## Preface

## Chapter 1: Composites, Polymers, Ceramics

|                                                                                                                                                                                                      |     |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| <b>Effect of Temperature on Dynamic Characteristics of Carbon - Kevlar Fiber Reinforced Composites</b><br>D. Raviteja, V.V. Kamesh and S. Kunar                                                      | 3   |
| <b>Fabrication of Aluminium Hybrid Metal Matrix Composite Reinforced with Silicon Carbide and Graphite by Stir Casting Method</b><br>K. Sekar and P. Vasanthakumar                                   | 11  |
| <b>Optimization of Mechanical Performance for 3D Printed Kevlar and Carbon Fiber Composites</b><br>A. Tallam, S. Bollu, Y.S. Narayan and J.P. Kode                                                   | 23  |
| <b>Implementing Combinative Distance Base Assessment (CODAS) for Selection of Natural Fibre for Long Lasting Composites</b><br>S. Wankhede, P. Pesode, S. Gaikwad, S. Pawar and A. Chipade           | 41  |
| <b>Process Parameter Optimization of FDM 3D Printer Using PETG and Carbon Fiber PETG</b><br>S.S. Sunder and V.V.D. Sahithi                                                                           | 49  |
| <b>Hardness and Wear Behavior of Heat Treated Aluminium Silicon Alloy SiC Particle Reinforced Composite</b><br>K. Sunitha, K. Gurusami, N. Rajeswari, S.K. Abhishek, P. Naik and T. Natso            | 59  |
| <b>Failure Analysis in a Multilayerd Glass Fiber Reinforced Polyester Composite Plates under Flexural Loading</b><br>B. Veerappan, K.L. Gokulraju, S. Sreenivas and K.J. Nagarajan                   | 67  |
| <b>Analysis and Optimization of Machinability of Al<sub>2</sub>O<sub>3</sub> and Fly Ash Reinforced Aluminum Hybrid Composites Using Carbide Inserts</b><br>V. Veeranaath, M. Faiyaz and R. Shankar  | 83  |
| <b>Feasibility Study of Microwave Welding of Polypropylene Using Silicon Carbide Nanowhiskers as Microwave Susceptor</b><br>P.Y. Foong, C.H. Voon, B.Y. Lim, P.L. Teh and M.A. Rojan                 | 93  |
| <b>Study Thermal Resistance of <math>\gamma</math>-Al<sub>2</sub>O<sub>3</sub> at Various Reaction Temperatures via TGA Analysis</b><br>A.A. Bin Mokaizh, A. Hamid Nour, O.R. Alara and M. Abdulqawi | 101 |
| <b>Application of Composite Filament with the Addition of Metallic Powders in 3D Printing</b><br>A. Dzindziora, M. Sulowski and D. Dzienniak                                                         | 109 |

## Chapter 2: Metallurgical Processes, Properties and Processing of Structural Metals

|                                                                                                                                                                                                      |     |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| <b>Oxide Film Formation on Stainless Steel 304L by Anodizing Method with Different Power Sources</b><br>N.S. Azmi, M.N.B. Derman and Z. Che Daud                                                     | 117 |
| <b>Highly Accurate Structural Analysis of Austempered Ductile Iron Using EBSD Technique</b><br>P. Kejzlar, Z. Andrsava, M. Petrilkova, B. Skrbek, A. Duchac and D. Myszk                             | 125 |
| <b>Optimization of the Manufacturing Process of Sintered Fe-Mn-Cr-Mo-C Steels Using ANOVA</b><br>M. Sulowski, P. Matusiewicz and P. Kij                                                              | 131 |
| <b>Direct Production of Tin Bronzes from Copper and Cassiterite</b><br>R. Haubner and S. Strobl                                                                                                      | 137 |
| <b>Microstructure-Properties Characterization of Selective Laser Melted Biomedical Co-28Cr-6Mo Alloy</b><br>B. Efremenko, V. Zurnadzhy, Y. Chabak, A. Lekatou, P. Horňak, M. Vojtko and V. Efremenko | 143 |
| <b>Effect of Rare-Earth Doping on Dynamic Magnetic Properties of FeGa Alloy</b><br>V. Milyutin, Z. Birčáková, M. Fáberová, R. Bureš, P. Kollár and J. Füzér                                          | 149 |

|                                                                                                                                                                                                                                      |     |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| <b>Optimization of Raster Point Deposition Methodology for Deformation Analyses</b><br>A. Duchac and P. Kejzlar                                                                                                                      | 155 |
| <b>Formation of Alpha-Case Layer during Oxidation of Ti6Al4V Surface by Annealing at 1050 °C and Change of Microstructure after Different Cooling Rates</b><br>J. Belan, M. Uhrčík, L. Kuchariková, E. Tillová and L. Pastierovičová | 161 |
| <b>Study of the Properties of Dust from the Production of Prebaked Anodes for its Use as a Reducing Agent in Silicon Smelting</b><br>N.V. Nemchinova, A.A. Tyutrin and M.N. Dolgikh                                                  | 167 |

### **Chapter 3: Building Materials**

|                                                                                                                                                                         |     |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| <b>Safety and Reliability of Concrete Components in Water Supply and Disposal</b><br>Y.V. Vasilieva and V.M. Fedorov                                                    | 175 |
| <b>Investigation of the Use of Micronized Dunite Additive for Fine-Grained Concrete</b><br>S.G. Moskvitin, L.V. Moskvitina, A.A. Vasilyeva and G.D. Fedorova            | 183 |
| <b>Preparation of Wood Filler for Arbolite</b><br>N.P. Lukutsova, A.A. Pykin, E.G. Artamonova and O.N. Chernyshev                                                       | 191 |
| <b>New Thermal Insulation Materials from Waste of Mechanical Processing of Wood</b><br>A.A. Lukash, N.P. Lukutsova, O.N. Chernyshev and E.Y. Gornostaeva                | 197 |
| <b>Plywood for Construction Purposes on a Phenol-Formaldehyde Binder Modified with Hydrogen Peroxide</b><br>T.N. Vachnina, A.A. Fedotov, I.V. Susoeva and V.I. Deryugin | 203 |
| <b>Effect of Non-Functional Polyorganosiloxane Additives on the Hydrophysical Properties of Cement Systems</b><br>S.V. Vavrenyuk, V.G. Vavrenyuk and N.V. Kuznetsov     | 209 |
| <b>Molecular Dynamics Simulation of Structural Properties of Hydrated Tobermorite</b><br>Y.A. Abzaev, S.V. Korobkov and A.I. Gnyrya                                     | 215 |
