

# Table of Contents

## Preface

### **Wear Properties of Stainless Steel Lubricated by Cerbera and Rubber Seeds Methyl Esters under Boundary Lubrication Condition**

Z. Fuadi, R. Kurniawan, M. Dirhamsyah, S. Bahri, M. Muhammad, K. Kanda and K. Adachi 1

### **Adsorption of Iron (II) Ion by Using Magnetite-Bentonite-Based Monolith from Water**

I. Nurul, S. Yanna, Adisalamun, A.S. Veneza and Darmadi 10

### **GTA Welding Dissimilar of AISI 309 to AISI 201 Stainless Steels by Using AISI 308L Filler Metals**

Suherman, Ilmi, C.P. Sitompul, H.B. Kurniyanto and Suprpto 17

### **Mapping Corrosivity Steel Construction at Atmospheric Conditions in Langsa Town Center and Palm Oil Mill Industry**

Z. Muhammad, N. Ali, Husaini and M. Sri 25

### **Immobilization of Silver Nanoparticles on Chitosan-Coated Silica-Gel-Beads and the Antibacterial Activity**

M.I. Hidayat, M. Adlim, I. Maulana and M. Zulfajri 36

### **The Design of Reactive Powder Concrete (RPC) Mixtures Using Aceh Quartzite Powder**

Y.R. Alkhaly, Abdullah, Husaini and M. Hasan 43

### **Permanent Deformation and Fatigue of Semi Flexible Pavement Incorporating Waste Tire Rubber and Natural Zeolite**

Hamzani, Munirwansyah, M. Hasan, Sugiarto and Zulfhazli 51

### **Experimental Investigation of Making a Composite Material from Plastic (LDPE) Waste**

M.E. Arsana, I.N. Suamir, Sudirman, I.W. Temaja and I.B.G. Widianara 59

### **Influence of Rubber Content on Failure Mode and Resistance Characteristics of PC/ABS Blends and their ABS Constituents under Impact**

M.N. Machmud, M. Omiya, H. Inoue and K. Kishimoto 67

### **Failure Analysis of the Short Drive Shaft in a Screw Press Machine**

I.B. Muhammad, Husaini, N. Ali, A. Rauzatul and T.E. Putra 74

### **Comparison of Hardness and Microstructure of Cast Wheel and Spoke Wheel Rims of Motorcycles Made of Aluminum Alloy**

Husaini, N. Ali, A. Sofian and N.R. Muhammad 81

### **Failure Analysis of a Fractured Leaf Spring as the Suspension System Applied on the Dump Truck**

Husaini, R.H. Liza, N. Ali and S. Muammar 89

### **Flexural Resistance Analysis on Hot Asphalt Mixtures with Wire Mesh Placement Modeling as Reinforcement**

R. Ismy, Husaini, M.S. Sofyan and M. Isya 99

### **Failure Analysis on the Fracture Shaft of a Centrifugal Pump Used for Diesel Engine Cooling System**

W. Saiful, Husaini and N. Ali 107

### **Chromate and Molybdate Inhibitors Effects on Corrosion Characteristic of API 5L Grade B in a Brine Water Solution Containing 8 % NaCl**

V. Malau and W. Hakiki 115

### **Stress Analysis on an Automotive Coil Spring Driven on Flat, Uphill, and Downhill Road Surfaces**

H. Jagodang, Husaini, T.E. Putra and D. Schramm 124

### **Nanomagnetite Extraction from Iron Sand Prepared by Mechanical Alloying Method**

R. Adi, I. Ismail, Akhyar, J. Zulkarnain and H.G. Ariel 129

### **Bending Strength of Fiber Metal Laminate Based on Abaca Fiber Reinforced Polyester and Aluminum Alloy Metal Sheet**

M. Iqbal, M.S. Satrianda, T. Firsia, S.A. Azan and L.B. Abhang 134

### **Atmospheric Corrosion Analysis on Low Carbon Steel Plate Profile and Elbow in Medan Belawan District**

Affandi, I. Tanjung, A.R. Nasution, A.G. Harahap, S. Fonna, A.K. Ariffin and S. Huzni 142

|                                                                                                                                                                                                                                          |     |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| <b>Numerical Simulation of Physical-Mechanical Properties Based on the Composition of GTAW Weld Metal Alloys with Dissimilar Base Metals</b><br>Sugianto, Riswanda, H. Kadir, Akhyar, Aminur and F. Arman                                | 150 |
| <b>The Effect of Tool Rotation Speed on Hardness, Tensile Strength, and Microstructure of Dissimilar Friction Stir Welding of Dissimilar AA5083 and AA6061-T6 Alloys</b><br>A. Wahyudianto, M.N. Ilman, P.T. Iswanto, Kusmono and Akhyar | 159 |
