

Table of Contents

Preface, Committees, Sponsors

Chapter 1: Advanced Structural Materials and Processing Technologies

Influence of Heat Treatment on Interface Structure of Stainless Steel/Gray Iron Bimetallic Layered Castings	
M. Ramadan, K.M. Hafez, K.S. Abdel Halim, N. Fathy, T. Chiba, H. Sato and Y. Watanabe	3
Electrochromic Properties of Lithium Vanadate Doped Tungsten Trioxide Film	
N. Utamarat, L. Sikong and K. Chetpattananondh	9
Absorption Properties of $\text{Er}^{3+}/\text{Nd}^{3+}$ Co-Doped Magnesium Phosphate Glasses	
M. Mazlan, L.W. Zainuddin, N.S. Zainuddin and M.R. Sahar	14
Metallographic Determination for Porosity of Zirconia Ceramic Knives	
G.P. Bi, W.H. Tan and A.J. Ma	20
The Analysis of Thermal Characteristics of Carbon Containing PET Surface Element According to the Area Density and Electrode Shape	
M.S. Lee, H.G. Kim, S.C. Ko, E.S. Kim, O.K. Kim, M.H. Jang, L.K. Kwac and H. Jeong	26
The Effect of Lithium Molybdate in Tungsten Trioxide Electrochromic Film	
T. Inmae, L. Sikong and K. Kooptarnond	32
Round Shape Rib Forming by Roll Forming Process	
D.W. Jung	37
A New Engineering Technique in Roller Design to Prevent Thinning of Sheet in Roll Forming Process	
D.W. Jung	42
Polishing of Large-Sized Spiral Bevel Gears Using Radial Bristle Brush	
K. Kawasaki and I. Tsuji	48
Mechanical Properties Including Fatigue of CP Ti and Ti-6Al-4V Alloys Fabricated by EBM Additive Manufacturing Method	
Y.S. Choi, C.L. Kim, G.H. Kim, B.S. Lee, C.W. Lee and D.G. Lee	54
Plastic Strain Ratio of Warm and Hot Asymmetrically Rolled AA6061 Al Sheet	
I.S. Kim, S.K. Nam and D.N. Lee	60
Effects of Sintering Temperature on the Mullite-Based Ceramics Fabricated from Rice Husk Ash	
R.A.A. Wahab, M.A. Yahya, K.A. Matori and W.A.W.A.K. Ghani	65
Technological Progress of General Hot Dip Galvanizing	
X.H. Yuan and Q.F. Zhang	71

Chapter 2: Chemical Materials and Chemical Technologies

Effect of Citric Acid Addition at Anthocyanin Solubility of Red Color Melinjo Peels in Solvent Ethanol, Hehane and Petroleum Ether	
T. Ermiziar, S. Raskita and H. Latifa	83
Process Optimization of Ethyl Ester Biodiesel Production from Used Vegetable Oil under Sodium Methoxide Catalyst and its Purification by Ion Exchange Resin	
S. Namwong, V. Punsuvon and W. Arirop	89
Effect of the Citric Acid as Blowing Agent on the Compressive Properties and Morphology of PLA/ENR Blend Foams	
S. Ouipanch, T. Kaisone, P. Hanthanon, C. Wiphanurat, Y. Thongjun and T. Nampitch	95
Properties of HDPE/Biodegradable Polymer Blends Using Modified Rubber	
C. Wiphanurat, P. Hanthanon, T. Kaisone, R. Magaraphan and T. Nampitch	101
Preparation of Modified Fly Ash and its Adsorption Properties for U(VI) Uranium	
X. Xie and S.K. Zhou	107

Effects of Lithium Salt on Interfacial Reactions between SiC and EC-Based Solutions in Lithium Secondary Batteries S.K. Jeong	112
Mechanical Properties of Biodegradable Mulch Films Contained Poly(Lactic Acid) and Modified Natural Rubber Prepared by Blown Film Extrusion T. Nampitch, T. Kaisone, P. Hanthanon, C. Wiphanurat, S. Ouipanich and Y. Thongjun	117
Investigation of Thermoplastic Starch/Fiber Blend: Effect of Tapioca Residue on the Mechanical Properties and Surface Study Y. Thongjun, T. Kaisone, P. Hanthanon, C. Wiphanurat, S. Ouipanich and T. Nampitch	123

Chapter 3: Materials and Technologies in Biomedicine

Analysis on the Curative Effect of Improved Radial Artery and Cephalic Vein Anastomosis in the Fistulation for the Hemodialysis in Patients X.D. Qiu	131
Pelletization and Granulation of Calcium Oxide Powder Based on Eggshell N. Tangboriboon	135
Study on the Resistive Heat Source in a Two-Phase Medium at High-Frequency Electrosurgical Intervention V. Sydorets, A. Dubko and V. Korzhyk	140

Chapter 4: Materials and Technologies in Construction

Research on Mechanical Properties of Polymer Regenerative Concrete W. Liu, S.M. Zhang, H.H. Ying and N. Zhao	147
Analysis of Thermal Insulation Material on Building Exterior Wall J.J. Diao, X.Q. Liao and C.F. Diao	153
Serviceability of a New Kind of Precast Hollow Cross-Grids Floor System W.X. Cui, Z.F. Chen, W.Y. Yin and S.C. Liu	158
Estimation Model of Steel Waste Material: Verification on the Effectiveness of Multiple Regression Analysis A. Che Hasan, Z. Yusof, N.M. Nawi, N. Nasir, R.N.H.R. Mohd Noor and H.B. Ismail	164
Effect of Fly Ash on Compressive Strength of Metakaolin Based Geopolymer C. Siriwan	170
Performance Index for Rehabilitating Water Distribution Networks A. Salman	176
Ensuring the Quality of Construction Production on an Example of Open Joint Stock Company "Reinforced Concrete Structures-1", City Penza C.V. Zhegera	193
The Influence of Compaction Effort in Laterite Soil with the Appearance of Sodium Bentonite as a Soil Liner N.A. Che Azmi, M. Mukri, N.A. Kasim, A. Che Hasan and N. Nasir	198
Experimental Application Study on Iron Ore Tailings in the Mortar Y.J. Chen, Y.W. Song, G. Li, T. Teng and J.X. Yang	203
Experimental Simulation of Bridges Subjected by Moving Loads Z. Jun, M.K. Gou and C. Liang	208
Research on the Impact Mechanism of Organizational Culture on Project Performance in Construction Projects Y.M. Song, Y.Q. Wang and Y. Le	212
Predicting the Performance of High-Speed Railway Bridge Using Regression Neural Network Approach Y.C. Kim, M.R. Kaloop and J.W. Hu	220
Analysis on Correlation among Evaluation Indexes of Heavyweight Impact Sound in Apartment Buildings K.W. Kim and K.S. Yang	225
Criteria and Characteristics of Elevator Noise in Apartments A.Y. Jeong, K.W. Kim, H.K. Shin and K.S. Yang	231

Analysis of Sound Insulation Performance of Reinforce Concrete Walls between Households According to Wall Thickness Criteria in Apartments H.K. Shin, K.W. Kim, A.Y. Jeong and K.S. Yang	237
Study on Design and Construction Technique of Recycled Concrete Curbs Z.J. Lan, C.L. Zou, Y.Y. Chen and L.J. Liang	243
Progressive Deformation on Defective Pile Reinforced Slope S.W. Hou, S.H. Ma, X.L. Liu and Y. Liu	248
Dynamic Response Analysis of RC Structures under Seismic Excitation Considering Strain Rate H. Zhang, G.W. Cao and Y.Q. Li	254
Nonlinear Dynamic Analysis of Prefabricated Concrete Shear Wall Structure under Seismic Excitation H. Zhang, Z.H. Zhang and Y.Q. Li	259

Chapter 5: Research and Design in Mechanical Engineering

Geometric Configuration Analysis on the Inside Profile of the Vole's Clawed Toes Z.J. Guo, H.H. Wang and D.S. Jia	267
Impulse Grounding Resistance of Graphite Flexible Grounding Material under Spark Effect P.C. Zhang, Y. Xun and Z. Bo	272
Research on Pressure Relief Technology of Main Transformer in 220KV Indoor Substation Z.W. Guo, X.L. Liu, X.J. Guo, C.K. Liu, C. Jing, Y. Li and M. Tang	279
Life Cycle Assessment on Layer-Combustion Hot-Water Boiler G.L. Qi, J. Guan, X.M. Liu, Z.W. Wang, S.S. Zhang, Y.Q. Chang and P. Li	285
The Depth of Cut in Drilling Mode of Rock Cutting Y. Sun and X.S. Li	292
Application Research on New Hydro-Style Turbulent Contact Scrubber Y. Li, Y.P. Li, P. Kong, S.Y. Wei, Q. Zhang and J.J. Fang	298
Design and Experiment Study on a New Type of Lubrication Simulation System for Thrust-Ball Bearing in Confined Space F. Li, F. Guo, G. Liu and Z. Gang	303
Parameters Selection and Profile Calculation for Screw Rotor of Twin Screw Air Compressor J.H. Qin, W. Li and C.Y. Deng	308
The Research on Shift Rule of Double Clutch Transmission W.T. Yu	314
The Research on Joining of Segmented Window-Glass M.X. Bu, J.S. Zhou, X. Wang, X.Y. He and L. Feng	319

Chapter 6: Applied Information Technologies and Computational Procedures

Intelligent Analysis of Heavy Metal Contents in the Toys Based on Internet of Things H.B. Chen, Y. Zheng, H. Ding, Y.G. Han and P. Zhang	327
Cell Mapping Modeling for Complex Systems Based on ISODATA Algorithm L.L. Guo, M.S. Wang and Y. Wang	332
A Fourth-Order Compact Finite Difference Scheme to the Numerical Solution of FitzHugh-Nagumo Equation D.P. Gui	337
Research on the Effect of Deceptive Promotion's Characteristics on Spillover Effect to Competing Online Stores J.L. Xue, H.Y. Hua and Y. Yang	342
Pedestrian Crowd Detection Based Unmanned Aerial Vehicle Infrared Imagery Y.H. Xiao and H. Zhen	347

Coupling Effects on Synchronizability of Two-Layer Network's Projective Outer Synchronization B.Y. Feng and Z.H. Zhang	353
Quadratic Processing of Web Service Data J.J. Wu, C.F. Zheng, G.L. Li, C. Zheng, Z.J. Liu and R. Yu	358
ZigBee WSN Applied in Intelligent Monitoring Systems of Agricultural Environment L.N. Yuan, H.J. Chen and J. Gong	363
