

Table of Contents

Preface

Chapter 1: Steel and Alloys

Influence of Multi-Step Austempering Temperature on Tensile Performance of Unalloyed Ductile Iron	
W.C. Zhuang, Y.M. Jiang, W.T. Zhou, Z.Y. Liang, D.O. Northwood and C. Liu	3
Dissimilar Welding of T92/T91/T22 Steels Used in Supercritical Power Plant	
H.T. Kuo, Y.C. Liu, J.Y. Huang and R.K. Shiue	8
Microstructures and Mechanical Properties of Friction Welded Steel Tubes	
G.W. Kim, Y.K. Kim and K.H. Song	13
Grain Refining Effect of Al-5Ti-1B Master Alloy on Microstructures and Mechanical Properties of A356 Alloy	
T. Chowwanonthapunya and C. Peeratatsawan	17
Severe Plastic Deformation of Al-15Zn-2Mg Alloy: Effect on Wear Properties	
G.K. Manjunath, K.U. Bhat and G.V.P. Kumar	22
Experimental and Simulation Method of Introducing Compressive Residual Stress in ASTM A516 Grade 70 Steel	
M.R. Isa, S.N. Sulaiman and O.S. Zaroog	27
Effect of Linear Energy Density on Bubble-Defect of 316L Stainless Steel by Selective Laser Melting	
W.H. Wang, X.Y. Liu and L. Pan	32
Effect of Solution Treatment Time on Microhardness of High Nitrogen Austenitic Stainless Steel	
K. Dong, R. Zhou, D.O. Northwood and C. Liu	37

Chapter 2: Coatings, Surface Engineering and Engineering Tribology

Corrosion Behavior of Galvanized Steel for Porcelain Insulator's Pin in HVAC Transmission Line	
T.H. Naing, S. Janudom, V. Rachpech, N. Mahathaninwonga and S. Thiwong	45
Surface Smoothing of A5083 Aluminum Alloy Plate by Friction Stir Forming	
T. Ohashi, K. Okuda, H.M. Tabatabaei and T. Nishihara	50
Design and Development of Surface Texture for Tribological Application	
M.D. Nikam, D. Shimpi, K. Bhole and S.A. Mastud	55
Microstructure and Microhardness of Chrome-Oxide Coating Precipitating from Gases Phase Using Liquid of Metal Organic Chrome Compositions	
T.A. Tabaza, S. Al-Qawabah, O.T. Tabaza and A. Al-Sakarneh	60
Microstructure and Positron Lifetimes of Aluminide Coatings on Inconel 713	
J. Romanowska, E. Dryzek and M. Zagula-Yavorska	65

Chapter 3: Composites and Functional Materials

New Flex Fatigue Tester for Fiber Reinforced Polymer Composite	
M.E. Messiry and A. Mohamed	71
A Study on the Prediction of Strength of Trimodal Composites	
Y.S. Suh	76
Comparative Investigation into the Electromagnetic Wave Shielding Effectiveness of Different Type Carbon-Based Fabrics	
H.J. Kim and S.H. Kim	81
Influence of Sm₂O₃ Additive on BaO-Al₂O₃-B₂O₃-SiO₂ Glass-Ceramics for CBGA Package	
B. Li, H.B. Bian and K. Jing	88

A New Salt-Inclusion Single-Phased White Phosphor Ba₇B₃SiO₁₃Br:Dy³⁺ for White Light-Emitting Diodes	93
H.D. Ju, B.L. Wang and Q.M. Yang	
Effects of Natural Clay on Ionic Conductivity, Crystallinity and Thermal Properties of PEO-LiCF₃SO₃-Natural Clay as Solid Polymer Electrolyte Nanocomposites	98
P. Pongsuk and J. Pumchusak	
Surface Functionality and Water Adsorption Studies of α-Aluminium (III) Oxide Nanoparticles by near Infrared Spectroscopy	104
P. Hiranmartsuwan, N. Siangdee and A.A. Christy	
Effect of Ball Milling Process on Electrochemical Properties of Copper Hexacyanoferrate Active Material for Calcium-Ion Batteries	109
H.J. Lee, D.Y. Kim and S.K. Jeong	
Environmentally Friendly Supercapacitor Based on Carbon Dots from Durian Peel as an Electrode	115
J. Praneerad, K. Neungnoraj, I. In and P. Paoprasert	
Improving the Performance of Hydrogen Sensors with Novel TiO₂ Nanotube Arrays Hybrid Structure	120
X.B. Wei, G.D. Lv, X.H. Yang, T. Wu, D. Shi, W. Huang, J.X. Guo and T.X. Gong	
Smart Sensor Using Cellulose-Based Material for TNT Detection	124
N. Siangdee and N. Youngvises	
Molecular Imprinted Photonic Crystal Sensor for the Rapid and Visual Detection of Benzocaine in Fish	129
S.L. Chen, H. Sun, Z.J. Huang, S.Y. Fang, J.H. He, Y.Y. Liu and J.P. Lai	
Revisiting the Deshpande-Fleck Foam Model	134
C.F. Zhu, Z.J. Zheng, S.L. Wang, K. Zhao and J.L. Yu	

Chapter 4: Materials for Biomedical Application

Effect of Sintering Holding Time on Tetragonal Phase Stability of Yttria Stabilized Zirconia Ceramics	143
J. Vignarajah, T. Murugathas and S. Ubenthiran	
Influence of Fine Shot Peening on Mechanical Properties of Orthopedic Plate and Screw	148
G. Ongtrakulkij and A. Khantachawana	
Rice Starch-Based Sponge for Use as Topical Hemostatic Agent	153
S. Punyanitya, S. Thiansem, A. Raksujarit, W. Sontichai and R. Koonawoot	
Nano-Delivery Materials: Review of Development and Application in Drug/Gene Transport	158
Y.L. Li and B.H. Sun	
Influence of Third Element of TiNi Alloy on Tribological Behavior in Dry and Wet Conditions for Orthodontic Applications	167
A. Phukaoluan, A. Khantachawana, P. Kaewtatip and S. Dechkunakorn	
Preparation of pH-Responsive Nanoparticles (PRNPs) for Detection of Pathogenic <i>Escherichia coli</i> from Stool Sample of Diarrheagenic Patients	172
P. Teawprasong, D. Polpanich, V. Paripurana, G. Supanakon and K. Jangpatrapongsa	
Compressive Property and Electrochemistry Behavior of Porous Ti-Nb-Ta-Zr for Biomedical Applications	178
B.Q. Li, C.L. Li and X. Lu	
Water Adsorption Properties of Titanium(IV) Oxide Embedded in Multiwalled Carbon Nanotubes (CNT)	182
H.A. Fernando, P. Raveendran, A.A. Christy and V. Dhayalan	
Fabrication and Characterization of Porous Bioceramic Made from Bovine Bone Powder Mixed Calcium Phosphate Glass	187
S. Punyanitya, S. Thiansem, A. Raksujarit, P. Chankachang, T. Sirisoam and R. Koonawoot	

Chapter 5: Materials in Construction

Behavior of Timber-Steel Composite with Dowel Connection under Fire	195
T.D.H. Le and M.T. Tsai	

Experimental Investigation on Strength and Bearing Capacity Improvement of a High Plasticity Clayey Subgrade Soil Using Lime	200
S. Dhar and M. Hussain	
Durability Studies of Environmental Friendly Self Compacting Concrete with and without Fiber	207
L.V. Prasad M. and N. Tarafder	
Study on Strength Characteristics Improvement of Polyethylene Modified Bituminous Concrete Mixes	216
K. Lakshman Singh and D. Panda	
Investigation on Performance of Concrete Incorporating Silica Fume and Local UAE Materials	222
R. Sabouni and H.R. Abdulhameed	
Compressive Strength of Sustainable Concrete Mixes with Different Maximum Size Aggregates	228
S. Al Martini, Z. Hassan and A. Khartabil	
Flow Behavior of Self Consolidating Concrete Mixes with Various Maximum Size Aggregates	233
S. Al Martini, Z. Hassan and A. Khartabil	
Fresh and Mechanical Properties of Sustainable Concrete Using Recycled Aggregates	239
A. Khartabil and S. Al Martini	
Carbonation Resistance of Sustainable Concrete Using Recycled Aggregate and Supplementary Cementitious Materials	246
A. Khartabil and S. Al Martini	
Analysis on Evolution of Force Chain and Contact Network of Non-Cohesive Soil	253
R. Xu and E. Liu	
A Review of Alkali-Activated Slag as Cement Replacement	262
O.A. Mohamed and M.M. Mustafa	
Egg as an Organic Building Material a Comparative Study and Understanding in Indian Context	267
N. Gubba and E.K. Jebakumar	
A Reinforced Kite-Shaped Microstructure with Negative Linear and Area Hygrothermal Expansions	272
T.C. Lim	
Characterization of Cements Produced from Clinker Co-Processed with TiO₂ Waste (UOW)	278
J. Andrade Neto, B.B. Mariani, N.S. Amorim Júnior and D.V. Ribeiro	
Influence of Clutch Disc Waste (Grinding Dust) on Portland Cement Hydration	284
J. Andrade Neto, T.A. Santos, R.D. Mariano, M.R. Morelli and D.V. Ribeiro	
Effect of the Addition of Unreacted Ilmenite (UOW) on the Hydration of White Portland Cement - Hydrated Lime Pastes	289
J. Andrade Neto, D.D.M. de Albuquerque, N.S. Amorim Júnior and D.V. Ribeiro	
Combining Traditional Materials-Concrete and Reinforcement - in a Modern Manner-SCC and WWF - for Cost Effective and Zero Defects Construction	294
T.A.R. Rajeswaran, A. Ravichandran and S. Kothandaraman	
Early and Late Compressive Strengths Behaviour of Concrete with Blended South African Extenders	302
A.E. Akinwale, B.D. Ikorun and A.S. Afolabi	
Mineralogical Analysis of Portland Clinker Produced from the Incorporation of Granitic Rock Fines (GRF)	309
A.G. Gomes, T.A. Santos, J. Andrade Neto and D.V. Ribeiro	
Investigation of Failure Mechanism of Thin Steel Plate Shear Wall in RC Frame	314
M. Bypour, B. Kioumarsi and M. Kioumarsi	
Impact Response of Reinforced Concrete Columns with Different Axial Load under Low-Velocity Impact Loading	322
W. Tantrapongsat and C. Hansapinyo	
Compaction Properties of Rice Husk Ash-Lime-Bangkok Clay Mixtures	331
H. Phai and A. Eisazadeh	

Chapter 6: Materials and Technologies in Chemical Production and Environmental Engineering

Strontium in Phosphate-Modified Calcium Aluminate Cement	
S. Kamaluddin, I. García-Lodeiro and H. Kinoshita	341
Synthesis and Characterization of Bio-Based Rigid Polyurethane Foams with Varying Amount of Blowing Agent	
J.C. Grumo, L.J.Y. Jabber, A.A. Lubguban, R.Y. Capangpangan and A.C. Alguno	346
The Effect of Solvent Polarity on Phase Transformation of Citrogypsum via Hydrothermal Process	
T. Sirimahasal, Y. Kalhong, L. Simasatitkul, S. Pranee and S. Seeyangnok	351
Effect of Ingredient Loading and Temperature on Tensile Properties of Surfactant-Loaded Natural Rubber Vulcanizates	
J. Arabit-Cruz and B. Pajarito	356
Electron Beam Radiation Crosslinking of Natural Rubber Prepared by Latex Mixing Filled Silica-Graphene Blend	
W. Jansomboon, S. Loykulnant and P. Prapainainar	361
Evaluation of Chemically Treated and Lime Stabilized Gold Mine Tailings: Effect on Unconfined Compressive Strength	
M. Tebogo and N.T. Sithole	366
The Effect of Cellulose Fibers on the Formation of Petroleum-Based and Bio-Based Polyurethane Foams	
L.J.Y. Jabber, J.C. Grumo, A.C. Alguno, A.A. Lubguban and R.Y. Capangpangan	371
Granulation and Photocatalytic Performance of Anodized TiO₂ Nanotubes with Microwave-Assisted Annealing	
G. Liu, D.L. Feng, Q. Ma, M.Y. Wang and H.D. Xu	377
Influence of <i>Sargassum crassifolium</i> Extract on the Absorption of Magnetic Iron Oxide Nanoparticle via Green Synthesis Route	
M.L. Budlayan, A.C. Alguno and R.Y. Capangpangan	382
