

Table of Contents

Preface

Construction and Structures

Lime-Cement Stabilized Chicoco as a Road Pavement Material V.U. Konyeha and F.N. Ogbeide	3
Mechanism of Rock Slope Failure in Selected Quarries in Oyo State, Nigeria J.M. Akande and M.A. Idris	13
Strength Study of Concrete Made with Various Local Sands in Benin City, Nigeria O.E. Alutu and B.K. Ifejika	21
Utilization of Calcite and Calcite-Cement in the Stabilization of Laterites for Low-Cost Hollow Blocks O.E. Alutu and M.O. Ihimekpen	27
Susceptibility of Clay Core to Cracks in Rockfill Dams by Finite Element Modeling S.O. Osuji and B.U. Anyata	35
Effect of Particle Size on Some Properties of Rice Husk Particleboard J.O. Osarenmwinda and J.C. Nwachukwu	43
Potential Use of Waste Paper/Sludge as a Ceiling Board Material O.P. Folorunso and B.U. Anyata	49
Ultrasonic Pulse Velocity for In Situ Measurement of Compressive Strength of Concrete C.A. Chidolue, B.A. Chidolue and S.N. Umenwaliri	55
Impact of Augmented Reality (AR) in Civil Engineering G.S. Kumaran, K.R. Santhi and P.M.R. Anand	63

Electrical and Electronic Technology

Simulation Model for Assessing Operational Performance of Current Transformers I. Sule	71
Sliding Mode Control of Magnetic Levitation Vehicles A.S. Kadalla and M.I. Onogu	79
Investigation of the Normal Working Mode of the Nigerian 330-132 kV Network in View of Perspective Load Growth Forecast up to 10 years M.O. Adegoke	87
Discovering Potential Sites for Small Hydro Power (SHP) in Nigeria I.A. Adejumbi, A.A. Esan and A.B. Okunuga	93
Investigation of Harmonics in Power Generating Systems J.O. Emagbetere and P.A. Kuale	99
Design and Implementation of a Microprocessor-Based Sequencer for a Small-Scale Groundnut Oil Production Plant M.O. Eyinagho	107
Elimination of Frequent Electric Power Interruption Due to Lightning Discharge in Nigeria F.O. Usifo and E. Oria Usifo	111
Management of Existing Capacity of Electric Power with Energy Saving Devices J.C. Ekeh, S.T. Wara and H.E. Orovwode	117
Broadband Correct: Technology for Building Knowledge Societies K.R. Santhi, P.M.R. Anand and G.S. Kumaran	125

Food Technology

Effect of Temperature and Total Solid Contents on the Apparent Viscosity of Coconut Milk Yoghurts H.D. Mepba and T. Ademiluyi	135
---	-----

The Effects of Detergent on the Microbiological Changes of Fermenting Cassava for Fufu Production	
E.T. Aisien and F.A. Aisien	145
Evaluation of Kinematics and Ergonomic Studies of Groundnut Oil Extraction Methods	
F.A. Maunde, M.A. Ali, A. El Okene and S.A. Iya	151
Determination of Physicomechanical Properties of Cowpeas to Aid Thresher Design	
F.A. Maunde, M.A. Ali, A. El Okene and B.B. Riji	159
Effects of Processing on the Yield and Physico-Chemical Properties of Cassava Products	
A.V. Ikujenlola and B.O. Opawale	165
Development of a Moisture Measuring Device for Cassava Particulate during Drying	
I.O. Ogunleye, S.B. Adeyemo and M.B. Adeyemi	171
Performance Evaluation of Drip Irrigation and Fertigation System for Sweet Maize and <i>Telfairia Occidentalis</i>	
S.O. Afolayan, T.A. Ewemoje, S.A. Lateef and E. Ajayi	177
Investigation of Force Required to Crack Melon Seed Shell by Static Loading	
F.B. Okokon, M.A. Oduh and N.A. Akpan	187

Materials Processing

Effect of AISI316 Stainless Steel Geometry on Temperature Distribution during Hot Rolling at High Reduction	
O.J. Alamu, P.O. Aiyedun, A. Kareem and M.A. Waheed	195
Improved Electroless Chemically Deposited Beryllium Iodide (BeI₂) Thin Films	
P.A. Ilenikhena	201
Analysis of Beryllium Fluoride (BeF₂) and Strontium Fluoride (SrF₂) Thin Films Deposited by Improved Solution Growth Technique for Industrial Applications	
P.A. Ilenikhena	209
Polymer Modification of Mineral Surface Using Peroxide – Containing Oligomers	
M.K. Oduola, V. Tokarev and S. Voronov	219
Catalytic Dehydrogenation of n-Butane over Activated Clay	
M.A. Olutoye, F. Aberuagba and J.O. Odigure	225
Rubber Seed Oil-Based Polyurethane Composites, Fabrication and Properties Evaluation	
F.E. Okieimen and I.O. Bakare	233
Physical Characterization of Ukpok and Ahoko Clay Deposits for use as Industrial Raw Material	
E.J. Eterigho and M.A. Olutoye	241
Effect of CaCO₃ and Wood Flour Filler on the Compression Strength of Coconut (Cair) Fibre Reinforced Polymer (FRP) Composite	
A.O. Inegbenebor, A.D. Ogbevire and A.I. Inegbenebor	249
Model Development of the Application of Finite Element – Eigenvalue Method to the Determination of Transient Temperature Field in Functionally Graded Materials	
J.A. Akpobi and C.O. Edobor	253

Oil and Gas

Comparison between Pressure Drop Profile of a Horizontal Well as a Water Injector and as an Oil Producer in a Five-Spot Waterflood Pattern	
E.S. Adewole and O.A. Olafuyi	265
Stability of Gas Injection Using Lateral Wells in Layered Oil Reservoirs	
E.S. Adewole and B.M. Rai	271
The Virtual Well Engineer – A Real – Time Surveillance Tool for Managed Pressure Drilling Operations	
B.M. Oyeneyin, P. Burge, L. Hogg and C. Anderson	277
Innovative Solutions to Fines Management in High Permeability Sands	
B.M. Oyeneyin, S. Mufarji and D. Igwegbu	287
Real Time Evaluation of Sanding Potential	
B.M. Oyeneyin, B. Moriwawon, G.F. Oluyemi, C. Macleod and J. Owens	293

Solar Technology

I-V Characteristics for Bifacial Silicon Solar Cell under a Magnetic Field S. Madougou, F. Made, M.S. Boukary and G. Sissoko	303
Recombination Parameters Determination by Using Internal Quantum Efficiency (IQE) Data of Bifacial Silicon Solar Cells S. Madougou, F. Made, M.S. Boukary and G. Sissoko	313
Potential of Nightsky Nocturnal Radiative Cooling as a Fresh Produce Preservation Method G. Mwithiga and A.C. Kirui	325
Potentials of Passive Solar Design in Energy Conservation in Buildings in the Warm Humid Climate P.A. Okereke and O.O. Odum	331
Solar Tracker Technologies: Market Trends and Field Applications J.T. Agee, A. Obok Opok and M. de Lazzer	339

Systems Design and Analysis

Heuristics for Minimizing Total Completion Time on Single Machine with Release Time E. Oyetunji and A.E. Oluleye	347
Computer Aided Construction, Evaluation and Improvement of a Workplace Assembly Layout Using CADWORK U.J. Udosen	353
Enterprise Modelling in Support of the Application of Lean Manufacturing in SMEs J.O. Ajaefobi and R.H. Weston	359
Developing the Niger Delta Transport System Using Adequate Geo-Spatial Information J.O. Ehiorobo and H.A.P. Audu	365
Intervention Analysis of Road Traffic Accidents in Nigeria A.C. Igboanugo and E.F. Ekhuemelo	375
Promoting Sustainable Development Through Engineering and Technology Capacity Building in Africa: The Role of DTCA S.Y. Bassi	383
The Planning of Continuity of Technological Education in West Africa Using Critical Path Method: Nigeria and Ghana as Case Studies S.B. Adejuyigbe	389

Tools, Machines and Equipment

Influence of Surface Topography on Corrosion of Stainless Steel AISI 304 Turned Surfaces with Different Cutting Conditions N. Hassiotis, G. Petropoulos, C. Hatzopoulos and N. Vaxevanidis	399
Performance Optimization of a Thrust-Vectoring Nozzle A.S. Adavbiele and L.A. Salami	407
The Optimisation of Excess Air and Stack Temperature for the Improvement of Thermal Efficiency and Environmental Performance of Steam Boilers G.E. Nkeng and A. Akah	415
Internal Combustion Engines: A Computerized Design Approach J.A. Akpobi and P. Oboh	423
Design of Process Layout for a Pilot Alkyd Resin Production Plant A.C. Igboanugo and S. Amiebenomo	435
Design of a Fixed Bed Adsorber Unit Using Microsoft Excel Spreadsheet S.E. Ogbeide, C.O. Okieimen, O. Anyiador and V. Odukwe	443
Potential Impact of Oilpalm Fruit Digester Screw Press on Nigeria's NEEDS G.A. Badmus, N.A. Adeyemi and M. Ikheloa	451
Design, Construction, Testing and Operation of Some Laboratory Equipment for Materials Testing I.M. Dagwa and A.O.A. Ibadode	457

Development of a Production Mould for Casting Single – Cylinder Engine Pistons L.B. Zhengwuvi and A.O.A. Ibhadode	465
Engine Spare Parts Production through Copy Manufacture and Substitution Approach E.H. Amalu and A.O.A. Ibhadode	475
Versatile Work Holding Device for Hole Drilling in Small-Scale Production Workshops J.U. Okoli and T.K. Jinyemiema	481
Development of a Changeable Die Forging Machine for Small Scale Forging Industries B. Kareem	487

Waste Technology

Distribution of some Heavy Metals in Leachates from a Municipal Waste Dumpsite K.O. Obahiagbon and G.B. Olowojoba	495
An Environmental Assessment of the Life Cycle of the Plastic Carrier Bag in Zimbabwe C. Mbohwa and G. Manjera	501
Feasibility Study for Waste Incinerator Plant for the Production of Electricity in Harare, Zimbabwe C. Mbohwa and B. Zvigumbu	509
Comparative Study of Biogas Production from Five Substrates S.J. Ojolo, R.R. Dinrifo and K.B. Adesuyi	519
Design, Fabrication and Performance Test of a Prototype Biogas Digester F.A. Aisien, U.F. Akakasiaka, O.G. Otoibhi and E.T. Aisien	527
Admixture of Used Engine Oil with DPK (Kerosene) as an Alternative Fuel for Foundry Shop O.S. Fakolujo, S.O. Jimoh and B.S.O. Ighalo	533

Water Engineering

Software Development for the Water Sector A.E. Taigbenu and A.A. Ilemobade	543
Palm Kernel Shell as a Filter Material in Economic Treatment of Rural Water B.U. Anyata and T. Omotoso	549
An Exponential Rainfall Depth-Intensity Formulation for Western Nigeria O.A. Ehigiator and B.U. Anyata	557
Solid-Liquid Separation Process: Modelling for Design and Development of Gravity Deep-Bed Filters for Water Treatment O.E. Ekenta and B.U. Anyata	563
Improved Wastewater Treatment Using Carbon Dioxide C.G. Enyi and D. Appah	569
