

Table of Contents

Preface, Sponsors and Committees

Chapter 1: Building Materials

Diffusivity Resistance of Concrete Systems in Chloride Rich Environment for Corrosion Protection of Embedded Steel Bars S.K. Al-Bahar, S.M.A. Salam and A.M. Husain	3
Lime-Crusted Rammed Earth: Materials Study C. Mileto, F. Vegas, F. Javier Alejandre, J.J. Martín and L. García Soriano	9
Flexural Strength of SHCC Panels Dependent on Fly Ash Type and Curing Condition J.W. Bang, J.H. Hyun, B.J. Lee, D.S. Joung and Y.Y. Kim	14
Influence of Blast Furnace Slag as Coarse Aggregate on Various Grades of Self Compacting Concrete R. Krishnasami and R. Malathy	18
Chloride Resistance of Concrete with Marine Blended Cement Using Corrosion Resistant Mineral Admixture J.Y. Bae, K.J. Shin, J.H. Hyun, Y.I. Jang and Y.Y. Kim	23
Suitability of Surface Water for Concrete Mix (Case Study of Kwanar - Are Reservoir, Katsina, Nigeria) B.I. Hamisu	27
Development of Dry Wall Panels Using Fly and Bottom Ash K.W. Kim, G.C. Jeong and K.S. Yang	32
SEM Investigation of the Structure of Ceramic Matrix Composite Produced from Iron-Ore Waste A.Y. Stolboushkin, V.N. Zorya and O.A. Stolboushkina	36
Experimental Study of Thermal Conductivity of Insulation Materials Made of Expanded Polypropylene, Ethylene-Vinyl Acetate Co-Polymer and Polyethylene Y.S. Jeong and K.H. Yu	40
AC Impedance and DC Galvanic Current for Monitoring Maturity of Cement Mortar and Rebar Corrosion A.M. Husain, S.K. Al-Bahar and S.M.A. Salam	44
Development of Dry Double Floor System and New Materials Used in Apartment Buildings K.W. Kim	49
Investigations of Vibration Based Condition Assessment of Timber Beams Strengthened with Fiber Reinforced Polymer R.H. Xiao, J.C. Li and R.J. Shrestha	53
Analysis of Absorption Coefficient for Eco-Friendly Acoustical Absorbers J.O. Yeon and K.W. Kim	58
Influencing Factors and New Developments of Fly Ash Based Geopolymer C. Si, Z.G. Yan and D.P. Xu	62
Investigation on Energy Absorption of Slab Foamed Concrete Reinforced by Polypropylene Fibre Subjected to Impact Loading A.A.A. Samad, J. Hadipramana, A.Z. Ahmad Mujahid and N. Mohamad	67
Brown Coal Fly Ash Concrete Mixture for Industrial Waste Containment M. Abdulsalam and A. Al-Arbeed	73
The Heaving Performance of the Graded Crushed Stone at Cold Region J.L. Tian, X.H. Zeng, Y.K. Yang and J.Q. Cheng	78

Chapter 2: Structural Engineering

Evaluation of Progressive Collapse of Special Steel Moment Frames A. Valadbeigi and M. Ghassemieh	85
---	----

Mitigation of Vertical and Horizontal Seismic Excitations on Bridges Utilizing Shape Memory Alloy System H. Aryan and M. Ghassemieh	90
Investigation into Central-Difference and Newmark's Beta Methods in Measuring Dynamic Responses B. Mohammadzadeh and H.C. Noh	95
Space Structure System Consisting 3D Facade Y. Kawamura and T. Hara	100
Load Carrying Capacity of Reinforced Concrete Arch Structure Considering Loading Condition T. Kirita, H. Mitsunaga and T. Hara	105
Seismic Evaluation of Base Isolated System Equipped with Shape Memory Alloys S. Alvandi and M. Ghassemieh	110
Structural Behavior of FRP Tunnel Lining T. Hara	115
Fundamental Analysis of the Ultimate Strength Characteristics of R/C Arch Considering Loading Conditions H. Mitsunaga, T. Kirita and T. Hara	120
Comparison of Wind Pressure Coefficients with Wind Load Provisions J.W. Lee, Y.B. Kong and S.W. Shin	124
The Prediction of Fatigue Damage Using Dynamic Characteristics for Steel Structures in 154kV Substation K.M. Lee, R. Li, L.Y. Chen, K.Y. Oh and K.S. Kim	129
Seismic Analysis of Concrete Conical Foundation for 5 MW Wind Turbine W.S. Kim, C. Jeoung, K.M. Lee and J.H. Lee	133
Nonlinear Finite Element Analysis of Diagonally Reinforced Coupling Beams with Head Bar Reinforcements K.M. Lee, L.Y. Chen, R. Li, K.Y. Oh and Y.S. Chun	137
Nonlinear Finite Element Analysis of U Shaped Steel Plate Reinforced Concrete Coupling Beams K.M. Lee, L.Y. Chen, R. Li, K.Y. Oh and Y.S. Chun	141
The Damage Assessment of Steel Structures Using FDD Method K.M. Lee, K.Y. Oh, R. Li, L.Y. Chen and K.S. Kim	145
The Analytical Study for Seismic Performance of Coupled Steel Plate Shear Wall K.M. Lee, K.Y. Oh, R. Li, L.Y. Chen and W.S. Kim	149
The Use of Recycled Aggregate in a Development of Reinforced Concrete Container as a Retaining Wall: Preliminary Study N. Mohamad, A.A.A. Samad, W.I. Goh, S. Suffian and M.T. Hizami	153
Sensitivity Parameter Analysis of Bearing Capacity and Ductility of Reinforced Concrete Columns with Z-Shaped Cross-Section J.T. Jiao and R.H. Yang	158
Free Vibration Analysis and Damage Identification of Beam-Like Structures Containing a Crack Based on the Extended Finite Element Method X.D. Zhang	164
Simple Formulae for Distortional Buckling Loads of Cold-Formed Thin-Walled Rack Members Upright with Rear Flange and Additional Lip Stiffeners J. Yao, T.T. Tang and B.X. Chen	170
Review of Research on the Seismic Behavior of Integral Prefabricated Prestressed Concrete Slab-Column Structure L.L. Wu, Y.C. Cui, R.B. Zhou, J.Q. Shi, P. He, L.P. An and Z.M. Guo	176
Comparison of Bearing Capacity of H-Shaped Members with Corrugated Web of Different Wave Forms L.L. Wu, K.F. Guo, B.D. Li, X.L. Fu, Z.J. Su, H.M. Wu and C.J. Zhou	181
Researches on High-Piled Wharf Cantilever Slab Cracking Causes and Reinforcement Measures X.P. Liu, Y. Han and H.B. Liu	186
Reviews of Cases of Construction Disputes in Malaysia and its Relation with Standard Form of Construction Contract S.N. Ting, S. Nadarajan and A. Whyte	191

Chapter 3: Architecture and Urban Planning

The Changeable Characteristics of Skin Construction and the Relation of Structure-Skin Y.K. Shin and D.S. Kim	199
Co-Authorship Networks in Asian Architecture Research Domains Y.K. Shin and J.B. Kim	204
Study on Bus Stops of Satellite Cities in China - A Case Study in Yanjiao L. Wang and C.Y. Li	208
A Study on Protection, Renovation and Styles Continuity of Historical Street - Taking the Center Street of Dingzhou City in Hebei Province as an Example L.M. Long, L.B. Zhao and Y.R. Guo	213
Analysis of Chinese City Endowment Facilities Research and Problems G. Yu, Y. Liu and S.W. Zheng	218
Gymnasium Natural Light Environment Optimization Design Oriented by Environment-Behavior Studies Y. Liu, G. Yu and S.W. Zheng	223
Detection of a Buried Fault in Yuxi Basin Using ERT: Implications to New Urban Planning of Yuxi City, Yunnan Province, China T. Zhu and J.G. Zhou	228
Evaluation Method Research on Vitality of Urban Leisure Space - Case Study of Chang Chun Culture Square F. Chen, J.Q. Lin, Y.S. Wang, Z. Yu and S.L. Tang	232
A Study on CO₂ Emission Reduction Planning in the Water Sector in Office Buildings H.G. Jung and S.W. Shin	236
A Study on the Availability of Taipei Social Rented Housing Policy - Examining the Taipei Social Rented Housing Policy from the Public Housing Policy in Taiwan Y.M. Chou and C.T. Liao	241
Study on Residential Quarters' Water Supply and Drainage Design of Expressway Service Area J.J. Zou and Q. Hu	245

Chapter 4: Environmental Engineering

Preparation of Adsorbent with Lead Removal Ability Using Sulfur-Impregnation T. Wajima	253
Mechanical Properties of Water-Permeable Concrete Using Coated Recycled Aggregates and Material for Performance Improvement Y.I. Jang, Y.Y. Kim and W.S. Park	258
Photocatalytic Efficiency for Dye Decolorization of the UV/TiO₂, UV/TiO₂ + In₂O₃ and UV/TiO₂-In₂O₃ Systems C.H. Wu, C.Y. Kuo, C.H. Lai and W.Y. Chung	263
Analysis on Calcination of Cementitious Powder of Waste Concrete for Raw Cement E.H. Kwon, Y.J. Lee, G.H. Cho and C.P. Dong	267
Impacts of Highway Snow-Melting Agents on Greening Vegetation X.H. Fan, Y.H. Wu and J.Y. Liu	272
Building Sensor Grid Architecture for Large-Scale Air Pollution Data Management Y.J. Ma, Z.J. Mei and X.C. Tian	276
Eco-Costs of Air Pollution on Construction Equipment: A Comparison of Different Emissions Reduction Measures L.Y. Zhang and S.L. Zhang	282
Highway Construction and Ecological Environment Protection: Corn Relationship and Key Principle X.C. Qin, Y. Shen, Q. Meng and D. Wang	287
Eco-Engineering Measures for the Sandy Side-Slope Protection of Newly Regulated Rivers in Humid Region S.H. Cai and X.W. Zhou	293

The Motivation and Restriction Mechanisms of Emission Trading in the Tai Lake Basin L. Qiu, S. Zhao and H.M. Wang	299
---	-----

Chapter 5: Geotechnical Engineering

Estimating the Elastic Settlement of Vertically Loaded Single Piles in Rock H.T. Eid and A.A. Shehada	307
3D Numerical Analysis of Centrifuge Tests on Embankments on Soft and Stiff Ground A. Sobhanmanesh, R.B. Nazir and N. Gofar	314
Failure of Geotextile-Reinforced Walls in Centrifuge Model Tests C.M.L. Costa, J.G. Zornberg and Y.D.J. Costa	321
Experimental Study on the Effects of Wetting-Drying Cycles of Compacted Loess Y.C. Mao, G.Y. Li, J.X. Lei, L.R. Zhang and Z.Y. Chen	326
Development of a Homogeneous Model Municipal Solid Waste R. Peng, Y.J. Hou, X.D. Zhang and Q.L. Sun	331
Study on the Correlation between Cone Resistance and Soil Density Using Centrifuge Robot CPT Q.L. Sun, Y.J. Hou, X.D. Zhang and R. Peng	336

Chapter 6: Road and Bridge Materials and Engineering

Analysis of Bursting Crack of Bottom Slab and Reinforcement for a Large Continuous Girder Bridge Z.Y. Jie, X. Wei and Y.D. Li	343
Identification of the Dynamic Load Supplied on Top Pier of High Speed Railway Bridge Y.P. Li and M. Yang	348
Effect of Contraction Ratio on Hydraulic Characteristics and Local Scour of Allotypic Hybridtype Flip Bucket T. Zhang, Q.L. Huang and Z.W. Wang	354
Dynamic Properties of Long-Span Steel-Concrete Composite Bridges with External Tendons W.A. Wang, Q. Li, C.H. Zhao and W.L. Zhuang	359
Fracture Analysis of Reinforced Concrete Bridge Structures with Account of Concrete Cracking under Steel Corrosion A.V. Benin, A.S. Semenov and S.G. Semenov	364
Risk Assessment of Construction Organization Plans for Bridge Projects Y.Q. Wang, G.Y. Bian and Y. Li	370
The Effects of Expansive Additive on Rapid Hardening Cement Grout for Semi-Rigid Pavement B.J. Lee, J.W. Bang, Y.I. Jang, S.S. Kim and Y.Y. Kim	376
Study of the Additional Anti-Corrosion Measures of Bridge Pier Caps Concrete in Beijing-Shanghai High Speed Railway C.C. Wang, Y.Z. Ye and T.C. Liu	380
The Study of High Temperature Performance of Asphalt Modified by Trinidad Lake Asphalt E. Yang and X.N. Zhang	387
The Research on Aggregate Microstructure Uniformity Image Processing of Asphalt Mixture Based on Computer Scanning Technology L.W. Zeng, S.X. Zhang and X.N. Zhang	393
Study Asphalt Mixture Damage Characteristics Based on X-CT Technology Z.Y. Wu, X.N. Zhang, H. You and C. Wan	401
Joint Displacement Evaluation of a Modular Road System W.S. Kim, S.B. Park, K.M. Lee, J.J. Song and S.Y. Lee	407

Chapter 7: Transportation Engineering

Multimodal Transportation Issues in Istanbul: A Case Study for Traffic Redistribution due to Long Span Bridge Rehabilitation M. Ilicali, N. Catbas, M. Kiziltas and A. Ongel	413
The Power Vehicle with Lateral Collecting Function - Right Direction of Electric Vehicles and Electrified Highway Y.P. Zhang and B.L. Liu	418
Effect of Shield Tunneling on High-Speed Railway Bridges under the Influence of Train Operations X.J. Wang and K. Xu	423
Fractal Characteristics of Mountain Cities' Traffic Flow Based on EMD and Multifractal L. Zhao, J. Cao and B. Mi	430

Chapter 8: Computer Technologies and CAD/CAE

Numerical Analysis of Triplet Shear Test on Brickwork Masonry J.Z. Wang, A. Heath and P. Walker	437
Enhancing Interoperability of Construction Data for Managing Integrated Active BIM Features H.S. Kim, B.N. Cho, H.S. Moon, K.B. Ju and L.S. Kang	442
Effects of Interactive Technology on Home-Based Rehabilitation for Chronic Stroke Patient C.Y. Lin and S.L. Hsien	446
Optimization of Interpolation Algorithm in Survey Calculation T. Yan, J.J. Li, X.B. Gao, X.F. Sun and S. Shao	450
Numerical Simulation and Analysis of Critical Velocity in Tunnel Fires Based on FDS S.H. Xu, L.F. Cui, L. Ning and Z.Y. Wang	455
Speech Emotion Recognition Based on EMD in Noisy Environments Y.Y. Chu, W.H. Xiong and W. Chen	460
Speech Recognition Algorithm Based on Empirical Mode Decomposition and RBF Neural Network W.W. Shi, W.H. Xiong and W. Chen	465
Deformation Analysis of Asphalt Mixtures with Digital Image Correlation Method K. Li, D.Y. Wang, J. Li and X. Cai	470
Numerical Analysis on Failure Modes of Steel Frame under Fire Combined Blast Loads S. Yan, L. Yang and X.L. Jiang	476
Development of the JSP Basic Knowledge Learning Software J.Y. Zhao and H. Guo	481
Research on Algorithm Optimization of Hidden Units Data Centre of RBF Neural Network J.Y. Zhao, H. Guo and X.N. Li	486
Design and Implementation of a Face Location and Five Sense Organs Marking Software J.Y. Zhao, X.D. Duan and H. Guo	490
A Grey System Theory in Construction Industry Default Prediction W.H. Huang, H.P. Tserng, P.C. Chen and M.D. Nguyen	495
2D Simulation Flue Implementing the Lattice-Boltzmann Method D.B. Ruiz, A.A. Mesa and R.G. Alvis	501
Evaluation the Drainage System of Residential Area Based on Dynamic Wave Routing Algorithm X.M. Zhang, G. Li and R.F. Zhang	506
Design and Realization of Dai Writing Online Dictionary H. Guo, J.Y. Zhao and X.N. Li	511
