Preface

Chapter 1: Management and Industrial Engineering

Quality Concept - Applicable Aspects for Management of Research Projects D.A. Manolescu, A. Ioana, D. Tufeanu, C. Nicolicescu, B. Florea, D.I. Juganaru and C.B. Ene	3
Dynamic Systems - Applications in Economy and in Technology D. Bălă	9
Research on the Development of the Welding Reconditioning Procedure for Friction Liner on the Passenger Coaches C. Popisteanu, D.T. Cicic and G. Solomon	15
Human Resource Management in Modern Society P.C. Simion, M.A.M. Popescu, I.C. Costea-Marcu and I. Grecu	25
Research on the Use of Integrated Management Systems P.C. Simion, T.V. Popescu, M.A.M. Popescu and A.M.G. Militaru	31
The Management of Architectural Heritage Resources A.G. Trif and C.O. Burada	37
Need Analysis for the Integration of Digital Tools for Teaching, Learning and Assessment of the Welders S.V. Savu, I.D. Savu, G.C. Benga, B.A. Olei and I. Ștefan	47
Systemic Approach of Digital Competences Building at Teachers' Level - Highest Necessity in SARS-CoV2 Pandemic Conditions I.D. Savu, C.C. Drăghescu, S.V. Savu and D. Simion	55

Chapter 2: Transportation and Logistics

Transport Oriented Framework for Context-Aware Services Management C. Drăgănescu	63
Methods, Instruments in Evaluating the Satisfaction Index of Passengers in Urban Public Transport A. Serban	71
Logistics of Goods Transited through the Romanian Inland Harbors B.A. Olei, I. Balosin, A. Midan and D. Simion	81
Assessment of Traffic Noise Pollution due to Road Traffic G. Demian, L. Grecu and M. Demian	87
Analysis of Industrial Areas along European Inland Waterways G.C. Benga, I.D. Savu, S.V. Savu, B.A. Olei and I. Ștefan	99
