## Postface

<b>Prospects for the Aluminium Industry</b>	
B. Legrand	3
<b>Aluminium Structures Used in Aerospace - Status and Prospects-</b>	
K.H. Rendigs	11
<b>Structure and Property Control of Aerospace Alloys</b>	
P. Sainfort, C. Sigli, G.M. Raynaud and P. Gomiero	25
<b>Aluminium Alloys for Automotive Application</b>	
J. Hirsch	33
<b>Alternative Materials for a New Generation of Vehicles</b>	
N.A. Gjostein	51
<b>Effect of Cavitation Melt Treatment on the Structure Refinement and Property Improvement in Cast and Deformed Hypereutectic Al-Si Alloys</b>	
G.I. Eskin, Y.P. Pimenov and G.S. Makarov	65
<b>Rapidly Solidified Layers on an AlZn<sub>5</sub>Mg<sub>3</sub>Cu<sub>0.8</sub> Alloy</b>	
J. Lašek, P. Bartuška and B. Major	71
<b>Control of Segregation in Squeeze Cast Al-4.5Cu Binary Alloy</b>	
G. Durrant, M. Gallerneault and B. Cantor	77
<b>Numerical Method for Analysis of Microporosity Formation in Aluminium Alloy Castings</b>	
M.L.N.M. Melo, E.M.S. Rizzo and R.G. Santos	83
<b>Indirect Extrusion of Different Al-Si-Powder Alloys</b>	
K. Müller and T. Teubert	91
<b>The Influence of Particle Dispersions and Processing Route in the Development of Recrystallization Textures in Aluminum Alloys</b>	
G. Burger, P. Wycliffe, C. Gabryel and D.J. Lloyd	101
<b>Analysis of Flow Behaviour and Texture Evolution of a Particle Hardened Aluminium Alloy in Plane Strain Deformation</b>	
G. Bermig, A. Bartels, H. Mecking, A. Oscarsson and W.B. Hutchinson	111
<b>Interaction between Iron and Cooling Rate from the Melt on the Dispersoid Distribution in AA 6013</b>	
A. Conte and T.H.J. Sanders	119
<b>Advanced Properties of Ultra Fine-Grained Al-Alloys</b>	
N.K. Tsenev, R. Valiev and I.R. Kuzeev	127
<b>Comparison of Anisotropy and Flow Behaviour in Two AlZnMg Extrusions - Recrystallized versus Nonrecrystallized</b>	
A. Fjeldly and H.J. Roven	135
<b>Changes of Flow Stress by Plane Strain Compression of Al-Si-Cu Alloys at High Temperature</b>	
H. Takeuchi, T. Doko, T. Kumazawa and A. Kikuchi	141
<b>Measurements and Evaluation of Strain Rate Sensitivity in Al at Late Stages of Deformation</b>	
P. Les, M.J. ZEHETBAUER and H.P. Stüwe	147
<b>Tensile Properties at Low to High Strain Rates of AlMgSi and AlZnMg Alloys</b>	
B. Andersson and S.R. Skjervold	153
<b>Mg Effects on the Eutectic Structure and Tensile Properties of Al-Si-Mg Alloys</b>	
Q.G. Wang and C.H. Cáceres	159
<b>Precipitation Hardening Behavior of SiC Whisker Reinforced Al-Cu Based Alloys Composites</b>	
S.K. Hong, S.H. Hwang, J.C. Choe, I.M. Park, H. Tezuka, T. Sato and T. Kamino	165
<b>The Effects of Mixed Mode Loading on Intergranular Failure in AA7050-T7651</b>	
I. Sinclair and P.J. Gregson	175
<b>A Comparison of the Damage Tolerance of 7010 T7451 and 7050 T7451</b>	
A.J. Morris, R.F. Robey, P.D. Couch and E. De los Rios	181

<b>The Effect of Processing on the Fracture Toughness of 8090 T8 Sheet</b>	187
A.J. Morris, S.B. Williams and M.A. Reynolds	
<b>Toughness Enhancement Based on Fracture Mechanical Simulation of Al-SiC<sub>w</sub> Composite</b>	193
T. Kobayashi and H. Toda	
<b>The Cyclic Deformation Behaviour of Dispersion Strengthened Aluminium Materials at Elevated Temperatures</b>	199
I. Kröpfl and O. Vöhringer	
<b>Theoretical and Experimental Studies of Galvanic Corrosion between Aluminium and Al-4% Cu Alloys</b>	207
P. Bucaille, R. Oltra and T. Warner	
<b>The Trivalent Chromium Pretreatment Applied to Aluminium 1050</b>	213
F. Delaunois, V. Poulain and J.P. Petitjean	
<b>Microcapsulated Aluminium Powders</b>	219
O.D. Neikov, P.B. Rabin and G.I. Vasiliyeva	
<b>Solid Phase Welding of Alloy AA6061 and SiC<sub>p</sub> Reinforced Alloy AA6061 at Intermediate Temperature</b>	225
T. Yokota, M. Otsuka, T. Haseyama, T. Ueki and H. Tokisue	
<b>Fatigue Properties of Mechanical Fastening Joints</b>	231
H. Mizukoshi and H. Okada	
<b>Industrial Applications of Superplastic Forming with Aluminum Alloys</b>	239
E. Gratiot and G. Surdon	
<b>Advanced Weldable High-Strength Al-Cu-Li Alloy for Aerospace Applications</b>	243
U. Koch, T. Pfannenmüller, V. Davydov, I.N. Fridlyander and P.J. Winkler	
<b>Advanced Weldable Damage Tolerant AlMgLi Alloy for Aircraft Application</b>	249
I.N. Fridlyander, N.I. Kolobnev, O.E. Grushko and V.G. Davydov	
<b>Al-Li Alloys for Lower Wings and Horizontal Stabilizer Applications</b>	255
R.J. Rioja, C.J. Warren, M.D. Goodyear, M. Kulak and G.H. Bray	
<b>Weldable High-Strength Aluminium Alloys</b>	263
Y. Zolotorevsky
