

# Table of Contents

## Preface, Committee and Sponsors

## Chapter 1: Materials and Mechanical Engineering, Applied Mechanics

<b>Experimental Study on the Solidification of MSWI Fly Ash</b> F.Y. Yang	3
<b>Analyses of Nugget and Expulsion Formation Process during Resistance Spot Welding between Aluminum Alloy and Steel</b> N.N. Wang, R.F. Qiu, F.F. Liu, M. Zhang and Q.Q. Xuan	7
<b>Research and Development of High Grade Gear Steel SCM420H for Automobile</b> C. Fang, J.H. Shi and L. Zhu	11
<b>Study on Hydraulic Characteristics of Opposite Folded Plate Reactor</b> P. Tao, T.H. Song and F. Zhang	15
<b>Reconstruction of Key Parameters of Marine Supercharged Boiler Based on PLS-SVM</b> F. Song, G. Cheng, F.R. Sun and G.Q. Zhu	19
<b>Research on Optimization Method of Extreme Learning Machine with Application of Information Technology</b> Z.F. Zhang, C. Gan, X.J. Ding and Z.Y. Cai	23
<b>Numerical Study of Vertical Axis Wind Turbine Rotor Configuration</b> Y. Mei, J.J. Qu and X.Y. Liu	28
<b>Parameter Analysis and Shaking Table Test Based on Mechanics Analysis in Seismic Isolation System of Transformer with Bushings</b> M.G. Cao and J. Mo	33
<b>Seismic Displacement Design Method Comparison between Chinese, American, European and Japanese Seismic Design Codes</b> G.M. Zhang, W.F. Liu and Z.H. Chen	43
<b>Computational Fluid Dynamics Simulation Optimization Research Based on Hydraulic Torque Converter</b> S.L. Wang and W.X. Ma	48
<b>Experimental Study on Workability and Strength of Green High Performance Concrete with High Volume Fly Ash</b> Y.Q. Ma	52
<b>Experimental Study on Mechanical Properties of Steel Fiber Reinforced High Performance Concrete</b> Y.Q. Ma	56
<b>Calculation Methods of CFRP Tendons Stress in Two-Span Prestressed Continuous Beams</b> C.X. Bai, X.Y. Shao and Q.P. Wang	60
<b>Research on the Wear Resistance of High-Chromium White Cast Iron and Multi-Component White Cast Iron</b> C.L. Yen, F.J. Chen and Y.N. Pan	64
<b>Research on the Shear Strength of High-Strength Concrete Beams with Web Bars by Concentrated Load</b> Q.Y. Shi and L.L. Liu	70
<b>Numerical Solution of Vehicle-Bridge Coupling Vibration</b> Z.P. Wen	76
<b>Research on Shaking Force with Ground-Roll Suppression Based on Fast Discrete Curvelet Transform</b> J. Zhang, K.B. Ji, K.Q. Pang, B. Yang, Y. Tian and F.Y. Qin	80

## Chapter 2: Construction, Civil, Building Engineering and Geology Science

<b>The Study on Used Properties of Mine Tailings Sand</b> G. Li, Y.J. Chen and H. Di	87
<b>Finite Element Analysis of the Subsidence of Cap Rocks during Underground Coal Gasification Process</b> X.X. Zha, H.Y. Wang and S.S. Cheng	91
<b>Seismic Performance of Reinforced Concrete Rectangular Hollow Bridge Piers</b> Y. Zhao, H.Y. Jiang, J. Gu and R.Q. Wang	95
<b>Optimal Design of Double Sheet Piles in Deep Foundation Pit Based on UD-SVM</b> Z.H. Yu, Y. Gui, Z.C. Wang and Y.J. Hou	100
<b>FE Modeling of Elliptical Concrete-Filled Steel Tubular Members Subjected to Pure Bending</b> X. Zhao, X.K. Li, Q.X. Ren, T. Cheng and X.L. Long	105
<b>Interface Structure of EPS and Pores Effect on Properties of EPS Lightweight Concrete</b> X.S. Zhang	109
<b>Measured Data Processing in Civil Structure Using the DOProC Method</b> R. Čajka and M. Krejsa	114
<b>Research on Tensile Bearing Capacity of Self-Drilling Screw Joints for Thick Faced Roof Sandwich Panels</b> X.X. Zha and Z.R. Tang	122
<b>Study on the Static and Dynamic Load Test of Skew Bridge</b> H.B. Han, L. Wang, Z. Li and X.H. Long	127
<b>Research on Monitoring and Control for Suspender Cable Tension of Half-Through Concrete Filled Steel Tube Arch Bridge</b> F.L. Zhao, Y.Q. Xiang and Q.Q. Wu	131
<b>Study on the Load Test of Variable Cross-Section Box Girder Bridge</b> X.H. Long, J.J. Su, L. Wang, H.B. Han and Y.L. Sun	135
<b>Acoustic Detection on Analysis of Rock Mass Integrality</b> Z. Li, H.B. Han, Y.F. Zheng and M. Li	139
<b>The Mechanical Mechanism Analysis for Mortar Arch Framework Slope Protection Structure</b> Y. Xu, D.L. Li, L. Peng, Y. Xiao and Y.H. Nie	143
<b>Study on the Static Load Test of Bridge Inspection</b> F. Liu and X.H. He	149
<b>Analysis of Influence to Primary Support Forces by Stress Release in Loess Tunnel</b> Z.M. Su	153
<b>Plastic Analysis on Buckling Restrained Braced Steel Frame</b> X. Zou, J. Zhao, E.H. Bao and Y.H. Chen	157
<b>Modal Parameter Identification of Civil Engineering Structures under Seismic Excitations</b> Q. Pei and L. Li	163
<b>Structural Modal Parameter Identification Based on Natural Excitation Technique</b> Q. Pei and L. Li	167
<b>The Regression Prediction Analysis of Grouting Concretion Stone's Strength Based on SVR</b> J.S. Lei, J.F. Chen, X.T. Cao and Q.F. Wang	171
<b>The Test of Dynamic Characteristics of Concrete under Biaxial Compression State</b> J.S. Lei, F. Liu, G. Peng and M. Lei	177
<b>Analysis of the Tunnel Disease Considering the Unsaturated Loess Matric Suction Effects</b> X.H. Xue, Z.M. Su, Z.J. Sun and F. Song	182
<b>A Discussion on Numerical Simulation of Axial Reinforcements in RC and RCFT Columns</b> A. Xiamuxi, A. Tuohuti and A. Hasegawa	186
<b>Classification Model for Estimating Demolition Waste Generation Considering Structure Types and Wall Material of Detached House by ANOVA Analysis</b> G.W. Cha and W.H. Hong	191
<b>Research on Civil Engineering with Constructing Eco-Village Development Model in Shaanxi Province</b> Q. Song and Y. Yang	196
<b>Research on Civil Engineering with Ecological Impact Assessment of Construction Activities</b> Y.M. Liu	200

<b>Study Progress on Modern Green High Performance Concrete at Domestic and Foreign</b> Z.Y. Fu and M.L. Huang	207
<b>Study on Civil Engineering with the Comparison and Inspiration of Domestic and Foreign City Underground Space Development</b> X.L. Dong, R.H. Wang and Z.X. Yuan	213
<b>Application of Dynamic Load Test in the Bridge Detection</b> T.M. Miao and Y. Zhou	218
<b>The Stability Control of Soft Soil Foundations of Urban Roads According to the Surface Subsidence Monitoring Data</b> H.J. Liu, J.H. Tan, X.W. Su and H. Wu	222
<b>Study on Internal Force Effect of a High-Speed Rail (40+56+40) m Prestressed Concrete Continuous Beam Bridge</b> Y.M. Zhao	228
<b>The Influence of Ratio of Reinforcement to Modulus of Elasticity of Reinforce Concrete Component</b> T.J. Qu and R.H. Xu	233
<b>The Application and Development of Ultra-High-Performance Concrete in Bridge Engineering</b> L.J. Jia, H.B. Hui, Q.H. Yu and Y. Song	238
<b>Comparison Analysis of GFRP Anchor Pile Performance in Expansive Soil Foundation</b> X.J. Liu	243
<b>Reservoir Volume Estimation in Exploration Phase by Monte Carlo Simulation</b> L. Zhao, B. Li and P.X. Diwu	248
<b>Modal Analysis on Steel Frame-Energy Dissipation Support Structure</b> S. Dong, C.W. Huang and C. Shen	253
<b>A Numerical Infiltration Model in Civil Engineering and its Comparison with Geo-Seep Software</b> D.F. Tian and X.Y. Ling	257
<b>Research on Pedestrian Crossing Characteristics and Crossing Facilities of University's Passageway</b> Y. Cao, Z.Y. Zuo and H.Z. Xu	261
<b>Study on the Optimal Design of the Members of Container Building with Building Materials II: Joint and Corner Column Optimization</b> X.X. Zha, Y. Zuo and S.Y. Chen	266
<b>Study on the Optimal Design of the Members of Container Building with Building Materials I: Side Board Optimization</b> X.X. Zha, Y. Zuo and S.Y. Chen	270
<b>Analysis on Energy Conservation Materials' Influence on Energy Saving Construction Cost</b> H.L. Wang and Y. Li	274
<b>The Study of Classification Analysis on Oil Exploration Research Trends and Digging Technology Based on Properties of Biochemical Materials (2012-2013)</b> S.H. Wu and J.J. Guo	280
<b>Study on Application of Monte Carlo Simulation in Construction Schedule Management</b> Y. Liu and Y. Li	284
<b>An Urgent Slope Reinforcement for a Power Transmission Tower Foundation</b> J.S. Lin	289
<b>Influence Analysis of Ground Asymmetric Load to Existing Open Trench Tunnel Based on Soil Arching Effect</b> Q.X. Pu, J. Cao, S.S. Zeng and H.M. Liu	293
<b>Study on Synchronized Grouting Pressure to Segments of Shallow EPB Shield Tunnel</b> H.X. Yang, J. Cao, B. Liang, Z.D. Ding and H.M. Zhao	298
<b>The Experimental Study on Internal Force Redistribution of High Strength Steel-High Strength Concrete Continuous Composite Beam</b> Q.Y. Shi and Q.W. Meng	304
<b>Theoretical and Experimental Research on Load Transfer of Anchorage Stress in Soil Anchor</b> J. Cao, X.Y. Wang, H.X. Zuo, H.M. Liu and W.W. Zheng	309
<b>Application of SVM to Reliability Analysis of Foundation Excavations System</b> J. Cao, C.N. Sun and H.M. Liu	315

<b>Experimental Study on Corrosion of Red Clay-Cemented Soil Composite Mass Cured Three Days under Fulvic Acid</b> J. Cao, Z.X. Yu, H.M. Liu, Z.G. Song and H.M. Zhao	322
--	-----

### **Chapter 3: Chemistry and Environmental Technologies**

<b>Similar and Different: Effect of Substitution Pattern on the Aggregation-Induced Emission Property of [4'-(bisphenylamino)[1,1']biphenyl]methylene Fluorenes</b> Z. Chen, Y.L. Xie, J.X. Qiu and Z.H. Chen	329
<b>Preparation and Characterization of La-B Co-Doped TiO<sub>2</sub> Photocatalyst</b> H.C. Chen and X.B. Pei	333
<b>Microwave-Assisted Anomeric Deacetylation of Ribofuranoses with Fe(III) Reagents</b> Q. Wang, G.D. Liu, S.S. Gong and Q. Sun	337
<b>The Influencing Research for Acid Pollution to Laterite Intensity</b> K.S. Jin, Y. Huang and X.N. Chen	341
<b>A Stereoselective Synthesis of 3<math>\alpha</math>-Cholesterylamine</b> X.C. Li, S.S. Gong and Q. Sun	345
<b>An Efficient Synthesis of an AKT Inhibitor-IV Analog Labeled with Biotin</b> Z.B. Xie, S.S. Gong and Q. Sun	349
<b>A Practical Synthesis of 4-Azaindole</b> S.S. Gong and Q. Sun	353
<b>Removal of Nonylphenol from Water by Ozone</b> X.D. Wang, Y. Lv, M.M. Li and H.Y. Liu	357
<b>Degradation of Phenol by Fe<sup>3+</sup> Doped Nano-TiO<sub>2</sub> Photocatalyst</b> J. Wang, D.S. Huang, W. Liu, Q.S. Pan and Y. Min	361
<b>Study on Effects of ZrO<sub>2</sub> on High-Resistance Performance of the Silicone Coating</b> L. Bai and X.Q. Wu	365
<b>Experimental Study on High Salt Acid Pretreatment of Refinery Wastewater</b> M. Tao and T.T. Kang	369
<b>A Review of Data Mining Method and Energy Material Property in Optimizing Thermal Power System</b> F. Song, G. Cheng, F.R. Sun and D.L. Li	373

### **Chapter 4: Applied Technology and Information System**

<b>Study on Applied Technology with Soft Measurement for Lance Position Based on MLR and PCR</b> K.F. Wen, Y.D. Liao, L.H. Feng and Q.H. Shen	379
<b>Research on Applied Technology by Discovery of Test Configuration Models Based on TTCN-3 Testing Systems</b> Y.P. Liu, S.M. Liu, X.M. Liu and J.G. Han	384
<b>Research on Applied Technology and Information Technology in News Publishing and Dissemination Based on Information Age</b> F.L. Sun	391
<b>New Tabu Search Algorithm with Applied Technology for Capacitated Vehicle Routing Problem</b> C.Y. Ren	395
<b>Study on Information Mining Technology with Empirical Research on China's Securities Market Transactions' Random Walk</b> T.T. Sun and W.L. Xia	399
<b>Applied Technology in Analysis of Status Quo of Academic Theses Duplicate Checking of China and the Treatment Countermeasures</b> K.G. Zhu and J.L. Teng	405
<b>On Web Applied Technology with NTP-Based Synchronous Interaction of Bilingual Teaching in Higher Education</b> W.J. Li, P.X. Li and H.M. Mi	410

<b>Research on Web Application Technology in Distance Education Personalized Recommendation System</b> Z.F. Qiao, J.X. Guo and J.C. Zhao	416
<b>Applied Technology in Business Credit in the Enterprise's Short-Term Finance</b> S.Q. Lei	422
<b>The Control System of Automated Stereoscopic Warehouse with Application of Web Information Technology</b> J.H. Wu, Q. Zhou, H.P. Si, J. Chen, K.Y. Lin and C.B. Zhang	426
<b>Cloud Computing Technology in Arts Integrated Experiment Teaching Resource Management</b> M.F. Chen, L.H. Huang and Y. Li	432
<b>Applied Technology in a Composite and Definable SaaS Billing Mechanism Supporting Optimized Utilization of Resource</b> H.Y. Yu and D.S. Wang	438
<b>Applied Technology in the Information Management System for the Degree of Master of Arts Education in China</b> Q. Huang	444
<b>Applied Technology on Artificial Neural Network in Fault Diagnosis System</b> Q. Zhu and J. Li	448
<b>Information Technology Application in the Characteristic of the Pure Phase Distribution of the Fresnel Diffraction of a Grating</b> H.S. Wang	453
<b>Applied Technology Based on NS2 the Research of Transmission of Video Streams in 802.11 Network</b> S.R. Liu and Z.Y. Cai	457
<b>Applied Technology in Robust Optimization Model for Airport Flow Allocation</b> S.W. Yang and Y.J. Yan	463
<b>A Study on Applied Technology in Safety and Protection of the Android OS</b> B. Peng and G.Z. Li	468
<b>Research on Applied Technology with the Characteristic of the Spatial Fresnel Diffraction Field of a Circle Aperture Illuminated by a Hyperbolic Secant Optical Pulse</b> H.S. Wang	473
<b>Research of Classification Retrieval Technology in Remote Video Communication Network</b> Y. Wang and C.H. Yang	477
<b>Research on Information Technology with Moving Object Segmentation Based on Memory Matrix and Kalman Filter</b> C.C. Zhou and X.R. Li	482
<b>Applied Technology on Improving the Order Picking Efficiency in the Area of EC of China Post Logistics Based on ACO</b> W. Xu, C.Y. Shi, H.T. Song and Y.X. Chen	486
<b>The Application of Cloud Computing Technology with Application of Network Data in Distance Education</b> F.P. Guo	492
<b>Research on Applied Technology in Human Action Recognition Based on Skeleton Information</b> Z.Q. Wei, J.A. Wu and X. Wang	498
<b>Applied Technology in the Performance of University Computer Labs</b> G.X. Ya, X. Deng, K.Y. Zheng and X.X. Shen	503
<b>Applied Technology in Design of Random Human Information Interactive System Based on Android</b> D.W. Jin and G.H. Zhang	507
<b>Applied Technology and Evaluation on Emergency Management Capability of Coal Mine Accidents Based on AHP and the Fuzzy Comprehensive Evaluation Method</b> J.J. Wan and Y.H. Song	511
<b>Comparison on Applied Technology in Web Application in Chinese and American Education</b> W. Jun	515
<b>A Brief Study on Web Application Technology in Autonomous Learning of Learners</b> C.M. Wu	523

<b>Information Technology in E-Commerce Capabilities and Firm Performance: Based on Resource-Based View</b> Y. Hu and X.W. Liu	527
<b>Applied Technology in the Grid Workflow Quality of Service Calculation and Estimation</b> Y.H. Liu	531
<b>Applied Technology in Design of Smart Terminal for New Energy Micro Grid of Island</b> L. Ma, Y.G. Peng and W. Wei	537
<b>The Electronic Transports Technology in a T-Shaped Double Quantum Dot</b> A.M. Wang	542
<b>E-Commerce with Applied Technology Leading College Students Online Entrepreneurship</b> X.M. Shang and Y.L. Zheng	547
<b>Information Technology in the E-Commerce Marketing Strategy of OAWAY Website</b> W.R. Jiang and S.W. Lin	551
<b>Study on Influence of Information Technology on Reform Practice of Public Hospitals in China</b> Q.R. He and X.D. Xu	556
<b>Research of Real Estate Appraisal Based on GIS Technology</b> J.P. Yang and Q. Bai	562
<b>Development of Mobile E-Commerce Based on 3G Mobile and RFID Technology</b> S.Q. Zhang, T.S. Huang and Z.Q. Zhang	566
<b>Study on Information Technology with MADS — A New Data Clustering Algorithm Based on Ant Colony Optimization</b> Y.L. Liu	572
<b>Information Technology in an Improved Quantum Genetic Algorithm Based on Dynamic Adjustment of Quantum Rotation Angle</b> H.X. Li, Y.C. Xue, J.Q. Zhang and Q.W. Yang	577
<b>Design and Implementation of the Safety Monitoring System with Information Technology for Pork Product</b> Y. Feng, Z.Y. Cai, Y. Gan and S.R. Liu	582
<b>Research on Information Technology with Detecting the Fraudulent Clicks Using Classification Method</b> J.H. Yan and W.R. Jiang	586
<b>Comparison Studies on Prediction Methods of Network Information System Survivability Situation</b> C.L. Zhao and Z.H. Yu	591
<b>The Optimal Information Rates of the Graph Access Structures on Seven Participants</b> Z.H. Li, Y. Song and Y.M. Li	596
<b>Interaction Motivation Driven Virtual Human Emotion Modeling in Computer Engineering and Application</b> N. Xiang and L.L. Yang	602
<b>Application of Information Technology for Government Role in Rural E-Commerce Development — From the Perspective of Basic Public Services</b> B.G. Hong	608
<b>Influence of Web Application Technology on the Public Hospital Reform in China</b> Q.R. He and M.H. Xian	613
