## About ICBM and Committees

## Chapter 1: Cement and Binders Based on Cement

<b>Influence of Preparation Parameters on Properties of Belite Clinker</b> T. Staněk	3
<b>Study of Increasing of Belite Reactivity</b> D. Gazdič, M. Fridrichová and I. Hájková	9
<b>Proposal and Testing Masonry Cement</b> R. Magrla, K. Dvořák and K. Kulísek	13
<b>Testing Self-Levelling Floor Screeds on the Basis of Ternary Binder</b> R. Magrla, D. Gazdič and J. Novák	17
<b>Thermoanalytical Study of Binders Containing Pozzolanic and Latent Hydraulic Materials</b> P. Mec, F. Khestl, T. Murínová and J. Boháčová	21
<b>Reduction of CO<sub>2</sub> Emissions at Firing of Binders Type Portland Cement</b> M. Fridrichová, J. Gemrich, J. Stachová and R. Magrla	25
<b>Sodium Hexametaphosphate as Deflocculation Agent for Calcium Aluminate Cements in Porcelain Body</b> R. Sokolař and L. Vodová	30
<b>Influence of Different Grinding Types on Granulometry of Cement Grains</b> K. Dvořák	34

## Chapter 2: Inorganic Binders

<b>Performance of Fiber-Cement Boards in Biogenic Sulphate Environment</b> A. Eštoková, V.O. Harbulakova, A. Luptáková and N. Števulová	41
<b>Decorative Multi-Component Alkali Activated Cements for Restoration and Finishing Works</b> P.V. Krivenko, M. Sanytsky, T. Kropyvnytska and R. Kotiv	45
<b>Testing of Clay Used for Building a Folk House Replica by Traditional Techniques</b> D. Všianský and M. Novotný	49
<b>Industrial Resources for the Production of Sulphate Binders</b> D. Gazdič	53
<b>Efficiency of Sulphate Paste Liquefaction</b> M. Fridrichová, I. Hájková and K. Dvořák	57
<b>Influence of Grinding α-Gypsum on its Final Property</b> K. Dvořák, I. Hájková and M. Fridrichová	61
<b>Preparation and Properties of Pressed Metakaolin and Fly Ash Based Alkali-Activated Binders</b> J. Boháčová, S. Staněk and P. Mec	65
<b>Thermal Insulating Alkali-Activated Materials with Lightweight Aggregate</b> J. Boháčová, S. Staněk and P. Mec	69
<b>Analysis of Possibility of Using Geopolymers in Rehabilitation of Reinforced Concrete Structures</b> Á. Dufka, J. Brožovský and L. Mézárosová	73
<b>Modification of the Raw Mix for Firing of Dicalcium Silicate Using Potassium Sulphate</b> D. Gazdič, M. Fridrichová and M. Walter	77

## Chapter 3: Organic Binders

<b>Repair of Composite Structure Using Cold Sleeve with Polymer Filling Material</b> M. Žmindák, P. Novák and V. Dekýš	83
---------------------------------------------------------------------------------------------------------------------------	----

<b>Properties of Polyurethane and Epoxy Modified Cementitious Hybrids for Flooring Systems</b>	87
V. Petranek and J. Hlawiczka	
<b>The Behavior of the Advanced Materials for Blast Energy Absorption under Low and High Velocity Load</b>	93
M. Drdlová, V. Prachař and J. Buchar	
<b>The Influence of Silane Coupling Agent on Glued Spruce Wood Using Epoxy Adhesive</b>	99
J. Vanerek, A. Benešová and P. Klímek	
<b>Bitumen Substance Analysis</b>	103
J. Plachy, V. Petranek and Z. Caha	

## Chapter 4: Silicate Materials

<b>Determination of Sintering Activity of Sodium-Potassium Feldspar</b>	109
R. Sokolař and L. Vodová	
<b>Development of Advanced Masonry Structures with Utilization of Alternative Thermal Insulating Materials</b>	113
J. Zach, J. Hroudová, M. Sedlmajer and A. Korjenic	
<b>Physical-Mechanical Aspects of Preparing Thermal Insulation Materials on the Basis of Liquid (Water) Glass</b>	117
L. Mészárosová and R. Drochytka	
<b>Possibilities of Reducing the Apparent Porosity of Silica Bricks for the Coke Batteries</b>	121
L. Nevrívová, M. Kotouček and K. Lang	
<b>Pozzolanic Activity Increase of Recycled Glass</b>	125
K. Dvořák, P. Dobrovolný and D. Gazdič	

## Chapter 5: Building Materials

<b>Comparison of Impedance Spectra of Concrete Recorded with Utilizing Carbon Transition Paste</b>	131
I. Kusák and M. Lunak	
<b>Reactivity of Brick Powder in Lime Mortars</b>	135
E. Navrátilová and P. Rovnaníková	
<b>To the Problems of Determination of Dynamic Elasticity Modules of Calcium Silicate Bricks by Means of Resonance Method</b>	139
J. Brožovský and Á. Dufka	
<b>Corrosion Inhibitors as a Prevention</b>	144
L. Taranza and R. Drochytka	
<b>The Effect of Concrete Quality on the Acoustic Emission Parameters during Three-Point Bending Fracture Test</b>	149
M. Matysík, L. Topolář, P. Daněk, T. Vymazal and I. Plšková	
<b>Possibilities of Hydrophobization of Thermo-Insulating Materials Based on Natural Resources</b>	153
J. Zach, J. Hroudová and N. Žížková	
<b>Influence of Contact Parameters on Load-Carrying Capacity of Hybrid Composite Cross-Section</b>	157
P. Kotes	
<b>Reinforcement Corrosion <i>versus</i> Crack Width</b>	161
P. Kotes and J. Kozák	
<b>Study of Cement Composites Properties with Filler Based on Wood Pulp</b>	165
L. Kidalova, N. Števulová and A. Geffert	
<b>Chloride Diffusion in Limestone Cement Concrete Exposed to Combined Chloride and Sulfate Solutions at Low Temperature</b>	171
K. Sotiriadis, S. Tsivilis and V. Petranek	
<b>Effect of Metakaolin Sand on Properties of Cement Composites</b>	176
E. Krajčí, I. Janotka, M. Kuliffayova and P. Uhlik	

<b>Comparison of the Values of Compressive Strength and Elasticity Modulus of Concrete of Frozen and Unfrozen Specimens</b>	
M. Brodňan	180
<b>Effect of Modification of Cement-Bonded Particleboards Composition on their Frost Resistance</b>	
T. Melichar, J. Bydžovský and V. Černý	184
<b>Basic and Hygric Properties of Concrete Containing Fine Ceramic Powder</b>	
P. Reiterman, O. Holčapek, M. Čáchová, F. Vogel, M. Jogl and P. Konvalinka	188
<b>Fracture and Mechanical Properties of Fire Resistant Fibre Composites Containing Fine Ground Ceramic Powder</b>	
P. Reiterman, O. Holčapek, F. Vogel, M. Jogl and J. Koťátková	192
<b>Basic Characteristics of Green Cements of CEM V/A and V/B Kind</b>	
E. Smrčková, M. Bačuvčík and I. Janotka	196
<b>Study of Influence of Fly Ash Character on its Behaviour during Clinkering Process</b>	
V. Černý and T. Melichar	200
<b>The Use of Industrial Waste as a Secondary Raw Material in Restoration Plaster with Thermal Insulating Effect</b>	
V. Václavík, J. Daxner, J. Valíček, T. Dvorský, M. Kušnerová, M. Harničárová, M. Bendová and A. Břenek	204
<b>Development of a New Kind of Aerated Screeds for Lightweight Floors</b>	
E. Tumova and R. Drochytka	215
<b>Surface Morphology Study on Fibres Treated in Cold Plasma Discharge</b>	
D. Kopkáně, P. Macháňová, L. Bodnárová and T. Morávek	220
<b>Study of Effect of Various Types of Cement on Properties of Cement Pastes</b>	
L. Bodnárová, T. Jarolím and R. Hela	224
<b>Effect of High Proportion of Blended Cement in Concrete</b>	
K. Křížová and R. Hela	230
<b>Study of Properties of Sprayed Concrete Prepared in Laboratory</b>	
A. Hubáček	234
<b>Use of Impact-Echo Method to Test High-Temperature Degraded Cementitious Composite Materials Containing Rubber Aggregates and Acrylic Polymer Binder</b>	
D. Štefková, M. Tupý, K. Šamáková, Ž. Chobola, K. Sotiriadis and V. Petranek	238
<b>Resistant Multilayer Floor Systems Based on Epoxy Binders with Recycled Various Glass Particles</b>	
M. Tupý and V. Petranek	242
<b>Possibilities of Recycled Concrete Aggregate in Cement-Based Flowscreed</b>	
A. Hubáček, L. Boehme and I. Nováková	247
<b>The Use of Cementation Process for Waste Industrial Sludge Solidification</b>	
B. Vacenovska and R. Drochytka	252
<b>Sealing Layers on Concrete Bridge Decks</b>	
J. Plachy, V. Petranek and Z. Caha	258
<b>Development of Resistant Coating Systems Based on Polymer Binders</b>	
M. Tupý, V. Petranek and J. Kosíková	262
<b>The Influence of Vacuum Mixing on the Porosity of Ultra High Performance Concrete</b>	
J. Kirnbauer	266
<b>Use of Blast Furnace Slag Cements for the Construction of a Canal Lock</b>	
I. Marquardt, U. Diederichs and V. Petranek	270
<b>Rehydration of Ultra High Performance Concrete</b>	
U. Diederichs, I. Marquardt and V. Petranek	275
<b>Perlite Concrete Based on Alkali Activated Cements</b>	
V. Petranek, P.V. Krivenko, O. Petropavlovsky and S. Guzii	280
<b>Polypropylene Fibres and Micro Cracking in Fire Exposed Concrete</b>	
K. Pistol, F. Weise, B. Meng and U. Diederichs	284
<b>Carbonation Depth vs. Physical-Mechanical Properties of Concretes with Alternative Additions of Concrete Recyclate and Silicate Admixtures</b>	
T. Stavař and M. Stehlík	290

<b>Mixing of Different Particle-Size Fractions of Fly Ash to Increase its Activity in Cement Composites</b>	297
D. Orsáková, A. Masárová, J. Válek, P. Novosad and R. Hela	
<b>Autoclaving Time Influence on Fly Ash Aerated Concrete Compressive Strength and Microstructure</b>	301
E. Helanová, R. Drochytka and R. Janovský	
<b>Analysis of Building Stone of the Medieval Historical Building</b>	305
M. Balintova, A. Eštoková, A. Sicakova, M. Holub and E. Singovszka	
<b>Polymer-Modified Mortars with Increased Amount of C-S-H Phase</b>	309
N. Žižková	
<b>The External Thermal Insulation Material Made of Technical Hemp</b>	315
Š. Keprdová and J. Bydžovský	
<b>Application of Alternative Fillers in the Cement-Bonded Particleboards Structure</b>	319
Š. Keprdová and K. Křížová	

## **Chapter 6: Other Related Topics**

<b>Laboratory Verifying of Injection Screens Efficiency</b>	325
J. Melichar, R. Drochytka and P. Dohnálek	
<b>On Some Aspects of Application of Vegetative Roofs in Building Structures</b>	329
M. Majsniar and S. Šťastník	
<b>Identification of Thermal Conductivity of Powdery Insulation Materials</b>	333
P. Jarošová, S. Šťastník and J. Vala
