

Table of Contents

Preface

Contributions of Electron Microscopy to the Problems of Hardenable Aluminium Alloys	
D. Schulze	1
Positron Studies of Decomposition Phenomena in Al Alloys	
G. Dlubek	11
The Solidification of Aluminium-Zinc Alloys	
R. Ciach and B. Dukiet-Zawadzka	33
Investigation of Phase Transitions in the Al-6.8at % Zn Alloy by HREM and HVEM	
R. Ramlau and H. Löffler	49
Scaling of Precipitated Structure in Al-Zn Alloys	
K. Osamura, H. Okuda and S. Ochiai	57
The Present Status of Al-Li Based Alloys	
W. Lacom	69
Aluminium Alloys under High Hydrostatic Pressure	
F.J. Kedves	85
The Structure of DC Cast Al-Fe and Al-Fe-Si Alloys	
J. Lendvai	101
AlFe and AlFeSi Intermetallic Phases in Aluminium Alloys	
T. Turmezey	121
Mechanical Properties of AlZnMg Alloys	
I. Kovács	133
Strength and Toughness of High-Strength Al-Alloys	
F. Jeglitsch and R. Ratzi	157
The Fatigue Properties of Precipitation-Hardened Aluminium Alloys	
V. Gerold	175
Role of Trace Elements in Aged Aluminium-Alloys	
I.J. Polmear	195
Atom-Probe Field-Ion Microscope Studies on Age-Hardenable Aluminium Alloys	
K. Hirano	215
Pair Potential Model for α-Phase Stability in the Binary System Al-Zn	
J.M. Holender, R. Abdank-Kozubski and J. Sołtys	241
Detection of the Spinodal Temperature by Resistivity Measurements in an Al-Zn 32 wt % Alloy	
S. Abis	245
Anelastic Effects due to Precipitation and Dissolution in some Al Alloys	
S. Kiss, F.J. Kedves and I.Z. Harangozó	253
On the Existence Field of GP Zones in Al-Zn Alloys	
G. Wendrock, H. Löffler and C.T. Truong	259
On the Decomposition Behaviour of Al-4.8wt%Zn-2.3wt%Mg Alloy during Continuous Heating	
G. Avramovic-Cingara, A. Mihajlovic and M. Rogulic	267
Heterogeneous Nucleation of Precipitates in the Grain Boundary Regions of an AlZnMg Alloy	
P. Czurratis, R. Kroggel, H. Löffler, J. Lendvai and I. Kovács	273
Theoretical Investigations on the Resistivity of Decomposing Al Alloys	
U.H. Gläser and H. Löffler	281
Theoretical Consideration on Ostwald Ripening of Precipitates in Supersaturated Alloys	
H. Grätz and O. Simmich	287
Small Angle Neutron Scattering Investigation of Mg₂Si Precipitates in a Single Crystal of an Al-Mg-Si Alloy	
S. Abis, R. Caciuffo, R. Coppola, P. Fiorini, F. Rustichelli, M. Magnani and M. Stefanon	295
A Differential Scanning Calorimetry Investigation of the Black Spot Defect in Anodised Extrusions of an Al-Mg-Si Alloy(AA6063)	
C. García Cordovilla and E. Louis	301

Precipitation Growth and Dissolution in Aluminium-Iron Alloys	307
I.A. Szabó, D.L. Beke, G. Erdélyi and F.J. Kedves	
Mössbauer Study of Phase Transformation in an Al-Rich Al-Fe Alloy	313
S. Nagy, L. Murgás, Z. Homonnay and A. Vértes	
Mössbauer Investigation of Al-Fe-Si Phases in Aluminium	319
S. Nagy, L. Murgás, Z. Homonnay, A. Vértes and J. Lakner	
Mössbauer Study of Al⁵⁷Fe Alloys Irradiated with Energetic Heavy Ions	325
E. Kuzmann, I.N. Spirov, A. Vértes and E. Kovács-Csetényi	
On the Phase Diagrams of the Al-Fe and Al-Fe-Si Systems	331
A. Griger, A. Lendvai, V. Stefániay and T. Turmezey	
Recrystallization in Supersaturated Al-Fe, Al-Si and Al-Fe-Si Alloys: A Differential Scanning Calorimetry Study	337
C. García Cordovilla and E. Louis	
Effect of Heat Treatment on the Microstructure of Cast Al-Fe-Si Alloys	343
Á. Cziráki, B. Fogarassy, A. Oszkó, I.A. Szabó, A. Teravagimov and M. Reibold	
The Microstructure of Al-Fe-Si, Al-Fe-Mn-Si and Al-Fe-Mn-Mg-Si Rolling Ingots in Dependence on Homogenization and Preheating Temperature	351
T. Csurbakova, Á. Cziráki, B. Fogarassy, A. Oszkó, I.A. Szabó and B. Arnold	
Structure of High Purity Cast Al-Mn and Al-Mn-Fe Alloys	357
Á. Cziráki, B. Fogarassy, A. Oszkó and I.A. Szabó	
Effect of Cold Rolling on the Exoelectron Emission from Industrial Age Hardened Aluminium Alloys	363
C. Górecki	
Investigation of Microstructure and Mechanical Properties of Zn-Al Alloys	369
L. Terziev, A. Skenazi and T. Greday	
Precipitation Processes in Al-Cu-Li Alloy Studied by DSC	377
H.H. Jo and K. Hirano	
Young's Modulus of Elasticity of Al-Zn₂Mg Alloys in Dependence on the Precipitation Structure	383
W. Heroth and E. Becker	
The Plastic Behaviour and the Microstructure of an Al - 4.5wt%Zn - 1.5wt%Mg Alloy	389
T. Ungár, J. Lendvai, I. Groma, J. Illy, G. Vörös and I. Kovács	
Influence of Inherent Dispersoids on Cold Deformation Substructure in AlZnMgCu-Alloys	399
R. Ratzi and F. Jeglitsch	
The Cyclic Crack Propagation Behaviour of a Hardenable Polycrystalline Al-Mg-Sc Alloy	407
H.J. Gudladt and P.M. Nagy	
The Influence of Heat Treatment on the Notch-Fatigue Behaviour of 6005A	413
H. Bomas and P. Mayr	
High Temperature Plasticity of Al Alloys Investigated by Impression Creep Test	421
A. Juhász, N.Q. Chinh, P. Tasnádi, P. Szászvári and I. Kovács	
Superplasticity of AlZnMgFe Alloys Investigated by Different Methods of Deformation	429
A. Juhász, N.Q. Chinh, P. Tasnádi, I. Kovács and T. Turmezey	
Investigation of the Microstructure of an Al-Zn-Mg Alloy during Superplastic Deformation	435
J. Illy, A. Juhász, Z. Rajkovits and I. Kovács	
Bulging Test of Superplastic Al Alloys	447
A. Juhász, P. Tasnádi, I. Kovács, T. Torma and T. Turmezey	
Structure Changes during Creep of the Al-30wt%Zn Alloy	453
M. Simerská, P. Bartuška, V. Synecek and J. Lašek	
Effect of Structure on Creep Behaviour of the Al-30wt%Zn Alloy at 220°C	459
J. Lašek, M. Simerská, V. Synecek and P. Bartuška	
New Results about the Formation of Slip Bands by Quenching in Al-Zn Alloys	467
R. Kroggel and P. Siebert	
Quenched-In Dislocation Loops in Al-Zn-Mg Alloys	475
P. Czurratis, R. Kroggel and R. Wolter	
Enhanced Precipitation in Age Hardenable Aluminum Alloys: Role of Nucleation Entropy	483
J. Karov and W.V. Youdelis	
The Effect of Mn Addition and the Quenching Rate on the Properties of an AlMgSi1 Alloy	491
E. Kovács-Csetényi, T. Csurbakova, P. Bárdos Deák and T. Ungár	

The Effect of Scandium Addition on the Mechanical Properties of Pure Aluminium and of an AlMg6 Alloy		
T. Torma, E. Kovács-Csetényi, L. Vitális, I. Vitányi, J. Stepanov and M. Butova		497
Kinetic Studies on the Precipitate-Free Zones in Al-Ag and AL-Zn-Mg Alloys		
S. Fujikawa, Y. Akutsu and K. Hirano		505
Positron Annihilation and Mössbauer Spectroscopy Studies of Vacancy-Impurity Interaction in Dilute Al-Sn Alloys		
C. Szeles, A. Vértes and K. Süvegh		511
On the Volume and Grain-Boundary Diffusion of 3d-Transition Elements in Al and Al-Alloys		
D.L. Beke, I. Gődény and F.J. Kedves		519
Temperature and Concentration Dependence of the Thermo-Electric Power in AlMn and AlCr Alloys		
G. Erdélyi, F.J. Kedves and I.A. Szabó		527
Solid Solubility Trends in Binary Aluminium Alloys		
T. Górecki		533
Impurity Diffusion of Manganese in Aluminum		
S. Fujikawa and K. Hirano		539
Numerical Calculation of the Concentration Distribution during the Solidification of Binary Alloys Allowing for Dendrite Arm Coarsening		
E. Halder, A. Roósz, H.E. Exner and H.F. Fischmeister		547
Rapidly Quenched Al-5.3 at % Mn Alloy Containing Quasicrystal Units		
Á. Csanády, R. Wessicken, H.U. Nissen, B. Albert, A. Griger and V. Stefániay		559
Rapidly Solidified AL-Fe-Ni Ribbons and Their Characterization		
B.C. Baliga, V. Gopinathan and P. Ramakrishnan		567
Microstructure of Rapidly Solidified AL-Cu-Mn and AL-Mg-Zn-Mn Alloys		
L. Dzuong and N.Q. Thang		573
Effect of Mechanical Properties on the Reliability of Structural Aluminium Components		
I. Kirou and D. Kosteas		579
Heat-Treatments of High-Strength Aluminium Screws		
K. Banizs		593
Economic Heat Treatment of Cast Al-Si Pistons Satisfying Specified Critical Properties		
A. Rajczy, A. Szombati and G. Bobok		599
