

Table of Contents

Preface

Chapter 1: Materials Processing Technologies

Calculation of Surface Hardness when Surface Grinding ASIS 1045 Steel D.D. Trung, N.N. Tung, N.H. Son, L.H. Ky, T.T. Hong, N.V. Cuong and V.N. Pi	3
Friction-Stir Spot Mechanical Joining between Hot-Dip 55% Aluminum–Zinc Alloy-Coated Steel Sheet and A5083 Aluminum Alloy Plate Using Conventional Punching T. Ohashi, T. Ohno, Y. Shiraishi, H.M. Tabatabaei and T. Nishihara	8
Effect of Electrical Discharge Machining on Surface Roughness of Cylindrical Shaped Parts L.H. Ky, T.H. Tran, N.V. Cuong, T.T. Hoang, D.T. Tam, L.A. Tung, N.T. Tu and V.N. Pi	13
Effects of Cutting Fluids on Surface Roughness in Single-Point Diamond Turning of Rapidly Solidified Aluminium (RSA 431) F.A. Oyekunle and K. Abou-El-Hossein	18
Influence of Process Parameters on Electrode Wear in Electrical Discharge Machining Cylindrical Shaped Parts N.V. Cuong, L.H. Ky, T.T. Hong, T.T. Hoang, N.M. Cuong, L.A. Tung, N.T. Tu and V.N. Pi	24

Chapter 2: Materials for Biomedical Application

Biofilm Formation of Cariogenic Bacteria on Vanillin-Incorporated Orthodontic Retainer PMMA Resin S. Thaweboon, M. Fujita, K. Nagano and B. Thaweboon	31
Effect of <i>Phyllanthus amarus</i> Coating Denture Resin on Candida Adhesion and its Effect on Human Gingival Fibroblast S. Thaweboon, B. Thaweboon and R. Srichan	36
Evaluation of an Adhesive Containing Calcium Salt of Acidic Monomers on Inhibition of Biofilm Formation of Bacteria Related to Root Caries S. Thaweboon, T. Saito, K. Nagano and B. Thaweboon	41
Physical Properties of Vanillin Incorporated Self-Curing Orthodontic Polymethylmethacrylate Resin T. Poonpiriya, P. Sawaengkit, S. Thaweboon and P. Churnjitapirom	46
Microbial Biofilm Formation on Vanillin Incorporated Surgical Obturator Resin P. Kedcharoen, B. Thaweboon, N. Wongsirichat and S. Thaweboon	51
Hyperthermia Effect on Phantom of Breast Carcinoma Tissue Induced by Mn₃O₄ Nanoparticles Synthesized by One-Step Spray Pyrolysis Method A. Gaona-Esquivel, D.S. Hernández-Manzo, P.J. Sánchez-Trujillo, O.E. Cigarroa-Mayorga and M. Meléndez-Lira	56

Chapter 3: Thin Films

Magneto-Transport Properties in LaMnO₃ Thin Films on a-SiO₂ Substrates Produced by Metal Organic Decomposition Method H. Kobori, T. Kitamura, A. Yamasaki, T. Taniguchi and T. Shimizu	63
Enhanced Structural, Optical and Electrochemical Properties of Pulsed Laser Deposited Binary Zinc and Molybdenum Oxide Nanostructured Thin Films C.R.A.J. Chelliah and R. Swaminathan	68
Sonochemically Assisted Samarium Doped Copper (I) Oxide Nanostructures as Potential Component in P-N Junction J.A.M. Cosico and M.C. Marquez	73

Chapter 4: Materials and Technologies for Sensing and Biosensing

Gold Nanorod-Optical Fiber for Sensing Biomolecular Interaction C. Chueaiarrom, N. Loedsapchinda, C. Puttharugsa, C. Pipatpanukul, T. Sriksirin and N. Hounkamhang	81
Study of Anti-A Antibody Conjugated Gold Nanoparticles as a Biomolecular Detection Probe for a Substance in Saliva N. Loedsapchinda, S. Ta-Aithuak, C. Chueaiarrom, T. Sriksirin and N. Hounkamhang	87
Conjugation of Antibody on Gold Nanoparticles for Biosensors Application S. Ta-Aithuak, N. Loedsapchinda and N. Hounkamhang	92
Study on Detection of Carbaryl Pesticides by Using Surface-Enhance Raman Spectroscopy C. Chakaja, S. Limwichean, N. Nuntawong, P. Eiamchai, S. Kalasung, O. Nimittrakoolchai and N. Hounkamhang	97
Rapid Detection of Cypermethrin by Using Surface-Enhanced Raman Scattering Technique W. Leung, S. Limwichean, N. Nuntawong, P. Eiamchai, S. Kalasung, O. Nimittrakoolchai and N. Hounkamhang	102

Chapter 5: Green Building Materials

Experimental Study on Compressive Property of Steel Fiber Recycled Mortar Porous Brick Masonry X. Gu, S.C. Sun, M.X. Xu and Y.L. Peng	109
Silt and Clay with Low Liquid Limits as Fill Materials for High-Speed Railway Embankments in China J.B. Fei, C.S. Yang, Y.X. Jie and X.T. Wang	115
Study of Coconut Charcoal Powder and Egg Shell Powder as Partial Replacement to Fine Aggregates and Cement in Load Bearing Concrete Bricks A.J.C. Palacio, N.G. Furiscal, K.M.L. Abalos, D.A.A. Alferez, E.A. Bade, J.J.C. Carumba, C.E. Rodolfo and F.D. Santos	120
Characterization of Alkali-Treated Banana Fiber and its Effects as Web Reinforcement on the Axial Load Capacity of Concrete A.A. Kamal, M.A.M. Taguba, A.M.G. Marasigan, R.M. Samonte, A.N. Bata, A.G. Manhic, A.R. Alzona and F.D. Santos	126
Optimization of Sustainable Concrete Mixes Containing Binary and Ternary Blends R. Sabouni and H.R. Abdulhameed	131
Thermal Transmission Properties of Sustainable Concrete with Supplementary Cementitious Materials A. Khartabil and S.A. Martini	142
Bending Behavior of Ethylene Vinyl Acetate Modified Engineered Cementitious Composite under Drop Weight Impact Testing Z.T. Chen, H. Zhao and Y.Z. Yang	150
Effect of Stress Fields on Acoustic Emission during Delayed Fracture of Glass A. Yoshiaki, T. Tani and H. Gotho	157

Chapter 6: Concrete Science

Evaluation of the Modulus of Elasticity for Dry Press Lightweight EPS Concrete S.N.A. Ali, A.M. Juri, K. Kamaruddin, M.H. Mohd Hashim and H.M. Saman	165
Durability Performances of Aramid Fiber Reinforced Polymer as Reinforcement Material for Concrete Structures in Cold Regions S. Zhang, C.L. Liu, W. Zhu, M.X. Tang, H.S. Hu, H. Chen and Z.K. Hou	171
Analytical Computational Models for Relationship between Ultimate Bending Moment of Concrete Segments and Axial Force Z.Y. Wang and S.J. Li	177
Experimental Investigation on Bending Performance of Steel-Concrete Composite Slim Beams Y.C. Jiang, X.M. Hu and H.D. Yan	182
Study on Degradation Factor Adsorption Effect by Epoxy Resin with Functional Adsorbent N. Yokokawa, T. Senga, T. Yamauchi and S. Date	187

Effect of Aggregate Max Size on the Rheological Properties of Self Consolidating Concrete S. Al Martini, Z. Hassan and A. Khartabil	193
Experimental Verification of Chemical Admixture to Reduce Stiffness of Concrete H. Nemoto, S. Hirano, S. Hashimoto and S. Date	198
A Building Envelope Coating Provides Radiative-Cooling Effect for Subtropics C.H. Huang, W.T. Hong, T.W. Cheng, Y.F. Li and H.H. Tsai	209

Chapter 7: Materials and Technologies in Environmental Engineering

One-Pot Photochemical Synthesis of Solution-Stable TiO₂-Polypyrrole Nanocomposite for the Photodegradation of Methyl Orange S.C.J. Buenviaje, K.A.S. Usman, Y.D.G. Edañol, G.P. Maylem and L.M.J. Payawan	217
Alternate Catalyst Support from Microwave-Assisted Activation of Coconut Tree Fiber N. Kaewtrakulchai, K. Faungnawakij and A. Eiad-Ua	223
Hydrogen Gas Production Using Aluminum Waste Cans Powder Produced by Disintegration Method S.T. Lim, S. Sethupathi, A.G. Alsultan, L.K. Leong and Y.H. Taufiq-Yap	228
Structural, Morphological, Optical and Photocatalytic Properties of Os and N Co-Doped TiO₂ Films Z. Li and C.Y. Ma	235
Characterization of Silica Extracted from Rice Husk by NIR Spectroscopy and its Application in Separation Science K. Phetcharee, R. Hadsarung and A.A. Christy	243
