

Table of Contents

Preface

Chapter 1: Cement Based Binders

Effect of Ratio of Liquid Pigment on Colouring Cement Matrix D. Bujdoš and L. Bulíková	3
The Influence of Raw Meal Granulometry on the Formation and Properties of Clinker T. Staněk	9
The Hydrothermal Stability of Alkali-Activated Fly Ash/Slag Pastes by the Incorporation of Cement Kiln Dust D. Kubátová, A. Rybová and A. Zezulová	15
The Effect of Nanosilica on the Early Strength of Alkali-Activated Portland Composite Cements P.V. Krivenko, M. Sanytsky and T. Kropyvnytska	21
Influence of Crystallization Admixture on Mechanical Parameters and Microstructure of Polymer-Cement Mortars with Waste Limestone J. Hodul, N. Žižková, R. Drochytka and R.P. Borg	27
Effect of SRA on the Course of Hydration of Cement Composites L. Osuská, M. Ťažký, M. Meruňka and R. Hela	35
The Influence of Cooling Process on the Formation of Dicalcium Silicate S. Ravaszová and K. Dvořák	41
Verification of the Use of Slag Aggregate of the Heap Konev into Concrete M. Pešata, L. Procházka and J. Boháčová	47
Impact of the Grinding Process on the Granulometric Properties of Dicalcium Silicate S. Ravaszová, K. Dvořák and D. Gazdič	57
Influence of Firing Regime and Potassium Ions on Synthetic Preparation of Belite Clinker D. Gazdič, M. Fridrichová, K. Dvořák, A. Halešová and D. Všíanský	64

Chapter 2: Lime Based Binders

Use of Lava Sand as an Alternative to Standard Quartz Aggregate in Lime Mortars M. Vyšvařil, P. Bayer and P. Rovnaníková	73
Influence of Flax Oil Additive on Rheological Properties of Lime Mortar P. Reiterman, V. Davidová and M. Keppert	79
Regional Variations of Traditional Folk Houses Plaster Pigments in South East and Central Moravia, Czech Republic M. Novotný and D. Všíanský	85

Chapter 3: Progressive Building Materials and Technologies

Possibilities of Using Hazardous Waste as Filler to Polymer Mortar T. Žlebek, J. Hodul, L. Mészárosová and R. Drochytka	93
Evaluation on Formation of Aluminosilicate Network in Ternary-Blended Geopolymer Using Infrared Spectroscopy H.T. Nguyen	99
Effects of Seawater Content in Alkaline Activators to Engineering Properties of Fly Ash-Based Geopolymer Concrete Q.M. Do, T.H. Bui and H.T. Nguyen	105
Study on Physico-Mechanical Properties of the Modified Alkaline Aluminosilicate Adhesive-Bonded Timber Elements S.G. Guzii, P.V. Krivenko, O.P. Bondarenko and T. Kopylova	112

The Effect of Fibers on the Basic Physical-Mechanical Properties of the Alkali-Activated Systems L. Procházka and J. Boháčová	118
Perspectives of Using Alternative Binders in the Preparation of Composites with Natural Filler E. Terpakova and N. Številová	125
Effect of Thermal Loading on Selected Parameters of Reinforced Concrete Obtained by Acoustic NDT Method I. Plšková, M. Matysík and Z. Chobola	131
Enhanced Electrical Properties of Fly Ash Geopolymer Composites with Carbon Nanotubes C. Mizerová, I. Kusák, P. Rovnaník and P. Bayer	137
Detection of Reinforced Concrete Thermal Damage by Nonlinear Ultrasonic Spectroscopy M. Matysík, I. Plšková and Z. Chobola	143
Sulphur Dioxide Emissions during the Firing of Ceramic Bodies Based on Class C Fly Ash R. Sokolař and M. Nguyen	149
Development of the HVFAC Modulus of Elasticity M. Ťažký, L. Osuská and R. Hela	155
Evaluation of Microstructure, Phase Composition and Hardness of Alternative Abradable Ceramic Coating Systems Produced by Means of Atmospheric Plasma Spraying D. Jech, M. Remešová, P. Komarov, S. Tkachenko, Z. Česánek, J. Schubert, Š. Houdková and L. Čelko	161
Self-Sensing Properties of Alkali-Activated Slag Composite with Carbon Black during Bending Test P. Rovnaník, C. Mizerová, I. Kusák and P. Schmid	167
The Impact of Fly Ash after SNCR Treated with Tannin-Based Products on AAC Production M. Lédl, L. Galvánková and R. Drochytka	173
Influence of Fly Ash Addition in the Raw Mixture on Synthesis and Properties of Forsterite M. Nguyen and R. Sokolař	180
Application and Verification of Physical-Mechanical Properties of Modified Clay Plaster by Silicates T. Majstříková, J. Boháčová and J. Hapl	186
The Influence of Al₂O₃ Microparticles on the Pore Structure of Fired Clay L. Nevřivová and D. Zemánek	197
Utilization of CaO for Improvement of Durability of Vacuum Insulating Panels (VIP) J. Zach, J. Peterková and V. Novák	203
Preparation and Verification of Properties of Alkali-Activated Composite J. Boháčová and L. Janalík	209
Flow Erosion Resistance of Concrete - Interaction of High-Speed Water Jet and Concrete L. Bodnárová, R. Hela, L. Sitek, P. Hlaváček and J. Foldyna	215
Alternative Design Options for Preparing Beta Gypsum-Based Gypsum Premix I. Hájková and D. Gazdič	221
