

Table of Contents

Preface and Conference Organizer

Chapter 1: Rubber Agronomy, Socio-Economics and Biotechnology

Rubber Trees Affected by Necrotic Tapping Panel Dryness Exhibit Poor Transpiration Regulation under Atmospheric Drought S.I.N. Ayutthaya and F.C. Do	3
The Influence of Rainfall on Growth of Rubber Trees in Marginal Area of Northeast Thailand N. Sangchanda, S.I.N. Ayutthaya, S. Meetha and P. Songsri	7
Responses of Chlorophyll Fluorescence, Stomatal Conductance, and Net Photosynthesis Rates of Four Rubber (<i>Hevea brasiliensis</i>) Genotypes to Drought A. Azhar, J. Sathornkich, R. Rattanawong and P. Kasemsap	11
Starch Synthesis and Mobilization in Wood and Bark of Rubber Tree, in Relation with Latex Production, (1) Methodological Approach S. Ketkacomol, T. Leksomlan, A. Clement-Vidal, P. Chantuma, S. Klanarong, S. Liengprayoon, P. Thaler, P. Drevet, P. Kasemsap, K. Piyachomkwan, E. Gohet and R. Lacote	15
A Simple Water Balance Model of Rubber Tree Plantations under Different Evaporative Demand Regimes J. Sopharat, S. Sdoodee, C. Tanavud, F. Gay and P. Thaler	20
Resilience of Rubber-Based Intercropping System in Southern Thailand V. Jongrungrot and S. Thungwa	24
The Current Status and Future Trends of Farm Production and Marketing of Para-Rubber in the Upper East Coast Provinces of Southern Thailand S. Choengthong, W. Kongrithi, S. Choengthong and B. Chuaymuang	30
A Comparative Analysis of Smallholders Tapping Practices in Four Rubber Producing Regions of Thailand B. Chambon, S. Anghong, C. Kongmanee, B. Somboonsuke, S. Mazon, A. Puengcharoen, C. Martin and R. Lacote	34

Chapter 2: Rubber Processing and Products

Value Adding of Skim Natural Rubber by Grafting with Maleic Anhydride S. Somboonchai, P. Oparakasit and C. Pattamaprom	41
The Influence of Zinc Dimethacrylate on Crosslink Density, Physical Properties and Heat Aging Resistance of Sulfur Vulcanized Styrene Butadiene Rubber W. Naebetch, B. Junhasavasdikul, A. Saetung, T. Tulyapitak and N. Nithi-Uthai	45
Effect of Unmodified and Modified Epoxidized Soyabean Oils on Properties of Black-NBR Compounds and Black-NBR Vulcanizates K. Chanpon, A. Thitithammawong, C. Nakason and A. Kaesaman	49
Phase Morphology, Thermal and Mechanical Properties of Compatibilized Nylon12/Natural Rubber Blends Using PS/MNR S. Saengthaveep, S.C. Jana and R. Magaraphan	53
Physical Properties of Polymer Blend: Natural Rubber Glove Waste/Polystyrene Foam Waste/ Cellulose Fiber via Brabender P. Phummor, S.A. Riyajan and P. Tangboriboonrat	57
Effect of NR/ABS Ratio on Mechanical, Dynamical and Morphological Properties of Vulcanized NR/ABS Blends P. Wongthong, C. Nakason, Q.M. Pan, G.L. Rempel and S. Kiatkamjornwong	61
Thermal and Mechanical Properties of Mulch Film from Poly(Lactic Acid)/Epoxidized Natural Rubber Blends Filled with Rutile TiO₂ as Fillers P. Nuinu, K. Samosorn, K. Srilatong, S. Tongbut and S. Saengsuwan	65

Changes in Mixing Torque, Mechanical and Dynamic Rheological Properties of Epoxidized Natural Rubber and Copolyester Blends as Affected by Epoxidized Natural Rubber Contents	
D. Kaewkabpet, C. Nakason, A. Kaesaman and A. Thitithammawong	69
Water Absorption and Swelling Property of Interpenetrating Network Hydrogel from Crosslinked Natural Rubber and Modified Rice Starch	
U. Puapermpoonsiri, J. Pratoomted, W. Sila-On and C. Vudjung	73
Thermal and Mechanical Properties of Natural Rubber/Rice Starch Interpenetrating Network Hydrogel	
W. Sila-On, J. Pratoomted, U. Puapermpoonsiri, C. Vudjung and W. Pichayakorn	77
Influence of Curing Systems on Mechanical, Dynamic, and Morphological Properties of Dynamically Cured Epoxidized Natural Rubber/ Copolyamide Blends	
R. Romin, C. Nakason and A. Thitithammawong	81
The Method to Produce Light-Color Natural Rubber	
H. Boonyang and J. Sakdapipanich	85
Thermoplastic Natural Rubber of Co-Polyamide: Effect of Blend Ratios on Mechanical, Swelling, Dynamic and Morphological Properties	
B. Sripornsawat, A. Kaesaman and C. Nakason	89
Influence of Blend Proportions on Properties of ENR-25/TPU Simple Blends	
S. Pichaiyut, C. Nakason, E. Kalkornsurapranee, N. Vennemann and C. Kummerlöwe	93
Dynamic Mechanical and Dielectric Properties of Poly(vinylidene fluoride) and Epoxidized Natural Rubber Blends	
S. Salaeh, G. Boiteux, O. Gain, P. Cassagnau and C. Nakason	97
Role of Gel Content on the Structural Changes of Masticated Natural Rubber	
A. Nimpaiboon, S. Amnuaypornsrri and J. Sakdapipanich	101
Effect of Mixing Temperature on the Mechanical Dynamic and Morphological Properties of Maleated Natural Rubber/Copolyester Blends	
S. Lamlaeh, A. Kaesaman and C. Nakason	105
Mixing Methods Influencing on Properties of Epoxidized Natural Rubber/Polypropylene Thermoplastic Vulcanizates	
C. Hayichelaeh, C. Nakason and A. Thitithammawong	109
Investigation of Structure-Properties Relationship of High Performance TPV Based on ENR/TPU	
E. Kalkornsurapranee, C. Nakason, S. Pichaiyut, C. Kummerlöwe and N. Vennemann	113
Processing of Thermoplastic Vulcanizates Using High Speed Intermeshing-Typed Internal Mixer: Influence of Mixing Patterns	
W. Teppinta, B. Junhasavasdikul and N. Nithi-Uthai	117
Assessment of Mixing Efficiency of Intermeshing Rotor Mixers on Morphological and Mechanical Properties and Crosslink Density of Dynamically Vulcanized EPDM/PP Blends	
N. Uthaipan, B. Junhasavasdikul, C. Nakason and A. Thitithammawong	122
Properties of Thermoplastic Natural Rubber (TPNR): Influence of Polypropylene Grades on TPNR Properties	
C. Manleh, C. Nakason, N. Lopattananon and A. Kaesaman	127
Comparative Study of NR/BR/PP and NR/NBR/PP Ternary Blends for High Abrasion Resistant Thermoplastic Vulcanizates	
S. Inted, N. Lopattananon, B. Thongnuanchan and A. Kaesaman	131
Dynamically Cured Co-Polyester/Epoxidized Natural Rubber Blends: Influence of Epoxide Contents	
K. Sasdipan, A. Kaesaman, N. Vennemann and C. Nakason	135
Effect of Fillers from Renewable Resources on the Performance of Novel Heat and Oil Resistant Thermoplastic Vulcanizates Based on Epoxidized Natural Rubber/Thermoplastic Polyurethane Blends	
W. Pongdong, C. Nakason, C. Kummerlöwe and N. Vennemann	140
Study of Rheological Behavior and Extrudate Surface Quality of Rubber Compounds	
P. Prateepat, K. Suchiva and C. Sirisinha	144
Application of Macca Charcoal in Saponified Natural Rubber Composites	
P. Rodgerd, S. Yakkul and J. Sakdapipanich	149
The Drying Kinetics of Natural Rubber Sheets under Hot-Air Drying with Forced Convection: Experiments and Modeling	
W. Werapun, Y. Pianroj and P. Khongchana	154

An Investigation onto Polydimethylsiloxane (PDMS) Printing Plate of Multiple Functional Solid Line by Flexographic M.I. Maksud, M.S. Yusof and M.M.A. Jamil	158
Effect of <i>N</i>-Phenyl-<i>p</i>-Phenylenediamine Modified Vegetable Oils on Properties of ENR/PP Thermoplastic Vulcanizates: A Comparative Study C. Hayichelaeh, W. Wangwon, C. Nakason and A. Thitithammawong	162
Pseudolatex from STR 5L Block Rubber for Drug Delivery P. Boonme, K. Panrat and W. Pichayakorn	166
Modulation of Drug Release from Natural Rubber Coated Capsule Loaded with Sodium Bicarbonate and Camphor T. Phaechamud	170
Pore Formation of Natural Rubber Film Comprising Different Liquids T. Phaechamud, P. Issarayungyuen and W. Pichayakorn	174
Morphology Development in Thermoplastic Vulcanizates (TPV) P. Cassagnau, C. Barres, G. Martin, N. Garois and P. Sonntag	178
ECO-Adhesive from Modified Natural Rubber for Wood Applications S. Suchat and W. Yingprasert	182
On the Performance of Hybrid Natural Rubber Rubberized Concrete S. Suchat and P. Aditapsatit	186
Highly Glycerin-Loaded Natural Rubber Films Prepared by Casting Technique Using Different Solvents P. Issarayungyuen, W. Pichayakorn and T. Phaechamud	190
Effect of Rubber Clone on Fatty Acid Composition and Properties of Air Dried Sheet C. Thongpet, S. Wisunthorn, S. Liengprayoon, L. Vaysse, F. Bonfils and C. Nakason	194
Feasibility Studies of Magnesium (II) Removal from Fresh Field Natural Rubber Latex Using Macroporous Cationic Exchange Resin S. Puangmanee and W. Taweepreda	198
A Preliminary Study of PDMS Stamp towards Flexography Printing Technique: An Overview M.N. Nodin and M.S. Yusof	201
Fabrication and Characterization of Epoxidized Natural Rubber-Chitosan Membrane W. Taweepreda and A. Wichianchom	205
Molecular Dynamics Simulation of Gas Transport in Polyisoprene Matrix N. Rakkapao	209

Chapter 3: Rubber Compounding and Composites

Influence of the Type of Alkylamine Organic Modifiers on Thermal Mechanical Behavior and other Related Properties of Natural Rubber/Clay Nanocomposites U. Sookyung, W. Thaijaroen, N. Vennemann and C. Nakason	217
Influence of Benzyl Ester Oil on Processability of Silica Filled NR Compound H. Boontawee, C. Nakason, A. Kaesaman, A. Thitithammawong and S. Chewchanwuttiwong	221
Cure Characteristics and Spectroscopic Studies of Silica Filled Epoxidised Natural Rubber Compound M.M. Kamal and R.A. Bakar	225
Kinetic and Nanomechanical Study of Poly (3-hydroxybutyrate)-Epoxidized Natural Rubber-Organomodified Montmorillonite Nanohybrids A. Salehabadi and M.A. Bakar	229
Property Enhancement of Silica-Filled Natural Rubber Compatibilized with Epoxidized Low Molecular Weight Rubber by Extra Sulfur P. Saramolee, K. Sahakaro, N. Lopattananon, W. Dierkes and J.W.M. Noordermeer	235
Influence of <i>N</i>-Phenyl-<i>p</i>-Phenylenediamine Modified Epoxidized Palm Oil on Properties of Carbon Black Filled Natural Rubber Compound and Vulcanizate S. Ieadsang, A. Thitithammawong, C. Nakason and A. Kaesaman	239
Optimization of Epoxidation Degree and Silane Coupling Agent Content for Silica-Filled Epoxidized Natural Rubber Tire Tread Compounds W. Kaewsakul, K. Sahakaro, W. Dierkes and J.W.M. Noordermeer	243

Influence of Epoxide Levels in Epoxidized Natural Rubber (ENR) Molecules on Cure Characteristics, Dynamic Properties and Mechanical Properties of ENR/Montmorillonite Clay Nanocomposites	
P. Yokkhun, B. Thongnuanchan and C. Nakason	247
Utilization of Recovered Palm Oil Fuel Ash as a Filler for Epoxidized Natural Rubber Composite: Influence of Filler Loading on Curing, Mechanical and Morphological Properties	
P. Intharapat, R. Nilcharn and A. Kongnoo	251
Electrical and Mechanical Properties of Conductive Carbon Black Filled Epoxidized Natural Rubber	
S. Matchawet, C. Nakason and A. Kaesaman	255
Electrostriction of Natural Rubber Latex/Carbon Black Nanocomposites	
D. Jaaoh, C. Putson and N. Muensit	259
Effect of Bis (Triethoxysilylpropyl) Tetrasulfide on Physical Properties of Rice Husk Fiber/Natural Rubber Composites	
L. Srisuwan, K. Jarukumjorn and N. Suppakarn	263
Comparison of Thermal Stability of Sulfur, Peroxide and EB Irradiation Cured NR Compounds Containing Ground EPDM Waste	
H. Nabil, I. Hanafi and A.R. Azura	267
Silica-Reinforced Natural Rubber Compounds Compatibilized through the Use of Epoxide Functional Groups and TESPT Combination	
K. Sengloyluan, K. Sahakaro and J.W.M. Noordermeer	272
Surface Modification of TiO₂ Nanoparticles by Grafting with Silane Coupling Agent	
P. Toh-Ae, B. Junhasavasdikul, N. Lopattananon and K. Sahakaro	276
Study on Utilization of Palm Oil Fly Ash as a Filler for Thermoset Natural Rubber	
Bahrudin, Z. Helwani, L. Saktiani, Yanuar and R. Satoto	280
Curing, Tensile and Morphological Properties of Treated Bentonite Filled EPDM Composite	
M. Muniyadi and I. Hanafi	285
Influence of Surface Modification and Content of Nanosilica on Dynamic Mechanical Properties of Epoxidized Natural Rubber Nanocomposites	
M. Jarnthong, C. Nakason, Z. Peng and N. Lopattananon	289
Tensile Properties, Swelling Behavior, and Morphology Analysis of Recycled High Density Polyethylene / Natural Rubber / Chicken Feather Fibers (R-HDPE / NR / CFF) Composites: The Effects of Caprolactam	
A.G. Supri and M. Izzuddeen	293
Properties of Fire Retardant Thermoplastic Vulcanizates from NR/PP Blends Filled with Aluminium Trihydrate and Magnesium Hydroxide with Reference to the Effect of Mixing Methods	
A. Walong, A. Kaesaman, T. Sakai and N. Lopattananon	297
Effect of Modified Natural Rubber and Functionalization of Carbon Nanotubes on Properties of Natural Rubber Composites	
Y. Nakaramontri, C. Kummerlöwe, C. Nakason and N. Vennemann	301
Dynamic Mechanical Properties and Tensile Behavior of Oil Palm Ash Filled Natural Rubber Vulcanizates	
Z.X. Ooi, I. Hanafi and A.A. Bakar	305
Characteristics of NR/CB Composites: Preparation Methods and Correlations of Electrical and Mechanical Properties	
W. Thongruang, B. Nooklay, P. Bunnaul, R.J. Spontak, P. Smithmaitrie and K. Chetpattananondh	309
Preparation of Polymer Composite: Low Natural Rubber, Cassava Starch and Palm Fiber	
D. Riyapan, S.A. Riyajan and P. Tangboriboonrat	314
Comparison of Cellulose, Talc, and Mica as Filler in Natural Rubber Composites on Vibration-Damping and Gas Barrier Properties	
K. Araki, S. Kaneko, K. Matsumoto, A. Nagatani, T. Tanaka and Y. Arao	318
Carbon Nanotube Elastomer Composites	
C. Kummerlöwe, N. Vennemann and A. Siebert	322
Comparative Study on Natural and Synthetic Antioxidants on Thermo-Oxidative Aging of Natural and Synthetic Rubber Vulcanizates	
N.H.H. Shuhaimi, N. Othman, I. Hanafi and S. Sasidharan	326

Thermal Properties of Multiwalled Carbon Nanotubes-Alumina (MWCNT-Al₂O₃) Hybrid Filled Silicone Rubber Composites N. Norlin and M.A. Hazizan	330
The Effect of Kaolin Clay on Fire Retardancy and Thermal Degradation of Intumescent Flame Retardant (IFR)/Natural Rubber Composite T. Thuechart and W. Keawwattana	334
The Influence of CB, Silica and CaCO₃ on Tensile and Morphological Properties of vPE/rPE/EPDM Blends I. Hanafi, N.Z. Noimam, W.H. Wei and M.R.J. Nasir	338

Chapter 4: Rubber Chemistry and Chemical Modification

Effect of Non-Rubber Components on Properties of Sulphur Crosslinked Natural Rubbers W. Smitthipong, R. Tantatherdtam, K. Rungsanthien, P. Suwanruji, S. Klanarong, S. Radabutra, S. Thanawan, M.F. Vallat, M. Nardin, K. Mougin and R. Chollakup	345
Role of Hydroxyl-Terminated Polybutadiene in Changing Properties of EPDM/ENR Blends S. Prasertsri, P. Amnuay, K. Sripan and P. Nuinu	349
Room-Temperature Curing Adhesive Based on Graft Copolymers of Natural Rubber and Poly(diacetone acrylamide) B. Thongnuanchan, R. Ninjan, A. Bunsanong and C. Nakason	353
Gel Polymer Electrolyte from Ozonolysis of Poly(3-(trimethoxysilyl)Propyl Methacrylate) Graft on Natural Rubber Latex for Natural Dye Sensitized Solar Cell Application P. Silakul and R. Magaraphan	357
The Effect of Process Factors to the Kinetic Studies of Emulsion Copolymerization of Natural Rubber and Styrene S. Jaimuang, T. Vatanatham, S. Limtrakul and P. Prapainainar	361
Influence of Reaction Conditions on the Properties of Nano-matrix Structure Formed by Graft-Copolymerization of Acrylonitrile onto Natural Rubber K. Prukkaewkanjana, S. Kawahara and J. Sakdapipanich	365
Influence of Non-Rubber Components on NR Surface Modification by Chlorination M.F. Vallat, S. Radabutra, S. Thanawan, B. Bresson, R. Chollakup, K. Rungsanthien, P. Suwanruji, S. Klanarong, W. Smitthipong and K. Mougin	369
Dielectric Studies of Admicelled Natural Rubber with Poly(3-Trimethoxysilylpropyl Methacrylate) S. Nooma and R. Magaraphan	373
A Study on the Graft-Copolymerization of 2-Acryloyloxyethyl Acid Phosphate onto Natural Rubber C. Sorarutayangkoor, J. Boonyasiri and J. Sakdapipanich	377
Preparation of New Polyols Based on Cis-1,4-Polyisoprene by Using 1,3-Dipolar Cycloaddition E. Anancharoenwong, J.F. Pilard, I. Campistron, A. Laguerre, F. Gohier and S. Bistac	381
Grafted Methyl Methacrylate and Butyl Methacrylate onto Natural Rubber Foam for Oil Sorbent A. Ratcha, B. Yoosuk and S. Kongparakul	385
Adsorption Characteristics of Direct Violet Dye by Natural Rubber Chips S. Utara and P. Phataib	391
Maturation of Cup Lump Natural Rubber: Growth of Microorganisms and Effects on Quality Properties under Alternative Storage Conditions J. Intapun, N. Sontikun and A. Khowaien	395
An Optimization Study on the Inclusion of Aluminium Hydroxide into Natural Rubber Latex as Deproteinization Agent L.K. Keuw Wei, K.H. Badri and W.C. Ban	399
Soil Burial Studies for Biodegradation of Natural Rubber Latex Films S.R. Yahya, A.A. Rashid and B. Azahari	406
A Rapid Quantitative Analysis of Native Antioxidants in Natural Rubber (<i>Hevea brasiliensis</i>) During Maturation N. Musigamart, S. Liengprayoon, S. Klanarong, E. Dubreucq, J. Lecomte and L. Vaysse	410

Chapter 5: Industrial Rubber Application

Mesostructure Evolution during Storage of Rubber Films from Washed Cream Latex and Skim Latex	
C. Thepchalerm, S. Wisunthorn, L. Vaysse, S. Kiatkamjornwong, C. Nakason and F. Bonfils	417
Reduction of Cost Employing Lean Supply Chain in Rubber Glove Industry	
S. Hongpiriyakul, N. Sirivongpaisal, S. Suthummanon, W. Kongkaew and P. Penchamrat	421
Effect of Ground Tyre Rubber Devulcanisates on the Properties of a Passenger Car Tyre Tread Formulation	
A.I.H.H. Dayang, S. Saiwari, W. Dierkes and J.W.M. Noordermeer	425
Electrical Properties Characterization and Numerical Models of Rubber Composite at High Frequency	
S. Nilboworn, P. Wounchoum, W. Wichakool and W. Thongruang	429
Compliant Natural Rubber Latex Electrodes for Electrostrictive Polyurethane Actuation	
C. Putson, D. Jaao and N. Muensit	433
Application of NR Gloves Reclaim: Cure and Mechanical Properties of NR/Reclaim Rubber Blends	
S. Saiwari, E. Lohyi and C. Nakason	437
Removal of NH₃ in Air Released from Rubber Latex Process Using Skim Serum Absorbent	
S. Pansang, P. Kasikamphaiboon and J. Chungsiriporn	441
Heat Built-Up of Industrial Solid Tires in Thailand	
S. Rukkur, C. Dechwayukul, W. Thongruang and O. Patarapaiboolchai	445
An Application of Lean Supply Chain Management for Cost Reduction in Block Rubber Industry	
J. Promngurn, N. Sirivongpaisal, S. Suthummanon, W. Kongkaew and P. Penchamrat	450
Effect of Foaming Temperature and Blowing Agent Content on Cure Characteristics, Mechanical and Morphological Properties of Natural Rubber Foams	
W. Pechurai, T. Muansupan and P. Seawlee	454
Ecological Roofing Tiles Made with Rubber and Plastic Wastes	
R. Gaggino, M.J. Positieri, P. Irico, J. Kreiker, R. Arguello and M.P.A. Sánchez	458
Novel Process in Preparation of Deproteinized Natural Rubber Latex	
P. Boonme, W. Taweeprada and W. Pichayakorn	462
Cosmetic Pore Packs from Deproteinized Natural Rubber Latex	
W. Pichayakorn, P. Boonme and W. Taweeprada	466
Deproteinized Natural Rubber as Chewing Gum Base for Nicotine Delivery	
W. Pichayakorn, P. Boonme and W. Taweeprada	470
Improved Deproteinization Process for Protein-Free Natural Rubber Latex	
W. Pichayakorn, J. Suksaeree and W. Taweeprada	474
An Application of Lean Supply Chain Management for Cost Reduction in Latex Industry	
S. Ponpakdee, N. Sirivongpaisal, S. Suthummanon, W. Kongkaew and P. Penchamrat	478
Determination of Crosslink Density and Network Structure of NR Vulcanizates by Means of TSSR	
N. Vennemann, C. Schwarze and C. Kummerlöwe	482
Overview on the Potential of Biodegradable Natural Rubber Latex Gloves for Commercialization	
M.A. Misman and A.R. Azura	486
Natural Rubber Latex Foam Loading with Metronidazole	
P. Issarayungyuen, N. Nithi-Uthai, W. Pichayakorn and T. Phaeachamud	490
Cast Natural Rubber Films Comprising Triethyl Citrate	
P. Issarayungyuen, W. Pichayakorn and T. Phaeachamud	494
Current Study on Structural Characterization and Unique Film Formation of <i>Hevea brasiliensis</i> Natural Rubber Latex	
J. Sakdapipanich	498
Drying of Rubber Sheet Using Impingement of Multiple Hot Air Jets	
C. Nuntadusit and M. Waehahyee	502

Electrospun Epoxidized Natural Rubber with Poly(vinyl chloride) (ENR-PVC) Nanofibrous for PEMFC Applications

K. Phatcharasit, W. Taweepreda, K. Boonkerd and J.K. Kim

507
