble Fullerene C70 Derivative	
E.A. Savinova, E.S. Ershova, O.A. Kraevaya, P.A. Troshin and S.V. Kostyuk	223
