

Table of Contents

Preface, Committee and Sponsors

Chapter 1: Applied Materials

Abrasive Resistance Study on WC Particles Reinforced Steel Matrix Composite of Engineering Machinery Equipment N. Zhang, F. Yang, X. Jiang and J.N. Niu	3
Wear Resistant Surface Composite Produced by Ultrasonic-Assisted Argon-Arc Clad Injecting Ti(C, N) N. Zhang, S.C. Wang, X. Jiang, S.L. Qu and H. Chen	7
Analyses of Polymer Passivation on the Surface Reflectivity of GaAs/AlGaAs Solar Cell K.F. Yarn, C.K. Kuo, W.J. Luo and W.C. Chang	11
Molecular Simulation of Adsorption Mechanism of Silicone Rubber Interfacial Systems Q. Yang, X.P. Wen, C.M. Sun and G.P. Tang	15
Adaptability of Circle Equation Based Static Contact Angle Algorithms for Measuring Hydrophobicity of the Material Surface Z.N. Xu, Y.P. Ma, H.J. Xiong and J.G. Liu	19
The Application of Recycled Aggregate Concrete in Road Engineering W.L. Guo	23
Mechanical Response Analysis of the Composite Asphalt Pavement L.M. Li	28
Thermal Conductivity of Cement Concrete Using Discrete Element Method W.D. Liu	32

Chapter 2: Applied Chemistry

Crystallization Kinetics and Microhardness of MgO–Al₂O₃–SiO₂ Glass Ceramics with Low Melting Temperature Q. Lu and S.J. Liu	39
An Unexpected Synthesis of 2<i>H</i>-Benzimidazole Derivatives C.J. Wang, D.Y. Zeng, S.S. Gong and Q. Sun	43
Synthesis of an Akt Inhibitor-IV Analogue via an Amine-Exchange Reaction C.J. Wang, S.S. Gong and Q. Sun	47
An <i>H</i>-Phosphonate Approach for the Preparation of Purine-Nucleoside Monophosphates C.J. Wang, S.S. Gong and Q. Sun	51
Synthesis of Symmetrical Dipurine-Nucleoside Diphosphates from the Corresponding Nucleoside Phosphoropiperidates X.C. Li, S.S. Gong and Q. Sun	55
Preparation of Modified 1,6-Hexanediamines X.C. Li, S.S. Gong and Q. Sun	59
Synthesis of Guanosine-Containing Dinucleoside Triphosphates Y.H. You, S.S. Gong and Q. Sun	63
Sustained Release Properties of Aminophylline Sustained Release Tablets Based on Exfoliated Graphite L. Gao and Y. Wei	67
Research on Allelochemicals with Material Properties Exuded by Submerged Freshwater Macrophyte <i>Elodea nuttallii</i> Y.N. Gao, L.P. Zhang, B.Y. Liu, Y.Y. Zhang and Z.B. Wu	71
Synthesis of <i>P</i>¹, <i>P</i>³-Distavudine-5', 5'-Triphosphate S.S. Gong and Q. Sun	75
Practical Synthesis of 5-Hydroxymethyl-2'-Deoxycytidine J. Sun, S.S. Gong and Q. Sun	79

Synthesis of Symmetrical P^1, P^2-Dinucleoside Diphosphates with Pyrimidine Bases J. Sun, S.S. Gong and Q. Sun	83
Efficient Synthesis of Pyrimidine-Nucleoside Monophosphates from <i>H</i>-Phosphonates J. Sun, S.S. Gong and Q. Sun	87
Synthesis of Dinucleoside Triphosphates with Pyrimidine Bases Q. Wang, S.S. Gong and Q. Sun	91
Efficient Synthesis of Bis-Functionalized 1,8-Diaminooctane Derivatives S.S. Gong and Q. Sun	95

Chapter 3: Applied Research in Mechanical Engineering and Energetics

Reliability Analysis and Countermeasures on Type Selection of Boiler Induced Draft Fans M.F. Xu, Y.S. Zhang, H.C. Wang, L. Wang and L.M. Ren	101
Analysis on the Pressure Fluctuation of a 660MW Supercritical Boiler M.L. Ren, M.F. Xu, C.Y. Wang and Y.X. Li	110
Influence of Low NO_x Burner Retrofit on the Performances of a Boiler L.M. Ren, J.X. An, C.Y. Wang and L. Wang	116
Research and Governance on Catalyst Abrasion for Selective Catalytic Reduction (SCR) System in Power Plant Boiler L.M. Ren, L. Wang, C.Y. Wang and J.X. An	125
Treatment and Analysis on Unit Trip Caused by Primary Fan Stall J.Y. Liu, S.L. Wang, M.F. Xu, J.X. An and H.X. Ju	132
Fabrication of V-Groove High Temperature Oxygen Sensor by Gallium Oxide K.F. Yarn and W.J. Luo	137
Moving Target Tracking with Robot Based on Laser-Camera Data Fusion M. Wu, L.L. Li, Z.H. Wei, H.Q. Wang and C.J. Li	141
The Optimization of Equipment Polling Strategy in Intelligent Substation Control System C.C. Hu, K. Ma, L.J. Cao, A.J. Hou, H.J. Cui and H. Chen	145
Comparison and Analysis on the Impact of Two Typical Rearview Mirrors on Aerodynamic Performance X. Chen, W. Zhang, Y.Q. Wu, H.Y. Wang and H.Y. Ning	150
Research on Reasoning Method of Diagnosis for the Electronic Engine in Fault Knowledge X.C. Huang	154
A Service Restoration Method for Multiple Faults in Distribution Systems Based on Load Balancing Distribution G.F. Zhu, H.L. Gao and T.Y. Li	160
Image Measurement of Fiber Localizer Based on Energy Distributing Y. Yao, X.Y. Tian and B.K. Feng	168
Research on Internal Control Evaluation for Coal Mine Production Logistics Based on Management Entropy Y.C. Feng	172
Wide Range Load Transfer Strategy for Power Supply Side Failure in Intelligent Distribution Network G.F. Zhu, H.L. Gao and T.Y. Li	179
Research on Energy Saving for Multi-Back after Blending Water from One Station System's Parameters Optimization F.Y. He and F. Wang	187
The Energy-Saving Retrofit of Axial Fan Based on Performances Test in a 300MW Unit X.C. Lan, M.F. Xu, J.W. Cheng, C.Y. Wang and Q. Qin	192
The Blasting Test with Precise Delayed Time Interval and Wavelet Pocket Analysis for Vibration Signals' Energy L. He and D.W. Zhong	198
Research on Applied Technology in Construction of Road Engineering with Quality Controlling Strategies Y.C. Xia	205
An Effective Spectrum Sensing Method Based on Correlation Coefficient and Energy Detection F.L. Liu, S.M. Guo and R.Y. Du	210

Chapter 4: Applied Information Technologies

Information Technology for Construction of Online Teachers Learning Community K. Wang and Y. Yang	217
Application of Information Technology in College English Teaching K. Wang and Y. Yang	221
Modern Information Technology on Higher Education Reform and the Countermeasures Analysis L. Zhou	225
Development of Applied Technology in University Library Q. Chen	229
Research of Oracle Database Performance Optimization in University Educational Management System Based on Information Technology Y. Wu, Z.X. Zhang and W.L. Zhang	233
The Research of Time Delivering Technology in SDH Network Y. Yao	237
Research on Application of Software and Information Technology for Implementation of Test Management System in Bank R. Liu, J.H. Wu, Q. Zhou, J. Chen, H.P. Si and K.Y. Lin	240

Chapter 5: Environmental Engineering and Energy Saving

Analysis of the Pollution Characteristics and Influence Factors of PM_{2.5} in Chinese Main Capital City Y.A. Guo and X.M. Zhang	247
Impact of Temperature Variation on Characteristics of Activated Sludge S.S. Ai, Y.B. Xiao, Z.M. Ren, S.T. Li, L.G. Wan and D.J. Bian	252
Research on Measures of Reducing Environmental Pollutions by Empty Capsid Virus Particles with Vaccine of Foot and Mouth Disease Virus to Control FMD Q. Hong, Z.H. Liu and D.D. Han	257
Effect of EPS on Flocculation and Settlement of Activated Sludge in MBR K. You, D. Wang, J. Liu and Y.S. Yuan	262
Research on Energy-Saving and Environment Protection with the Comprehensive Exploitation of Hengyang Tourism Resources Based on the Perspective of Low-Carbon Tourism Z.X. Dong and Y. Wu	266
Energy Saving for the Construction and Demonstration of the Evaluation Index System of Low Carbon Economy in Hunan Province Y.X. Yang	270
Research on Energy Saving with Automatic Detection Method of Building Thermal Indices L.Y. Han, Y.L. Zhao, X.S. Zheng, G.H. Cheng and G.Q. Liu	275
Energy Attitude and Energy Instructional Strategy of Science and Technology Teacher Based on Environment Protection in Junior High Schools in Taiwan Y.J. Weng, H.J. Chang and T.Y. Wu	279
Current Situation and Problem Analysis on Electrostatic-Bag Integrated Precipitator in Coal-Fired Power Plants C.Y. Wang, H.C. Wang, Y.S. Zhang, B.T. Zhang and Y.X. Li	284
