# Table of Contents

Preface, Committees, Partners and Sponsors

## Chapter 1: Advanced Methods of Applied Research, Designing and Engineering Modeling

**Application of Homotopy Analysis Method for Solving Equation of Vehicle’s Move in the Linear Case**  
B.N. Nicolescu, T. Macarie and T.C. Petrescu  
3  

**Car Jack Based on 6R Overconstrained Mechanism**  
L. Racila, I. Dumitru and I. Geonea  
12  

**Design Approach for the Vehicle's Steering Linkage Fitted on Rigid Axle**  
I. Preda, D. Covaciuc and G. Ciolan  
18  

**Modal-Dynamic Analysis of the Steering Mechanism on a Vehicle**  
N. Dumitru, G. Marinescu, A. Roșca and O. Oțăt  
26  

**Theoretical and Experimental Researches Regarding the Influence of the Suspension Car Stiffness on the Dynamic Behavior of Vehicles**  
D. Neagoe, D. Bolcu, L. Simnieceanu and M. Trotea  
36  

**Virtual Model Used for Kinematics Study of Car’s Rear Axle**  
R. Bujoaică, I. Vieru, V. Nicolae and D. Marinescu  
44  

**Study on the Applied Tolerances Using Computer Aided Design**  
N. Craciunoiu and A. Balanoiu  
50  

**Mathematic Model for Analysing the Dynamic Behavior of a Vehicle in the Field of Chaotic Movements**  
L. Simnieceanu, D. Neagoe, M. Trotea, M. Bogdan and A. Constantinescu  
54  

**Design of a Transmission for Wheelchairs Intended to Humans with Locomotors Disabilities**  
I. Geonea, A. Romanescu, L. Racila and I. Dumitru  
60  

**Study about the Vehicle Orientation on the Trajectory during Transient Movements**  
D. Bolcu, M.M. Stănescu, C.M. Mirițoiu and C.O. Burada  
68  

**The Theory of Sonics and its Applications in the Automotive Engineering - Part I: Systematization of the Theory of Sonics**  
M. Radulescu  
74  

**The Modal Analysis for the Helicoidally Spring of the Macpherson Automotive Suspension**  
M.L. Bogdan, I. Geonea, L. Simnieceanu, V. Otat and D.L. Popa  
83  

**Tester for Study the Influence of Tire Vertical Load and Tire Internal Pressure on Tire Cornering Stiffness**  
H. Georgieva, N. Pavlov and L. Kunchev  
89  

**The Study of the New Type of Trim Corrector Efficiency, Based the Tests on Rigs and on Vehicle**  
A.I. Niculescu and R.C. Bujoaica  
94  

**Studies on the Behavior of the Towbars in Static Applications**  
A.V. Petrici and N.G. Radu  
100  

**An Approach Regarding Windshield Wiper Mechanism Design**  
C. Copilusi and V. Velicu  
112  

**Solution for Improvement the Thermal Comfort inside the Automobile Passenger Compartment**  
S.G. Talif, E. Rakosi, B. Condurache and C. Teodorescu  
118  

**Design Optimization of the Diaphragm Spring of a Mechanical Clutch for Motor Cars**  
M. Trotea, A. Constantinescu, D. Neagoe and L. Simnieceanu  
123  

**Studies about Reflected Temperature Variation for the Car Brake Disc**  
G. Dragomir, R. Pancu, G. Husi, L. Georgescu and H. Beles  
135  

**System Heating Using Convection of Mechanical Power through Sonique and Ultrasonique Waves**  
B. Tică  
141
F.E.M. Parametric Model Optimization of SERB-194C Device Used in Buildings Drift Limitation System
A. Ionescu, C. Burada, M. Calbureanu and M. Negru 146

Development of a Three-Dimensional Finite Element Knee Prosthesis Model
D. Tarnita, D. Calafeteanu, M. Catana, I. Geonea and D. Tarnita 150

The Comparison between Viscous Fluid Dampers and Romanian Friction Dampers Performance in Base Isolation System of Buildings
M. Negru, A. Ionescu and C. Burada 156

Virtual Methods Applied to Human Bones and Joints Re-Construction Used for Orthopedic Systems
D.L. Popa, A. Duta, D. Tutunea, G. Gherghina, G. Buciu and D.C. Calin 160

Chapter 2: Engines and Fuels

Different Approaches for Determination of Internal Combustion Engines Performances
A.M. Dima, D. Tutunea and M. Bica 169

A Method of Performing the Supercharging Process at the Engines Researched on the Test Bench
C.I. Leahu, A. Chiru and D.M. Dogariu 175

The Influence of Butanol Use on the Diesel Engine’s Performance
A. Dobre, C. Pană, N.C. Nuu, N. Negurescu and A. Cernat 183

Theoretical and Experimental Researches Regard the Use of Bioethanol at the Supercharged Spark Ignition Engine
O.Z.H. Obeid, C. Pana, N. Negurescu, A. Cernat and I. Bondoc 190

Theoretical and Experimental Study of the Fuelling a Truck Diesel Engine with Liquefied Petroleum Gas
N.C. Nutu, C. Pana, A. Dobre, N. Negurescu and A. Cernat 198

The Calculation of the Injection Process for a SI Engine with Electromagnetic Injectors
V. Blaga, T. Mitran, G. Dragomir, N. Chioareanu and H. Beles 206

Algorithm and Method for the Functional Parameters Determination of Vehicles Engines Mufflers
E. Rakosi, C.E. Panaite, C. Bujoreanu and S.G. Talif 213

Cold Engine’s Operating Regime Influence over the Exhaust Emissions
S. Tarulescu, C. Cofaru and R. Tarulescu 219

Experimental Investigation on Functional Parameters of the Engines Exhaust Mufflers
C. Bujoreanu, E. Golgoțiu, S.G. Talif and G. Manolache 224

Opportunities, Challenges and Future Prospects of Production and Usage of Jatropha Biodiesel as Road Transport Fuel in Romania
F. Um Min Allah 230

Research Aiming Simultaneously Recycling of Waste Polyolefins by Pyrolysis, in Order to Obtain Some Fuels for Compression Ignition Engines
G.L. Popescu, N. Filip and V. Popescu 235

Validation of Heat Dissipation Processes in Direct Injection Diesel Engines Air Cooled
V. Mardarescu, N. Ispas and M. Nastasoiu 243

Modeling and Diagnosis of a Powertrain through Specific Parameters
L. Mihon, A. Negoitescu, A. Tokar and D. Ostoia 252

Chapter 3: Heavy and Special Vehicles

Analysis of a Railcar Engine Damages Using Forensic Investigation
N. Ispas, A. Soica and M. Nastasoiu 261

Numerical Investigation of Hybrid Electric Vehicle's Performance
B.O. Varga and C. Iclodean 272

Running Speeds Determination for Tractor U-650 Equipped with Additional Transmission
G. Popa, A. Constantinescu and S. Ciunel 285
Chapter 4: Automotive Mechatronics and Wheeled Robots

Design of a Wheelchair Intended to Humans with Locomotors Disabilities
I. Geonea, A. Romanescu, L. Racila and I. Dumitru 293

Variation of Start Acceleration for Wheeled and Tracked Autonomous Mini-Vehicles
R. Tarulescu, C. Olteanu and S. Zamfira 299

The Calculation of the Pressure Losses in the Hydraulic Circuit of a Single Regime Operating Thermal-Hydraulic Generator
T. Mitran, N. Chioreanu, H. Beles, A. Rus and N. Polojintef-Corbu 305

Modelling and Control of a Mobile Robot, Equipped with an Arm in Cylindrical Coordinates with Uncoupled Tentacular Terminal
V. Stoian and S. Dumitru 311

Study on the Possibility to Estimate the Vehicle Side Slip Using Two Independent GPS Receivers
D. Covaci, I. Preda, D.S. Dima and A. Chiru 321

Experimental Research on the Hybridization of a Road Vehicle
D.M. Dogariu, A. Chiru and C.I. Leahu 331

Study of Inductive Sensors for Automotive Applications
D. Tutunea, G. Gherghina and A.C. Cernaianu 341

Considerations Regarding Validation through Simulation of Some Board System Information’s for Powertrain Performance Optimization
I. Dumitru, M. Vinătoru, D. Tutunea and A.M. Dima 346

Implementing New IT Security Solutions in Automotive Immobilizer Systems
M. Mircea, V. Crotorescu and M. Oprean 354

About Mechatronics in the Engineering Education at the Faculty of Mechanics Craiova
G. Gherghina, D. Tutunea, N. Lambrache and D. Popa 360

Aspects of Functional Optimization and Performance Evaluation Using an Experimental Programmable Engine Control Unit
I. Dumitru, L. Racilă, L. Matei, A. Oprica and V. Valeanu 365

Chapter 5: Materials and Processing Technologies

A Comparison between a Composite Sandwich Bar with Polypropylene Honeycomb Core Reinforced with Steel Wire Mesh and Metallic Beams with Various Transversal Sections
C.M. Miriţoiu, C.O. Burada, D. Bolcu, M.M. Stănescu and A. Stanimir 375

Current State of Research on Bio-Source Composite
A.I. Haloiu and S. Tabacu 381

Establish Dependency Relations between Chemical Composition and Mechanical Properties of Aluminum Alloy 6082 AlSiMgMn
L. Grigorie, A. Romanescu and D. Vintila 389

Experimental Determination on Behavior of Composite Laminated Body Elements at Temperature Variations
G.M. Pană and M. Trotea 397

New Concept Manufacturing Steering Column Console in Composite Materials
L.E. Rad, T. Heitz and A. Chiru 403

Prediction of Dissipative Properties of Flax Fibers Reinforced Laminates by Vibration Analysis
M. Belaïd, S. Fontaine, A. El Hafidi, P.B. Piezel and P.B. Gning 411

Research about the Quality of Bulk Titanium Materials Obtained by Powder Metallurgy Technology from Titanium Hydride Powder Used for Automotive Components
C.I. Pascu, O. Gingu, N. Lupu, G. Benga and I. Vida-Simiti 418

Study about Improving the Quality Process Performance for a Steel Structures Components Assembly Using FMEA Method
C.I. Pascu and D. Paraschiv 429

Thermal Source at Turning Allied Steel
A.S. Roșca, N. Dumitru and D. Roșca 437
Chapter 6: Modern Transport Systems, Road Traffic and Safety

Adaptive Traffic Signal Control on a National Road Intersection  
L. Matei, I. Dumitru, L. Racilă and M. Vinatoru  455

Determining the Projection Throw Distance of a Pedestrian upon the Collision with a Vehicle  
O.V. Oțăt and V. Oțăt  461

Mathematical Model of a Dummy Cranio-Cervical Complex in Frontal Impact Testing Device  
S. Ciunel, B. Tica and D.L. Popa  472

Optimal Analysis of a Route of the Public Transport System in Targu Jiu City  
A. Constantinescu, G. Popa Mitroi and M. Trotea  480

Studies Regarding Semaphoring Effectiveness in Oversaturated Intersections  
T. Oprica, D. Ilie and M. Vinătoru  491

Validation of Simulation and Optimization Reconstruction in PC Crash with Video Recorded Sample  
D.S. Dima, D. Covaci and A. Chiru  497

Reconstruction of an Unusual Road Traffic Accident Using Two Different Versions of a Simulation Program  
A.I. Gönczi, A. Cipleu and L. Mihon  503

Studies Regarding Occupant Kinematics in the Vehicle at the Frontal and Rear Impact  
V. Popa, H. Beles, B. Tzolea, G. Dragomir and T. Mitran  512
