

Table of Contents

Preface

Modeling the Output Power of Direct Methanol Fuel Cells Using SVR

J.L. Tang and X.J. Zhu 1

The Impact of 3D Coordinate Technology Using Nanomaterials on Architecture Engineering Industry

S.H.R. Ali and G.A. Ebrahim 7

Large Torsion Deformation: Centrosymmetric Reentrant Honeycomb

B.H. Xu, S. Wang, K.F. Zhou, W.Y. Ma and N. Sun 17

Evaluation of the Effect of the Difference between the Real Attachment Unit and the Sealing in the Study of the Stress-Strain State of the Solar Panel of a Small Spacecraft as a Result of a Temperature Shock

A.V. Sedelnikov and V.V. Serdakova 27

Numerical Calculation and Prediction of the Water Temperature in Reservoir of a Hydropower Station in Laos

H. Zhou, J.X. Ding, Z.C. Zhang and Z.J. Wang 35

Research on the Denoising Method of Intelligent Ultrasonic Fuel Consumption Testing in Automobiles

B.X. Fu, W. Wang, Z.Y. Cheng and Y. Bao 43

Vibration Analysis of Cylindrical with Splitter Plates under Different Deflection Angles at High Reynolds Number

J.Y. Ding and C.X. Jiang 51
