

Table of Contents

Preface and Conference Organization

Chapter 1: City and Building Planning, Architectural Design and its Theory

Analysis on Derivative Mechanism of Liuzhou Urban Architecture, Qing~Minguo L. He	3
Brief Analysis of Contemporary Commercial Architectural Design M. Wang and Y.B. Gao	7
Comparative Study on Traditional Commercial Block Transformation Method C. Zheng and Y.B. Gao	12
Freedom Sway Space — Discussion on LOFT M. Zhou	16
Simple Discussion on Development, Influence and Future of Parameterization Design L. Zhang, Y.B. Gao, Y.B. Gao and Y.B. Gao	19
Discussion on the Development Trend of China's Airport Terminals Z.Y. Feng and Y. Xiao	26
Elevation Design of Urban Business-Living Building Y.N. Hu	34
The Research on Storage Water of Fire Pool for High-Rise Building Y. Zhao	38
Analysis on the Heating Form of the Resident Architecture Sites of Bohai State Z.M. Sun	42
Applied Research and Development Uygur Architectural Plaster Floral Craft and Information Technology G. Li	46
Organic Self-Help Building: A Sustainable Self-Construction Development Direction J. Hou, L. Fu, Y. Xin and Y.Z. Wang	52
Study on Design of Airports X.F. Hou and J.B. Zhao	56
The Design Strategy for Improving the Sunshine Condition of Residential Area in Severely Cold Region W.J. Gaowa and Y. Tuo	60
The Planning and Architectural Design Research about Guang'an Temple Based on Ritual Culture B. Cheng and J.P. Liu	64
Introduction to the Enlightenment from Traditional Academies in Nanning Area to Local Characteristics Design of Modern Campus — Take Xinhui Traditional Academy in Nanning as an Example L. Wei and L. Wang	69
Re-Interpretation of the Typological Methods in Architectural Design of New Regionalism — A Case of Fuyun Urban Exhibition Hall Design in Xinjiang Province L.J. Wang and J.R. Zhang	74
Residential Typology on Contemporary City-Complex H.Z. Liu	79
Study on the Specificity of Modern Prison Building Design Y.K. Song	84
The Continuation of "the Spirit of Place" — Architectural Design of Side Hall of Baise Uprising Memorial W. Xiong, Y. Zhao and S.F. Qin	90
Transformation and Rebirth of "Wayao" Creative Park X.X. Qiu and Q. Zhao	95

Analysis on the Shape Features and Heat Consumption of the Qing-Official-Style Archaized Buildings S. Wang and J. Zhao	99
Discussion of Basic People's Court Building W.J. Gaowa, Y. Tuo and W.H. Ming	104
Environment Evaluation Standard Analysis of POE of Winter City Commercial Buildings J.S. Liu	107
Research of Architectural Art and Environment Design of South Anhui's Ancient Residence L.Q. Guo, Y.Q. Guo and X. Zeng	111
Analysis on the Integration Form of the Marginal Culture of Harbin Daowai Z.M. Sun	115
Research of Guangxi Longsheng Zhuang Residential: Case Study of Longji Village D.Y. Li, J. He and Y.Q. Li	119
Research on POE Index System Establishment of Winter City Commercial Building J.S. Liu	124
Research on the Modern Architecture Design Using Aesthetic Culture Q. Yu, X.H. Li and J.M. Du	128
Study on Community Empowerment by Conversation Art and Design W.C. Lin	132
The Architecture Space Design for Commercial Display Based on Regional Division of Environment Y.Z. Guo	138
The Challenges of Nigerian Hospital Ward Setting in Providing for Family Participation I.A. Alkali, M.H.H. Ahmad and I. Said	142
The Design Method of Tange Kenzo T. Laga	152
The Design of High-Rise Building Based on City Space Planning F.F. Yang	156
The Research on Environment Design of Senile Apartments R. Wang and Y.F. Sun	160
The Use of Traditional Courtyard Space in Architecture Design of the Tourist Resort: Take the Wu Yi Mountain Villa Hotel, Banyan Tree Li Jiang as Examples Y. Shi and Z.H. Zhuo	164
A Preservation Research for the Historical Shop-House Renewal through Volume Control — Two Case Studies in Qishan Dist., Kaohsiung City H.C. Song and L.S. Huang	168
Analysis of the Art Characteristics of Hui Architecture Y. Zhou and X. Jiao	173
Analyzing the Quality of New Developments in Historical Monuments M. Heidari Moghadam and F. Shamsavari	175
Architectural Culture of Guangdong Merchant Hall in Pingle L. Wang, Y.J. Gan, Z. Li and J.H. Qiu	190
Architectural Pattern Construction Mode X.B. Wang and Z.S. Yang	194
Design Concept for Evacuation Warning System of Elevator in Fire Y. Chen	198
Historical Restoration Technology and Follow-Up Assessments of Former Kailuan Coal Mining Administration Building in Tianjin W. Lan	202
A Study to Interior Design Project Management Guideline Using on Historical Building Renovation W. Zhang and Y.E. Li	207
Exploring Socio-Economic Design Implications of Public Housing Transformation; The Nigerian Experience A.D. Isah, T. Hayat Khan and A.S.B. Ahmad	211
Method of Protection and Renewal on Nanyang Historical Street District - An Example on Town Hall Historical Street District in the Center of Nanyang Town Hall Z. Tan and H. He	217

Much in Little - Analysis and Summary of the Literature of Urban Heritage & Industrial Heritage Research on the “Architectural Journal” from 2001 to 2012 Y.J. Sun	222
Research of Spiral Staircase H.T. Jiang and Z.T. Zhang	226
Research on Boundary Morphology of Campus — Taking the Yangtze River Delta Region as an Example Y. Xu	230
Study on Seismic Design of Primary and Middle School Campus Planning of Disaster Prevention Y. Zuo	235
Study on the Living Style of the Isolated Old and the Sustainable Residential Unit Design W.J. Lin, Y.J. Yang and X.B. Yang	239
The Effect of Specific Vomitory Width in Stadiums on Evacuation Efficiency Based on Virtual Crowd Simulation Y. Liu, Z.Z. Tang and H.P. Xu	243
The Exploration of Design Strategies on Regional Characteristics of Southwest Campus Architecture — Case Study on Art Teaching Building Group of Zunyi Normal College in Xipu New Campus Z.Y. Song, Y.X. Lin, D.B. Qiao and X.S. Fang	247
The Perspective of Structure and Gymnasium Image Innovation L.D. Huang and Y. Liang	253
The Research of Historical Background that Architectural History Lacks in G.J. Song and X. Chen	257
The Unusual Development Suggestion on Modern College Library M. Zhang	261
A Gene-Genetics-Based Study on the Inheritance Law of Traditional Architectural Culture Y. Xiong and F. Peng	266
Modern Representation of Traditional Architectural Style X.Y. Wang, B. Zhou, W. Dong and J.W. Gong	272
Research on the Protection of Ancient Architecture in China — Take the Ancient Buildings in Xiaogan for Example M.L. Wang and J. Tan	276
Study on System Thinking in the Sustainable Architecture Design D. Chu and J. Jia	280
Teaching Mode Reform of Architectural Design Based on Virtual Reality N.N. Mo, Y. Xiao, R.K. Chen and Y.J. Li	284
The Detailed Description of Residential Defects in Years 2010 – 2011 of <i>Citra</i> Garden Residence in Indonesia A. Nurlaelah, U. Sudjadi, J. Hatmoko and H.A. Rusdi	288
Study on the Design of Reading Room in Nursing-Home Based on the Needs of Seniors W.J. Lin, N.N. Song and Y.J. Yang	293
Analysis of Steel Structure Aesthetic Performance in Architecture and Landscape W. Sun	297
Research on Indoor Thermal Environment of Rammed Earth Dwellings in Happy Village L.P. Li and S. Fan	301
Under the Regional Cultural Inheritance of Industrial Architectural Adaptive Reuse Strategies H.Y. Ouyang and B.F. Chen	305
The Phenomenon of Fragmentation of Architectural Heritage — On the Analysis of the Protection Form of Muta (Wooden Pagoda) Temple Relics Park Z. Yan	309
Analysis of the Characteristics of Gongqing Digiecity Planning X.Q. Li, W. Zhang, C.Y. Tao and Y.X. Wang	318
Study on Influencing Factors and Characteristics of Spatial Form of Traditional Rural Settlements in the Yellow River Floodplain of North of Henan F.B. Liu, F. Zhang, Y. Song and Z. Chen	322
Research on the Relation of City Skyline and City: Taking Hong Kong as an Example X. Wang, R. Wang and M.Y. Wang	330

The Thinking of Current Industrial Heritage Protection Caused by FAW Industrial Historical and Cultural Blocks	
L.M. Bai and J.M. Hou	335
Way of Improvement for Foreign Areas in Megacities: Focused on Russian-Speaking, Central Asian Area in Gwanghui-Dong, Seoul, Korea	
E. Shafray and S.Y. Kim	339
The Design of City Planning Decision Support Platform Based on Two - Three Dimensional Linkage Technology	
M.Y. Yu and Z.L. Zhang	344
The Protection and Heritage Strategy of Chongqing Mountain Traditional Villages – An Example of "Xiushan County Zhongling Town Chenjiaba Traditional Village Protection Planning"	
M. Liu	348
Analysis of the Intensive Residential Insulation Measures in Rural Area with Cold Winter and Hot Summer above the Process of Urbanization	
H.Y. Chen and F.W. Tan	356
The "ETFE" Material Application in the Subway Station Entrance Design	
C.Z. Gao and H.W. Lu	360
Tibetan Traditional Architecture Analysis	
H.W. Qi and Y.P. Wang	364

Chapter 2: Urban Planning and Design

Analysis of Ancient Urban Planning and Urban Structure of Xuzhou	
Y. Rui and W. Zhao	371
Multidisciplinary Comprehensive Development is an Essential Step for Urban Study	
C. Shen and Y. Yang	376
Research on Three Modes of Land Use Classification	
D.J. Qi	379
Study on Logistics System Architecture of Regional Center City in Urban Circle	
X.M. Zhang	383
Morphological Analysis of Guoyu Ancient Village Planning	
Z.Y. Han and J.B. Zhao	387
Study on Urban Design for the Development Zone of Harbin	
Z.L. Gao	391
The Innovative Research of Methods of Urban Regulatory Detailed Planning Based on the Platform of the GIS: From Static Control to Dynamic Maintenance	
L.Z. Jiang and Y.Y. Gong	395
The Problems and Thinking of Planning and Construction in Rural Communities under New Urbanization	
C.B. Zheng	399
Baotou Urban Construction Land Expansion and Optimization Strategy Research	
X.D. Qin	403
Research on Conservation and Regeneration of Historic District in the Background of Fast Urbanization — Case Study of Xi'an Sanxue Alley Historic District	
R. Zhang, H.Y. Li, L. Bi and J.Q. Cui	407
Study on the Urban Spatial Morphology Planning in Shan-Shui Situation: In Changning Group of Xi'an for Example	
Q.H. Hou and J. Zhang	415
Exploration and Practice of Urban Characteristics on Shan-Shui City and Historic City	
M. Li	420
Commercial Form Analysis and Strategy Optimization of Train Station Based on Urban Development	
Y.C. Guo, L. Wan and Y.Y. Wei	425
Designing the Human-Oriented Non-Motorized Urban Transportation: To Promote Walking and Cycling	
Y. Wang	429

Development of Suburban Compound Tourist Resort: A Case Study of Concept Planning of Degang Resort in Feilai of Qingyuan City J.J. Zhang and S.S. Ouyang	433
Shanghai West Railway Station's Design Based on Communication Space and Ecological Integration L. Wan, Y.C. Guo and Y.Y. Wei	439
The Cultural Center Planning and Design of Shenyang Y.Y. Wei and Y.C. Guo	443
Urban Design on Key Areas of Riverside District in BaoTou — The Scattered Minute City Center D.P. Liu	447
Urban Renewal with Extension of Urban Architectural Culture as Orientation H.H. Du and J. Du	452
A Supplemental Method for Planning of Green Space System of a Built-up Area Expanding Toward Rural-Urban Fringes Z.X. Gong and W. Wu	458
Research on the Correlation between the Aging of Community Space and the Aging of Population — An Investigation and Analysis Based on the Spatial Distribution of Xuzhou's Community Population L. Sun and J.B. Kang	462
Study on Construction of Underground Urban Complex in Core Area of Coastal City X.E. Hou	470
Study on Urban Land Expansion Evaluation Index System in Ecological Environment Security Restraints W. Wang and W. Chen	474
The Epistemology Foundation of Urban Planning Logics of Diversity H. Gong	479
The Epistemology Foundation of Urban Planning Logics of Justice W. Gao	483
The Investigation and Development Capacity of Xi'an Qujiang New District Based on Environmental Carrying Capacity S.Z. Wang, Q.Q. Liu and C. Cao	487
The Research of Central Plains' Urban Aesthetics and the Optimization of Urban Public Facilities — From Aesthetic Perspective to Consider the Optimized Design and Layout of Public Facilities Y.H. Niu	493
The Study of Modern Evolution of Rural Settlement Pattern in Chaoshan - Case Study of Xinhe Village Y. Pan and X.L. Zhuo	497
Comparative Research on Evolution Process of Urban Planning of Songyuan City J. Lv and Y. Zong	501
Creating an Urban Area Planning Design Based on the Theory of Fuzzy Logic A. Ginzburg and A. Skiba	507
Quantitative Analysis of the Center City of Harbin Based on Space Syntax J. Dong and X. Lian	512
Quantitative Analysis on Steel Framed Roof's Temperature Effect J.Y. Xiao, L.X. Yu, N. Ji and X. Li	517
Research on Soundmarks of Soundscape at Historical District M. Zhou	521
Research on the Urban Spatial Form of Valley City H.F. Li	525
Soul of Chang'an and Origin of the Silk Road — Decipher the "Tang West Market" M. Wu and Y.J. Mao	529
Strategic Urban Planning for Better City Future — A Case Study of Hong Kong Metroplan H. Zou	535
Study on the Building Mechanisms and Development Model of New Rural Community C. Zhou and Q. Qiu	539
Study on the Size and Space Category of New Rural Community Q. Qiu and C. Zhou	543

The Study of Historical and Cultural Protection Problems in the Process of Urbanization of Xuzhou	
J.J. Chen and P.B. Cui	547
Innovative Design of Farmers Settlements in Urbanization — Shannan New Farmers' Settlements in Huainan as Example	
G.Z. Zuo and W. Zuo	551
Research on Space Reconstruction of East Obo Block	
J. Kong, R. Wei, M. Ma, Z. Sun and M.S. Zhan	555
Life and Sport — Analysis on the Influence of Sports Architecture on Urban Development	
Y. Zhao and X. Bai	559
Fast Urban Development of Cetinje – Old Royal Capital of Montenegro	
G. Radovic, V. Murgul and N. Vatin	564

Chapter 3: Landscape Planning and Design

Genius Loci Oriented Tidal Flats Landscape Planning and Design	
M. Lu, J. Zhou and C.Y. Wang	573
Layout Characteristics of Landscape Ecology Research of Sichuan Xindu Guihu	
Q.F. Deng	578
Study on Sichuan Traditional Garden Protection	
L.L. Jia and Q.F. Deng	583
The Aesthetic View of the Chinese Urban Landscape Design	
G.Q. He	587
The Building of Regional Landscape in New Countryside Construction	
C. Li	595
Architecture Planning of Wetland Landscape	
Y. Sun and G.L. Gao	601
The CFD Technology Based Hospital Landscape Design Study Illustrated by the Case of Liaodong Bay Hospital of China Medical University	
X.D. Cai, H.B. Li and X.W. Bai	605
An Preliminary Study on Landscape Design of the Port of Huangshi City	
O. Xie and Y.S. Tu	611
Discussion on the Urban Landscape Design Considering the Human Activities	
L. Liu and L. Xu	617
Preliminary Exploration of Ecological Landscape Construction on Hill and Gully Regions of Loess Plateau	
W.F. Gao and M.L. Zhu	621
Artistic Vision of the Urban Landscape Design	
Y. Zhang	625
Fairyland-Emphasizing Effect of the Ancient Taoist Architecture for Wudang Mountain in Hubei Province	
B.R. Xia and X. Wang	630
New Chinese-Style Landscape Application in Cold Residential Area	
R.F. Sun and J.W. Fu	636
The Analysis of Geographical Culture Reflected in the Local Landscape Design	
X. Liu	640
Accessibility on Campus Green Space in University	
F.X. Ouyang	644
Brief Analysis for the Aesthetic Form of Chinese Garden Art	
B.L. Zhang	650
Humanized Design for the Landscape of Commercial Pedestrian Street	
C.R. Gao	654
Inheriting Plant Arrangement Artistry of Chinese Classical Garden in Modern Landscape	
Y.N. Yang and Y.L. Ma	658
Planning and Design for Constructed Wetlands Based on the Ecological Landscape	
L. Bu	662

Research on Comprehensive Evaluation on Campus Greenbelt Landscape and Satisfaction L.Y. Zhang, Y.R. Jiang and H.X. Zhao	668
Research on Spatial Identities of Activity Spaces in Urban Parks Neighboring Residential Areas D.Q. Bu and Z. Wang	674
Study on Landscape Art Design of Residential Area Z. Wang	683
The Application of Plants Configuration in Old Industrial Urban Road Landscape Transformation - Take Hunnan Avenue Landscape Transformation in Plant Configuration as an Example M. Ma, M.S. Zhan, J. Kong, P.P. Lei, Z. Sun and R. Wei	687
The Comparison in the Development of Garden Waterscape in the East and West Country B. Ma	691
Carbon Footprint Research of Landscape Engineering Based on Life Cycle Analysis — Take the Unoccupied Space Landscape Engineering of Wuhan Optics Valley Road (Optics Valley Road One — Liufang Road Section) for Example F.Y. Tang	695
Analysis on Industrial Landscape Nodes Formed by the Pumping Unit Z.M. Sun	705
Study on City Streetscape Design with Regional Characteristics — The Case of Inner Mongolia Baotou Binhe New District J. Lei and L. Zhao	709
Exploring a Sense of Place in Lu Cuo Xiamen X.J. Yu	713
Effect of Landscape Architecture in the Campus Construction S.Y. Wang and X.L. Jia	717

Chapter 4: Environmental Architecture Research

Functional Performance of Piece of Property with Account for its Level of Environmental Security T. Simankina and N. Braila	723
The Analysis of Plate Heat Exchanger in Central Heating Regulation of Indirect Connection Hot Water Heating System M.H. Cui, X. Wang and J.L. Liu	728
Fire Safety Management Evaluation Model for Existing Plastic Factory Buildings in Nigeria A. Umar, M. Rashid Embi and Y. Mohamad Yatim	732
A Study of Space Environmental Decoration in Ceremony Etiquette Y. Li	738
Study on the Construction of Architecture Environment for University Library X.E. Hou and Y. Zhang	742
Fire Safety Evaluation Frame Work for Existing Plastic Factory Buildings in Nigeria A. Umar, M. Rashid Embi and Y. Mohamad Yatim	746
Modeling the Thermal Comfort of Internal Building Spaces in Hospital A. Volkov, A. Sedov, P. Chelyshkov and E. Kulikova	753
Modeling the Thermal Comfort of Internal Building Spaces in Kindergarten A. Volkov, A. Sedov, P. Chelyshkov and E. Kulikova	757
Modeling the Thermal Comfort of Internal Building Spaces in School A. Volkov, A. Sedov, P. Chelyshkov and E. Kulikova	761
The Application of Green Ecological Technology in the Design of Office Buildings in Hot-Summer and Cold-Winter Areas F. Wang and L. Wang	765
Architecture Appearance Design Impacted by Regional Environment Q. Jia and Y. Zhou	769
Application Research of Environmental Cost Analysis Method on Envelope Enclosure Design of Northern Rural House C.Y. Zhou	772

Analysis on Traffic Noise Attenuation by Using Sound Barrier X.F. Huang, C.H. Zhu and Q. Shi	776
Research on Window Cleaning Methods for High-Rise Residences in Severe Cold Zones B.L. Chen	780
Decision of Environment Color C.J. Zhang and L. Lin	784
Comparative Study and Enlightenment of Barrier-Free Laws and Regulations of America, Britain and China W.Y. Jia	790
The Public Space Design Based on the Living Needs of the Elderly J. Dong, Y.R. Guo and L.Z. Jiang	796
The Discussion of the Medical Rehabilitation Mixed-Use District on Multiple Diseases of the Climate in Frigid Areas S.N. Xu, X.J. Tian and F.D. Meng	801
Environment Redesigned for Crime Prevention with CPTED Strategies — A Case Study of Typical Chinese Community C. Liu	805
Research on Universal Design of Guiding Information in Public Environment of Aging Society H. Peng	811
Traditional Residence Sunshade Measures in Zhuhai N. Zhang	815

Chapter 5: Ecological Architecture

Research on the Ecological Concept of Traditional Villages in the Yellow River Basin J. Ma, W.C. Wu and T.T. Hou	823
Conservation and Application of the Chinese Historical and Cultural Building Concept Z.L. Dong	827
Discussion on the Design Method for the Low Carbon Energy Saving Building W.D. Wang	831
Impact Analysis Lingnan Vernacular Architecture on New Buildings Subtropical from the Perspective of Ventilation and Insulation Y. Pan and Q. Zou	836
Development and Application of Green Building Design B. Lu and Q. Zhao	840
Research on the Appropriate Technology of Green Residences Design in Eastern Henan X.M. Shi and D. Zhang	845
Study on the Strategy for Constructing a Low Carbon Community in its Whole Life Process Z.F. Jia	850
The Technology of Modular Wall Greening H.Y. Li and J. Liu	855
Zhuhai Traditional Residence in the Site Selection and Planning for Natural Ventilation N. Zhang and S.Y. Zhang	859
Study on the Collaborative Strategy of Low-Carbon Buildings Design Q.H. Guo and S.G. Shao	863
Construction of Ecological Infrastructure under Macroscopic Scale Based on the Theory of Anti-Planning H. He and B. Cheng	867
Study Based on Mixed Scanning Method-Taking Gongqing Digital Eco City as an Example X.Q. Li, W. Zhang, C.Y. Tao and Y.X. Wang	871
Research on Micro-Climate Improvement of Traditional Guanzhong Dwellings — Case Study of Xi'an Sanxuejie Historic District R.B. Fan, H.Y. Li and W.X. Wang	875

Chapter 6: Traditional Construction Materials Research

Carbonation of Surface Protected Concrete with Silicone Material H.S. Wang, W. Wang, R. Wang, W.B. Wang, L. Li and Q. Tian	883
--------------------------------------------------------------------------------------------------------------------------------------	-----

Chapter 6: Traditional Construction Materials Research

Development Length Comparison between Australian Codes and Chinese Code on 500MPa Steel Bars J.W. Su, H.T. Li, L.X. Liu, A.J. Deeks, F. Wu, L.F. Zhang and S.H. Li	889
Effect of Fly Ash on the early Age Cracking Performance of Cement Paste P. Zhang, G.G. Liu, C.M. Pang, B. Du and H.G. Qin	894
Experimental Research on Cracking-Resistance of Inclined Section of Basalt Fiber Reinforced Concrete Beams W. Chen, X.P. Li, T.T. Chen, X.Y. Wang and C.C. Ma	899
A Cracked-Comminuted Response Model of Confined Concrete Based on Griffith Strength Theory F. Wan, Z.G. Jiang and M. Zhen	904
Experimental Study on Flexural Bearing Capacity of Concrete Beams Strengthened with NSM CFRP-PCPs Composite Bars L.H. Cheng, J.F. Liang and M.H. Hu	908
Finite Element Analysis on the Fire Resistance of the Effect of Thickness of Elliptical Steel Tubular Columns Filled with Concrete at Elevated Temperature T.W. Fan	912
Mechanical Properties of Surface Mortar with Waste Crumb Rubber G. Xue and C.F. Wu	917
Microstructure Characteristics in Multi-Pass Welding Interface of Al-Mg Alloy H.G. Jian, Y. Wang, X.M. Tang and L. Ou	921
Nonlinear Finite Element Analysis for the Flexural Behavior of Concrete Beams Strengthened with NSM CFRP-PCPs Composite Bars J.F. Liang, Z.P. Yang, P.H. Yi and J.B. Wang	925
Research of Bioproof Materials at Superficial Modification of Wood E.N. Pokrovskaya and T.G. Beltsova	929
Research on Performance of Concrete Made with Mineral Fillers and Fly Ash Admixed Desulphurization Gypsum L. Sun, H.T. Zhang and D.X. Qian	934
Research Progress on Reinforced Concrete Composite Beam in China W.J. Zhao, J.X. Tong, S.M. Yuan and Y.N. Guo	939
Review on Relationships of Temperature History, Fatigue Damage and Microstructure Evolution Mechanism of Concrete D.F. Zhao, M. Liu and S.J. Zhang	944
Bearing Behavior Study of Rammed Cement-Soil Pile Compounded Foundation in Collapsible Loess Y.H. Li and X.J. Gao	951
Experimental Research on Basic Mechanical Properties of Inorganic Polymer Concrete X.C. Fan, Y.W. Chen and H. Chen	955
Study on Adding Super Absorbent Polymer to Improve the Frost Resistance of Concrete D.Z. Wang, Y.Y. Zhang and Y.F. Meng	960
Study on Mechanical Behavior of Aerated Concrete Block Infill Wall under Out-of-Plane Action Y. Sun, Y.M. Dou and H.L. Cui	964
Study on the Mechanical Performances of the Insulation Board Y. Sun, J.S. Sun, Y.M. Dou and H.L. Cui	968
Test on Road Performance of BRA Modified Asphalt and Mixture S. Zeng, H.M. Wang and T.Q. Ling	972
The Feasibility Study of Inferring Steel Strength with Leeb Hardness S.X. Zhang, H. Wang, Y. Wang, B.D. Ding and Z.P. Feng	980
The Research of Test on Stress-Strain Constitutive Relations of Straw Concrete W. Liu, W. Xi and Y.L. Zhang	987

Experimental Investigation on Flexure Performance of New Steeldeck-Concrete Thermal Insulation Composite Floor Slabs P.Z. Cao, D. Li and R.Z. Lin	993
Experimental Study of Concrete Strengthened by Stiffened Aluminum Plate J.H. Zhu, L.L. Wei, W.T. Wu, F. Xing and R. Feng	997
Impact on the Cement Mortar's Uniaxial Compressive Strength under Erosion of SO_4^{2-} N. Zheng and Y. Wang	1001
Study on Chloride Penetration Resistance of High Volume Slag Powder Concrete H.X. Ding, C.T. Wang, B. Ge and Y.S. Li	1005
Dynamic Recrystallization Behavior of High Carbon Chromium Bearing Steel X.L. Zhang, H. Li, S.X. Xu, Z.C. Li and Z.L. Mi	1011
Estimating Distribution of Concrete Strength Using Quantile Regression Neural Networks I.C. Yeh	1017
Study on Temperature Effect of the Super-Long Concrete Structure in Electrolytic Aluminum Plants Y.Z. Yin and B.W. Li	1026
The Change of Stress on Marine Concrete Covered with Barnacles G.L. Wang, Z.M. Ye and B. Wu	1031
The Influence of Preparation Method and Electrode on Properties of Carbon Fiber Electrically Conductive Concrete Y. Lai, Y. Liu and D.X. Ma	1035
The Research of Green and Eco-Friendly Concrete's Mixing and Application Y. Rui	1039
The Simulation Analysis of the Bearing Capacity of the BFRP Reinforced Concrete Columns K. Li, R.H. Wang, J. Mo and B. Jia	1046
Application Performance of Decoration Materials on Architectural Design X. Li	1050
Fatigue Performance of Concrete with Pre-Cracks in Tension-Compression Cycles J. Shen, X.Y. Liu and L. Wu	1054
Method of Mix Design for Hot Recycled Asphalt Mixtures G. Ye	1062
Pavement Performance of Foaming Warm Mix Asphalt with RAP L.Y. Li, X.L. Yang and G. Cao	1066
Thermal Expansion Coefficient Prediction of Asphalt Mixture with the Eshelby Equivalent Inclusion Theory J. Wu	1071
Analysing the Micro Structure of Sea Sand Concrete W. Sun, Y. Jiang and J.Z. Liu	1076
Development of Ultra-Rapid Setting Construction Materials for Extremely Cold Regions Using Magnesia-Phosphate Cement H.W. Cho, H.S. Shin and J.H. Lee	1081
Mechanical Effect Study on Modified Rubber Particles Cement Mortar and Mechanism Analysis S.F. Dong	1085
Modelling of Micro-Concrete Behaviour under Static and Dynamic Loading R. Boutemour, M. Demidem, A. Bali and E.H. Benyoussef	1089
An Investigation into Magnetic Roasting-Separation of Refractory Iron Ore in Suspended State Q. Li, Y.X. Chen, Q. Song and Y.F. Yao	1097
Crafts and Material Analysis of the Three Gorges Tourism Souvenirs G.Q. He	1103
Effect of Rheology-Regulation Additives on the Formwork Lateral Pressure of the Self-Compacting Concrete H. Chen, J.M. Yang and J.W. Zheng	1111
Study of Highway Coarse Aggregate Gradation on Airport Pavement Concrete Design D.X. Ma, Y. Liu and Y. Lai	1116

Study on the Effects of the Radius of Groove and Angle of Cooling Slope on the Rheological Microstructure of Hypoeutectic High Chromium Cast Iron	1120
Q. Tian, R.F. Zhou, Y.H. Jiang, R. Zhou and J. Chen	
The High Performance Concrete Curing Agent Based on Polyacrylic Emulsion with Hydroxyl Monomer HPMA	1126
R. Wang, L. Li, H.S. Wang, W.B. Wang, W. Wang and Q. Tian	
The Influence of Pore Structure on the Waterproof Performance of Polymer Modified Mortar	1130
D.X. Ma, Y. Liu and Y. Lai	
A Comparative Study of the Shear Strength Prediction for Reinforced Concrete Beams without Shear Reinforcement	1135
L.M. Trautwein, L.C. de Almeida and R. Gaspar	
A Multidimensional Constitutive Model for Shape Memory Alloys	1141
W. Wang and J.Y. Liu	
Analysis Cell Deformation of Undersize Log of Northeast Larch	1145
L. He, J. Yuan and F. Fan	
Analysis on Bearing Capacity of Concrete-Filled Tubular CFRP-Steel Stub Column under Axle Compression	1155
R. Zhou, J.H. Zhao and X.Y. Wei	
Carbonation Property and Prediction of Concrete Mixed with Alkaline Potential Water	1161
C. Miao, B.Q. Sun, L. Wang and D.W. Zhang	
Corrosion Resistance of 50 Years Concrete Exposed to Saline Areas	1165
D.C. Zhang, Y.P. Lv, S.L. Fan, M. Ouyang and X.L. Xu	
Determination of Tensile Creep and Stress Relaxation of Concrete by Ring Test	1172
S.C. Li, T. Yao, Y.J. Wang, H. Li, J. Cheng, L. Li and Q. Tian	
Effects of Temperature on Drying Shrinkage of Concrete	1176
Y.Z. Yang, M.G. Li, H.W. Deng and Q. Liu	
Erosion Phases in Two Types of Cement Pastes Containing Limestone Exposed to Sulfate Attack	1182
F.C. Zhang, Y. Zhao and F.W. Zhu	
Experimental Study on Manufacturing Environmental Protection Baking Free Brick of Waste Concrete	1188
P.F. Li, X.C. Zheng and L.F. Ji	
Experimental Study on Slaking Deformation of the Remolded Laterite	1192
X.W. Liu and X.Y. Chen	
Influence of Hot Asphalt Concrete Preparation Technology on its Strength	1197
A.Y. Bashkarev, N.N. Beshpalova and J. Rajczyk	
Investigation of the Sintering Mechanism of Steel Slag-Based Ceramics	1202
Y.Y. Zhou, Y. Li, D.Q. Cang and H. Li	
Investigations on the Impact of Non-Longitudinal Cracks on the Durability of Concrete Structure	1208
X.J. Zhou, J.M. Shu, B.M. Wu, X.C. Ren and W.Z. Gan	
Application of Information Entropy in the Cement Grouting Test Using Impact Acoustics	1217
J. Cheng, Q.B. Han and H.H. Fan	
Effects of Structure Characteristics of Fly Ash on Performance of Ready-Mixed Concrete	1224
X.Y. Guo and R.X. Hao	
Numerical Analysis of Combined Aggregate Concrete from the Meso-Scale Level	1229
Y.K. Zhang, S.S. Zhao, T.J. Qu and H.Y. Wu	
Production of Bio-Resistant Wood Materials through the Modification of Wood by Boron-Nitrogen Compounds	1233
I.V. Stepina, V.I. Sidorov and O.A. Klyachenkova	
Quantitative Evaluation on Pozzolanic Reaction of Silica Fume and the Time Dependent Development of Portlandite in Composite Cementitious Systems	1237
Y.Q. Wei and W. Yao	
Research on the Restraint Expansive Stress of MgO Reinforced Concrete at the Early Age	1243
J. Cheng, H. Li, Y.J. Wang, T. Yao, S.C. Li, L. Li and Q. Tian	
Shaking Table Test of Eccentric Reinforced Concrete Frame-Shear Wall Structure Model	1247
B. Li, L.N. Lu, H.T. Lv and X.F. Li	

Study of Adhesion of Wood Modified with Amine-Borates I.V. Stepina and V.I. Sidorov	1251
Study of the Mechanical and Thermodynamic Properties on NiAl and Ni₃Al Y.H. Deng	1256
Study on the Alkali-Free Liquid Accelerator J.L. Wang, J.L. Song, K. Liu and D.P. Wang	1264
The Aggregate's Influences on Properties of Porous Pervious Concrete Made of Recycled Aggregates P. Gong and W.L. Zhang	1271
The Influence of Sand Ratio on Concrete Performance in the Case of Fixed Powder Paste J.Y. He and G.H. Li	1276
Evaluation of Compressive and Shear Strength Characteristics in High Volume Fly Ash Concrete S.W. Yoo, S.H. Jung and S.J. Kwon	1282
Experimental Research on the Stress - Strain Curve of Regional Confined Concrete under Single Axial Press G.L. Zhu	1289
Experimental Study on Fatigue Performance of the Reinforced Concrete Beam with Stainless Steel Rebar G.X. Zhang, J.W. Huang, Z.Q. Chen and X.W. Zhou	1293
Experimental Study on Mechanical Behaviors of Precast Concrete Shear Wall with Vertical Joint Q.Y. Zhao, Z.Y. Zhang, G.M. Qiu, J.L. Liu and M.J. Chu	1299
Experimental Study on the Performance of the Basalt Fiber Concrete Resistance to Freezing and Thawing S.J. Jin, Z.L. Li, J. Zhang and Y.L. Wang	1304
Finite Element Analysis of Shearing Bond Behavior of CFRP-Concrete Interface H. Hai and W. Wang	1309
Research on Axial Compression Performance of Steel & Steel Pipe Reinforced Concrete Columns Y.Y. Li and B.S. Yang	1313
Research on Ordinary Concrete Durability P. Cheng, X.F. Chen and L. Wu	1318
Study of the Freeze-Thaw Damage Constitutive Model of Concrete Based on WEIBULL's Strength Theory X. Guan, D.T. Niu, J.B. Wang and Y. Wang	1322
Study on Effect of Aluminum Powder in CA (Cement Asphalt) Mortar L. Zhou	1328
Ultra-Low Cement Dosage Hill Sand Concrete's Electric Flux and Carbonization Performance Study W.W. Hu, L.B. Xu, Y. Dong and X.P. Nie	1332
Ready-Mixed Concrete Green Production Matrix J.J. Wu	1337
The Effect of Steel Fiber on the Road Performance of Asphalt Concrete J.F. Guo	1342
Based on the Genetic Algorithm to Optimize the BP Neural Network in the Degree of Concrete Creep Prediction Model H.Q. Yao and Y.L. Jiang	1346
Mechanical Properties Analysis of Super Early-Strength Composite Fiber Concrete after High Temperature C.Z. Sun, R.X. Wu and H.N. Zhao	1351
Experimental Study on Mechanical Properties of Steel and Polypropylene Fiber-Reinforced Concrete L. Shan and L. Zhang	1355
Experimental Study on the Mixture Ratio and the Compressive Strength of Concrete with Recycle Crushed Brick Coarse Aggregate Q. Liu and X.N. Zhang	1362
Impact of Slag Powder Concent on Splitting Tensile Properties of Concrete X.N. Zhang and Q. Liu	1366

Influences of Limestone Aggregates on Concrete Strength in Pipe Piles Production Y.H. Jiang	1370
Test Study on the Bonding Properties between Deformed Steel Fibers and Cement J. Lv and J.Z. Liu	1375
Influence of the Geometrical Values of Hollowness on the Physicotechnical Characteristics of the Concrete Vibropressed Wall Stones N.I. Vatin, I.I. Pestryakov, S.S. Kiski and Z.S. Teplova	1381
The Relationship between the Water Absorption Capacity of SAP and the Amount of Entrained Water in HPC F. Guo, W.B. Wang, J.P. Liu, Q. Tian and L. Li	1388

Chapter 7: Advanced Construction Materials Research

Analysis of Application of Molecular Sieve on the Woody Fire-Retardant Research X.Y. Chen and T. Tao	1395
Dynamic Characteristics of Carbon Nanotube Reinforced Epoxy Resin Composite Materials Y.X. Yao, Y.T. Sun, E.L. Chen and B.G. Chu	1400
Preparation Experiment and Engineering Application of High Performance Concrete of Freezing Shaft in Deep Alluvium Z.S. Yao, Z. Xu and H.Q. Song	1407
Progress in Electrodeposition of Composite Materials H.M. Kan, N. Zhang, X.Y. Wang and S.J. Yang	1412
Prospects of Use and Impact of Nanoparticles on the Properties of High-Strength Concrete A. Frolov, L. Chumadova, A. Cherkashin and L. Akimov	1416
Recycled Aggregate Concrete Mixture Proportion Method Based on Pulp Content Q. Han, Z.M. Jia and D.Y. Sun	1425
Silica Sand Powder Mixed with Slag Powder Complex Technology Used for PHC Piles Production Y.H. Jiang	1432
Strength Development and Pore Structure of Alkali-Activated Slag Cement in Bittern Environment Q. Song, J.H. Zhu and X.Y. Zhang	1440
Analysis of Developing Compound Insulation Blocks from Wall Self-Thermal System H.Y. Guo and J.B. Ye	1444
Experimental Study on Mechanical Properties of Ultrafine Copper-Plated Steel Fiber Reinforced Cementitious Composite W. Sun and Y.L. Wan	1449
Research on Frost Resistance of Recycled High Performance Concrete C.H. Chen, P.H. Zhu, J.Y. Wu and L. Yi	1456
Study on Bamboo Particleboard Bambooceramics - Bamboo Particle Types and Resin Content Influence on Properties of Bamboo Particleboard C.G. Du, R. Li, W.G. Zhang, G.Y. Li and F.L. Sun	1461
Study on the early Hydration of Alkali-Activated Slag Cementing Materials J.S. Shi, X.H. Yuan and H.G. Chen	1465
Study on the Load-Bearing Microcellular Foam Concrete and the New Process of its Product H.Z. Wang	1470
Experimental Study on Mechanics Performance of Polyvinyl Alcohol Fiber Reinforced Cement-Based Composites Z. Yang, D.B. Jiang and X.J. Gu	1477
Influence of Silica Fume on Mechanical Property of High Performance Concrete Y.F. Li, J. Zhu and L. Xu	1482
Performance Comparison Research of Different Level Density Brick Powder Foam Concrete S.F. Dong, Z.D. Huang and Y.S. Qiao	1486
Preparation and Application of High Dropping Non Vibration Self-Compacting Concrete S.J. Li, J.F. Li and H.P. Qian	1490

Compositional, Structural and Mechanical Properties of (Ti,Cr,Al)N Coatings Deposited on the Surface of Piston Rings Z.H. Cai, H. Qin, X.K. Du and Z. Yang	1495
Development Status of Laser Cladding Technologies H. Qin, Z.H. Cai, P. Zhang and Z. Yang	1500
Particle Size Distribution of Sandstone Aggregate Influence on Recycled Aggregate Concrete Properties L.J. Zhou, F.N. Sun and Q.H. Zhao	1504
The Effect of Mineral Admixtures on Mechanical Properties of High Performance Concrete at very Low Temperature N. Zhang, J. Liao, T. Zhang, W.Z. Ji, B.H. Wang and D.H. Zhang	1509
The Strength and Microstructure of High Content FGD Gypsum-Fly Ash-Ground Granulated Blast Furnace Slag Composite Binder K. Ni, S.Y. Zhong, Y.X. Shi and Y.G. Zhang	1514
Penetration Resistance to Chloride Ions of Silica Fume Concrete Y.F. Li, X.P. Fan, L.W. Gao and Y.T. Li	1519
Research on Flame Retardant and Insulation of Plastic Alloys of PEEK/PEI/PES J.B. Chen, Z.Z. Li, J.J. Wang and J.M. Qian	1523
Influence Experimental Study on HPI Hydrophobic Compound Hole Plug Concrete Performance Z.D. Huang	1527
Influence of Replacement Rate on Triaxial Mechanical Performance of Recycled Concrete Y.S. Su, E.C. Meng, Z.P. Chen and J.Y. Wu	1531
Thermal Simulation Analysis of Insulation of the New Heat-Insulation Bricks X.P. Feng, C.T. Li and J.J. Wu	1536
Activity Index of Steel Slag-GGBS Composite Mineral Admixture at Different W/B Ratios X. Li, Q. Wang and S.H. Liu	1541
Analyses the New Building Wall Materials and Exterior Wall Thermal Insulation Technology Q. Sun, D.X. Shi, W.B. Wang, Y.S. Xu, L. Zhu and Y.F. Hu	1545
Effect of Metakaolin on early Strength of GGBS Ternary Concrete N.A. Mohd Nasir and M.J. McCarthy	1551
Experimental Study on Factors Affecting the Bond-Slip Properties of Concrete Reinforced by Bamboo-Based Fiber Composites J. Zhou, S. Ma, H.T. Hou, J.J. Li, H.N. Liu and L. Chen	1558
Experimental Study on the Compressive Strength of Nano-Concrete B.H. Xie, C.T. Wang, M.F. Fu and Y.S. Li	1563
Green High Performance Concrete Based on Sustainable Development P. Zhang and Y. Cao	1568
Interventions of Retarders on the Hydration Process of CaO Expansion Clinker X.L. Gao, W. Xu and H. Li	1573
Study for Permeability of Cement Concrete Pavement with Nano-SiO₂ as Admixture L. Sun, G.Y. Qi, X.Q. Zhang and X.S. Zhan	1577
Surface Chloride Ion Concentration Study of Brine Corroded High Performance Concrete (HPC) P. Gao and H. Yu	1581
The Simulative Analysis of the Thermal Resistance Value of Hollow Block with Different Number of Air Layers and Length with FEMLAB Software H.H. Yang, G. Chen, D. Meng, H.M. Li and X. Cheng	1586
The Status and Chance of the Building Materials Industries in China's Urban Development G. Wang	1594
Analysis on the Design of Construction Mix Ratio for Heat-Resistant Concrete X.W. Xu	1598
Cotton Stalks Cement-Based Block Material and its Preparation Method G.X. Chen, J.H. Wang, L.L. Chen and X.M. Lv	1603
Development and Conceptual Design Epoxy Resin/Emulsified-Asphalt/Cement Composite X. Wang	1607

Effect of Different Forms of CaO on the Properties of Cement-Based Materials Containing High Content of GGBFS	1611
H. Li, J.P. Liu, Q. Tian and S.Z. Zhang	
Effect of Sodium Citrate on the Hydration Capacity of Hemihydrate Calcium Sulfate Whiskers	1618
Y.B. Wang, L. Yu, H. Wang and T.S. He	
Effects of a Hybrid Superplasticizer on the Enhancement of Chloride Resistance in Offshore Concrete	1622
S.C. Kim and H.H. Lee	
Experimental Study of Frost-Resistance Properties of Silica Fume Concrete	1626
Z.G. Yin, J. Feng, S.Y. Huang and B.F. Zhao	
Experimental Study on Impact Resistance of PVA Fiber Reinforced Cement-Based Composite	1630
X.H. Cai, Z. He and W. Liu	
Application Research of C80 High-Performance Concrete for the Guangzhou East Tower	1635
Y. Dong, N.Q. Feng, H.W. Ye, H.Y. Ling, L.X. Lin, L.B. Xu and H. Sun	
Discussions on Materials Selection and Design of Colored Hot-Mix Asphalt Mixture	1641
Q.Q. Liu, Z.M. Peng and M.J. Lin	
Dynamic Mechanical Analysis of CRTS II Cement Asphalt Mortar	1646
H.Y. Zhang, L.H. Yuan and D.W. Ren	
Performances Study and Accelerating Mechanism Analysis of New-Type Alkali-Free Efficient Liquid Setting Accelerator	1652
T.W. Lu, F. Xiao, L. Guo and G.B. Gao	
Pore Structure Formation of Modified Cement Systems Hardening over the Temperature Range from +22°C to -10°C	1659
S. Pashkevich, A. Pustovgar, A. Adamtsevich and A. Eremin	
Preparation of Novel Intermediate Material for Azobenzene Liquid Crystal	1665
H.W. Wang, J.W. Ren, Y.Y. Li, X. Zhang and Z.C. Miao	
Preparation of Novel Polyaniline and Phosphoric Acid Doped Sulfonated Polybenzimidazole Composite Membranes for Fuel Cells	1669
Y.M. Zhang, J. Zou, L. Wang, H. Chen and J. Si	
Research of Novel Azobenzene Liquid Crystal with High Birefringence and the Phase Behavior	1673
Z.C. Miao, Y.Y. Li and X. Zhang	
Research of Novel High-Temperature Proton Exchange Composite Membrane	1677
D.X. Zhang, J. Zou, Y.M. Zhang, M. Zhang and D.D. Dang	
Research of Processes of Improving Soil Properties Based on Complex Ash Cement Binder	1681
Y. Lazarev, G. Sobko and M. Chakir	
Research on the Application of Light Steel Structure of ASA (The Coal Ash Spume Concrete) Series Plate in Architectural Design	1687
T.Q. Yu and Y.J. Wu	
Retain of Fine Dispersed Basalt Fiber Reinforcement in Cement Matrix	1691
L. Stupishin, S.G. Emelyanov, D. Boluzhitcev, A.V. Masalov, A. Kuzmenko and V. Rodionov	
Study on Synthesis of <i>In Situ</i> Composite of Nano-SiO₂ and Vinyl Acetate-Acrylate Emulsion	1695
X.H. Wang, L.M. Dong, R.L. Wang and H.F. Lu	
Study on Synthesis of <i>In Situ</i> Composite of Nano-TiO₂ and Vinyl Acetate-Acrylate Emulsion	1700
X.H. Wang, L.M. Dong, R.L. Wang and F.Q. Ji	
Synthesise of (4-Ethynyl-Phenyl)-(4-trifluoromethyl-phenyl)-Diazene, a Novel Intermediate of Azobenzene Liquid Crystal with High Birefringence	1705
X.P. Huo, Q.P. Xu and Z.C. Miao	
The Dependence of the Modulus of Elasticity on the Concentration of Plasticizer	1709
T. Matsevich, M. Popova, V.I. Kondrashchenko and A.A. Askadskii	
The Dependence of the Setting Temperature on the Concentration of Plasticizer	1714
T. Matsevich, M. Popova, V.I. Kondrashchenko and A.A. Askadskii	
The Evaluation System on Green Concrete Construction Technology of Post-Disaster Reconstruction of Underground Engineering	1718
L. Zhao	

The Research of Hydrolysis Test of Silicone Water Repellent for Protecting Reinforced Concrete Z. Yang, Z.Y. Yuan, H.Y. Sun, G.L. San and M.X. Shen	1725
Thermal Simulation Analysis of Pass Design of the Heat-Insulating Bricks C.T. Li, X.P. Feng and J.J. Wu	1733
Study on early Mechanical Performance of High Performance Concrete with Low Clinker Influenced by Rubber Powder Q.H. Meng, L.H. Lv and X. Yan	1738
Smart Behavior of Carbon Nanotubes Cement-Based Composites Y.F. Li, S.L. Hu and Q.X. Wang	1742
Effects of Hydrogen Peroxide on Foam Concrete Performances Y.L. Cui, F.G. Qian, S.X. Liu and H.T. Yin	1746
Experimental Study on Recycled Concrete Coarse Aggregate Crushed Index X.L. Chang, S. Gu and Z. Zheng	1750
Influence of Nanosized Silica Component on Physical and Mechanical Properties of a Composite Gypsum Binder E.V. Voitovich, A.V. Cherevatova, I.V. Zhernovsky, H.B. Fischer, V.V. Strokova, N.V. Makarova and E.N. Chikileva	1756
The Research of on the Limit of Permeability Contrast for Separated Quality Polymer Injection by Numerical Simulation Technology L.Y. Song and J.C. Zhang	1761
Greening of Civil Engineering Materials H. Xu	1768
Effect of Steel Surface Conditions on the Macro-Cell Polarization Behavior of Reinforcing Steel Z.L. Cao, M. Hibino and H. Goda	1771
Comparative Studies on Mixed Mode Cohesive Interface Cracks of Quasi-Brittle Materials X.P. Shen and X.C. Wang	1780
Size Effect on the Deformation Characteristic and Shear Band of Granular Material Based on Hypoplasticity B.L. Xiong and C.J. Lu	1789
Adjust Compositions to Produce High Strength Steel Bars for the Building Industry T.J. Zhang	1794
Summary on the Evaluation Indicator for Thermal Insulation Performance of Reflective Thermal Insulation Coatings M.P. Feng, X.Q. Qian and Y.T. Zhu	1798
Industrial Electromagnetism Radicalization and Steel Fiber Reinforced Concrete Shielding Measures J.H. Zhang and J. Liu	1802
Calculation of Transverse Poisson's Ratio of Continuous Fiber Reinforced Composites Y.R. Li, H.B. Jiang and W.S. Chen	1805
Proportion Design of Polymeric Cement Concrete Based on Volumetric Analysis W. Bai and J. Zhang	1809
Electric Flux Method Practicability Study on Concrete Chloride Ion Permeability Resistance Z.D. Huang	1814
Effect of Stone Powder Content on the Diffusing Parameter and Diffusion Attenuation Coefficient of Chloride Ion of Mechanical Sand Concrete M.Q. Qin, W. Zhan, W.B. Xu and J.H. Li	1818

Chapter 8: Building Science and Technology

Analysis of Ecological Housing Design in Small Towns in the North of China X.H. Liu	1825
Probe into the Development and Strategies of Implementation for Intelligent Buildings in Taiwan M.Y. Chen, S.Y. Liu and Y.H. Perng	1829

Hydrophobic Expanded Perlite Used in External Insulation of the Building Engineering J. Zhang and Y. Xue	1835
--------------------------------------------------------------------------------------------------------------------	------

Chapter 8: Building Science and Technology

Study on Seismic Design of Complex High-Rise Building F.F. Yang	1841
The Research on Development Strategies of Residential Industrialization in China R. Wang and W. Zhang	1845
Use of Cast-In Situ Bored Piles in Filled-Sea Ground Area in Yantai X.F. Zhao and Q. Wang	1849
Applying Immune Algorithms to the Calculation of Sound Insulation of Walls J. Ye	1853
Passive Technology Resurrects Existing Buildings — Case Study on Design Contest of Renovation of Qingdao Hiser Hospital W.D. Ji, Y.W. Wang and Z. Tang	1858
Research on Technology System of Smart Residential District in China B. Wang, Y. Gao, Q.H. Shi, Y.H. Zheng and Z.G. Sun	1863
Windows Sound Insulation Research with Different Glass X.D. Lu, J.H. Wang and W.L. Wang	1868
Research on the Stability Evaluation of Waterproofing Capacity of Asphalt Compound Waterproofing Layer of Underground Parking Area Upper Slab after Fire Damage S.K. Oh, S.R. Kim, J.Y. Song and S.Y. Choi	1872
Snow-Retaining System as a Temporary Decision for Providing of the Suitable Temperature and Humidity Level of Pitched Roofs V. Rybakov, A. Panteleev, G. Sharbabchev and E. Epshtein	1876
Research on the Anticipation and Development of Building Information Modeling X. Liu and H. Xie	1881
Structural Design of Gymnasium of Diannan Green Hotel Q.Y. Gao and H.W. Kuang	1885
The Reconstruction and Update of Old Buildings in our Cities Y. Wang	1889
Security Analysis of Solar Building in Extreme Weather J.Y. Zhao, B.X. Wang, Y.Y. Lu, X.D. Li, X.L. Lv, Z.M. Cheng and Q.H. Wang	1893
The Research on the Combination Methods of Solar Collectors and Building Roof J. Jing, L.C. Zhou, X.L. Lv, Y.Y. Lu, X.D. Li, Z.M. Cheng and Q.H. Wang	1897

Chapter 9: Monitoring and Control of Quality Engineering

Bracing Support Structural Analysis of Foundation Excavation Protection in Limited Soil S.C. Zhou, Y.H. Ren, X.F. Liu, J.L. Fan, G. Wu and J. Li	1903
Critical-Point Control for Building Life-Cycle Energy Efficiency Q. Du, C.Y. Yin, Q.L. Zhang and Y.X. Chen	1909
Computer Implementation of Hump Checking L.J. Meng and C. Zhang	1913
Optimization Research of Mix Proportion of Frost Resistance Construction of Concrete Based on the MATLAB Language J.J. Zhang, R.H. Shao and X.Y. Meng	1917
Reinforcement Effect of Vibration Replacement Stone Column Test in Test Pile Area for One Crude Oil Business Reserve Base S.X. Meng, S.M. Xiao, W. Liang and Q.K. Gao	1922
Research on a Kind of Deformation Prediction Model of Wavelet Neural Network H.Y. Wen, J.Y. Hu, Y.J. Pan and M.L. He	1933
Study of the Bulk Index Measuring Methods on Foamed Asphalt Cold Recycling Specimens L.C. Chen and W. Niu	1939
Neural Network Application for Scheduling of Building Construction Repair T. Simankina and O. Popova	1944

Study on the Treatment and Settlement Monitoring Technology of Passenger Dedicated Line Collapsible Loess Foundation F.C. Liu, H.F. Su and Q.C. Wang	1951
Experimental Research on Fine Sand and Filter Material of Xing-Long Hydroproject Dam Foundation G.S. Zhu, J.F. Zhang, H.D. Cui and S.L. Li	1956
Investigation of the Cast-<i>In Situ</i> BDF Hollow Floor Construction Quality Guarantee Measures G.Z. Zhang and L. Xu	1963
Analysis of Guizhou Highway Slope Disease and Suggestion of Protective Measures K.S. Chen, L. Wang and W.J. Chu	1969
A Case Study on Pit Failure Risk of Deep Diaphragm Wall S.L. Feng, Q.Q. Guo and Y.H. Wu	1975
Detection and Evaluation of the Tiegou River Bridge in Zhucheng Y.B. Zhao, Y.Y. Zhang and Y.Z. Wang	1979
Discussion on Measuring Methods of Deformation of Concrete at early Ages Q. Liu, Y.Z. Yang and H.W. Deng	1985
Crushed Stone Value of Aggregate in Asphalt Mixture Test for Different Temperature C.M. Li, T. Wang and A. Liu	1992
Research on Early Warning Management of Construction Engineering Quality Based on the Failure Theory G.B. Han	1996
The Application of BP Neural Networks in Cable-Stayed Construction Control X.F. Zhang	2001
A Model of Quantitative Risk Assessment of Marine Pollution from Ships Based on GIS and AIS T. Chai and D.Q. Xiong	2006
Amplitude Temperature of Steel Claddings Exposed to Solar Radiation M. Fujita, K. Maeda, S. Terada, K. Hanya, K. Abe and K. Utsumi	2011
Based on the Different Specifications of Jacking Construction of Continuous Girder Bridge Reliability Analysis J.K. Shen	2017
Design of Data Acquisition System of Vibration Signal for Civil Engineering Structure W. Sun, Y. Zhang and S.F. Jiang	2023
Experimental Research on Lateral-Load Behavior of Large Diameter Drilled Shaft under Axial-Load J.X. Chen, Y.C. Guo, J.W. Zhang and T.H. Zhou	2028
Friction Pendulum TMD and its Control Effectiveness for Wind-Induced Vibration L. Qin, W.M. Yan and Z. Li	2037
Key Technical Issues and Optimization Analysis on Temperature Control and Crack Prevention Measures for Xiluodu Super-High Arch Dam during the Construction Period Y.Z. Liu, G.X. Zhang, P. Yang and S.W. Zhou	2043
A Quality Management System Based on Welding Quality Fine Control in Offshore Oil Field J. Zhang, C.S. Yang and W. Li	2052
Detection and Evaluation of the Limestone Belt Y.Y. Zhang, Y.B. Zhao, Y.Z. Wang and X.L. Sun	2056
Numerical Simulation of Impact-Echo Method Identify the Depth of Honeycomb Damage in Unballasted Track C.S. Zhou, P. Wang, Z.P. Hu and H. Zhu	2060
Research on Consolidation Modal of Sand-Drained Layer Ground with Impeded Boundaries under Hierarchical Loadings H.X. Zhou, Y.C. Lin, Z.L. Dong and P.S. Chen	2068
Risk Analysis of Collapse during Construction for a Subway Transfer Station with Large Span and Small Clearance F. Chao, L. Yu, J.X. Huo and M.N. Wang	2077
Site Monitoring Analysis of Influence of Excavation and Construction of a Unsymmetrical Loading Twin-Arch Tunnel K.Z. Zhu, Z.J. Wang, Z.G. Wang and Y.C. Liu	2083

Study on the Lifting System of Attached Type Lifting Scaffold H.W. Xu, B.L. Liu and D.G. Wen	2087
Talking about the Fairness and Reliability of the Assay Work Z.N. Tong	2093
The Risk and Disease Analysis and Disposal of Yellow River Sluices in Shandong J.C. Yang, Y. Li, Y.B. Zhao, Y.Z. Wang and Y.L. Wang	2096
Effects of CRTS II Unballasted Track on Seismic Response of High-Speed Railway Bridge Y.L. Zhang, P.S. Wang and J.D. Zhao	2099
Experimental Research on the Frictional Effects of the Slide-Roof System L.M. Zhang and Z.C. Tian	2105
The Action of the Top Tank as TLD in High-Rise Steel Structure Z.C. Tian, J.Z. Su and M. Zhang	2109
The Application of a New Compromise Thresholding Method in the Safety-Monitoring of Dam Displacement G. Cai	2113
Vehicle-Induced Dynamic Response of Expansion Joints in Long Span Bridges Z. Sun and Y.F. Zhang	2117
Aging Mechanism of Dam Concrete under the Action of Freeze-Thaw Damage Y. Shi, H.Q. Yang, X. Li and J.Z. Li	2121
Crowd Disaster Risk Identification in Large Sport Venues L.D. Huang and J.J. Jia	2125
Application of the Least Squares Support Vector Machine for Life Prediction of Vital Parts H.K. Wang, J.S. Ma, L.Q. Fang, D.L. Wu and Y.F. Yang	2129
New Method of Measurement of Coefficient of Thermal Conductivity H.H. Tian	2133
Apparent Quality Control for the Self-Compacting Concrete J.J. Yu, W.K. Yang, J.M. Zou and R.W. Qiu	2137
The Capacitive Soil Moisture Sensor Research J.S. Qu, J. Fan and D.C. Huang	2142

Chapter 10: Project Management in Building and Construction Management

A Study into the Establishment of an Index System for Factors Affecting Project Delivery System H. Ke, X.N. Liu and F.Y. Zhou	2153
Application of Fuzzy Comprehensive Evaluation in the Bid Evaluation of Municipal Engineering Construction Projects J. Geng and B.N. Ren	2159
Current Development and Risks Analysis of International Project Contract L.K. Zhao, J.Q. Sun, Y. Wan and H.Z. Yang	2165
Multivariate Analysis of Construction Projects K. Alexander and K. Grigoriy	2171
On Compilation and Examination of Special Safety Construction Scheme of High-Risk Project L.L. Xiong, N. Hu and H. Li	2175
Performance Analysis of the Absorption Heat Pump Systems Based on the Entransy Theory Q. Zhao, C. Wang and F.Y. Han	2179
Project Portfolio Selection Process for Major Construction Enterprise S.W. Yu and N. Guo	2184
Research on Performance Evaluation Common Index System of Government Investing Construction Projects H. Ke, C. Liu and S. Li	2188
Social Stability Risk Assessment of Jianli-Jiangling Highway Project — Based on Fuzzy Analytic Hierarchy Process G.M. He and Y. Yang	2193

Study on Adjustment of Prime Cost Sum in Cost Control of Engineering Project L. Yan and L. Wu	2199
Study on Cost Decision Model Based on BIM and AHP J.W. Cao and H.K. Zheng	2205
Chongqing Fuling Fifth Landslide Treatment Project Design Based on Value Engineering J.F. Li, Z.K. Liu, J.D. Zhang and H.G. Wu	2209
Comprehensive Evaluation Model of Resource Allocation for Construction Programme Y.X. Wang, Y.W. Ren and Y.H. Yao	2215
Study on the Implementation Environment of Project Portfolio Management N. Guo and S.W. Yu	2220
Evaluation of the Organization Structure of Large Construction Companies Based on the Entropy Theory X. Wang and W. Zhan	2224
Integral Potential Effectiveness of Organizational and Technological and Managerial Decisions of Building Object L. Azariy	2230
Identification of Influence Factors and Establishment of Evaluation Index System for OPM3 in Mega Construction Engineering Enterprise S.J. Qi, W. Chen, Y.B. Zhang, J.J. Wu and J.Z. Cai	2233
Study on the Impact of PMO for Multi-Project Management of Contracting Construction Enterprises — Based on Structural Equation Model S.J. Qi, Y.B. Zhang, J.J. Wu, W. Chen and J.Z. Cai	2239
The Randomness of the Critical Chain Technology W.Z. Yan and G.Y. Ren	2246
Theoretical Research on New Method of Highway Engineering Quality Supervision and Management-Comprehensive Six Sigma Quality Management H.D. Wang, G.L. Chang, J.P. Deng, J.J. Zheng and Y.L. Zhao	2250
Based on the Multiparty Project Management Research of Green Construction H.L. Li, X.R. Gao and J.Y. Xie	2264
Research about the Contract Management and Execution of Contractors Y.Q. Zhao and H.J. Jin	2268
Research of Core Competence of the Leading International Engineering Constructors B. Xie, W. Zhan and X. Wang	2272
Study on Application of the Complexity Theory in Project Management X.D. He and Y.Y. Zhang	2277
Study on the Management Performance Evaluation Model of Water Conservancy Agent Construction Project Based on Maturity and SCP Model X. Deng, P. Gao and J. Chen	2282
Discussion on the Cost Management and Control of Construction Project Y. Zhang and L.H. Xiong	2286
Extending the Life Cycle of Buildings Using Project and Facility Managements F. Kuda and E.W. Berankova	2291
Improve Responsibility Cost Management Level of Construction Enterprise by Information System N. Cao	2297
Market Uncertainty, Timing of Development, and Vacant Land: Evidence for Real Options in 35 Large and Medium-Sized Cities in China L.F. Ruan and W. Yan	2301
Discussion on Core Elements in Engineering Project Management C.M. Liu	2307
Portfolio Project Management System Architecture for a Large Corporation with Divisional Management Structure A. Volkov and D. Kraynov	2313
Project Management for the Construction of a Large Scale Modified UNITANK Wastewater Treatment Plant H.L. Zheng, Z. Xiao, C.F. Hu, Y.W. Wu and W. Jiang	2317
Research on Problems and Improvement Strategies of Government Investment Project Management Y. Zhang and L.H. Xiong	2322

Sharing Chinese Infrastructure Experience: Selected Best Practices in High-Speed Railway Projects	
C. Chen and W.L. Jiang	2326
Significance Analysis on the Affecting Factors of Basic Reserve Fund in Power Engineering Based on FAT	
X.L. Hou, Y. Li and Y.R. Yang	2333
Study of Bidding Decision-Making in Construction Project Based on LM-BP Neural Networks	
T.B. Wu, X. Liu and T.Q. Zhou	2339
Study on Adjusting Contract Sum of Construction Projects from Contract Status Compensation Perspective	
S. Wu and M.L. Wang	2343
Study on the Application of the Agent Construction Mode	
N. Zhao	2349
The Input-Output Analysis of Construction Industry in West China	
H.B. Li and K.B. Zhang	2353
The Risk Management of Reducing Merger and Acquisitions Risks for Construction Enterprise	
F.J. Ma	2359
Probabilistic Risk Analysis for Highway Construction Management	
Z.Z. Wang and B. Shi	2363
Practical Application of Industrialized Single-Floor Workshop Construction System	
B.X. Cui	2368
Research on the Protection of Yichang Traditional Dwellings and the Sustainable Development of Cultural Tourism	
S.P. Wang, J. Huang and H.J. Zhang	2372
Methods of Green Residence Evaluation Indicator System Establishment and Indicator Weights Assignment — Taking Fujian Province for Instance	
X.C. Hou and Z.J. Li	2378
Humanized Design on Public Space of Underground Urban Complex of the Cold Cites	
H.O. Wang and X.B. Yu	2384
Innovative Norm-Making in High-Rise Construction (Part 1)	
A. Volkov, V.O. Chulkov, R.R. Kazaryan, M. Fachratov and E. Rahmonov	2387
Innovative Norm-Making in High-Rise Construction (Part 2)	
A. Volkov, V.O. Chulkov, R.R. Kazaryan, M. Fachratov and E. Rahmonov	2391
Ecofriendly Environment Design for Disabled Children Development	
L. Zhelnakova	2395
The Research on the Protection and Reuse of the City Industrial Block within Sustainable Development-Baotou as an Example	
B. Wu and M.W. Wang	2400
Analysis of the Influence of Economic Factors on the Development and Utilization of Underground Space in the City Center	
Y.F. Liu, Z.Q. Song and H.L. Sun	2404
Research on the Plight of Place-Identity and Reconstructed Strategy	
Y.X. Zhang	2411
Analysis of Investment Control in Construction Project's Whole Process	
J.C. Qi	2415
Analysis of Relevant Stakeholders in the Construction Waste Management	
W.M. Yao	2419
Study on Construction Bidding Management Based on GA-BP Neural Networks	
T.B. Wu, X. Liu and T.Q. Zhou	2423
Application of QFD in the Design Stage of Comfortable Housing Project	
A.J. Wang	2427
Research on the Affecting Factors of Claim under Bill Quantity of Construction Works in China	
Y.L. Yin, W.Z. Hu and Y.L. Du	2432
Evaluation of the Construction Project Based on Factor Analysis	
H.Y. Zhang and J.W. Zhao	2438

Method for Establishing the Project Evaluation System H.Y. Zhang and J.W. Zhao	2442
Simple Discuss of the Construction of Engineering Cost Information System H.Y. Guo and L. Wang	2447
Game Analysis of Third-Party Certification System for Rural Building Materials J. Liu, C. Chen and T.B. Hou	2452
A Study on National Enterprise Technology Center (NETC) Evaluation Criteria for Construction Industry in China Z.Y. Yu, S.K. Zhao and S.L. Gong	2457
Description of the State of Public Buildings Property Management in the Czech Republic V. Mican and J. Česelský	2462
Research on VaR-Model-Based Analysis of Construction Cost Risks D.B. Huang, Q.J. Li and L.J. Shen	2466
Life-Cycle Cost Analysis of Public Rental Housing W. Li, X.L. Zhou and Y. Fu	2476
Professional Specialty Ability Research of Construction Management Z. Feng and N. Wang	2481
Study on Risk Reallocation Routes of Construction Contract Based on Bills of Quantity of 2013 M. Yan, Z.C. Shi and J.J. Deng	2485
The Application of Information Management in Construction Contracts Management H. Liu and C.Q. Zhao	2490
A Research on Knowledge Management of Construction Cost Control W.Z. Yan and C.C. Wang	2494
Application of Building Information Modeling on Sidewalk Management L.S. Huang and H.C. Song	2500
Geoadditive Models for Property Market V. del Giudice and P. de Paola	2505
Approach of Cross-Country Comparisons on Residential Construction Industry for China C.G. Xu and S.H. Sheng	2510
Research on Interface Management between Owner and Design Unit F. Bian	2514
Research on the Strategy of Using Housing Industrialization to Promoting Domestic Construction of Villages and Small Towns C. Xu and Y.Y. Pei	2518
Undivided Real Estate Shares: Appraisal and Interactions with Capital Markets V. del Giudice and P. de Paola	2522
A Case-Study on the Certificates Criteria of Child Care Support Apartment in Yokohama, Japan H.W. Choi	2528
5 Kinds of Religions and Religious Buildings Resources Survey and its Protection in Baotou North Beam Section X.Y. He	2532

Chapter 11: Management Research

On the Ideas of Modern Engineering H.Z. Xue	2537
Research and Analysis on Low-Carbon Architectural Development Based on the Entire Life Cycle Y.F. Zhang	2541
Research on International Engineering Contracting Legal Risk Management G.S. Yang and L. Tao	2547
Research on the Highway Engineering LCC Estimation Modular Platform W.Y. He, X.J. Xu, X.Z. Gao, Z.W. Li and K. Li	2554
Research on the Practical Effect of Green Technology R. Huang, Y.Y. Li and Y.P. Fan	2559

Research on the Whole Team Cost Management Based on Sustainable Development Q.R. Huang and C.M. Liu	2564
Study on Agent Construction System in Engineering Projects S.N. Li and D.L. Wang	2568
The Research and Application of Real Estate Investment Analysis L. Wang and H.Y. Guo	2572
The Research of Integrated Dynamic Analysis of Metro Project Objectives Based on PCA J.X. Zhao, L. Li and M. Liu	2577
The Study on EPC Engineering Contract Dispute and Resolution Mechanism W.F. Li	2581
An Application of CREAM for Human Reliability Analysis in Power System Switching Operation J.X. Tang, Y.K. Bao, L.C. Wang, C.X. Guo, W.H. Liu and T.P. Wang	2585
An Matter-Element Theory Based Study on Construction Green Degree Evaluation of High-Speed Railway Project X.Z. Li and H.A. Fu	2589
Impact Analysis of Human Errors on Operation Reliability in Power System Y.K. Bao, J.X. Tang, G. Huang, C.X. Guo, J. Liu and B. Zhou	2597
Total Cost Management of the Engineering in Design Phase Y. Cao and P. Zhang	2604
Research of Cost Control Based on Engineering Change during Design Phase J. Li and Z.R. Xu	2609
Study on a Rough Evaluation of Engineering Project Informatization L. Shen, Y.T. Zhou and J.R. Song	2613
Study on the Cultivation of Engineering Management Specialty Innovative Talents Based on Demand Orientation T.Z. Wei and F. Zha	2618
Unbalanced Quotation Improvement Strategy Research under the Bill of Quantities Valuation Mode W.L. Liu, L. Zhang and C.L. Qu	2622
Cost of Project Research Based on Fuzzy Math Y. Huang, L.X. Li and Y.M. Liu	2626
Dynamic Risk Assessment of Underground Engineering Construction S.M. Nie, X.T. Su and Y. Liu	2631
Effective Detection Engineering Cost Price Method Based on Entropy Proportion and Fuzzy Risk Evaluation X.W. Wu, J. Tian and Y.S. Ni	2635
Investment Risk Assessment of Hydraulic Engineering Based on Rough Set Theory Z.D. Chen, H.M. Gao and Q. Guo	2640
On Position and Function of On-Site Supervision Z.N. Tong	2644
Research on the Dynamic Compensation Mechanism that is Brought by Engineering Measurement to the Contract Status S. Wu and J. Bai	2647
Schedule Management of Airport Flying Area Construction Based on BIM Y.Z. Zhang, L.C. Cai and M. Fan	2653
The Calculation Method of Basic Reserve Fund in Power Grid Construction Project: A Case Study from China X.L. Hou, Y.R. Yang and Y. Li	2659
The Formation of Underground Projects Safety and Risk Management Platform Y. Liu and X.T. Su	2664
The Effect of Challenge-Hindrane Stressor on Engineering Design Innovation Behavior — The Mediating Role of Intrinsic Motivation W.Y. He, H. Pi and N. Wang	2668
Study on the Influence of Engineering Change of Municipal Engineering Projects of the Project Cost J. Li and Y.H. Li	2672

Industrial Cluster Competitiveness Evaluation Model Research Based on Entropy Weight TOPSIS Method Y.Y. Zhang and F.Z. Luo	2676
Acting Adaptation and Human Parity in the Triad “Man - Knowledge - Methods” A. Volkov, V.O. Chulkov, R.R. Kazaryan and S. Sinenko	2681
Cycle Reorganization as Model of Dynamics Change and Development Norm in Every Living and Artificial Beings A. Volkov, V.O. Chulkov, R.R. Kazaryan and R. Gazaryan	2685
Uncertainty Analysis of 220kV Substation Project Q. Song and X.L. Hou	2689
Research of Mountain Area Wind Farm Grounding Scheme W.B. Yu, X.L. Luo, B. Chen and W.X. Wang	2695
Discrimination for Bidders’ Parallel String Based on the AHP–Fuzzy Q. Guo, K. Li and Z.D. Chen	2700

Chapter 12: Engineering Education

Local Universities and Colleges of Undergraduate Course Civil Engineering Specialty in Engineering Geological Practice Problems Probing J.Z. Gao and J.H. Zhao	2707
Analysis & Evaluation of National Certified Property Manager Qualification Exam J.J. Xiao and B. Yang	2712
Architecture Design Teaching Reform Research Based on Green Building Concepts H. Li, J. Yang, Y.J. Li and N.N. Mo	2718
Research on the Training Mode of Applied Talents in Construction Engineering M.H. Wu and Q. He	2722
The Research of Teaching Environment Design with Moral Education Infiltration C.J. Ma	2726
Comprehensive Competency Evaluation on the National Class1 Registered Architects W. Liu and B. Yang	2730
On Learning Strategies for Engineering Design Specialty Students: A Comparative Study Y.H. Sun, L. Zheng, X.W. Jiang and T.S. Wang	2735
Strategy on Updating Talents Training Mode in Architectural Specialty from Energy-Saving and Emission Reduction Perspective Z.F. Zheng, M.J. Lu and G.X. Wang	2740
The Architecture Education in South China University of Technology with Distinctive Regional Lingnan Characteristics Y. Shi and Y. Tang	2745
The Study of Construction Management of Bachelor Degree from Market Demands X.N. Tang	2749
The Research of the Teaching Mode Based on the Concept of CDIO Architectural Design W.Y. Chen	2753
Evaluating Information Course in Elementary Education by Fuzzy TOPSIS Y.J. Wang, T.C. Han, C.L. Fang and C.C. Chou	2757
