Preface, Committees, Sponsors and Speakers

Chapter 1: Material Science

Strength of Concrete Containing Rice Husk Ash Subjected to Sodium Sulfate Solution via Wetting and Drying Cyclic	
C.W. Che Norazman, R.P. Jaya, S.J. Dewi, B.H.A. Bakar and M.A. Fadzil	3
Deformation Characteristics of Concrete Containing High Volume Palm Oil Fuel Ash	
A.S.M.A. Awal and I.A. Shehu	9
Passive Damage Detection of Natural Fibre Reinforced Composites Using Sensor Response Data	
M. Zaleha, S. Mahzan and M.I. Idris	17
Toughening of Wood/Poly(vinyl chloride) Composites by Using Ultrafine Rubber Particles: Mechanical and Rheological Investigations	
N. Petchwattana, S. Covavisaruch and C. Watkrut	25
Development and Characterization of SS316L Foam Prepared by Powder Metallurgy Route	
F. Mat Noor, K.R. Jamaluddin, S. Ahmad, R. Ibrahim and N.I. Mad Rosip	31
Investigation of Pore Structure for Manufactured Sand Mortar	
Z.H. Tian and J.W. Bu	39
Evaluation of Pore Size Distribution for Controlled Permeability Formwork Liner	
Z.H. Tian and X.D. Wang	53
Surface Morphology of Nano-Sized Titanium Dioxide	
N.N.H. Nik Mohammad, M.H. Mamat, C.M.S. Said, M.H. Abidin and M. Rusop	63
An Empirical Approach for Prediction of Natural Fiber Reinforced Polypropylene Composite Properties	
R. Gupta, N. Sulaiman, M.D.H. Beg and A. Gupta	69
Properties of <i>Alpinia galanga</i> Agro-Waste-HDPE Composites with Addition of MA-g-PE and Eco Degradant	
R. Binti Mustapha, M. Awang, A. Ali, A. Noraaini and A.A. Mohd Aidil	75

Chapter 2: Applied Mechanics and Engineering

A Model-Inspired Phenomenology Constitutive Equation for the Temperature-Dependence of Flow Stress at Confined Dimension I	
R. Saptono and C.U. Kim	83
A Geometric Approach to the Decoupling Control and to Speed up the Dynamics of a General Rigid Body Manipulation System	
P. Mercorelli	93
Predicting Truck Load Variation Using Q-Truck Model	
R. Buhari, M.E. Abdullah and M.M. Rohani	105
Magneto Rheological for Motorcycle Suspension Using Bouc-Wen Model	
M.A. bin Ismail, P.B. Muhamad and A. bin Abu	111
Velocity Statistics of a Fully Pulsed Round Jet in Streamwise Direction	
H.P.S. Pratomo and K. Bremhorst	117
Adaptive System Development for Secondary Skin	
F.U. Sjarifudin	125
A New Method for Equilibria and Stability Analysis of Nonlinear Dynamical Systems	
L. Cao and Y.H. Cao	131
Inverse Kinematic Solutions Using Artificial Neural Networks	
I. Petra and L.C. de Silva	137
