

Table of Contents

Preface and Conference Organization

Chapter 1: Structural Engineering

Analyzing Fracture Behavior of Beam-Column Joints Using Micromechanical Fracture Models	
C. Zhang, Y.P. Sun, J.T. Zhang and Y. Gu	3
Calculation and Analysis for Limit Bearing Capacity of Steel Tube Reinforced Short Column Piers by Limit Equilibrium Method	
J.S. Liu, B. Qiu and Y.J. Qian	8
Collapse Reason Analysis of a Steel Truss Building under Snow Disaster	
H.X. Guo, L. Chen, D. Yang and H.Y. Tang	13
Comparative Study of the Loads Acting on the Operating Cardanic Transmission in the Closed and Open Loop Configurations	
E. Avrigean	17
Comparison of Stability and Deformation Performance of Cable-Braced Grid Shell with Different Section Forms of Steel Tube	
Z.Y. Zhang, X. Zhao and H.Y. Wei	25
Corrosion Protection Technology of Steel Structure in Marine Environment	
X. Gao, L.Z. Guo and J.B. Xiong	29
Damage Identification of Space Truss Structure Based on Strain Modal and Wavelet Transform	
W.R. Liu, Q.L. Li and H.L. Yue	33
Degradation Mechanism of Reinforced Concrete Beam Subjected to Fatigue Loads and Seawater Erosion	
Z.J. Liu, B. Diao and X.N. Zheng	38
Detection Indicator of Structural Nondestructive Damage Based on Flexibility Curvature Difference Rate	
C.S. Xiang, Y. Zhou, S.K. Di, L.X. Wang and J.S. Cheng	46
Discussion about the Development Principles of Reinforced Location Test Instrument Calibration Components	
Z.Y. Ren, H. Huang, L. Liu and J. Liu	53
Durability Design of Marine Concrete Structure Considering the Influence of Load	
J.B. Xiong and C.L. Deng	59
Dynamic Analysis of Concrete Frame Structure with Story-Adding Steel Structure at the Top	
X.H. Sun, L.P. Xie and F. Ji	65
Dynamic Nonlinear Analysis of Semi-Rigid Steel Frames Based on the Finite Particle Method	
Y. Yu, L. Jin and P. Xia	71
Effects of Silica Fume on Concrete Compressive Strength	
H.X. Li	78
Evaluation on Dynamic Responses of Transmission Lines Subjected to Wind Excitations	
P.Y. Li, B. Chen, W.P. Xie and H. Liu	82
Experiment Research on Seismic Performance of Framework Joint Connected with Strengthening Planting Bar	
L.J. Song, Y.G. Liang and L.F. Shi	88
Experimental Research on Behavior of Axially Square CFRP Steel Tubular Confined Recycled Aggregate Concrete Long Columns	
J.F. Liang, P.H. Yi and J.B. Wang	93
Experimental Research on Behavior of CFRP Circular Steel Tubular Confined Recycled Aggregate Concrete Columns under Axial Compression	
J.F. Liang, Z.P. Yang and M.H. Hu	96

Experimental Research on Seismic Performance of PHC Pipe Piles Y.F. Li, P. Liu and J.X. Zhang	100
Experimental Study of Seismic Performance of Precast Fabricated Integration Shear Wall X.M. Zhai and W.B. Hu	105
Experimental Study on Seismic Behavior of Masonry Walls with Window Openings Strengthened with Sprayed GFRP C.F. Sun, C.M. Chen and Q. Gu	113
Experimental Study on the Concrete Performance Corroded by Different Salts under the Condition of Freezing-Thawing Cycles X.P. Su and T.T. Wang	118
Experimental Study on the Hysteretic Performance of H-Beam to Square Tubular Column Connections with Diaphragm-Through X. Wan, C. Li and Z.M. Liu	122
Experimental Tests of Historic Bent Timber Elements Reinforced with Steel Hoop and Mortise-Tendon Joint H.M. Li, H.X. Qiu and Z. Zhao	129
Failure Mechanisms of Stone Masonry Dome T. Hara and K. Hidaka	133
Finite Element Analysis of Sheet Pile Wharf with Separated Relieving Platform J.J. An, X. Chen and F. Wu	137
Finite Element Analysis on Impact Factors of Castellated Steel Reinforced High Strength Concrete Beams E.C. Meng, W.X. Zeng, X.L. Qiu and Y.S. Su	141
Fire Test on Two-Way Slab with Two Edges Clamped and Two Edges Simply Supported Z.N. Yang, Y. Zhang and Y. Lei	148
Fracture Analysis of Welded Steel Connections in Pre-Crack Condition Y.C. Feng, Y.P. Sun, J.T. Zhang and S.S. Yu	152
Free Vibration Analysis of Two Types of Conical Springs G.C. Jin and H. Liu	157
Influence of Concrete Age on Compressive Behavior of FRP-Confined Concrete J.C. Lim	162
Influence of Fly Ash to Concrete Protecting Steel Corrosion Ability Q. Yang and X.E. Zhu	169
Influence of Prestress on Axial Compressive Behavior of High-Strength Concrete-Filled FRP Tubes T. Vincent	173
Modal Analysis of a Wind Turbine Tower Based on the Finite Element Method H.Z. Shan and Z.H. Liu	179
Nondestructive Test Method for Cement Grouting in Corrugated Pipe Based on Systemic De-Convolution Technique Y. Chen, Q.B. Han, J. Cheng, H.H. Fan, C. Yin and C.P. Zhu	183
Numerical Analysis and Experimental Research on the Element-Length Error Sensitivity of the Cable-Bar Tensile Structure L.M. Chen, X.G. Ye, Y.Y. Zhou and Y.H. Cui	187
Numerical Analysis of Damage of Precast Reinforced Concrete Structural System Caused by the Effects of Temperature Changes P. Tej, J. Čech, J. Kolísko and P. Bouška	192
Numerical Analysis on Mechanical Properties of Beams Reinforced by CFRP Laminates N. Zhuang, H.D. Sun and S. Ge	196
Numerical Analysis on Performance of Steel Frame Combined Node with Web Openings X.X. Jia, X.S. Deng and B. Li	201
Numerical Simulation of Joint between Concrete-Filled Square Steel Tubular Column and Steel Beam on Seismic Behavior N. Li and D.N. Zhang	207
Reinforced Concrete Frame Structure Dynamic Analysis Based on SAP2000 J.F. Zhong, Z.P. Fan, L.L. Zhan and J.W. Liang	211
Reinforced Concrete Structure of the Puppet Theatre in Ostrava R. Čajka, K. Burkovič, P. Mateckova, D. Sekanina, M. Stara and A. Jurcikova	217

Reliability Analysis of Composite Laminate Structures by Moving Kriging Interpolation Response Surface Method	222
W. Zhao, Y.Y. Chen, Q.W. Yang and X.Y. Li	
Reliability Analysis of Saddle-Shaped Cable Structure	226
B. Li, Z.S. Liu, J. He and R.L. Xu	
Research Advances in Concrete Filled Steel Tube Connection Device	230
H.W. Ren, J.F. Tian and Q.M. Li	
Research on Application Issues of Structural Health Monitoring System Based on Optical Fiber Sensing Technology	235
F.Y. Meng, L.M. Jia, X.H. Shen and J.W. Dong	
Research on Design and ANSYS of Joints between Steel Beams and Reinforced Concrete Columns	244
X. Chen	
Research on Dynamic Responses of a Transmission Tower under Monsoon Wind	248
W.P. Xie, B. Chen, P.Y. Li and X.F. Gong	
Research on Improved Method of Wind Turbine Airfoil S834 Based on Noise and Aerodynamic Performance	253
Y.Q. Chen and Y.F. Fang	
Research on Strengthening Methods of Traditional Timber Structural Dwellings in Shennongjia Region	259
J. Huang and S.P. Wang	
Review on High Strength Steel Bolted End-Plate Connections	265
X.Y. Wang, Y.F. Luo, X.H. Qiang and X. Liu	
Review on Shear Connectors in Timber-Concrete Composite Beams	274
L.P. Chen, G.J. He and H.Z. Xiao	
Seismic Behavior of Coupled Eco-Composite Wall	279
L.N. Hou and B.J. Wen	
Shear Capacity Research on Transversely Reinforced Concrete Beams	283
C. Liu	
Shear Performance of FRP-Retrofitted Masonry Wall with Structural Columns	288
Z. Lei, Y. Wang and J.T. Qu	
Solution of Statically Indeterminate Beam with Straight Axis by Section-Conversion Method	292
X.J. Yu	
Static Analysis of Mega Steel Frame-Cable System Bracing Structure	298
S.Q. Yang, J.H. Cai, J. Chen and B.J. Tang	
Stiffener Design and Analysis of SPSW Adapted to Bi-Directional Loading	304
Z.J. Li, G.P. Shu, J. Zhang, L.H. Tan and J.L. Lu	
Study on Buckling of Two Kinds of Thin-Walled Steel Members with Imperfection	309
P. Niu, H.T. Wang, C.F. Jin and Y. Guo	
Study on Dynamic Responses and Reinforcement of Reinforced Concrete Columns Subjected to Blast Loading	315
H. Du and C.H. Liu	
Test Analysis of Stiffened T-Stub Connections	319
C.C. Dong and W. Zhao	
The Design and Mechanical Properties Research of Stretching and Anchoring Integrated Anchorage for Prestressed FRP Reinforcing Steel Pipeline	323
Y. Lu, Y. Zhang, B. Jia, C.Y. Liu and C. Deng	
The Force Characteristics of Three-Hinged Arch with Non-Uniform Loads and its Reasonable Arch Axis Calculation	327
Y.P. Wu, R. Yan and P.S. Xie	
The Longitudinal Seismic Analysis of Single-Story and Single-Span Gabled Frame Structures	335
H.D. Ran, L. Chen and Y.M. Ma	
The Research for Mechanical Properties after Fire of Concrete-Filled Steel Bridge Piers under Axial Loads	340
X. Wang	
The Structural Nonlinear Damage Detection Based on Linear Time Series Algorithm	345
L.J. Chen, L. Yu and T. Xiao	

The Unified Calculation Model for Shear Capacity of RC Slabs Z.G. Lu and X.X. Wang	351
Wall-Frame and Hollow Shear Wall Structural System and its Application Y.L. Wang, M.X. He and X.J. Zhou	356
Performance Evaluation of a Transmission Tower Subjected to Base Settlement Y.J. Wu, Q.D. Meng and G.J. Wang	361
Damage Localization for a Continuous Beam by the Displacement Variation J.W. Zhu, D.T. Zhou and Q.W. Yang	366
Analysis on Local Stresses in Anchorage Zone of a PC-Box Girder R.D. Li and H.R. Yu	370
Calculation and Numerical Simulation of the Torsional Problems of Hollow Floor's Boundary Beam Y. Zhang, X. Wei and Y.M. Chen	374
Calculation Method of Ultimate Punching Bearing Capacity of Unbonded Prestressed Concrete Slab Z.L. Zhou, F. Wang, K. Zhao, T. Liu and Y.N. Zhang	378
Comparison of Experimental Tests of Foundation Slabs V. Buchta, J. Hurta and R. Fojtik	383
Experimental Research on Flexural Behavior of Self-Repairing Concrete Beams Applied to Seaport Wharf X.Y. Cheng, Z.B. Wen and Y. Gao	387

Chapter 2: Geotechnical Engineering and Geological Engineering

Land Uplift in CO₂ Geological Storage Projects Z.W. Yu, Y.J. Zhang and P. Gao	395
3D Simulation Analysis of Sedimentation of Superhigh Fill B.H. Song, J.C. Yang, Q. Chen, J.H. Chen and D. Li	400
A New Method for Determining Thickness of River Incision Layers in High Mountain and Deep River Valley Areas Y.Q. Liu, H.B. Li, Q.T. Pei and J.S. Liu	407
A Pile Foundation Problem: Collapse of Soil in Pile Bore Holes M.Z. Yin	413
Advances in Drainage Consolidation Theory of Soft Ground B.B. Xu	417
Analysis between Water Contain and Lithology Q.M. Zhang, J.T. Tang and H. Ma	422
Analysis of Shear Test for Jointed Rock Sample Using DDA Method S. Yu, W.S. Zhu, H. Zhou and D.F. Zhang	426
Analyzing on Bearing Performance Influence Factors of Step Cross-Section Pipe Pile J. Liu, F.A. Huang, Q.G. Yang and B. Cui	432
Application of Damp Newton Algorithm on FEPG Platform S.W. Hou, Y.F. Zhang, J.H. Qu and X.L. Du	437
Application of Grouting Technology in the Geotechnical Engineering Q.Q. Miao, Q.Q. Zhu and S.P. Jiang	442
Application of Water-Proof Curtain with High-Pressure Injection Concrete Piles in Foundation Pit Q.C. Gao, Z. Yang, H.B. Wang, H.L. Fu, R.B. Zhou and D.C. Feng	447
Comparative Analysis of Overburden Strata Movement in Fully Mechanized Top Coal Caving Mining in Entire (Sub) Layer of Ultra Thick Seam Y.P. Wu, H. Zhang and P.S. Xie	451
Construction Technology of Rigid-Flexible Composite Piles for Reinforced Thick Overburden and Deep-Buried Soft Soil X.Q. Wang, Y.L. Cui, J.F. Liang, S.M. Zhang, Y.Q. Tan, Y.F. Guan and G.H. Gu	459
Damage Mechanism Research of Yushu Airport Road Landslide No.3 Base on Elastoplastic Damage Constitutive Model H.G. Wu, T. Yang, X.Y. Chen, H.M. Ma, H.L. Zhang and J.D. Zhang	464

Determination of Parameter in SYS Cam-Clay Model of Ultra-Soft Clay B.B. Xu and T. Noda	470
Distribution Characteristics and Influence Factors of Soil Arching Ring behind Stabilizing Piles Y.J. Shen, M. Yang, H.H. Cui, Z.L. Xiang, Y.Z. Li and K. Wen	474
Evaluation of Pile Application for Slopes on Bedrock Stability M. Bakri, Y.Y. Xia, C.S. Chen and H.B. Wang	479
Experimental Research on Engineering Properties of Natural Coarse Saline Soil as the Subgrade Filler Q.M. Zhang, J.T. Tang and H.B. Deng	485
Experimental Study of Remoulded Soil Properties Based on Freezing and Thawing Cycle J. Li, Z.N. Jiang and J.W. Li	490
Experimental Study on Strength Characteristics of Lime - Basalt Fiber Reinforced Expansive Soil X.S. Zhuang and X.Y. Yu	495
Geotechnical Properties of Clayed Soils in Mixed Marine and Terrestrial Deposit Y.H. Liu	499
Grouting Improvement in a Mined-Out Area under Tangshan-Tianjin Expressway, China L. Gao and H.S. Mu	505
Influence on Stress and Strain of High Embankment Dams Caused by Different Reservoir Filling Path Z.Q. Huang, X.C. Huang, J.C. Jia and J.H. Tao	510
Load Conversion on Inclined Plane Foundation Y. Man and W.F. Zheng	514
Load Transfer Mechanism of Setp Cross-Section Pipe Pile J. Liu, B. Cui, Q.G. Yang and F. Huang	518
Mawei to Jiaou Highway Karst Subgrade Survey and Comprehensive Evaluation Technology Research H.X. Chen	522
Method of Estimating the Foundation Settlement under Different Working Conditions through Settlement Measurement A.M. Liu and A.J. ZhuGe	527
Model Tests Research on Extruding Soil Caused by Close-Mouth Step Cross-Section Pipe Pile Q.G. Yang, J. Tian, J. Liu and Y.H. Wang	531
Nonlinear Finite Element Analysis for Stress and Deformation of CFRD S.Y. Ding, Z.Q. Huang and S.M. Yu	536
Numerical Analysis on the Excess Pore Water Pressure of Pipe-Pile with Hole during the Static-Sinking Pile K.L. Chen, J.B. Lei and Z. Liu	540
Numerical Simulation and Design Optimization of Anchor Bolt-Sash Girder Support for Expansive Soil Cutting Slope H. Zhang, G.J. Sheng and W.Q. Wu	547
Numerical Study of Unsaturated Expansive Soil Canal Slope Covered by Geo-Membrane W.Q. Wu, J.H. Chen, H.Y. Zhang and J.H. Wu	551
Research on Construction Technology of Embankment Widening of Waterside Cantilever High Retaining Wall X.Q. Wang, Y.L. Cui, S.M. Zhang, J. Qin and Z.J. Zhou	555
Research on Construction Technology of Three-Dimensional Reinforced Rigid-Flexible Composite Ecological Retaining Wall X.Q. Wang, Y.L. Cui, S.M. Zhang, J.G. Ge and X.F. Wu	560
Research on Integrative Construction Technology of Pile Peripheral Cemented Soil Reinforced Cast <i>In Situ</i> Concrete Stiffness Core Pile X.Q. Wang, Y.L. Cui, J.F. Liang, S.M. Zhang, H.G. Wu and X.B. Wu	565
Research on Security Risk Assessment System of Soil Slope Based on AHP W. Zhan, H. Lin and Z.L. Li	570
Research on the Large Size Loading Plate Test of Underwater Sand Compaction Pile Composite Foundation J.F. Hou, J. Yu and X.W. Xu	574

Simulation of Excavation Process for Deep Foundation Pit Base on Nonlinear Finite Element Theory	
H.M. Wang, Z.J. Ji, L. Cao, J. Yao and S.G. Qian	579
Slope Stability Analysis by Peridynamic Theory	
X. Lai, L.S. Liu, Q.W. Liu, D.F. Cao, Z. Wang and P.C. Zhai	584
Slurry Improvement by Direct Drainage Vacuum Preloading Method	
Y.Z. Bai, J. Chen and B. Cheng	589
Stability Analysis of Dam Slope by Double Safety Factors of Dynamic Local Strength Reduction Method	
Y. Meng	593
Stability Analysis of Unsaturated Expansive Soil Slope Covered by Geo-Membrane	
H.Y. Zhang, J.H. Chen, W.Q. Wu and J.H. Wu	597
Statistical Analysis of Excavation Model of the Loess Landslide Developmental Characteristics	
D.Q. Tang and J.B. Peng	601
Study of Thermal Stress of Steel Slag Foundation	
T. Wang	606
Study on Settlement after Construction for the High Loess-Filled Embankment	
Y. Hu, Y.W. Ju, W.Z. Wang and X.M. Zheng	613
Study on the Effect of Admixtures on the Strength of Stabilized Sludge Soils	
K.X. An, Y.X. Chen, R.Q. Lou and M.J. Wu	617
Study on the Mechanical Property and Failure Model of the Granite Rock under Dynamic Loadings	
B. Zhang, T.F. Bi and M. Yu	621
Study on the Strength Characteristics of Sludge Solidification	
Y.X. Chen, K.X. An, K.X. Zhou and C.H. Xu	628
Study on the Vertical Acceleration Effect on Slope Stability	
H.G. Wu, T. Yang, Z.W. Xue, H.M. Ma, H.L. Zhang and J.D. Zhang	632
Subgrade Design and Construction Technology for Saline Soil Area	
B.H. Song, C. Han, J.H. Chen, X.L. Shan and C.Y. Wang	641
Supporting Measure and the Effect Evaluation of the Unstable Foundation Pit	
S.Y. Han, J. Xiong and Y. Zhang	647
Technique Research on Test of Surrounding Rock Releasing Ring in Crushing Roadway Sight Method	
S.L. Li, T.Y. He, Y.Q. Zhang, X.P. Li and S.D. Ye	652
The Characteristics and Construction of CFG Pile Composite Foundation	
S.Q. Cao, M. Yang and X.F. Xin	656
The Creep Behaviour of Salt Rock Gas Cave under Cyclic Mining and Injection Pressure	
Z.Q. Huang, Y. Zhao and A.M. Wang	660
The Experimental Study of Filling Mortar and Stones Construction Technology	
G.H. Jiang and Y.Q. Li	665
The Microcomputer of Soil Shear Strength Measurement	
Y.W. Xu, Q. Li, P. Hu, N.Y. Shentu and Q.Y. Peng	673
The Shear Dilation and Shear Band of Coarse Grained Soil Based on Discrete Element Method	
Z.H. Zhang, G.D. Zhang, X.L. Li and Z.H. Xu	679
Trend Surface Analysis Method Applied in Coal Seam Structure in ZhuJiaHe	
X.C. Xue and Z.Q. Wang	686
Type of Slope Failure Identified from Pore Water Pressure and Moisture Content Measurements	
M.R. Hakro and I.S.H. Harahap	690
Uncertainties of Shear Strength Parameters of Soil Reinforced by Plastic Waste	
G. Nguyen, E. Hrubesova, J. Maršálek, T. Petřík and M. Mohyla	695
Stress and Strain Analysis of Waste Dam and Stability Analysis of Landfill	
L.H. Liang, S.L. Kuang and Z.J. Diao	702
Influence Analysis of Dam Stress and Displacement Caused by Stiffness Degradation and Mass Loss	
J.F. Zhong, L.L. Zhan, J.W. Liang and Z.P. Fan	706

Effects of Water Cement Ratio on Workability and the Uniaxial Compressive Strength of Zhong Guan Iron Ore's Filling Body	
Y. Zhang, B. Liu, Z.F. Li, B. Liu, Y.Q. Zhang and B. Chen	712

Chapter 3: Bridge Engineering

A Comparative Study on the Economic Characteristics of the Extradosed Cable-Stayed Bridge and Cable Stayed Bridge	
F. Xiong and C.C. Chen	721
A Parameter Estimation Method for Bridges Based on Field Measured Influence Lines	
S. Zeng, X.W. Ma, C.H. Dong and W. Yan	726
Analysis of Solid T-Pier Dynamic Response to Debris Flow	
Z.Y. Xiu, M.J. Zhang, C. Zhang and Y. Hong	739
Application of Analytic Hierarchy Process in Bridge Safety Comprehensive Evaluation	
J.L. Wang	744
Assessment on Thermal Displacement of a Cable-Stayed Footbridge	
F. Xia, Y.H. Bai, B. Chen and X.F. Fan	749
Bending Behavior of Glass Fiber Grid Reinforced Gussasphalt	
B. Gao, M. Wang and Z.H. Hao	754
Detailed Numerical Analysis for Overturning of Concrete Box-Girder Bridges with Single-Column Piers	
K. Cheng, G.B. Tang and K. Shen	758
Estimation and Optimization of Cable Force in Completion State of Cable-Stayed Bridge	
X. Wu and B.L. Li	763
Experiment Research on Key Performance Indexes of Synchronous Gravel Water-Proof Adhesive Layer for Bridge Deck Pavement in Seasonal Frozen Region	
C.L. Shi and H.B. Liu	767
Influence of Longitudinal Cracks in Bottom Flange of Concrete Continuous Box Girder	
L. Chen and G.B. Tang	773
Key Technology Study for Widened Continuous Hollowcore Slab Bridge	
K.K. Peng	779
Mechanical Analysis and Economic Research of RPC Beam Bridge	
X. Peng, J. Yang and J.S. Wang	784
Mechanical Properties of the Section from Steel Tube-Reinforced Concrete Pier	
Z. Wang and X.X. Wang	789
Nonlinear Seismic Response Analysis of Cable-Stayed Bridge under Uniform and Traveling-Wave Excitations	
K.Y. Xu	793
Reliability Analysis of Pre-Stressed Concrete Continuous Girder Bridges Using Cantilever Construction on Different Codes	
F.K. Cui, X.C. Luo and F.H. Dong	799
Research in Destruction of Concrete Bridge Expanded Joint Influenced by Temperature Difference	
X. Lei, Y. Yao, S. Cao and Z.G. Guo	803
Research of the Control of the Vibration Caused by Human in Long-Span Terminal Aerobridge	
Q. Wang, Z.Q. Zhang, K. Yang, C. Zhou and D.P. Xia	807
Research on Reasonable Strengthening Time for Hinged Joints of Hollow Slab Bridges Based on Relative Displacement Method	
B. Zhou, K. Cheng and K. Shen	816
Research on Temperature Effects of the Pre-Stressed Concrete Box Girder Bridge	
Y.X. Fu	821
Stress Analysis of Simple-Supported Box Girder Deck Pavement under the Effect of Concrete Cushion	
H. Wang and F. Han	827
Study on the Effect of Fly Ash Mix Amount in Large Volume Pile Cap Concrete on Heat of Hydration	
H.L. Wang and X.D. Zhang	832

The Key Measures on Safety and Linear Control in Catwalk Erection M. Liu, G.B. Xia, L.J. Liu, Y.R. Chen and X.Y. Zhang	837
Analysis on the Lateral Creeping of a Curved Concrete Girder Bridge J. Tu, X.W. Yi, Q.M. Wu and R.J. Jiang	845
Detection and Evaluation of Ling Bridge in Ningbo B.S. Zhang and J. Xu	850
Numerical Simulation of Mechanical Behavior in Pier Formwork Problem H. Li, W.G. Shang, D.N. Liu, W. Wang and X.Y. Hou	855
Solid Finite Element Analysis on close Frame of Airport Project Q.J. Teng	860
Research for the Structure System of Curved Wide Extra-Dosed Cable-Stayed Bridge J.R. Peng, J.B. Luo and J.G. Mu	864

Chapter 4: Earthquake Engineering

An Evaluation Method of Structural Redundancy under Earthquake Action N.H. Zhu, X.H. Zhao, D. Huang and B. Zhu	873
An Improved Stochastic Finite-Fault Method Based on Energy J.F. Zhong, J.W. Liang, Z.P. Fan and L.L. Zhan	878
Influence of Spatial Variability of Seismic Shock on Steel Hall with Experimentally Determined Elasto-Plastic Parameters of Steel Material D. Jasinska, J.M. Dulinska and P. Boron	884
Seismic Analysis of High Pier Three-Span Continuous Bridge X. Wu and Y.L. Zhang	890
Seismic Hazard Assessment of Hengshui Area by the Modified Stochastic Finite Fault Modeling B.Y. Liu, W.H. Shen and B.P. Shi	894
Seismic Performance of Reinforced Concrete Bridge Including Effect of Vertical Motion H. Lin and Y. Song	898
Seismic Performance of the Masonry Buildings with Frame at the Bottom Equipped with the New Hybrid Damper X.H. Sun, X.D. Liu, Y.J. Fan and S.J. Ding	905
Seismic Response Analysis of Liaocheng Guangyue Tower Z.B. Meng, G.D. Qiao and J. Jin	911
Study on the Seismic Performance of the Tibetan Diaolou in Golog of Qinghai M.J. Zhang, Y.A. Shi, L.X. Liu and H. Guo	915
The Dynamic Characteristics Analysis of Liaocheng Guangyue Tower Z.B. Meng, Y. Cao and J. Jin	920
Transverse Seismic Performance Index System of Urban Mass Transit Underground Structures Z.F. Dong, F.L. Li and Q.M. Kong	924
Study on the Sluice Dynamic Characteristics under Concrete Cracking Condition Y. He, L.J. Liu, X.J. Wang, Y.J. Bie and S. Qiang	932

Chapter 5: Tunnel, Subway and Underground Facilities

A Simplified Model for Stress Analysis of Tunnel Surrounding Rock with Confinement W.B. Qiu, Y.Y.Y. Cao, Z.G. Jiang and C.M. Meng	939
Analysis of Pipe Settlement Based on Numerical Simulation J. Guo, P. Xia and S.S. Shen	944
Comparative Analysis of Ground Settlement Caused by Two Kinds of Tunnel Excavation Method C.F. Yuan, H.B. Hang, J.C. Wang and Z.J. Yuan	948
Data Analysis and Evaluation to Water-Sealed Underground Storage Cavern Water Curtain Efficiency Test J.H. Liu, S.N. Huang and G. Chen	956

Engineering Characteristics of Talus and its Influence Imposed on Tunneling X.Y. Jiang and Y.P. Xu	962
Excavation Simulation of Tunnel with Loess-Rock Belt Geological Condition H.T. Niu	966
Numerical Analysis and Spot-Survey Study of Horizontal Artificial Ground Freezing in Tunnel Connecting Passage Construction F.T. Yue, S.G. Lv, R.J. Shi, Y. Zhang and L. Lu	969
Numerical Analysis of Tunnel Running through Bridge Pile Foundation J.K. Li and D.J. Tang	978
Study on Effect of Blasting Vibration on Surface of Particles in Urban Hard Rock Tunnel Y.M. Han, Y. Zhou and H.L. Wang	982
Surface Settlements Caused by Three-Bench Seven-Step-Excavation of Large Span Twin Tunnels L. Yan, J.S. Yang and K. Nan	988
The Influence Analysis for Yushiling Tunnel Blasting Impact on Dam X.W. Wu, G.F. Wu and C.F. Deng	992
The Study on Safety Management of Drilling-Blasting Metro Station Construction Based on OWA Operator and Gray Theory J.X. Zhao, M. Liu and F. Li	997
The Subway Engineering Risk Assessment Based on Fuzzy Comprehensive Evaluation W.L. Zhang, J.B. Wang and M.J. Song	1001
Vibration Propagation Law in Different Areas of Tunnel Face Caused by Blasting J.J. Shi, L. Xue, Q. Zhang and H.L. Meng	1005
Analysis and Control of Layer Deformation Induced by the Densely Arranged Large Diameter Underground Steel Tubes Jacking with NTR Method C.F. Jin, P. Niu, Y.S. Zhao and X. Wang	1010
Numerical Simulation of Mould Plate Trolley by ABAQUS H. Li, W.G. Shang, D.N. Liu and W. Wang	1015
Mathematical Model of Seismoexplosion in Tunnel Surrounding P. Svoboda and A.N. Kravtsov	1021
Numerical Simulation Study on Technology of the Top-Down Bored Excavation with Cast-In Situ Arch Z.R. Wang	1027
Numerical Simulations for Bending Moment Distribution on Linings of Tunnel Excavated by Shield Z.C. Shangguan, S.J. Li, L.J. Cao and H. Li	1033

Chapter 6: Hydraulic and Hydrodynamics Engineering, Water Supply and Drainage Engineering

A Simplified Formula to Calculate the Initial Value of Iteration for Contracted Depth in Quadratic Parabola Shaped Channels H. Wen and F.L. Li	1039
A Study of Equivalent Manhole in Streets-Sewers of Urban District Instead of Roadside Water Exchange by the SWMM Model K.H. Cheng, C.H. Lin, C. Chao, P.C. Cheng and Y.W. Chen	1045
A Study on the Evolution of Distributary Channels in River-Dominated Deltas Using Numerical Simulations of Hydrodynamic Behaviors Y.J. Wang, T.J. Yin and Z.H. Deng	1050
Based on Numerical Simulation of the Water Conservancy Hub Two-Way Flow under the Condition of Lock Approach Guide Wall Type Optimization Research X.L. Yang, K. Wu, W.C. Fang, L.H. Wu, M.D. Li, L. Yue and Q.J. Zhang	1056
Development of One Dimensional Numerical Model on Large Water Diversion System C. Zhang and L. Zha	1062
Experiment Study on Sediment Control and Sediment Discharge of Lake-Type Reservoir on Sediment-Laden River X.L. Yang, W.C. Fang and L.H. Wu	1066

Experimental Study on Treatment of MBR Effluent of SODO™ Catalytic Ozonation Technology	
Q. Huang, H.H. Li, C. Gao, Y.F. Yuan and F.P. Hu	1073
Finite Element Analysis of the Soil Pressure in Sandy Soil at the Top of Pipe Culvert	
Q.Y. Cheng and Y.G. Li	1077
Harmonious Allocation Model of the River Diversion Standard under Synchronous Construction of Hydropower Stations	
J.P. Xue and Z.G. Hu	1082
Influence Experiment for the Spacing Distance of Orifice Plates to Local Resistance Coefficient in the Pressure Delivery Pipeline	
L. Li, S. Jin and Z.L. Bai	1092
Numerical Simulation of Water Flow in Mine Waste Rock Pile	
M.Z. Zhang, Z.H. Xu and L.G. Jiang	1101
Purification of Micro Polluted Surface Water and Study on Membrane Fouling by PAC-UF Process	
P. Wang, D.S. Bi, H. Bai and Y. Zhang	1109
Research on Infiltration Rate of Topsoil in Combination with Steady Infiltration Model and Penetration Resistance Test	
Y. Qi, J.B. Hung, Y.S. Zhao and B. Wang	1113
Research on the Effect of Freezing of Pumped Storage Power Station Upper Reservoir' Bank in Cold Regions	
D.H. Ma, Y.P. Li, Y.B. Xu, Z.F. Liu, S. Xu and Y.M. Ma	1120
Review on Pedotransfer Functions for Predicting Unsaturated Hydraulic Conductivity	
M.X. Wang, B. Chang, D.K. Wang and W.H. Zhang	1124
Simulation Analysis of Bidirectional Fluid-Solid Coupling for Hydrodynamic Coupling	
W.X. Ma, X.W. Shen, X.Q. Lu and L.F. Ji	1128
SMS-2D Simulation Meandering River Flow and Scouring Depth – Laishe River in South Taiwan as an Example	
K.H. Cheng, C.H. Lin, C. Chao and M.J. Wu	1133
Study on Non-Equilibrium Evaluation Model of Water Resources Development and Utilization	
Y.Q. Chen	1137
Study on Selection of Typical Year with Water and Sediment Based on Fuzzy Clustering Iterative Model	
L.M. Xia and Y. Li	1142
The Application of SWMM in the Analysis of a Campus Drainage System	
Z.R. Fu, J.X. Zhuang and L.Z. Wang	1146
The Effects of Saturated Sediment Layer on Seismic Wave Motion of Gravity Dams	
X.L. He, Y.T. Jiang and M. Ye	1151
The Improved Trial Method of Hydrogeological Parameters Inversion by Using Single Well Recharge Formula	
Q. Yan	1157
The Prediction of the Water Inflow by Numerical Simulation Methods of Huijiabao Mine, Guizhou Province	
C.C. Li, S.G. Xu and J.J. Ba	1161
The Application of Distributed Temperature Sensor in Super-High Arch Dams	
J.F. Zhou, Y.H. Zhou and C.J. Zhao	1165

Chapter 7: Coastal Engineering

Erosion Mitigation Using Submerged Breakwater Composed of Artificial Reefs	
K.H. Kim and B.S. Shin	1171
Numerical Simulation Analysis of Collision between Ship and Steel Sheet Pile Quay-Wall	
P. Liu, H. Wang and C. Zhu	1175
Soil-Pile Coupling Analysis of Steel Sheet Pile Bulkhead under Horizontal Loads	
H. Wang, P. Liu, X. Liu and J.G. Duan	1180

Study on the Lateral Deformation of the Flexible Berthing Pile of High-Pile Wharf under Ship Impact Load Q. Zhai, W. Xiang and Y. Li	1184
Study on the Siltation in the Intake of Nuclear Power Plant Using Longterm Water Depth Monitoring and Coupled Modeling B.S. Shin and K.H. Kim	1188
The Numerical Analysis of Earth Pressure on Bucket Foundation Breakwater Z.Y. Wang, X.L. Ma, L. Shen and J. Lu	1194
Study on Chloride Diffusion Parameters of Concrete Based on the Field Investigation of Harbor Engineering in South China Z.H. Fan, D.G. Su and S.N. Wang	1199

Chapter 8: Roads and Railway Engineering

Research on Resistance to Moisture Damage of Warm Mix Rubber Asphalt Mixture G.L. Yang, F.B. Meng, L.P. Huang, S.J. Wu, W.P. Chen, Z.L. Ma and Y.F. Ling	1209
A Rail Abrasion Detection System Based on Image Processing J.J. Shen, Z.J. Liu, T. Wu and M. Lv	1213
A Railway Alignment Optimization Method Based on Minimum Cost X.Q. Zheng, W. Li, W. Liu and N.N. Li	1217
A Variable Selection for Asphalt Pavement Performance Based on RBF Neural Network P. Tian, G.F. Zhan and L. Nai	1222
Application of Fiber Reinforced Polymer in the Structure of Continuously Reinforced Concrete Pavement C.H. Hu and X.Z. Ma	1226
Application of Rubber Asphalt in Chengdu 3rd Ring Rd in Traffic Engineering X.H. Zhu and Y.L. Li	1230
Destructions on the Karakoram Highway (KKH) from Sost to Khunjerab Induced by Geo-Hazards and Prevention Y.G. Ge, F.H. Su, X.Q. Chen and J.Q. Zhang	1234
Durability Prediction of Asphalt Mixture under Freeze-Thaw Cycle Based on GM (1,N) Grey Model R. Xiong and L. Wang	1244
Effects of Track Elasticity on Wheel-Rail Dynamic Performance of Heavy Haul Railway Y. Zeng	1249
Finite Element Analysis of Asphalt Pavement Based on Drucker-Prager Criterion G.A. Yuan and X.J. Li	1253
Hydrological Zoning System for Highway Engineering Y.L. Wang and C. Li	1257
Laboratory Investigation of the High Temperature Rheological Property of Activated Coal Gangue Modified Asphalt Binder X.K. Yang, R. Xiong, F. Yang, H.Q. Yin and T. Yang	1261
Mechanical Effect Study of the Vehicle Braking on the Asphalt Pavement W.D. Jin, C.Y. Liang, X.K. Gao and P. Zhang	1266
Pavement Performance Comparison of Bituminous Mixtures at Surface Course Y.W. Cheng	1273
Program Design of Soft Foundation Treatment for an Accommodation Highway B.H. Song, C.M. Wang, J.H. Chen, C. Han and W.W. Zhu	1277
Quantitative Analysis Indices of Highway Landscape Design H.Z. Zhou, D.X. Wei and H.Z. Yang	1283
Random Dynamic Response Analysis of Asphalt Pavement Based on the Vehicle-Pavement Interaction Q. Li, J.Q. Liu and H. Liu	1288
Research on the Point Cloud Data Processing Method of 3D Terrestrial Laser Scanning in Existing Railway Track F. Han and X.F. Duan	1298

Research on Using Track Quality Index (TQI) to Reasonably Arrange Line Maintenance and Repair Cycle T. Zhang, W. Xu and W.L. Sun	1303
Studies the Key-Technologies of Karamay Matrix Asphalt Used in SBS Modified Bitumen Z.M. Ou and F.J. Li	1308
Study on Disposition of Plant Landscape along the Highway L. Hu	1312
Study on High Temperature Performance of Asphalt Mixture Based on Rutting Test Y. Wang and W. Li	1316
The Introduction and Application of Cohesive Zone Model on Asphalt Concrete Fracture Behavior H. Zhang, H.W. Zhang and F. Su	1320
The Research on Pavement Maintenance Management of Beijing-Tianjin-Tanggu Expressway H.F. Zhang, L.Y. Wei, Y. Song and W. Dong	1324
Thorough Investigation of Constitutive Model of Asphalt Pavement Permanent Deformation R. Zheng	1331
Research for Noise Reduction Performance of Rubberized Asphalt Overlay H.B. Zhang and H. Tan	1335
Rail Damage Detection Based on AE Technology and Wavelet Data Processing Y. Song and F. Wu	1339
Preliminary Investigation of Influence Factors of Sideway Force Coefficient Using SCRIM C.H. Hu and F. Yu	1344

Chapter 9: Building Materials and Technology

A Case Study on Mode I Fracture Modeling of Concrete X.Q. Li, B.Q. Chen and Y.X. Li	1351
A Review of the Durability of Recycle Aggregate Concrete H.B. Liu, J. Sun and X.H. Cong	1357
Aging Performance and Structural Study on Bio-Asphalt M. He, H.L. Wang, D.W. Cao, M.Y. Zhang, H.Y. Zhang, Y.J. Chen and Y.J. Zhang	1361
Analysis on Fatigue Failure Modes of Reinforced Concrete Beams Strengthened with BFRP X.J. Chen, M.X. Dai and Z. Yang	1367
Application and Improvement of Rock Quality Designation (RQD) Z.P. Zhao and J.C. Zhi	1371
Dynamic Mechanical Properties of Epoxy Resin with Multifunctional Polyamine Curing Agent X. Wang	1374
Effect of Asphalt Film Thickness on the Performance of ATB Mixture Z.F. Zhang	1378
Effect of Deformation Parameters on Microstructure Evolution of Hot Deformed Superalloy GH4169 T. He, J.H. Tuo, Z.H. Li and Q.A. Tai	1382
Effect of Water-to-Cement Ratio on the Property of a Macro-Porous Cementitious Microfiltration Membrane Z. Wang, J. Chang, Z.L. Chen and J.M. Shen	1386
Effects of Concrete Pavement on Atmospheric Thermal Environment Adjacent to Ground under Solar Radiation X. Wang and Y.F. Liang	1390
Effects of Gamma Radiation on Thermal Properties of Benzoxazine Filled with Carbon Black S. Tiptipakorn, K. Kuttitawong, P. Suwanmala and K. Hemvichian	1394
Energy-Saving Analysis of Fly Ash Autoclaved Aerated Concrete Block Filler Wall H.Y. Guo and J.B. Ye	1398
Experiment Research on Concrete Block by Ultraviolet Irradiation in Tibet Plateau Q. He, J. Xu, D.D. Chen and P.Q. Wang	1402

Experiment Research on the Shock Resistance of Magnetite Concrete Z.F. Chen, K. Zhang and T. Li	1406
Experimental Investigation for the Influence of Recycled Aggregate Replacement Content on Tension-Compression Strength Z.M. Jia, Q. Han and M.H. Liu	1412
Experimental Research on Chloride Resistance of Concrete with Isobutyl-triethoxy-silane Q. Wang, H.Y. Luan and Y.F. Fan	1416
Experimental Study on Flexural Toughness Characteristic of Polyvinyl Alcohol (PVA) Fiber Reinforced Concrete J. Su, J.P. Liu and M. Chen	1422
General Analysis on Green Building Materials and Development in China H.Y. Ren, S. Wang and C. Wang	1427
Influence of Additive on Over-Sulfur Phosphogypsum-Ground Granulate Blast-Furnace Slag Cement Z.J. Lv, Z.S. Lin, Y. Han and H.J. Wang	1431
Influence of the Water-Resisting Property and Impermeability of Mortar by Four Kinds of Common Modifiers S.J. Zhang, X.G. Wang and Q.S. Liu	1435
Literature Review of Coupled Temperature and Moisture Transfer in Concrete Structure E.Z. Lou, S. Qiang, L.J. Liu, Y.B. Ni, J.B. Jiang and G.P. Hou	1439
Overview of Numerical Simulation Model of Mesoscopic Concrete Crack S.Q. Li and Y. Bai	1443
Powder-Cement Ratio Affects the Overall Performance of the ATB W.H. Deng	1448
Research of High Voltage Electrostatic Filter Composite Horizontal Collector Exclusive Filter Material Q.Q. Zhu and Q.Q. Miao	1452
Research on Chemical Composition Changing of Heteroatom Compounds during Asphalt Aging Process H.Y. Zhang, J.L. Liang, D.W. Cao, J.P. Xiong, M. He, Y.J. Zhang and Y.J. Chen	1456
Research on Synthesis and Properties of a Flexible Epoxy Curing Agent X. Wang	1463
Research on the Influences of Crack-Depth Ratio on Fracture Energy of Ultra-High Performance Cementitious Composites H.C. Wang, L.L. Liu, S.L. Gao and Z.G. Yang	1467
Research on the Optimization Method of Compatibility between Polycarboxylic Admixture and Cement H.C. Wang, C. Chen, X.Q. Xu, Z.G. Yang, H.J. Zhang and C.H. Zhao	1473
Research on Waste Glass Concrete Elasticity Modulus S.L. Jia, H. Gong, B.C. Zhang, C.F. Zhang and Y.Y. Li	1477
Research Progress and Prospects of the Constitutive Model of Green Ecological Concrete K. Ding and K.F. Zhang	1481
Research Progress of Poly Carboxylic Acid Concrete Shrinkage Reducing Agent S. Tang and L. Zhang	1485
Road Performance of Common Piezoelectric Transducer for Asphalt Pavement Energy Harvesting C. Li	1491
Study of the Volume Deformation and Stress Development of Concrete Influenced by the Different Cooling Rate Y. Fang, X.F. Song and L. Chen	1495
Study on Characteristic Optimization of Shearing Viscoelastic Damp C.X. Zhang, T. Lan and Y. Wang	1499
Study on the Impact of Polycarboxylic Acid Additive Experimental Process Parameters on Cement Adaptability H.C. Wang, W.W. Li, F.N. Sun, Z.G. Yang, C. Chen and C.H. Zhao	1507
The Combined Effects of Fiber and Cement-Based Composite Materials H. Yuan and Y.H. Li	1514
The Influence of Carbonization on the Performances of Fly Ash Geopolymeric Concrete Q. Huang, X.S. Shi, Q.Y. Wang and L. Tang	1519

The Influence of Different Asphalt on the Comprehensive Performance of ATB Mixture F. Rui and L. Hua	1527
The Inhibitory Effect of Polypropylene Fibers towards the Shrinkage of Cement Based Material H. Yuan and Y.H. Li	1531
The Mechanism Research of Foam Glass under Surface Depression D.L. Wu, Y.L. Tian and S.G. Guo	1535
The Performance of the Ceramsite Concrete Block and its Application Research L.L. Yu, J.D. Chen and Y.W. Wu	1543
The Status of Biological Research and Prospect Analysis of Asphalt W. Tang	1547
The Study of Mortar Specimens Containing Waste Glass Powder on the Resistance to Sulfate Erosion G.J. Ke, D.N. Zeng and P.Y. Zou	1551
The Subsidence Analysis of Experimental Post-Tensioned Concrete Slab Model in the Course of the Static Load Test P. Mynarcik	1556
Effect of Palm Oil Fuel Ash (POFA) on the Durability of Asphaltic Concrete A.M. Maleka, A.W. Hamad and R.P. Jaya	1560
Performance Analysis of Magnetorheological Rubber Reinforcing Cord Fabric X.Z. Chen	1566
Reflections on the Detection Method of Polycarboxylate Superplasticizer L. Yao, S.W. Li and C. Li	1570

Chapter 10: Building Technology and Science

Optimal Design of the Lighting Atrium Form in the Building H.R. Dong, S.M. Qi and K. Xu	1579
Precursing Application and Promotion of BIM Technology in Construction Phase Y. Zhou, J.L. Jiang, K. Zeng, X.Y. Cao and D.P. Zhang	1584
Prediction on Coupling Loss Factors of Building Members J.X. Lan, X.F. Huang, S.Y. Wei and Z.X. Zhuang	1589
Research on the Prediction of Impact Sound Insulation to a Homogeneous Wall S.Y. Wei, X.F. Huang, Z.X. Zhuang and J.X. Lan	1593
BIM Based Green Building Management Development in the U.S. Y.H. Yang and B.B. Ren	1597
Technical Economic Analysis of Application of Multi-Ribbed Floor Structure in Basement Engineering R. Zheng	1601

Chapter 11: Computational Mechanics and Mathematical Modeling

A Stress Analysis of the Circular Orifice Problem for 2^k Periodic Radial Cracks L. Guan	1611
An Impact Dynamics Modeling Method with Tangential Impulse in Three-Dimensional Space G. Chen, J. Liang, Q.X. Jia and H.X. Sun	1618
Free Vibrations of Beams on Viscoelastic Pasternak Foundations L. Peng and Y. Wang	1624
Impact Dynamics of Flexible Multibody System Based on Continuous Contact Force Method Y.C. Duan, X. Li, W.W. Zhang, G.N. Liu and T.T. Wang	1628
Study on Calculation Theory of Elastic Flexural-Torsional Buckling Bearing Capacity for Castellated Beams X.R. Chen, H.L. Yuan, X. Chen and Z.W. Liu	1635

The Antiplane Shearing Problem of Circular Holes with 4k Periodic Cracks in One-Dimensional Hexagonal Quasicrystals	1640
Z. Chen	
The Random Response of a Single Degree of Freedom Generalized Maxwell Damping Structure	1648
W.J. Zou, C.G. Li and Y.X. Zhang	
Study on an Analytical Solution of Gas Seepage Equation Considering the Adsorption Effect	1654
Z.G. Zhang	

Chapter 12: Surveying Engineering, Cartography and Geographic Information Systems

Application of Geographic Information System on Urban Residential Real Estate Mass Appraisal	1665
Y. Tian and J.P. Yang	
Design and Realization of the 3D Electronic Chart Based on GIS and Virtual Reality Technology	1669
X.Y. Wei, Y. Wang, X.P. Yan, Y.F. Tian and B. Wu	
Design for a Dual-System Satellite Navigation Anti-Jamming Receiver	1674
F.N. Li, J.N. Xu, H.P. Li and W.W. Yin	
Development of Strain Measurement System Based on Virtual Instrument Technology	1680
Y. Zhang	
Direct Measurements of Land Surface Deformation Based on PS-InSAR in Lanzhou, China	1684
Y.T. Xue, X.M. Meng, G. Chen and K. Li	
Direct Transformations Formulae between Polar Gauss and Stereographic Projections	1689
C. Chen, S.F. Bian, H.P. Li and B. Liu	
Hydraulic Engineering Topographic Mapping and Modeling Based on Three Dimensional Laser Scanning Technology	1695
C. Hu, Y.H. Zhou, C.J. Zhao and Z.G. Pan	
Spatial Autocorrelation Test of Engineering Deformation Data	1701
S.L. Zhang, X.M. Yang and K. Zhang	
The Design and Implementation of GIS Platform Based on 2D-3D Linkage	1705
M.Y. Yu, L. Zhao and T.G. Shi	
The Method of Surveying Concealment Engineering Control Points ITRF Coordinates Based on Gyro Orientation	1709
J.F. Wu, Z.Q. Yang, Z. Shi and J.H. Yang	
The Study of the Topography-Measure Applied in China's Southwest Precipitous Areas a Case Study in YunDian Village HuiLi County in LiangShan Autonomous Prefecture	1714
J.N. Li and K. Zhang	

Chapter 13: Disaster Prevention and Mitigation Engineering

Human Factor Analysis of General Accidents in Railway Passenger Transportation	1723
J.W. Zhang, P. Jiang and C.Y. Niu	
Risk Evaluation of Water Inrush from Coal Floor Based on BP Neural Network	1728
W.T. Liu, S.L. Liu and Y.S. Sun	
Spatial Correlation Analysis of Geological Disaster and Geological Background in Liaoning Region	1733
Q. Zhang	
Study on Numerical Simulation of Fire and Evacuation for a Supermarket	1736
S.H. Dong, M. Li and Y.H. Lin	
Study on Rainfall-Induced Loess Geological Hazards Characteristics and Preventive Measures in Shanxi Province	1741
Q. Qi and Y.W. Ju	
Research on the Location Model of Emergency Rescue Facilities in the City Disaster Prevention	1745
Q.Z. Sun, Y. Jia, X.Y. Hou and P. Li	

The Research Progress in a New Kind of Anti-Blast Wall Z.G. Zhang, M.Z. Li, D.Q. Kong, T. Ge and C.J. Wang	1749
An Application of Risk Assessment of Geo-Hazards in Highway Engineering Y.Q. He, T.Z. Lan and Y.H. Bi	1753

Chapter 14: Transportation and Traffic Planning, Operation Organization and Management

A Novel Approach of Patrol Ship Configuration and Fleet Planning F.B. Zhao, Y. Wang and X.L. Xie	1761
Allocation Plan of Night Trains on Beijing-Guangzhou High-Speed Railway S.Z. Sun, B.M. Han, Q. Zhang and X. Liu	1767
Analysis and Calculation of Maximum Operation Speed and Average Distance between Stations for Regional Rail Transit Planning M. Jing, D.W. Li and Y.L. Fu	1773
Analysis of the Tanzania-Zambia Railway Rail-Sea Intermodal Transportation Collection and Separation System L. Jiang and Y.G. Wei	1777
Bus Priority Network Design Based on Bi-Level Programming Y.K. Mo, K. Wang and S. Lv	1782
Calculation of Carrying Capacity at High-Speed Railway Stations Based on Route Selection Q.R. Zhao, Q. Zhang and P. Liu	1786
Clustering Analysis of Main Vessel Traffic Flow Observation Lines along Yangtze River Y.F. Tian and X.Y. Wei	1792
Concepts and Methods of Comprehensive Traffic Planning in Germany P. Wu, Y.L. Gao and W. Wu	1797
Correlation Model between Speed and Density of Electric Bicycles at Signalized Intersections J.J. Shen, Q. Wang and Z.M. Cao	1803
Fuzzy Combination Forecasting of Urban Transit Demand Y.K. Mo, K. Wang and S. Lv	1808
Research on Multimodal Transport Shortest Path Based on the Genetic Algorithm S.W. Ji, S. Jin and K. Lv	1813
Structural Equation Model of Public Evaluation of Transfer Efficiency of Integrated Traveler Transportation Hub X.G. Wang, C. Li, Y.H. Li and P. Wu	1817
Study on Combinational Scheduling Optimization of Bus Transit Rapid Based on Tabu Search & Genetic Algorithm C.Z. Chang, X.M. Chen and M. Wang	1827
Study on Evaluation of Coordination Degree of Comprehensive Transport System Construction Based on DEA Model P. Wu, X.G. Wang and X.N. Sun	1832
Study on the Safety Management System of High-Speed Railway H.W. Guo and Y.G. Wei	1838
The Research of Pedestrian Overtaking Model in Urban Rail Channel Y.S. Fan, X.Y. Yin and R. Yang	1843
The Research of Pondered Water Road Traffic Emergency Management Based on Internet of Things L.X. Wang, Z.H. Chen, L.Y. Sui and W. Li	1848
An Ensemble Model of Short-Term Traffic Flow Forecasting on Freeway H.Y. Xiang and H.L. Shu	1852
Quantitative Evaluation for Road-Transport Industry Development Mode Transformation Y. Zou	1858
Study on the Control of Traffic Congestion Based on Hierarchical Road Capacity D. Wang and B.L. Li	1862

Chapter 15: Modern Logistics Systems and Supply Chain

ANN Forecast Algorithmic Model for Port Logistic Demand Research S.W. Ji, T.K. Li, G.P. Chen, G. Su and Q.C. Zhang	1869
E-Commerce Logistics Distribution Mode Analysis and Decision X. Sun	1873
Selection and Evaluation of Railway Freight Third-Party-Logistics Based on F-AHP Method J.J. Sang, X.F. Wang, H.S. Sun and M.L. Li	1878
Study of the 3PL Network Planning Layout in a Province Based on Quick Response X. Zou, J.Q. Li and X. Li	1883
Study on Location Selection of FMCG Logistics Centers Based on Fuzzy MCDM Model Y. Yang, J.Y. Fan and L.R. Zhang	1888
Study on the E-Commerce Logistics Distribution Modes of Fresh Agricultural Products J. Sun and X. Wang	1895
Study on the Transformation of the Development Model of the National Public Information Sharing Platform for Transportation & Logistics S.W. Ji and Q.X. Feng	1902
Supply Chain Network Optimization Based on Genetic Algorithm X.M. Hu and Y.B. Lv	1906
The Design of Closed-Loop Supply Chain Network Z. Dai	1910
The Research on Transportation Modes Combinatorial Optimization Model in Multimodal Transportation System S.W. Ji, K.D. Sun and K. Lv	1915
Three Dimensional Offline Packing Optimization Problem Based on Genetic Simulated Annealing Algorithm Z.Z. Wang, J. Fu, L.F. Liu and R.R. Liu	1919
Transportation Decision and Logistics Cost Analysis Based on Risk Sharing of Enterprises P. Lv and C.Z. Ma	1924

Chapter 16: Intelligent Transportation Theory and Application

Design and Application of Reduced Error Pruning Tree for Traffic Incident Detection Q.C. Liu, J. Lu, S.Y. Chen, Y.P. Li and X.C. Yan	1931
Evaluation and Modeling of Passenger Vehicle Celeration Performance Based on Artificial Neural Networks Y. He and D.F. Chu	1938
Low-Tech Urban Solutions in Data-Based Environment – A New Concept of Sharing-Oriented Metropolitan Transportation W.J. Dulinski	1943
The Analysis of Cars and Pedestrians Collision Based on the PC-Crash Program and MADYMO Simulation H.B. Li and J.J. Li	1949
The Prediction of Vehicle Collision Risk in Traffic Conflict Zone Based on Bayesian Network L.X. Yan, S. Gao, H. Cai and H. Wan	1953
Vehicle's Model Classification Using a Vertical Stereo Camera C.H. Lee, J.P. Ahn and Y.M. Kim	1960

Chapter 17: Transportation Control, Analysis, Monitoring, Applied Information Technology

3G Network Mobile Vehicle Tracking and Positioning Systems Research Y.W. Xu and F. Dong	1967
---	------

Dynamic Simulation and Optimization of Traffic Signal System J.J. Xiang and L. Xue	1971
Empirical Research on Topological Characteristics of Air Traffic Situation Network H.Y. Wang, R.Y. Wen and Y.F. Zhao	1975
Relationship of Traffic Complexity and Pilot-Controller Voice Communication Load J.X. Huang and H.Y. Wang	1980
Resampling Methods for Solving Class Imbalance Problem in Traffic Incident Detection M.H. Li and S.Y. Chen	1985
Research on Application of Pedestrian Throw Distance Formula in GA/T643-2006 F.J. Liu, F. Li and X. Hu	1990
Research on Crossing Speed of Pedestrians Based on Dynamic Density Z.W. Qu, Q.J. Yang, X.M. Song and Q.W. Bai	1995
Study of Steering Wheel Movement under Fatigue Driving and Drunk Driving Based on Sample Entropy Z.L. Li, X. Jin, B.J. Wang and X.H. Zhao	2001
Study on Cooperative Control Method among Large Flow and Long-Distance Intersections J. Lu, J.G. Gu, Q. Fu and Y. Li	2006
Tracking of Traffic Monitoring Targets in Complicated Traffic Scene Based on MeanShift Algorithm J.Y. Zhao and J. Cui	2012
Vehicle-Pedestrian Accidents Characteristic Analysis and Study D.J. Bu, F.J. Liu and M. Lin	2019
The Study on Urban Rail Transit Train Operation Simulation System Based on Timetable Control F. Xu, B.M. Han and H.D. Yin	2026
Wavelet Transform with Application in Roadside Landscape Design T.Y. Zhang, Z.H. Wei, L. Wang, X. Zhao and T. Wang	2032

Chapter 18: Public Transport Planning and Management

A Comparative Analysis of Stop/Go Driving Behavior during the Amber Light at City Signalized Intersecdtions Y.X. Ding	2045
Study of the Influencing Factors of Urban Rail Transit Travel Behavior: A Case Study of Xi'an Y. Wu, J. Lu and Y. Chen	2049
Study on Left-Turning Traffic Flow Characteristics under Different Pedestrian Violation Rates at Signalized Intersection C.H. Wei, Y.H. Wang and X. Wang	2053
Study on Method of BRT Transportation Station Passenger Flow Forecast with the TOD Mode Z. Guo, H.Y. Wu and C.H. Yang	2059
Study on the early Warning Index System of Traffic Hidden Trouble Points in Extreme Weather L.Y. Sui, Z.H. Chen, L.X. Wang, W. Li and H. Liu	2063
Urban Green Corridor Planning X. Xu, Y.L. Ni and J. He	2067
Modeling on the Structral Optimization of Passenger Transport System in Urban C.J. Song, Y.P. Zhang and Y. Dong	2071
Evaluation Index of Urban and Rural Road Passenger Transportation Integration Y.M. Zhou, J. Lian, Q.G. Pang and X.G. Wang	2077
Evaluation of Subway Station Information Using KANO Model L.J. Xu, G.Y. Wang, Q.Y. Liu and W. Zhao	2081
Research on Development Strategies of China Urban Public Transport L.H. Wei, C.Z. Chang and P.H. Wei	2086
Research on Passenger Travel Model Choice in Shenyang-Dalian Transport Corridor W.R. Zhao and Y. Zhao	2090

Pedestrian Gathering and Evacuating Simulation and Facilities Optimized Analysis of Wangfujing Station of Beijing Metro	
C. Zhang, B.M. Han, Y. Wang and W.T. Zhou	2094
Research of Train Flexible Marshalling Transportation Organization for Urban Rail Transit	
Z.N. Lou, B.M. Han and Q.J. Zheng	2098

Chapter 19: Transportation and Economic Development, and Low Carbon Transportation

A Predictive Study on the Development of the Integrated Transportation System in Shandong Peninsula Blue Economic Zone	
H.N. Wang, J.M. Sun and C.Y. Zhou	2105
Analysis of European Transport White Papers	
C. Li, X.G. Wang and X.N. Sun	2110
Research on Residents' Trip Structure Based on Low Carbon Transport Mode	
J. Chao and J.Y. Sun	2115
Research on the Correlation between Typical National Urbanization Development and Transportation and its Enlightenment to China	
Y.H. Li, X.G. Wang and X.N. Sun	2120
The Shortest Path Problem Research Based on the Green Traffic	
B.Y. Liu and N.X. Jin	2126
A Strategic Model for a Complex Infrastructure in Northern Europe	
S. Miccoli, F. Finucci and R. Murro	2131

Chapter 20: Architectural Design and Theory

A Research on the Innovative Designing Methods in Modern Architecture	
X.H. Zhang	2139
A Strategy on Ecological Design of High-Rise Building under Cold Climate Conditions in Lanzhou City	
X.L. Bi and C. Qian	2143
City Square Landscape Design Analysis	
X.Y. Wang, X.J. Yan, N. Zhang and Y.C. Zhang	2147
Distribution and Characteristics of Industrial Architectural Heritage in Songyuan City	
W. Mo and Z.L. Li	2151
Research on the Industrial Architecture Heritage of the Key Construction Projects of Jilin Province during the 1st Five-Year Plan Period	
W. Mo and J.S. Zhao	2156
Systems Scientific Analysis of Architecture Adaptability Design	
H.Z. Su	2165
The Design Trend of Jinzhou City Commodity Residential House Door Model	
F. Wu	2171
Simulation Analysis of Passenger Streamline in Wuhan Railway Station	
Y. Xia and Y.G. Wei	2175
The Changing of Passenger Flow Volume and Distribution of Sharing when High Speed Railway Speed Reducing	
Y. Wang, B.M. Han and B. Zheng	2180
The Analysis for Sustainable Development of Architectural Design	
S.F. Liu, F.Y. Zheng and W. Wang	2185

Chapter 21: Urban Planning and Design, Landscape Design, Sustainable City and Regional Development

A Quantitative Research of Spatial Feature of Core Area in Qujiang	
S.Y. Zhu and B.Q. Zhai	2191

Analysis on the Color Design of Hospital Landscape S.Y. Qin	2196
Inspirations to the Construction of Chinese Cities from City of Waterloo – Garden City of the 21st Century H.Y. Zhao	2200
Song Dynasty Garden Art and its Inspiration on the Modern Urban Landscape W. Li, W. Duan and Q. Shi	2206
Study on Landscape Design of City Square Based on Demand of Psychological Behavior - As a Case of Nanning Minsheng Square R.F. Xiao, R.X. Deng, X.P. Liang and Y.H. Liao	2212
The Comprehensive Evaluation of Spacial Layouts for Public Facilities Y.H. Zhang	2216
The Novel Ideas for the Characteristic Landscape of Zhuhai City H. Huang	2220
The Quality of Central Squares in Small Towns of Ostrava Agglomeration O. Vašíček, M. Budina and T. Nehudek	2225
Tourism in Ligurian Coastal System: Multy-Micro-Reality and Valences E. Nan	2232
Urban Planning in Resource-Based Cities Based on Ecological Footprint and Ecological Carrying Capacity M. Zhang, Z.H. Lu, J.F. Zhu and F.F. Tan	2236
Analysis Principles of Landscape Design Small City B.L. Zhang	2241
A Case Study of Green Ecological Urban District in Nanning Wuxiang New District L. Li, J. He and D.Y. Li	2245
A Study of Restoration Performance Evaluation: A Case Study of Taiwan Street Historic Area, Zhangzhou Fujian X.J. Yu	2249
Analysis of Qingdao Eco Cities Research and Evaluation Based on AHP Y.J. Ge, X.L. Liu and Y.B. Xie	2254
Comparative Analysis of Development Level of New-Type Urbanization & Traditional Urbanization in Shandong Province B.Y. Shan and L. Wang	2258
Sustainable Housing Construction of New Rural Construction Based on Qinhuangdao Area L.F. Ji, P.F. Li, L. Zhao, J.S. Liu and Y. Wang	2263
The Comparative Research on International Low Carbon Sustainable Residential Assessment Systems L.F. Ji	2267

Chapter 22: Ecological Architecture and Energy Consumption, Energy Saving, Heating, Ventilation and Air Conditioning Works

Application of Energy-Saving Technology for Public Building Design Y.H. Zhang and Q. Yan	2273
Chinese Green Building Government Incentive Method Research of the Basic Incremental Cost View J.F. Li, Y.J. Li and J. Wang	2277
Development Analysis and Policy Suggestions for Energy Saving Systems of Building J. Wang, J.F. Li and Y.J. Li	2281
Development and Study of Green Ecological Residence B. Zhang	2285
Discussion on the Development of Energy Performance Contracting in the Field of Building Energy Saving Y.J. Li, J. Wang and J.F. Li	2289
Numerical Simulation and Analysis of Energy Saving Operation of Chillers in an Air Conditioning System X.Y. Sun and R. Li	2293

Oxygen Transfer through Air Entrainment over Stepped Weir J.H. Kim	2297
Research on Green Building Evaluation Index System under the Guidance of Government Based on ANP Method W.K. Yang, Y. Deng, X.L. Wu, Y.L. Xiang and C. Chen	2301
Research on Techniques of Reducing the Life Cycle Carbon Emission at Building Design Stage X.X. Ou and D.Z. Li	2306
Research on Value-Engineering-Based Construction Costs of Energy-Saving Buildings R. Wu, H. Du and Q. Wu	2310
Testing and Analysis on Thermal Performance for Prefabricated Thermal Insulation Composite Wall Panel of an Office Building Z. Ren, R. Li, X.Y. Wu and L.X. Wang	2314
The Heating Energy Consumption Analysis and Energy Saving Transformation for the New Rural Apartment X.R. Liu, S.H. Xu, Y. Guo and Q.R. Hao	2318
The Implement Recommendations of Energy Alternative Strategy in Liaoning Province D. Ge, X.Y. Liu, B.Y. Gao and T. Wang	2324
The Investigation of the Design of Natural Ventilation in Croquet Stadium Haicang Sports Center Y.M. Xiang and J.Q. Guo	2328
The Urban Complex Energy Saving Effect Research Y. Wang, X. Zhang and J.F. Liu	2332
Thermal Comfort Test and Analysis of an Office Building in Winter X.Y. Wu, R. Li, X.H. Yao and L.X. Wang	2336
Wall Insulation Effect on Building Energy Efficiency with the Intermittent and Compartmental Energy Consuming Method F. Ruan, X.Q. Qian, Y.T. Zhu, M.L. Wu, K.L. Qian and M.P. Feng	2340
Evaluation Method for Energy Saving Effect of Reflective Thermal Insulation Coatings M.P. Feng, X.Q. Qian, Y.T. Zhu and F. Ruan	2348

Chapter 23: Environmental Engineering, Ecological and Environmental Protection

Allocation of Professional Oil Recovery Ships Based on the Center of Gravity Method W.P. Ding and P.J. Zheng	2357
Analysis of the Construction of Qilihai South Pumping Station's Ecological and Environmental Impact on Qilihai Wetland S.G. Xu, J.F. Qu, F.Q. Dong, C.L. Chu, G.M. Jiang and M.T. Ju	2362
Construction of Plant Communities for Ecological River Training and their Impacts on Biological Diversity L. Wang, S.G. Ye, J.H. Ye and F.C. Lu	2367
Large-Scale Swine Wastewater Treatment Status and Pollution Control Measures in Lake Poyang Basin Y.M. Wu, M. Deng, L.Z. Liu, J. Zhang, H.L. You and C.Y. Yang	2372
Multiple Scales Analysis and Assessment of Environmental Air Quality in Tianjin M.C. Li, Q. Si, Y. Wang and J.H. Zhu	2378
Pollution Load Estimation of Weihe River Watershed above Linjiacun Section Based on Characteristic Section Load Method L. Zhu, J.X. Song and C.Q. Zheng	2382
Profit and Loss Analysis on Ecosystem Services Value Based on Land Use Change along Expressway X.M. Tang, Y.M. Ren, Y. Liu and Y.C. Pan	2386
Soil Pollution Research Based on Factor Analysis Method Z.T. Qiu, Y. Wu and C. Zheng	2391
Study on Carbon Balance Impact of Different Tree Configuration T. Wang	2397

The Effect of Setting Time to the Formation of Aerobic Granular Sludge in SBAR under Low Organic Loading	
X. Zhao, H. Xu, B. Yu, L. Yang and L.X. Li	2401
The Experimental Research on the Start-Up and Stable Operation Phase of ANAMMOX System	
C. Wei, L.J. Song, Y.R. Zhao and L.M. Song	2407
The Effect Study of a Mine Land Reclamation Based on the Method of Fuzzy Comprehensive Evaluation Analysis	
F. Zhang, K.H. Hou, X.Y. Zhu, L.Y. Cao and Y.R. Pu	2417
