

Table of Contents

Preface

Mechanical Behavior of Laminated Composites with Circular Holes H. Achache, B. Boutabout and D. Ouinas	1
Influence of the Dimensions of the Mesh of the Fiber Grid Reinforcement of Composite Materials K. Ait Tahar and R. Bahar	9
Experimental Study for the Choice of a Matrix Epoxy Resin for the Elaboration of Laminates C. Aribi, B. Bezzazi and A. Mir	17
Effective Properties of Heterogeneous Magnetoelastoelectroelastic Materials with Multi-Coated Inclusions A. Bakkali, L. Azrar and A.A. Aljinadi	25
A Study on Damping of Laminated Beams by Modal Analysis D. Bensahal, M.N. Amrane and M. Kharoubi	33
Behavior of Thermally Sprayed WC-Co Layers on 5086 Aluminum Alloy and 304 L Stainless Steel N. Boualem, A. Raid, M.A. Ghaffor, A. Tlemçani and M. Derrar	41
Analysis of Transient Hygrothermal Ageing Analysis of Hybrid Composite Materials in Asymmetric Environments B. Boukert, A. Benkhedda and S. Bergheul	49
Injection Molding of PP/CaCO₃ Hybrid Composites Toughened with SEBS-g-MA Elastomer: Morphological and Tensile Properties M. El Achaby, E.M. Essassi and A. El Kacem Qaiss	57
A Dugdale Crack at the Interface of Two Different Materials under Antiplane Shear Loading H. Ferdjani	63
Eddy Current Characterization of (Fe₆₅Co₃₅)_xAl_{1-x} Nanocrystalline Alloy Synthesized by Mechanical Alloying Process A. Haddad and M. Azzaz	71
Rheological Study of Composite Materials Based on Thermosetting Matrix and Fillers Mineral A. Irekti and B. Bezzazi	79
Valorization of Asphalt Rubber Fine Powder in Road Field N. Kebaili, F. Belabdelouahab and A. Zerzour	85
Thermomechanical Characterization of a Mortar Reinforced by Animal Fibers S. Makhlof, S. Khedache, D. Djefel and G. Lefebvre	91
Influence of the Fractal Dimension on the Mechanical Properties of Granular Materials B. Melbouci and S. Yezli	99
Study of Wear Properties of <i>In Situ</i> TiB/TiC Reinforced Ti1100 Composites X.L. Gong, F. Zhao and D. Zhang	107
Study of the Influence of the Artificial Ageing Temperature on the AA2024 Alloy Microstructure N. Radutoiu, J. Alexis, L. Lacroix, M. Abrudeanu and J.A. Petit	115
Application of Kelvin Probe Force Microscopy (KFM) to Evidence Localized Corrosion of Over-Aged Aeronautical 2024 Aluminum Alloy N. Radutoiu, J. Alexis, L. Lacroix, M. Abrudeanu and J.A. Petit	127
Non Destructive Investigation of Defects in Composite Structures by Full-Field Measurement Methods E. Péronnet, M.L. Pastor, R. Huillery, O. Dalverny, S. Mistou, M. Karama and S. Génot	135
Models of Adhesive Bonding of Hybrid Structures R. Bréthous, V. Nassiet and B. Hassoune-Rhabbour	143
Validation of Mechanical Damage Monitoring on Aluminium Freestanding Thin Films Using Electrical Measurements T. Fourcade, A. Broue, J. Dhenni, J.M. Desmarres, C. Seguneau, O. Dalverny, J. Alexis and T. Masri	157

Melt Processing of PolyVinylidene Fluoride Based Composites Containing Mineral Microparticles	
M. El Achaby, E.M. Essassi and A. El Kacem Qaiss	165
Numerical Simulation of the Interaction Shock/Turbulent Boundary	
H. Goudmi, R. Benderradji and A. Beghidja	171
Mechanical Properties Investigation of Single-Walled Carbon Nanotube Using Finite Element Method	
X.L. Tang, A. El Hami and K. El-Hami	179
Nanoscale Numerical and Reliability Method for Nano-Cantilever	
K. El-Hami and A. El Hami	189
Mechanical Behaviour of Butt Joints under Traction Using the Image Stereocorrelation Technique	
M. Karama, S. Mistou and R. Brault	197
