

Table of Contents

Chapter 1: Advanced Materials

First Observation of Non-Resonant X-Ray Magnetic Diffraction for Multilayers H. Shimoyama, T. Osawa, H. Watanabe, K. Suzuki, H. Sakurai and M. Ito	3
Synthesis and Ionic Conductivity of KAlSi_3O_8 S. Furusawa and Y. Minami	8
Characterization of Photoluminescence and Surface Chemistry after Annealing about $\text{Si}:\text{SiO}_2$ Films Fabricated by Radio Frequency Sputtering K. Tanaka and T. Yoshida	13
Spatial Fluctuation Enhancement in Polymer Capacitors Using Immiscible Binary Mixtures R. Maruyama and N. Asakawa	19
Effect of the Introduction of a CF_3 Group to a Silyl-Anchor Azobenzene Dye on Sensitization Property in Dye-Sensitized Solar Cells K. Kakiage, T. Abe, M. Yamamura, T. Kyômen, M. Unno and M. Hanaya	27

Chapter 2: Nanomaterials and Technology

Effect of Humidity and Bias on the Size of Nanostructures Fabricated by STM Anodization and its Application to Patterns Y. Yin	35
Effect of Embedded TiO_2 in Carbon Nanofiber Support on Pd Catalyst Activity for Formic Acid Oxidation T. Aoyama, Y. Nishio, H. Ishitobi and N. Nakagawa	41
Enhanced Catalytic Activity of Pt for Electrooxidation of Ethanol by Using Silica-Carbon Composite as the Catalyst Support H. Ishitobi, Y. Ino and N. Nakagawa	47

Chapter 3: Photonic Materials, Devices and Technology

Simple Phase Control System in Bidirectional Ring Laser Y. Takahashi and Y.Q. Li	55
Photoluminescence and Electroluminescence Properties of $(\text{Ca,Sr})\text{TiO}_3\text{:Er}$ T. Kyômen, M. Seki, M. Hanaya and H. Takashima	60

Chapter 4: Technologies of Measurements in Engineering

Improved Method of Direct Measurement of the First-Order Mass Moments of Human Body Segments K. Suzuki, K. Nakaya, A. Takita, K. Shimada and Y. Fujii	69
Measurement of Dynamic Responses of a Force Sensor against Small Impact Forces with Various Durations N. Miyashita, K. Watanabe, A. Takita, M. Djamal, T. Yamaguchi and Y. Fujii	73
Impact Response Measurement of Bamboo Shinai and CFRP Shinai R. Kojima, K. Kitabata, D.H. Bin, A. Takita, T. Yamaguchi and Y. Fujii	80

Chapter 5: Electronics and Microelectronics

A Typical MOSFET Modeling Procedure for RF Analog Circuit Design H. Aoki and H. Kobayashi	87
---	----

Bias and 1/f Noise Degradation Modeling of 90 nm n-Channel MOSFETs Induced by Hot Carrier Stress	
T. Totsuka, H. Aoki, F. Abe, Y. Arai, S. Todoroki, M. Kazumi, M. Higashino and H. Kobayashi	100
A High Precision IGBT Macro-Model for Switching Simulations	
M. Kazumi, H. Aoki, Y. Arai, S. Todoroki, T. Totsuka and H. Kobayashi	109
Redundant SAR ADC Algorithm Based on Fibonacci Sequence	
Y. Kobayashi and H. Kobayashi	118
A Residue Number System Based Time-to-Digital Converter Architecture and its FPGA Implementation	
C.B. Li and H. Kobayashi	127
A Method to Improve Switching Power Supply Efficiency at Light Load with DSP Control	
C. Gao, G.L. Jin, R.C. Jiang, M.R. Li, M. Ochiai, S. Aso, Y. Kobori and H. Kobayashi	133
Triple-Band CMOS Low Noise Amplifier Design Utilizing Transformer Couplings	
M. Kamiyama, D. Oki, S. Kawauchi, C.B. Li, N. Takahashi, S. Banba, T. Dan and H. Kobayashi	142
Three-Dimensional Simulation of Proposed Ring-Confined-Chalcogenide Phase-Change Memory for Reducing Reset Operation Current	
Y. Yin and S. Hosaka	149

Chapter 6: Biomedical Engineering

Real-Time Measurement of Ion Energies for Heavy Ions	
A. Yokoyama, W. Kada, T. Satoh, M. Koka, Y. Yokota, M. Sakai, K. Miura and O. Hanaizumi	157
Evaluation of Radio-Photoluminescence Spectra of Copper-Doped Phosphate Glass Dosimeter Irradiated with Ionized Particles	
R.K. Parajuli, W. Kada, S. Kawabata, Y. Matsubara, K. Miura, A. Yokoyama, M. Haruyama, M. Sakai and O. Hanaizumi	163
Non-Contact Vital Sensing Systems Using a Motion Capture Device: Medical and Healthcare Applications	
Y. Yuminaka, T. Mori, K. Watanabe, M. Hasegawa and K. Shirakura	171
