

Table of Contents

Preface

Chapter 1: Structural Metals and Alloys

Influence of Nitriding Temperature on Mechanical and Tribological Properties of Titanium T. Chen and S. Koyama	3
Tensile and Fatigue Properties of Twin-Roll-Cast AZ31 Magnesium Alloy Strips with Different Thicknesses Y.J. Kim, Y.M. Kim, Y.R. Cho and S.H. Park	9
Effect of Reduction Rate on the Recrystallization Behavior in AA3003 Aluminum Alloy Fabricated by DC Casting S.J. Park and S. Muraishi	17
Effect of Temperature on δ-Ferrite Morphology of Carbon Steel and Austenitic Stainless Steel Welds L.T. Nhung, N.D. Nam and P.M. Khanh	23

Chapter 2: Polymers and Composites

Study on Mechanical Properties of AA6061/SiC/B₄C Hybrid Nano Metal Matrix Composites S. Das, M. Chandrasekaran and S. Samanta	35
Wear Characteristics of Al7075/Al₂O₃/SiC Hybrid Metal Matrix Nano Composites N. Sreedhar	43
Sliding Wear Characteristics of Carbon Filled Polytetrafluoroethylene (PTFE) Composite against AISI 304 Stainless Steel Counterface S. Chinchani, A. Barade and A. Deshpande	51
Mechanical Characterization of Areca Fiber and Coconut Shell Powder Reinforced Hybrid Composites G.K. Chowdari and D.V.V.K. Prasad	61
Physical, Corrosion and Microstructural Analysis of A356/SiC Nanocomposites Fabricated through Stir Casting Process M. Tanwir Alam	73
Mechanical and Metallurgical Characterization of Al-6061 HMMC with SiC_p and Graphite_p as a Reinforcement G.S. Kumar, Y.V.M. Reddy and B.C.M. Reddy	87
Mechanical and Rheology Properties of PLA/ABS/TCS Polymer Blends B. Ramanjaneyulu, N. Venkatachalapathi and G. Prasanthi	101

Chapter 3: Functional Materials

Textured K_{0.5}Na_{0.5}NbO₃ Thin Films by Aqueous Chemical Solution Deposition on SrTiO₃ Substrates for MEMS Applications K.N. Pham, T.D. Vu, N.D. Nguyen and T.D. Vu	111
Production and Characterization of RE³⁺:Yb₂O₃ Nanoparticles F. Unal and K. Kazmanli	117
Infrared Switching of Self-Heating VO₂/ITO Films for Smart Window Y. Liu, Z.J. Zhao, D.L. Li, J.B. Li, Y.J. Zhao and H.B. Jin	123

Chapter 4: Magnetic Measurements Methods for Electrotechnical Materials

Study on Control Method of Magnetic Flux Density Waveform in AC Magnetic Measurement	
N. Takita and K. Yun	135
Two-Dimensional AC Magnetic Properties of Electrical Steel Sheet with Two-Dimensional DC-Biased Magnetization	
H. Miyahara and K. Yun	141
Magnetic Flux Density under Single Harmonic Distortion	
M. Kaczmarek and E. Stano	151

Chapter 5: Materials and Technologies in Construction

Effect of Calcium Hydroxide Content on Pozzolanic Reaction of Calcined Clays: Their Mechanical Properties and Microstructures	
S. Suttikul, K. Ano and K. Pimraksa	161
Recycled Materials for Sound Absorbing Applications	
G. Ciaburro	169

Chapter 6: Materials Properties and Modeling

Effect of Detergent on Concrete prepared with Periwinkle shell as Coarse Aggregate	
M.C. Ogbodo and A.I. Akpabot	179
The Effectiveness of Basalt Fiber in Lightweight Expanded Clay to Improve the Strength of Concrete Helicoidal Staircase	
P.C. Chiadighikaobi, V. Jean Paul and C.K.S. Brown	187
Effects of Shear Deformation of Struts in Hexagonal Lattices on their Effective In-Plane Material Properties	
P. Suttakul, T. Fongsamootr, D. Vo and P. Nanakorn	193
Chemical Kinetics Modeling on Bio-Oil Production from Pyrolysis of Sugarcane Bagasse	
D.S. Fardhyanti, Megawati, H. Prasetyawan, N. Nabuasa and M.A. Ardianta	199
Optimization of Normal and Submerged FSP Parameters for Dissimilar Aluminium Joints Using Taguchi Technique	
V. Msomi and S. Mabuwa	207
