

Table of Contents

Preface

Chapter 1: Cement Based Binders

Hydraulic Binder from Hazardous Waste T. Staněk, M. Boháč, A. Zezulová and A. Rybová	3
Alkali-Sulfate Activated Blended Portland Cements P.V. Krivenko, M. Sanytsky and T. Kropyvnytska	9
Differences in Electrical Properties of Portland Cement and Alkali-Activated Slag Mortars P. Rovnaník, M. Míková, I. Kusák and P. Bayer	15
The Combined Effect of the Plasticizer and Multi-Walled Carbon Nanotubes on the Cement Hydration Products G. Skripkiūnas, G.I. Yakovlev, E. Karpova, A. Gordina and A. Shaybadullina	21
The Influence of Concentrations of Cement Particles on Rheological Behavior and Thixotropy of Portland Cement Paste M. Macijauskas and G. Skripkiūnas	27
Possibilities of Experimental Determinations of the Modulus of Elasticity in the early Stage of Ageing of Cement Composites R. Halamová, D. Kocáb, B. Kucharczyková, P. Daněk and P. Misák	35
The Estimated Effect of Carbon Nanomaterials Implementation on the Formation of Hydration Products G.I. Yakovlev, V. Grakhov, I.S. Polyanskikh, A. Gordina, Z.S. Saidova, T. Plekhanova and A.F. Buryanov	41
Effect of the Milling Agents on Pozzolanic Activity of Glass K. Dvořák, S. Ravaszová and D. Gazdič	47
Effect of Humidity on the Properties of Cement Mortars with a Crystalline Additive N. Žižková, L. Nevřivová and M. Lédl	53
Study of the Hydration Process of Synthetic Preparation of Ettringite by Direct Addition of Aluminum Sulfate and Calcium Hydroxide M. Fridrichová, D. Gazdič, J. Mokrá and K. Dvořák	60

Chapter 2: Lime Based Binders

Influence of Cellulose Ethers on Fresh State Properties of Lime Mortars M. Vyšvařil, M. Hegrová and T. Žižlavský	69
Properties of Aerial Lime-Based Mortars with Chitosan Ethers T. Žižlavský, M. Vyšvařil, P. Bayer and P. Rovnaníková	75
The Relation of Limestone Origin and its Reactivity to the Preparation of Desulphurization Agents K. Dvořák, D. Dolák, J. Bureš, D. Všianský and S. Ravaszová	83
Effect of the Firing Process to the Lime Crystallinity K. Dvořák, D. Sklenářová, D. Dolák and J. Stachová	89

Chapter 3: Progressive Building Materials and Technologies

The Influence of Fine Particle Content (Cement Together with Sand Particles up to 0.25 mm) on Rheological Properties of Concrete Mixture M. Dauksys, A. Klovas and D. Vaičiukynienė	97
Complex Industrial Wastes Based Admixture for Improved Properties of Fine-Grained Concrete A.A. Vdovin, G.I. Yakovlev, A.N. Zorin and G.N. Pervushin	103

The Suitability of Fly Ash for Use in Concrete According to EN 450 Based on their Particle Size	
M. Čažký, M. Labaj and R. Hela	110
Effect of Hardening Accelerators and other Chemical Admixtures on the Properties of a Quick-Setting Mixture	
A. Khamatova, G.I. Yakovlev, V. Khozin and G.N. Pervushin	116
Decorative Coating Based on Composite Cement-Silicate Matrix	
A. Shaybadullina, Y. Ginchitskaya and O. Smirnova	122
Nonlinear Acoustic Spectroscopy Method for Nondestructive Testing of Thermally Damaged Concrete	
M. Matysík, L. Carbol, Z. Chobola and I. Plšková	128
Influence of the Maximum Aggregate Grain Size on the Modulus of Elasticity and on the Parameters of the Acoustic Emission of Concrete Exposed to High Temperatures	
L. Topolář, D. Kocáb, M. Hoduláková and R. Halamová	134
High Strain Rate Compressive Behavior of Micro-Fibre Reinforced Fine Grained Cementitious Composite	
M. Drdlová, M. Popovič and R. Čechmánek	140
Effect of Ammonium Ion Content in Fly Ash after Selective Non-Catalytic Reduction (SNCR) on Physical and Mechanical Properties of Autoclaved Aerated Concrete (AAC)	
M. Lédl, L. Galvánková and R. Drochytka	148
Physical Properties of Selected Silicates for a Long-Term Heat Container	
S. Šťastník, J. Vala and F. Šot	154
Special Grout for Anchoring Steel Elements with High Proportion of Fly Ash Contaminated by Denitrification Process	
T. Žlebek, J. Hodul and R. Drochytka	160
Influence of Ammonia Content in SNCR Fly Ash on Phase Composition and Morphology of Autoclaved Aerated Concrete (AAC)	
L. Galvánková, M. Lédl, T. Opravil, D. Beranová and J. Tkacz	167
Epoxy Resin Coatings Crystallization and Influence of Crystallinity on Shore Hardness and Tensile Properties	
M. Vyhánková, J. Hodul and J. Bydžovský	173
Porous Systems Based on Alkali-Activated Fly Ash	
P. Kejík, V. Bílek Jr., P. Bulejko, J. Hajzler, M. Březina, L. Galvánková and L. Kalina	179
Rheological Properties of Alkali-Activated Brick Powder Based Pastes: Effect of Alkali Activator and Silicate Modulus	
M. Vyšvařil, P. Rovnaníková and M. Keppert	185
Nano-Structured Alkaline Aluminosilicate Binder by Carbonate Mineral Addition	
L. Bodnárová, S. Guzii, R. Hela, P.V. Krivenko and G. Vozniuk	192
Modifying Stucco Mortars with Additions of Sulphoaluminate Cement and Aluminate Cement	
W. Brachaczek	198
The Impact of Addition of Fibers on Reducing the Shrinkage Cracks in Multilayer Renovation Plasters	
M. Kaczmarszyk	204
Shaping Mortar Parameters in Terms of their Tendency to Form Shrinkage Cracks	
W. Brachaczek	210
Influence of Polymer Admixtures on the Rheological Properties and Heat of Hydration of Alkali Activated Slag Pastes	
O. Mikhailova and P. Rovnaník	217
Nanomodified Organic-Inorganic Polymeric Binders for Polymer Building Materials	
R. Galeev, L.A. Abdurakhmanova and R. Nizamov	223
Comparison of Automated Concrete Shrinkage Measurement Methods	
L. Osuská, P. Novosad and M. Labaj	229
Modification of Technological Properties of Laboratory Premixes	
I. Hájková and P. Novosad	236
Use of Undersize Fractions of Refractory Claystone for Grog Manufacturing in Shaft Kilns	
L. Nevrivová	242
Development of New Advanced Plasters with Waste Fibers Content	
J. Zach, J. Hroudová and V. Novák	248

Testing and Optimization of Production of Technical Foam for the Production of Cement Foam	
K. Mikulica and D. Dolák	254
Behavior of High Strength Concrete at High Temperatures	
K. Sovová, K. Mikulica, A. Hubáček and K. Dvořák	259
The Evaluation of the Effect of Crystallization Additives on Long Term Durability of Cement Composites	
Á. Dufka and T. Melichar	265
Fibre Cement Board Characteristics in Relation to Bulk Density and the Way of Treatment	
F. Khestl and K. Pelantová	271
Development of Light-Weight Concrete with Utilization of Foam Glass Based Aggregate	
J. Zach, M. Sedlmajer, Z. Dufek and J. Bubeník	276
Durability Assessment of Cement Matrices for Neutralization Sludge Disposing	
B. Dohnálková and R. Drochytka	282
