

Table of Contents

Preface

Chapter 1: Additive Technologies

Investigation of the Gradient Properties of Samples Obtained by Direct Laser Deposition from a Mixture of Ni/Ti Elemental Powders S.D. Igoshin, D.V. Masaylo and A.V. Orlov	3
Effect of Selective Laser Melting Parameters on Physicomechanical Properties of Ferromagnetic Shape Memory $\text{Ni}_{36}\text{Al}_{27}\text{Co}_{37}$ Alloy A.K. Mazeeva, A. Kim, K.A. Starikov, A.I. Shamshurin and A.A. Popovich	11
Properties Investigation of Steel-TiC Composite Material Formed during Selective Laser Melting Process A.V. Kolchanova, D.S. Kolchanov and A.G. Grigoryants	19

Chapter 2: Modern Technological Processes

Structure and Microhardness of Constructional Steel after Ultrasonic Impact Treatment at Negative Air Temperatures M.M. Sidorov, N.I. Golikov, S.N. Makharova, R.P. Tikhonov and M.A. Ivanova	29
Forming of Briquettes from Iron and Plastic Waste S. Shungarina, S.A. Kotov and Z. Naumova	35
Welding at Low Temperatures of Structural Steels N.I. Golikov, E.M. Maksimova, M.M. Sidorov, I.I. Sannikov and Y.N. Saraev	41

Chapter 3: Materials with Special Properties

Surface Modification of Nickel Oxide (II) Thin Films Obtained by Gas-Phase Deposition D.A. Strekalovskaya, L. Baturova, A. Kondrateva and A.V. Semenchka	49
Influence of Crystallization Conditions on the As-Cast Structure of Fe-Mn-Si Alloy with a Shape Memory Effect D. Nechaev, A. Zhitenev, N.V. Zhukov and P. Zhitelev	55

Chapter 4: Biomedical Engineering

Characterization and Penetration Profile of Resveratrol-Loaded Nanostructured Lipid Carrier (NLC) for Topical Anti-Aging D. Rahmasari, W. Soeratri and N. Rosita	65
Candidal Adhesion to an Oral Obturator PMMA Resin Incorporated with Vanillin S. Thaweboon, B. Thaweboon and C. Sopavanit	71
The Antimicrobial Potential of Vanillin-Incorporated Irreversible Hydrocolloid Impression Material K. Kaewbuadee, K. Paiboonsisijit, N. Nuchanart, B. Thaweboon and S. Thaweboon	77
Virtual and Augmented Reality for Training and Maintenance of a Multiparameter Monitor K. Lozada, N. Quiroz, W. Oñate and G. Caiza	83

Chapter 5: Aggregate Replacement Materials in Concrete Production

Compressive Strength of Concrete Containing Roof Tile Waste as Partial Fine Aggregate Replacement K. Muthusamy, M.I. Hassan, R. Othman, M.A. Sulaiman and H.N. Ruslan	95
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----

Suitability of Conventional Ballast Mixed with Concrete Debris and Bottom Ash Waste Y. Duraisamy, K.M. Jeevithan, R. Othman and M.A. Sulaiman	103
Effect of Crushed Clay Brick as Partial Fine Aggregate Replacement on Properties of Concrete M.A. Sulaiman, S.A. Rozi, K. Muthusamy, R. Othman and A. Omar Tanash	117
Sand Cement Brick Incorporating Palm Oil Clinker as Partial Replacement for Fine Aggregate N. Ghazali, K. Muthusamy, M.F. Md Jaafar, K.A. Shahid, R. Zailan and M.Z.A.M. Jafri	123
Properties of Sustainable Concrete Containing Recycled Fine Aggregate as Partial Sand Replacement H.N. Ruslan, A.O. Tanash, K. Muthusamy, L.W. Yang and M.A. Ismail	129
Evaluating Pre-Corrosion and Post-Corrosion of Oil Palm Shell Concrete with Non-Destructive Testing A. Zaki, M.A. Fikri, C.A. Wibisono and S.A.P. Rosyidi	137

Chapter 6: Structural Engineering and Structural Mechanics

Constitutive Law of Rectangular Concrete with Carbon Fiber Sheet Confinement H. Kazuhiro	165
Numerical Investigation of Sectional Buckling Behaviors of Cold-Rolled Aluminium Alloy Channel Columns N.H. Pham	173
Human Perception of Lightweight Floors Vibrations, New Investigations to Improve Wood Building Performances (GIVILIF Project) A. Talhi, A. Barlet, R. Le Normand, T. Catterou, J.B. Castaing and S. Boulet	181
Application of American Aluminum Specification in Design of Cold-Rolled Aluminum Alloy Channel Columns N.H. Pham	187
Influence of Strain Hardening on Sectional Capacities of Cold-Formed Rectangular Hollow Steel Sections N.H. Pham	193

Chapter 7: Geotechnics

Enhancement of Muscat's Expansive Soil Using Waste Gypsum H.S. ALAlawi, A. Ganiyu, M. Chowdhury and A. Badr	201
Comparison of the Improvement in Liquefaction Safety and Decrease in Settlements for a Severe Earthquake Following Three Soil Improvement Methods in a Sandy Soil in Chimbote, Peru L.J.P. Suito and P.A.P. Alvarez	213
Tannic Acid/Polyvinyl Alcohol as a Wellbore Strengthener for Water-Based Drilling Fluid in Natural Gas Hydrate Reservoir X.X. Wang, G.C. Jiang, G.S. Wang, L.L. Yang, Y.B. He and X.Y. Wu	219
