

# Table of Contents

## Preface and Committee

## Chapter 1: Engineering Science for Manufacturing

<b>Analysis of Concentric Canister Wall Roughness Effect on Jet Flow Based on Fluid Dynamics</b> Y.S. Bai, Y. Jiang and D.M. Zhou	3
<b>The Study of Modeling Methods Based on Applied Mechanics for Sling of Tower Crane with ADAMS</b> Y.P. Han, J.P. Meng and D.C. Chen	9
<b>Application of Frequency Converter with Applied Mechanics Used in Exploitation and Design of the Milling Machine</b> T. Wu	13
<b>Experimental Research on the Cracking Behavior of GFRP/Steel Wire Composite Rebar Reinforced Concrete Beam Based on Cracking Mechanics</b> C. Wang, L.L. Sui, Q.D. Hao and Q.Y. Lu	17
<b>Study on Mobile Robot Applied Mechanics Modeling and Motion Planning</b> X.P. Liu and D.M. Zhao	23
<b>Cooling Mechanics Performance with Fuzzy Prediction on in the Water Supply System Based on Mechanics Properties and Material Properties</b> X.H. Chen, H. Xu, S.J. Xie and H.W. Zhao	27
<b>Modified Green's Function Approach Using Temperature-Dependent Material Properties and Stress Properties for Thermal Fatigue Analysis</b> H.O. Ko, M.J. Jhung and J.B. Choi	32
<b>Peakons of a Generalized Camassa-Holm Equation with Bifurcation Theory of Dynamical System</b> M. Sun, J. Li and T.T. Quan	36
<b>The Necessary Condition for the Existence of Periodic Solutions of Certain Three Dimensional Nonlinear Dynamical Systems</b> T.T. Quan, J. Li and M. Sun	40
<b>Rational Position of Apparatus for Removing Cotton Foreign Fiber in Dynamic Equilibrium</b> G.J. Wang, G.L. Gao, D.L. Li, B.L. Hu and J. Liu	44
<b>Effects of the Magnetic Damper Locations on Dynamic Characteristics of the Active Magnetic Bearing System in Manufacturing Engineering</b> Z.Y. Xie, H.K. Zhou and X. Wang	51
<b>Modeling of Hydraulic Line of Device Producing Fluctuant Load Based on Fluid Mechanics</b> X.B. Wang and H.X. Deng	56
<b>Dynamics and Steady Analysis of the Plate High-Density Pipe Flow System with Fuzzy Reasoning Synthesis Method</b> X.H. Chen, H. Xu, S.J. Xie and H.W. Zhao	60
<b>Simulation of Influencing Parameters of the Inner Surface Pressure of Elbow Pipe and the Establishment of Pressure Formula</b> X.Y. Lu, X.L. Lu, L.L. Huang, J.M. Liu, Y.Y. Liu and Y.M. Xu	64
<b>Research on Design Values of Fragility with Mechanics Properties</b> R. Shu and X.L. Zhang	69
<b>Constitutive Analysis of Ni-Base Superalloy Hastelloy X under Hot Compression Based on Thermodynamics</b> H.Y. Wu, H.C. Liu, F.J. Zhu and C.H. Chiu	73
<b>The Design of AT-Cut Multiple-Electrode Quartz Crystal Resonator and the Research of its Oscillation Stability and Force-Frequency Property</b> Y.B. Sun, W.J. Tian, Q.J. Zhao and B.Y. Lan	77
<b>Force Sensitive Property of Same-Base Quartz Crystal Resonator and Signal Amalgamation</b> W.J. Tian, Q.J. Zhao, Y.B. Sun and B.Y. Lan	81

<b>Research on Cone Angle of Cutter Head for Big Diameter Shaft with Analysis of Drilling Mechanics</b> Z.H. Luan and L.J. Cai	85
<b>Research on the Ship Motion Simulation Platform for Three Degrees Based on Seasickness Test and Kinematics Analysis</b> Z.W. Zhang, S. Li, K. Cong and J.C. Song	89
<b>Nonlinear Dynamic Buckling for Truncated Sandwich Shallow Conical Shell Structure Subjected to Pulse Impact</b> M.Q. Tang and J.C. Xu	93
<b>Linear Statics Analysis of the Connecting Rod of a Certain Type of Continuous Mill with Mechanics Properties</b> C.P. Zou, X.F. Zhang, D.R. Cheng and X.Z. Lu	98
<b>Analysis of Active Vibration Control in Damping Cantilever Beam by ANSYS with Material Properties</b> J. Dai, Z.X. Huang, Z. Chen, R.Y. Dou and M.X. Shi	102
<b>Dimensional Synthesis of a Planar Parallel Mechanism for Wafer Transfer with Kinematics Performance</b> Y.B. Ni, W.X. Guo and F.Y. Luo	107
<b>Effects of Geometric Parameters on the Inner Surface Pressure of Elbow Pipe and the Establishment of Pressure Model</b> X.Y. Lu, X.L. Lu, L.L. Huang, J.M. Liu, Y.Y. Liu and Y.M. Xu	111
<b>Absolute Roughness of Trunk Natural Gas Transmission Pipeline with Mechanics Properties and Material Properties</b> Y. Zhou, Y.F. Liu, F. Chen, J. Li, J. Cheng, H.Q. Yang and Y. Yang	116
<b>Study of Strata Sloughing Mechanism and Anti-Sloughing Measures with Mechanics Properties and Material Properties in Yitong Area</b> Y.X. Sun, Z.H. Wang, H.M. Shi and J.Z. Sun	120
<b>Studies on the Technology of the Fine Blanking without Gear Ring of Steel Back Plate with Mechanics Properties and Material Properties</b> C.D. Zhu, W.H. Zuo and B. Zhou	125
<b>The Research of Minimum Quantity Lubrication Mechanism in Grinding with Mechanical Mechanics</b> H. Sun and Y.H. Feng	129
<b>Study on Mechanics Properties of Shifting Impact of Overrunning AMT</b> J.J. Hao, S.S. Ge, X.H. Zou and X.H. Ding	134
<b>Scheme of Model Updating and Implement for Structural Dynamics Analysis</b> D.S. Yao and L.B. Zhao	140
<b>Multi-Objective Optimization Design of Vibration Screener Support Spring Parameters with Vibration Mechanics</b> L.Q. Meng and Z.W. Wang	144
<b>Design of Parameter Optimization Based on High Efficient Vibration Screener with Mechanics Properties</b> L.Q. Meng and Z.W. Wang	149
<b>Studies on the Oiler Edge without Being Sprayed Based on Material Properties and Aerodynamic Influences</b> H.Y. Li, H.L. Wu, X.H. Chen and S.J. Xie	154
<b>Dynamic Analysis of Steelwork of the Small Capacity and Economic Mechanical Parking System</b> H.Y. Li, H.L. Wu, X.H. Chen and S.J. Xie	158
<b>Mechanism of Bio-Inspired Ultrasensitive Low Frequency Sensor with Mechanics Analysis</b> L.J. Liu and Y. Lei	162
<b>Effects of Different Initial Imperfections including Residual Stress on the Compressive Bearing Capacity of Steel Angles in Towers</b> B.R. Zhu, J.B. Yang and Q.H. Li	167
<b>Structural Optimization of Packer' Cone with Material Properties and Mechanics Parameters Based on ANSYS</b> Z.P. Guo, W. Guo, Y.F. Wang, G.F. Li and Y.Z. Lu	172
<b>Mechanics Analysis of the Wind Power Blade for further Renewable Energy System</b> B. Li, Z.M. Kang, L.R. Tang and B. Qi	176

<b>Wind Turbine On-Line Monitoring System Based on Vibration Mechanics</b> Z.G. Bian, S.Q. Liu and H.T. Yang	181
<b>The Study of Special Materials on the Strain Rate Machine Based on Static Tensile</b> X.P. Liu and D.M. Zhao	185
<b>Study on the Equivalent Circuit of Quartz Crystal Microbalance (QCM) with Material Properties</b> X.P. Liu and D.M. Zhao	189
<b>Comprehensive Evaluation of Wall Material Optimization Based on the Theory of Gray System and Wall Pressure</b> X.Y. Bao, S.S. Lin, J.P. Man and Q.C. Wang	193
<b>Study on Tool Wear of High Volume Fraction SiCp/Al Composites with Ultrasonic Vibration High Speed Milling</b> D.H. Xiang, H.T. Liu, X. Jiang, S. Liang and G.B. Yang	198
<b>The Influence of O<sub>2</sub>/Ar on the Dielectric Properties of Bismuth Zinc Niobate Titanium Thin Films Prepared by RF Magnetron Sputtering</b> X.H. Sun, Z.M. Luo, S. Hou, C.H. Huang and J. Zou	202
<b>Research on Coal Mining Material Active Perception System Based on IOT and Coal Resources</b> J.Z. Li and H.M. Deng	207
<b>Enhanced the Dielectric and Tunable Properties of BZNT Thin Films through Adjusting Annealing Process</b> X.H. Sun, S. Hou, Z.M. Luo, C.H. Huang and Z.Z. Hu	211
<b>Photoelectrochemical Studies of Dye-Sensitized TiO<sub>2</sub> Nanoporous Electrodes</b> L.M. Jiang	216
<b>Investigation on some Properties of Renshape™ SL7545 Type Photosensitive Resin and its Application for Stereolithography Material</b> B.W. Huang, G.L. Cheng, C. Deng and H.H. Zou	220
<b>Preparation of RPSL-02 Type Photosensitive Resin for Stereolithography Material and Investigation on its some Properties</b> B.W. Huang, K. Zhou, C. Deng and W.Q. Chen	224
<b>Enhanced Removal of Phenol by a Hyper-Cross-Linked Resin Functionalized with Composite Properties of Chemical Materials</b> G.Q. Xiao and P. Tang	228
<b>Enhanced Dielectric Properties of Pb<sub>0.3</sub>Sr<sub>0.7</sub>TiO<sub>3</sub> Thin Films by Ultrasonic Processing</b> X.H. Sun, X.N. Li, Y. Yang, M. Wu, S. Hou and C.H. Huang	232
<b>A Prototype of Electrostatic Membrane Reflector with Composite Properties of Membrane Material</b> G.F. Shi and P. Zhang	237
<b>Electrostatic-Structure Couple Field Analysis in Electrode Plate Design of Electrostatic Membrane Reflector with Composite Properties of Membrane Material</b> G.F. Shi and P. Zhang	241
<b>Study on the Corrosion Resistance of ZrN Films on the Aluminium Alloys Surface</b> H.Q. Wang, W.L. Sun, Y.Q. Xing and S. Bo	245
<b>Study on the Color of TiN Films on the Aluminium Alloys Surface</b> H.Q. Wang, W.L. Sun, Y.Q. Xing and T.T. Dong	250
<b>Tri-Reforming of Methane over Pt Modified Ni/MgO Catalysts under Atmospheric Pressure – Thermal Distribution in the Catalyst Bed</b> H.T. Jiang, H.Q. Li and H. Fan	255
<b>Research on Equal Flow Distribution of Pulverized Coal-Air Mixture in Parallel Pipeline</b> X.S. Yang and J. Yin	259
<b>Density Functional Theory Study of P-Type Transparent Conducting 2H-CuAlO<sub>2</sub> Oxide</b> W.T. Liu, Y.Y. Luo, Z.T. Liu and Z.M. Wei	263
<b>Effects of Glass Glaze on Wear Resistance of Cr<sub>2</sub>O<sub>3</sub> Ceramic Coating</b> S.P. Zhang, Z. Liu and C.J. Qiu	267
<b>Study on Corrosion Behavior of the 304 Stainless Steel in the Heavy Oil with High Salt, High Sulfur and High Acid Value</b> X.H. Wang, Y. Wei, C.Y. Shao, Y.J. Shi, W. Xue and J.F. Zhu	271
<b>Steel Fiber Reinforced Concrete Pavement Maintenance</b> X.Q. Yu, M. Lin, G.L. Geng, L. Jia and N. Wei	276

<b>Study on Mechanical Properties of Steel Fiber Reinforced Concrete</b> X.Q. Yu, M. Lin, G.L. Geng, N. Wei and L. Jia	280
<b>Study on Error Analysis of On-Line Measurement System with Analysis of Inner and Outside Environmental and Equipment Materials</b> E.B. Peng, W. Zhou and H.Y. Wang	285
<b>A Finite Element Simulation of Mold Filling Process in Resin Film Infusion Based on Material Properties and Mechanics Properties</b> M. Yang and X. Liu	289
<b>Experimental Study on Titanium Based Photocatalyst and its Catalytic Oxidation on Flue Gas Mercury</b> X. Shi, X.W. Dai, J. Wu, X. Li, Y.R. Zhang, Y.X. Cao, C. Li, J.G. Yang, Y. Wu, H.T. He, W.L. He and Z.L. Xie	293
<b>Study on Mechanics Properties of Automobile Rear Axle Shell and Optimization Design in Manufacturing System</b> X.L. Bai, Y.F. Zhang and Y.W. Zhao	298
<b>Visual Detection of Machining Damage on Aerospace Aluminium Alloys during Manufacturing Process</b> Y.L. Ma and Y. Liao	302
<b>Electronic Structures and Spectral Properties of the Emitting Molecule Rhenium (I) Tricarbonyl Containing Naphthalimide Ring in Chemical Manufacturing System</b> H.Y. Xia and F. Zhao	306
<b>Lapping Tool Wearing Uniformly in Machining Blind Hole of Workpiece in Manufacturing System</b> J.D. Yang, C. Liu and H. Yan	310
<b>A New Methodology of CBR Design in Manufacturing System for Peanut Shelling Key Parts</b> J.M. Hou, K. Pan, D.X. Yang and L.X. Gao	315
<b>Study on Nylon Cutting Properties Based on Cutting Temperature with Material Properties in Manufacturing System</b> N. Fan, P.Q. Guo and X.L. Fu	319
<b>Transparent Encryption Technique for Word Documents Based on USB Key in Manufacturing System</b> Y.X. Meng, J.Y. Dong, Y.H. Yin and L. Qi	323
<b>Dual-Axis Tracking Solar Scaffold Mechanic for the Joint Storage Photovoltaic Power Generation System for Manufacturing</b> B. Li, Z.M. Kang, L.R. Tang and B. Qi	327
<b>Numerical Simulation for Gas Supply Line Design in Manufacturing Process of Silicon Solar Cells Based on Steady State Fluid Dynamics</b> R.L. Chen, S.H. Wang, Y. Sun and Y.J. Dong	331

## **Chapter 2: Research on Manufacturing Process and Engineering Management of Manufacturing Systems**

<b>The Mechanical Drawing Distributed Synchronous Audit System Design for Product Development Process Based on Web</b> X.P. Liu and D.M. Zhao	339
<b>Material Scheduling with Storage Windows Based on Modified Particle Swarm Algorithm for Material Manufacturing System</b> X.M. Zhang and S. Zhang	343
<b>Study on Master Production Schedule in Manufacturing System for Medium and Small Manufacture Enterprises</b> X.H. Lu, W.Y. Wu, P.Z. Han, G.J. Li and J. Wei	349
<b>Research on a Main-Branch Hybrid Flow Shop Scheduling Problem in Production Manufacturing System</b> X.M. Zhang and M.Y. Zhang	354
<b>Microstructure Morphology Evolution of Single Crystal Copper Rod by Ohno Continuous Casting in Copper Manufacturing System</b> L. Rao, L.B. Zhu and Q.Y. Hu	360

<b>Analysis on the Establishment of Sustainable Developmental Competition-Index-System in Industrial Manufacturing System in Hebei</b> Y.N. Zhao	364
<b>Analysis of China's Iron and Steel Industry Development of Circular Manufacturing for Environment</b> X.J. Cui, D.G. Zhao, Y.X. Zhao and Z.H. Lei	368
<b>Research on Relevance Modeling Method for Equipment Testability in Manufacturing Process</b> F. Li, G. Liu and P. Di	372
<b>Study on Supply-Marketing-Inventory Pattern with Active-Work in Manufacturing System</b> F. Qian, D.L. Wang and H.M. Dong	381
<b>Study on the Features of Production Decline Law in Oil Manufacturing System in Wangyao Block</b> Q.H. Yan, H.M. Xiao, L.H. Sun, W.D. Liu and J.C. Hu	388
<b>Research and Practice on Manufacturing Internship for Mechanical Industrial Design</b> X.W. Jiang and X.C. Cheng	394
<b>Resolve Product Harm Crisis for Manufacturing System: A Simultaneous Equation Model</b> Z. Fang, Y. Yang and F.M. Deng	398
<b>Research on Study on Multi-Objective Location of Distribution Center with Product-Manufacturing Properties Based on Covering</b> L. Sun, X.L. Wu, Y. Liu and Y.L. Liu	404
<b>Processing Quality Forecast and Diagnosis for Gear-Box Shell Production Line in Manufacturing System</b> Y.H. Ma, F.S. Kong, Z.C. Liu, X.Y. Zhu and Y.C. Pan	410
<b>The Research of Bottleneck Procedures of Truck Frame Assembly Line in Manufacturing System</b> Y.H. Ma, K.L. Zhao, Y.B. Zheng, X.Y. Zhu, Y.C. Pan and L.L. Huang	414
<b>Composite Dispatching Rule Design for Photolithography Area Scheduling in Wafer Manufacturing System with Multiple Objectives</b> S. Wang, P. Zhang, W. Qin and J. Zhang	418
<b>An Improved Fault Transfer Table Based Fault Modeling Method in Etch Process of Semiconductor Wafer Manufacturing System</b> J.H. Song, J.G. Yang and J. Zhang	422
<b>Dynamic Effects of Quality Improvement on Mobile Phone Manufacturing System</b> Z. Fang, Y. Yang and F.M. Deng	426
<b>Study on the Ground-Source Heat Pump with Properties of Thermal Dynamics Used in Heating and Air Conditioning by Economic Analysis</b> Z.Y. Yuan	433
<b>The Development of Forming Analysis Technology for Material Selection Based on Different Manufacturing in REF SILL OTR-R/L Auto-Body Panel Stamping</b> D.W. Jung, D.H. Kim and B.C. Kim	438
