

Table of Contents

Chapter 1: Introduction: Examples of Strong Effect of Corrosion on the Mechanical Properties of Metals and Alloys	
T. Magnin	1
Chapter 2: Limitations of Classical Approaches to Describe and Predict SCC and CF	
T. Magnin	10
Chapter 3: Review of Localized Corrosion-Deformation Interactions	
T. Magnin	37
Chapter 4: Analysis of the Stress Corrosion and Corrosion Fatigue Microcracking Processes	
T. Magnin	80
Chapter 5: SCC and CF Modellings Based on Corrosion-Deformation Interactions	
T. Magnin	95
Chapter 6: Numerical Modellings for SCC and CF	
T. Magnin	133
