

Table of Contents

Preface

Chapter 1: Steel and Alloys

Influence of Multi-Step Austempering Temperature on Tensile Performance of Unalloyed Ductile Iron W.C. Zhuang, Y.M. Jiang, W.T. Zhou, Z.Y. Liang, D.O. Northwood and C. Liu	3
Dissimilar Welding of T92/T91/T22 Steels Used in Supercritical Power Plant H.T. Kuo, Y.C. Liu, J.Y. Huang and R.K. Shiue	8
Microstructures and Mechanical Properties of Friction Welded Steel Tubes G.W. Kim, Y.K. Kim and K.H. Song	13
Grain Refining Effect of Al-5Ti-1B Master Alloy on Microstructures and Mechanical Properties of A356 Alloy T. Chowwanonthapunya and C. Peeratatsuwan	17
Severe Plastic Deformation of Al-15Zn-2Mg Alloy: Effect on Wear Properties G.K. Manjunath, K.U. Bhat and G.V.P. Kumar	22
Experimental and Simulation Method of Introducing Compressive Residual Stress in ASTM A516 Grade 70 Steel M.R. Isa, S.N. Sulaiman and O.S. Zaroog	27
Effect of Linear Energy Density on Bubble-Defect of 316L Stainless Steel by Selective Laser Melting W.H. Wang, X.Y. Liu and L. Pan	32
Effect of Solution Treatment Time on Microhardness of High Nitrogen Austenitic Stainless Steel K. Dong, R. Zhou, D.O. Northwood and C. Liu	37

Chapter 2: Coatings, Surface Engineering and Engineering Tribology

Corrosion Behavior of Galvanized Steel for Porcelain Insulator's Pin in HVAC Transmission Line T.H. Naing, S. Janudom, V. Rachpech, N. Mahathaninwonga and S. Thiwong	45
Surface Smoothing of A5083 Aluminum Alloy Plate by Friction Stir Forming T. Ohashi, K. Okuda, H.M. Tabatabaei and T. Nishihara	50
Design and Development of Surface Texture for Tribological Application M.D. Nikam, D. Shimpi, K. Bhole and S.A. Mastud	55
Microstructure and Microhardness of Chrome-Oxide Coating Precipitating from Gases Phase Using Liquid of Metal Organic Chrome Compositions T.A. Tabaza, S. Al-Qawabah, O.T. Tabaza and A. Al-Sakarne	60
Microstructure and Positron Lifetimes of Aluminide Coatings on Inconel 713 J. Romanowska, E. Dryzek and M. Zagula-Yavorska	65

Chapter 3: Composites and Functional Materials

New Flex Fatigue Tester for Fiber Reinforced Polymer Composite M.E. Messiry and A. Mohamed	71
A Study on the Prediction of Strength of Trimodal Composites Y.S. Suh	76
Comparative Investigation into the Electromagnetic Wave Shielding Effectiveness of Different Type Carbon-Based Fabrics H.J. Kim and S.H. Kim	81
Influence of Sm₂O₃ Additive on BaO-Al₂O₃-B₂O₃-SiO₂ Glass-Ceramics for CBGA Package B. Li, H.B. Bian and K. Jing	88

A New Salt-Inclusion Single-Phased White Phosphor Ba₇B₃SiO₁₃Br:Dy³⁺ for White Light-Emitting Diodes	
H.D. Ju, B.L. Wang and Q.M. Yang	93
Effects of Natural Clay on Ionic Conductivity, Crystallinity and Thermal Properties of PEO-LiCF₃SO₃-Natural Clay as Solid Polymer Electrolyte Nanocomposites	
P. Pongsuk and J. Pumchusak	98
Surface Functionality and Water Adsorption Studies of α-Aluminium (III) Oxide Nanoparticles by near Infrared Spectroscopy	
P. Hiranmartsuwan, N. Siangdee and A.A. Christy	104
Effect of Ball Milling Process on Electrochemical Properties of Copper Hexacyanoferrate Active Material for Calcium-Ion Batteries	
H.J. Lee, D.Y. Kim and S.K. Jeong	109
Environmentally Friendly Supercapacitor Based on Carbon Dots from Durian Peel as an Electrode	
J. Praneerad, K. Neungnoraj, I. In and P. Paoprasert	115
Improving the Performance of Hydrogen Sensors with Novel TiO₂ Nanotube Arrays Hybrid Structure	
X.B. Wei, G.D. Lv, X.H. Yang, T. Wu, D. Shi, W. Huang, J.X. Guo and T.X. Gong	120
Smart Sensor Using Cellulose-Based Material for TNT Detection	
N. Siangdee and N. Youngvises	124
Molecular Imprinted Photonic Crystal Sensor for the Rapid and Visual Detection of Benzocaine in Fish	
S.L. Chen, H. Sun, Z.J. Huang, S.Y. Fang, J.H. He, Y.Y. Liu and J.P. Lai	129
Revisiting the Deshpande-Fleck Foam Model	
C.F. Zhu, Z.J. Zheng, S.L. Wang, K. Zhao and J.L. Yu	134

Chapter 4: Materials for Biomedical Application

Effect of Sintering Holding Time on Tetragonal Phase Stability of Yttria Stabilized Zirconia Ceramics	
J. Vignarajah, T. Murugathas and S. Ubenthiran	143
Influence of Fine Shot Peening on Mechanical Properties of Orthopedic Plate and Screw	
G. Ongtrakulkij and A. Khantachawana	148
Rice Starch-Based Sponge for Use as Topical Hemostatic Agent	
S. Punyanitya, S. Thiansem, A. Raksujarit, W. Sontichai and R. Koonawoot	153
Nano-Delivery Materials: Review of Development and Application in Drug/Gene Transport	
Y.L. Li and B.H. Sun	158
Influence of Third Element of TiNi Alloy on Tribological Behavior in Dry and Wet Conditions for Orthodontic Applications	
A. Phukaoluan, A. Khantachawana, P. Kaewtatip and S. Dechkunakorn	167
Preparation of pH-Responsive Nanoparticles (PRNPs) for Detection of Pathogenic <i>Escherichia coli</i> from Stool Sample of Diarrheagenic Patients	
P. Teawprasong, D. Polpanich, V. Paripurana, G. Supanakon and K. Jangpatarapongsa	172
Compressive Property and Electrochemistry Behavior of Porous Ti-Nb-Ta-Zr for Biomedical Applications	
B.Q. Li, C.L. Li and X. Lu	178
Water Adsorption Properties of Titanium(IV) Oxide Embedded in Multiwalled Carbon Nanotubes (CNT)	
H.A. Fernando, P. Raveendran, A.A. Christy and V. Dhayalan	182
Fabrication and Characterization of Porous Bioceramic Made from Bovine Bone Powder Mixed Calcium Phosphate Glass	
S. Punyanitya, S. Thiansem, A. Raksujarit, P. Chankachang, T. Sirisoam and R. Koonawoot	187

Chapter 5: Materials in Construction

Behavior of Timber-Steel Composite with Dowel Connection under Fire	
T.D.H. Le and M.T. Tsai	195

Experimental Investigation on Strength and Bearing Capacity Improvement of a High Plasticity Clayey Subgrade Soil Using Lime S. Dhar and M. Hussain	200
Durability Studies of Environmental Friendly Self Compacting Concrete with and without Fiber L.V. Prasad M. and N. Tarafder	207
Study on Strength Characteristics Improvement of Polyethylene Modified Bituminous Concrete Mixes K. Lakshman Singh and D. Panda	216
Investigation on Performance of Concrete Incorporating Silica Fume and Local UAE Materials R. Sabouni and H.R. Abdulhameed	222
Compressive Strength of Sustainable Concrete Mixes with Different Maximum Size Aggregates S. Al Martini, Z. Hassan and A. Khartabil	228
Flow Behavior of Self Consolidating Concrete Mixes with Various Maximum Size Aggregates S. Al Martini, Z. Hassan and A. Khartabil	233
Fresh and Mechanical Properties of Sustainable Concrete Using Recycled Aggregates A. Khartabil and S. Al Martini	239
Carbonation Resistance of Sustainable Concrete Using Recycled Aggregate and Supplementary Cementitious Materials A. Khartabil and S. Al Martini	246
Analysis on Evolution of Force Chain and Contact Network of Non-Cohesive Soil R. Xu and E. Liu	253
A Review of Alkali-Activated Slag as Cement Replacement O.A. Mohamed and M.M. Mustafa	262
Egg as an Organic Building Material a Comparative Study and Understanding in Indian Context N. Gubba and E.K. Jebakumar	267
A Reinforced Kite-Shaped Microstructure with Negative Linear and Area Hygrothermal Expansions T.C. Lim	272
Characterization of Cements Produced from Clinker Co-Processed with TiO₂ Waste (UOW) J. Andrade Neto, B.B. Mariani, N.S. Amorim Júnior and D.V. Ribeiro	278
Influence of Clutch Disc Waste (Grinding Dust) on Portland Cement Hydration J. Andrade Neto, T.A. Santos, R.D. Mariano, M.R. Morelli and D.V. Ribeiro	284
Effect of the Addition of Unreacted Ilmenite (UOW) on the Hydration of White Portland Cement - Hydrated Lime Pastes J. Andrade Neto, D.D.M. de Albuquerque, N.S. Amorim Júnior and D.V. Ribeiro	289
Combining Traditional Materials-Concrete and Reinforcement - in a Modern Manner-SCC and WWF - for Cost Effective and Zero Defects Construction T.A.R. Rajeswaran, A. Ravichandran and S. Kothandaraman	294
Early and Late Compressive Strengths Behaviour of Concrete with Blended South African Extenders A.E. Akinwale, B.D. Ikotun and A.S. Afolabi	302
Mineralogical Analysis of Portland Clinker Produced from the Incorporation of Granitic Rock Fines (GRF) A.G. Gomes, T.A. Santos, J. Andrade Neto and D.V. Ribeiro	309
Investigation of Failure Mechanism of Thin Steel Plate Shear Wall in RC Frame M. Bypour, B. Kioumarsi and M. Kioumarsi	314
Impact Response of Reinforced Concrete Columns with Different Axial Load under Low-Velocity Impact Loading W. Tantrapongsaton and C. Hansapinyo	322
Compaction Properties of Rice Husk Ash-Lime-Bangkok Clay Mixtures H. Phai and A. Eisazadeh	331

Chapter 6: Materials and Technologies in Chemical Production and Environmental Engineering

Strontium in Phosphate-Modified Calcium Aluminate Cement S. Kamaluddin, I. García-Lodeiro and H. Kinoshita	341
Synthesis and Characterization of Bio-Based Rigid Polyurethane Foams with Varying Amount of Blowing Agent J.C. Grumo, L.J.Y. Jabber, A.A. Lubguban, R.Y. Capangpangan and A.C. Alguno	346
The Effect of Solvent Polarity on Phase Transformation of Citrogypsum via Hydrothermal Process T. Sirimahasal, Y. Kalhong, L. Simasatitkul, S. Pranee and S. Seeyangnok	351
Effect of Ingredient Loading and Temperature on Tensile Properties of Surfactant-Loaded Natural Rubber Vulcanizates J. Arabit-Cruz and B. Pajarito	356
Electron Beam Radiation Crosslinking of Natural Rubber Prepared by Latex Mixing Filled Silica-Graphene Blend W. Jansomboon, S. Loykulnant and P. Prapainainar	361
Evaluation of Chemically Treated and Lime Stabilized Gold Mine Tailings: Effect on Unconfined Compressive Strength M. Tebogo and N.T. Sithole	366
The Effect of Cellulose Fibers on the Formation of Petroleum-Based and Bio-Based Polyurethane Foams L.J.Y. Jabber, J.C. Grumo, A.C. Alguno, A.A. Lubguban and R.Y. Capangpangan	371
Granulation and Photocatalytic Performance of Anodized TiO₂ Nanotubes with Microwave-Assisted Annealing G. Liu, D.L. Feng, Q. Ma, M.Y. Wang and H.D. Xu	377
Influence of <i>Sargassum crassifolium</i> Extract on the Absorption of Magnetic Iron Oxide Nanoparticle via Green Synthesis Route M.L. Budlayan, A.C. Alguno and R.Y. Capangpangan	382
