

Table of Contents

Preface

Chapter 1: Steel and Alloys

Optimal Selection of Machining Parameters for Minimization of Elementary Energy Consumption during Machining of 304 Austenitic Stainless Steel	
N. Baishya, K. Das, K. Roy, H. Ahmed and K. Chakraborty	3
Adhesion of Aluminum Alloy to Tip of Nozzle Plate of Vertical Type High Speed Twin Roll Caster	
T. Haga, H. Ochi, H. Fuse, H. Watari and S. Nishida	11
Microstructure and Mechanical Properties of 28 % High Chromium White Cast Iron	
P. Batkhuu, A. Purvee, T. Purevdorj and K. Kelgenbai	17
Tensile Properties, Strain Rate Sensitivity and Microstructural Analysis of SN100C Solder Alloys	
T.H. Gu, S.W. Jiang and W. Su	25
Material Characterisation and Mechanical Properties of WN_xMo_yAl_{1-x-y}Cr_y (x=0.5, 1 y= 0.5, 1) Refractory High Entropy Alloys	
M. Biyiklioglu, K.G. Bayrak, E. Ayas, B. Baksan, H. Gokce, D. Agaogullari and M.L. Ovecoglu	33
A Comparative Study on Force Deformation Behaviour of Fe and Cu-Based SMA with NiTi SMA	
M.Y.M.H. Shaikh and S. Gur	41
Experimental Investigation of the Effect of Input Control Variables and Thermal Treatments on the Impact Toughness of EN-31 Steel	
K. Kamei, R. Davis and R.B.D. Pereira	47
Target Alloys of Iron-Based Materials through CALPHAD Method	
Y. Faqiri and T. Hassel	55

Chapter 2: Additive Manufacturing

Experimental Investigations on Strength of a Nano Doped 3D Printed Circuit Board for Application in Electronics Industry	
B. Gautam, S. Sharma, A.S. Baghel and R. Dua	69
Characterization and Optimization of Mechanical Properties in Laser Powder Bed Fusion Manufactured 316L Stainless Steel	
T. Rautio, M. Hietala, M. Jaskari, A. Mustakangas, M. Keskitalo and A. Järvenpää	75
Analysis of Mechanical Properties and Fatigue Resistance in Laser Welded WAAM Ultra-High-Strength Steel	
M. Hietala, M. Keskitalo, J. Arvola and A. Järvenpää	83

Chapter 3: Chemical Engineering

Characterizations of Some Selected Clay Types for Cost Effective Wastewater Treatments	
S. Aluvihara, C.S. Kalpage and B.S. Chauhan	93
Coalescence Dynamics of Oil Droplets on an Air-Water Interface Driven by Surface Waves	
P.N. Panday, A. Kumar, A. Bandopadhyay and P. Kumar Das	111
