

# Table of Contents

## Preface and Sponsor

## Chapter 1: Applied Mechanics

<b>Numerical Simulation for Mechanical Behavior of Carbon Black Filler Particle Reinforced Rubber Matrix Composites</b> Q. Li and X.X. Yang	1
<b>The Effect of Load Direction on the Structure Capacity of Human Proximal Femur during Falling</b> L. Fu, H.W. Zhao, Y.X. Zhu, Q. Zou, C.Y. Geng, B. Zhao and C.S. Liu	7
<b>Influence of Water Pipe Cooling on Thermal Stresses in Mass Concrete</b> X.L. Bai, Z.Y. Wu, W.L. Ma and D.F. Wang	12
<b>Evaluating Shakedown for Structures Based on the Element Bearing-Ratio</b> W. Zhang, L.F. Yang, C.X. Fu and J. Wang	16
<b>An Experimental Research and Analysis of the Law of Explosive Stress Wave Propagation of Cylindrical Charge</b> X.Y. Jiang, S.L. Yan and W. Liu	24
<b>Failure Modes of Serially Isolated System under Large Deformation</b> Y.F. Du, Z.D. Lin and Q.K. Zhu	30
<b>Fitting Theory and Method of Hyper-Elastic Materials' Nonlinear Constitutive Relations Base on BP Neural Network</b> B. Yang, L. Liu and S.K. Zhang	36
<b>Numerical Analysis of KI of Semi-Elliptical Surface Crack in Steel Structure Strengthened with FRP under Tensile Load</b> C.Y. Zhao, P.Y. Huang, H. Zhou and X.H. Zheng	42
<b>Numerical Study on Hydrodynamic Behavior of Deepwater Spar Platform with Different Mooring Configurations</b> J.W. Sun, X.T. Fan, X.Z. Wan and S.X. Liu	50
<b>Slope Stability Analysis Using Unified Strength Theory</b> Z.Y. Ma, H.J. Liao and M.H. Yu	59
<b>Study of Destruction Mechanism of Floating-Roof Oiltank under Combustible Gaseous Explosion in a Small Scale Experiment</b> S.Z. Lu and W. Wang	65
<b>Global Stability Analysis of the Wake behind a Circular Cylinder Based on the POD-Chiba Method</b> W. Zhang, X. Wen and Y.Q. Jiang	72
<b>Stress Intensity Factor of Peripheral Edge Crack around a Spherical Cavity under Internal Pressure Corrected</b> S. Shi, Q.Z. Wang and P.J. Li	77

## Chapter 2: Civil Engineering

<b>A Study on Deformation Trend of Concrete Dams</b> J.L. Qian, Y. Zhang and M.S. Zheng	82
<b>Wind Energy Utilization of High-Rise Buildings Roof Numerical Analysis</b> Y.H. Chen, X.Q. Peng and R. Yang	87
<b>Application of Laboratory Tests Results of Dowel Joints in Cement-Splinter Boards VELOX into the Fully Probabilistic Methods (SBRA Method)</b> A. Lokaj, K. Vavrusova and E. Rykalová	95
<b>Deform Performance of Spring Vibration Isolating Turbine-Generator Foundation under Strong Earthquake Actions</b> T.J. Qu, X.Y. Wang, D.Y. Meng and D. An	100
<b>Displacement Equations Using Force Method for Frame-Composite Walls under Horizontal Loads</b> C.H. Wu, M. Guo and Y.J. Zhang	106

<b>Dynamic and Buffeting Analysis of Suspension Pipeline Bridge</b> L.H. Huang, B. Li, G. Lei and D.D. Shi	113
<b>Effect Analysis for Reinforcing Method of Certain Cracked Bearing Platform</b> Y. Luo and L. Yu	119
<b>Effect of Bridge-Soil Interaction on Behavior of Integral Bridge</b> T.L. Yu and M. Awad	123
<b>Integration Matching Algorithm on Gravity Aided Underwater Navigation</b> Y.F. Chen, R.F. Zhong and B. Shi	128
<b>Nonlinear Analytical Model of RC Shear-Critical Frame Elements</b> Y.P. Zhang, B. Diao and Y.H. Ye	134
<b>Numerical Study on Effects of Rock Bridge Angle in Uniaxial Compression Test</b> B. Xie, Y.L. Ma and X. Xia	140
<b>The Study on the Water Immersing Time Impact over the Concrete Anti- Compression Strength with Rock-Drilling Method</b> J.Y. Zhang	144
<b>Seismic Performance Evaluation of a Steel-Concrete Hybrid Frame-Tube High-Rise Building Structure</b> H.J. Jiang, B. Fu and L.E. Liu	149
<b>Seismic Response Reduction of Cable-Stayed Bridge with Viscous Dampers</b> W.L. Qiu, M. Jiang and X.B. Zhang	154
<b>Simulation Research and Application on Control Technology of Long Concrete Wall Cracks in Basement</b> Y.Z. Zhu, F. Gao and J.D. Kong	159
<b>Study of Static Wind-Induced Effects on Residential Complex</b> X.Q. Peng, C.G. Qiao and Y.H. Chen	167
<b>Study on Mass Concrete Slab Construction Technology of Dalian World Finance Center</b> G.J. Zhang, H.N. Li and C.Q. Shi	175
<b>Study on Numerical Simulation Analysis of Creep Model for Tianjin Tower</b> X.Y. Duan, Z.W. Li, Y. Yang and Y.J. Gong	181
<b>Study on the Width of Turbulent Area around Pier with Ship Impact</b> X.P. Liu, D.Y. Qian, S.S. Fang and Y. Zhang	186
<b>The Effect of Leachate Collection Layer Structure on Leachate Quality in Semi-Aerobic Landfill: A Pilot Study</b> G.T. Liu, Z. Zhang and X.Y. Peng	192

### **Chapter 3: Hydraulic Engineering**

<b>3-D FEM Seepage Simulation of Channel with Drain Pipes</b> Z.K. Li, Y.R. Huang, J.Y. Wang and Q. Zi	198
<b>Application Research on Low-Pressure Pulse and Cavitation Jet Compound Drilling Technology</b> W.F. Li and G.L. Wang	205
<b>Calculation on Dynamic Angle of Repose for Submarine Pipeline on Sandy Seabed</b> L.P. Yang, B. Shi and Y.K. Guo	210
<b>Capillary Hysteresis Internal Variable Model of Unsaturated Soils</b> H.A. Li, Q.X. Wang, Y.X. Yang, G.H. Zhu, L.X. Wang and Z.Y. Zhang	215
<b>Numerical Analysis for Unsaturated Water Movement in Soil of Changing Bulk Density</b> S.B. Cai, M.A. Shao, D.Q. Lu, X.L. Fu and D.Z. Li	221
<b>Research on Hydraulic Characteristics of Cutthroat Flume in Irrigation District</b> Q.L. Qi, Q. Kong and Q.Q. Ye	227
<b>Research on Numerical Analysis and Application of the Tailing Pond</b> L.T. Zhang, Q.L. Qi, Q. Li and J. Zhang	232
<b>Salt Flux in a Partially Mixed Estuary with Varying River Discharge over a Spring-Neap Tide Cycle</b> L.R. Yuan, R.L. Chen and C. Lu	237
<b>Simulation Analysis of Concrete Dam's Joints Based on Elastic-Plastic Creep Model</b> Y.Y. Huang, H. Zheng and Y.H. Zhou	243

<b>The Calculation and Simulate Research of the Natural Frequency of Liquid Flow on Piping Networks of Multi-Pulse Sources</b> X.P. Su, S.T. Liu, F.M. Yin, G.K. Nie and W. Sun	250
<b>Chapter 4: Environmental Engineering and Safety</b>	
<b>Lidar Measurements for Comparison of Atmospheric Aerosol Extinction and Scattering Properties over Lanzhou, China</b> X.J. Cao, L. Zhang, X.J. Quan, B. Zhou, J. Bao and X. Li	256
<b>Pollution and Potential Biological Toxicity Assessment Using Heavy Metals from Surface Sediments of Liangtan River, Chongqing, China</b> G.T. Liu, X.Y. Zheng, X.Y. Peng and J.H. Li	262
<b>Prospect Analysis of the Coupling System of Low-Quality Biomass Treatment and Microalgae Biofuel Production</b> X.D. Wu, Y.H. Liu, R.S. Ruan, Y.Q. Wan, J.S. Zhang and H. Peng	269
<b>Study of Ventilation Character for an UFAD Room with Cooling Wall</b> X.H. Li and D.G. Lin	275
<b>The Acute Toxicity of Single and Combined Exposure of Mercury and Bromoxynil on <i>Fridericia Bulbosa</i></b> D.L. Yang, J. Zhu, G.X. Shen, W.H. Wang, X.P. Guo, Z.Q. Wang and H.W. Yao	280
<b>The Coincident Relationships between the Qehan Lake Area Fluctuation and the Climate Change in the Nearly 40 Years</b> X. Chun, M.J. Zhang and M.P. Liu	286
<b>A Study of the Atmospheric Weighting Mean Temperature in Northwest Plateau of China</b> J.J. Zhang, Y.L. Chu and J.Q. Zhong	291
<b>Analysis of Air Flow and Turbulent Fluxes Features of Night Fog</b> B.G. Wu, Z.Y. Wang and Y.Y. Xie	297
<b>Effects of Fluctuating Light Density on the Growth and Chemical Constituents of <i>Ulva pertusa</i></b> G.L. Guo, J. Xu, Y. Shi and T. Xu	302
<b>Gabbro in Wanning, Hainan Island: LA-ICP-MS Chronometry and its Geological Significance</b> L.M. Tang	307
<b>Ground-Based Microwave Radiometer Profiler Observations before a Heavy Rainfall</b> W.J. Xu and H.Y. Liu	312
<b>Neotectonic Movement of the Northern East China Sea Shelf Basin</b> F.H. Hou, S.Z. Li and Z.X. Zhang	316
<b>Remediating Lead, Zinc, Cadmium and Arsenic Contaminated Steel Smelting Site with Hydrochloric Acid and Sodium Hydroxide</b> Y.M. Li, M. Lei and T.B. Chen	322
<b>Seasonal Variation of Nutrients and Environmental Impact Factors in Sanggou Bay</b> Y. Fang, Z.B. Lv, H.J. Zhang, F. Li and B.Q. Xu	328
<b>Spatial-Temporal Pattern of Tourism Economic Differences in Gansu Province</b> P.J. Shi, Z.J. Wang and W. Li	335
<b>Studies on Phytoplankton and Particulate Organic Carbon in the Southern Ocean</b> G.H. Zhu, Y.L. Liu, L.H. Chen, P.S. Yu, M. Jin and Z.L. Liu	344
<b>Study on the Impact of Tongluoshan Tunnel on Groundwater Environment Based on Hydrochemical Analysis</b> J. Liu and D. Liu	353
<b>Study on the Purification Effects of Constructed Wetland Plants in TP Disposal in Living Wastewater</b> M. Lu, F.F. Pei, X.K. Song and Z. Guo	357
<b>The Comprehensive Analysis to the High Precipitation Supercell Affecting Guangxi</b> X.H. Li, L.H. Yao and Z.M. Lin	362
<b>Tower Atmosphere Characteristic of Advection Fog</b> Z.Y. Wang, B.G. Wu and H. Huang	369
<b>Types and Acoustic Reflection Characteristics of Geo-Hazards in the Western of the North Yellow Sea</b> X.H. Chen, X.H. Zhang and R.H. Li	374

## **Chapter 5: Others**

<b>A Design of End Effector for Measuring Robot Orientation Accuracy and Repeatability</b> X. Zhang, W.C. Yan, W. Zhu and T. Wen	382
<b>A Primary Probe on the County Cultural Facility's Suitability Indicator System in Eastern Northwest China — Case Analysis on Chengcheng County, Shaaxi Province</b> H. Yang, M.H. Huang, Y. Wang and Y. Yu	387
<b>Analysis on Overall Design of the Main Bridge of Dalian South Binhai Avenue</b> G.J. Zhang, Y.G. Tan and H.N. Li	392
<b>Discussion on the Relationship between Rockburst Proneness of Rock and its AE b-Value</b> G. Zhang, M.X. Li and J.X. Chen	398
<b>Experimental and Numerical Study of Transient Distortion in Titanium Alloy Tig Welding</b> R. Wang, D.F. Li, X.L. Han and J. Zhang	403
<b>Fatigue Performance Analysis of PC Bridge Based on Precast Damage Accumulation Effect</b> C.L. Han, X.D. Zhang, S.F. Ma, M.S. Luo and Z. Guo	408
<b>Fuzzy Finite Element Optimization of High-Speed Vertical Machining Center Spindle Box</b> J.J. Cao, L.H. Wang and J. Lu	414
<b>Prediction of Welding Distortion in 304 Stainless Steel</b> D.F. Li, R. Wang, X.L. Han, P. Yang, J. Han and L. Zhang	419
<b>Research on Real-Time Estimation of Fatigue Life for Quayside Container Crane</b> W. Wang and X. Hu	424
<b>Research on Vortex-Induced Vibration Behavior of Steel Arch Bridge Hanger</b> L. Bai and K. Liu	429
<b>Study on Optimization of Regional Spatial Structure Based on Land Use and Transport Accessibility: A Case Study of Pearl River Delta Region</b> X. Lu and Q. Liu	435
<b>Trend Prediction of Hydraulic Liquid Leakage Based on ES-LSSVM</b> Z.Y. Wu, Z.B. Xu and M. Gao	440
<b>Vibration Carpet Value in Classification and Evaluation of the Motor Condition</b> Y.A. Yin and X. Hu	445
