

Table of Contents

Preface

Chapter 1: Advanced Alloys Treatment

Effect of Annealing on the Hardness Variation and Deformation Behaviour of W-Ni-Cu and W-Ni-Fe Alloys

W. Su, C. Sun, H.T. An and T.H. Gu 3

Effects of Heat Treatments on Fatigue Damage of Aluminum Alloy 2017A

A. May, Z. Bouabdallah and A. Belattar 11

Chapter 2: Optimisation of Cutting Parameters

Optimization of Cutting Parameters on Carbon Steel Using Taguchi-Grey Relation Method

Y. Şahin and M.A. Wahab 19

Optimization of Cutting Parameters in Surface Roughness for Machining Stainless Steel

Y. Şahin and A.S. Öğülmüş 35

Chapter 3: Wear of Materials and Structures

Residual Stress Analysis: An Essential Tool for Pelton Runner Lifespan Evaluation

C. Seifert, S. Acuña, D. Hincapie, A.F. Duque and A. Morales-Ortiz 49

Comparison of the Time Varying Mesh Stiffness of Gears with Single and Multi-Mode Damage

A. Oreavbiere and M. Khan 59

Chapter 4: Computational Research

Unified Micromechanics of Matrix Composites

V. Buryachenko 73

Application of Multiple Linear Regression Analysis for Compressive Strength Prediction of Compressed Stabilized Earth Blocks

A. Hammas and M. Mahdad 81

A Localized Multi-Level Method of Fundamental Solutions Applied to Steady Heat Transfer Problems

C. Gáspár 93

Chapter 5: Techniques of Analysis and Testing

Evaluating Chemical Analysis Techniques: A Comparative Study of SEM-EDX and Optical Emission Spectroscopy

R. Faur, I. Duma, M. Florea and A.C. Bucur 107

Ai-Driven X-Ray Image Analysis for Enhanced NDT Performance

S. Szabolcs, J. Dudra, Z. Zsíros, P. Margitai, M. Pataki, C. Balogh and V. Matók 119

Further Investigation Regarding the Use of Ultrasonic Pulse Velocity (UPV) on Earthen Elements

B. Bolborea, S. Dan, C. Baeră, A. Gruin and I.A. Perianu 129

Internal Failure Detection in Laminated Rubber Bearing Using Deep Learning Techniques

Z. Adnan, J.H. Ho, A.B. Chai, H.C. How, T.Y. Chai and S. Kamaruddin 141
