

Table of Contents

Preface and Organization

Chapter 1: Cement and Binders Based on Cement

Effect of Superplasticizers on the Cement Hydration Process M. Matysík, T. Vymazal and I. Plšková	3
Physic-Mechanical Properties of Cement Composites Consisting of Organic Raw Materials Š. Keprlová	7
FBC-Ash as a Substitute of Part Material Raw during Production of Portland Cement M. Fridrichová, R. Magrla, D. Gazdič and J. Stachová	11

Chapter 2: Inorganic Binders

Chemical Analysis of Historic Lime Mortars: Role of Sample Preparation R. Ševčík, P. Šásek, M. Pérez-Estébanez and A. Viani	17
The Influence of Curing and Process of Hydration to Damping Coefficient of Alkali Activated Slag Mortars K. Timcakova, L. Topolář and P. Rypák	21
Effect of Carbon Nanotubes and Hydroxypropyl Methylcellulose on the Mechanical Properties and Cracking Tendency of Alkali-Activated Slag P. Rypák, L. Topolář and P. Rovnaník	25
The Utilization of Waste Aluminosilicate to Prepare Cement Composite with Thermal Insulating and Drying Effect A. Brenek, V. Vaclavik, J. Valíček, T. Dvorsky, J. Daxner, M. Bendová and V. Šimíček	30
Mix Design of Hybrid High-Volume Fly Ash Alkali Activated Cement O. Kovalchuk, R. Drochytka and P.V. Krivenko	36
High Strength Alkali Activated Slag Cements with Controlled Setting Times and Early Strength Gain P.V. Krivenko, O. Petropavlovsky, V. Petranek, V. Pushkar and G. Vozniuk	44
The Analysis of the Behavior of Alkali-Activated Materials Applied as a Repair Mortar Á. Dufka and L. Bodnárová	50
Modification of Natural Anhydrite by Mixed Exciter D. Gazdič, J. Stachová and R. Magrla	56
Laboratory Burning of Anhydrite from Phosphogypsum D. Gazdič, K. Dvořák and I. Hájková	60
Production of Alpha Plaster Modification by Pressureless Method M. Fridrichová, I. Hájková and K. Dvořák	64
Burnt Hydraulic Binder on the Basis of FBC Ashes K. Kulisek, K. Dvořák and M. Fridrichová	68
FBC – Ash as Principal Constituent of Mixed Hydraulic Binder K. Dvořák, D. Gazdič and K. Kulisek	73

Chapter 3: Silicate Materials

Selected Parameters of Mortars Containing Fine-Grain Modification of Glass and Clay Brick M. Draganovska and A. Sicakova	81
The Difference between Traditional and Bone Porcelain Body R. Sokolař and L. Vodová	87
Modelling of Moisture Behaviour of Brick Fittings Masonry with Filled Hollows with Boundary Conditions of Winter Season P. Brichacek, S. Šťastník, I. Rotrekl and J. Toman	91

Chapter 4: Research and Assessment Properties of Building Materials

Thermal Insulation Plasters Utilising Natural Fibres J. Hroudová, J. Zach, M. Sedlmajer, E. Helanová and M. Reif	97
Sulfuric Acid Attack on Various Types of Fine Grained Concrete M. Vyšvařil and M. Rovnaníková	101
The Assessment of Durability of Fibre Concretes with Dense Aggregate and Concrete Recyclate from the Results of Permeability and Diffusion Tests T. Stavař and M. Stehlík	106
Impact of External Environment on Long-Term Mechanical Properties of Plasters P. Reiterman and M. Keppert	112
Substitution of Cement-Bonded Particleboards Filling and Binding Agent by Selected Types of Alternative Raw Materials T. Melichar, J. Bydžovský and M. Vacula	116
Influence of Concrete Curing on Modulus of Elasticity K. Křížová and R. Hela	120
Ultrasound Measurements for the Detection of Disintegration of Concrete Slabs Exposed to Fire I. Nováková and P. Macháňová	124
Influence of Addition of Fly Ash on Selected Properties of Concrete for Watertight Tunnel Lining A. Hubáček, T. Jarolím and P. Macháňová	128
The Development of Sprayed Concrete for Extreme Temperatures Á. Dufka and T. Melichar	133
Plasters with Decorative Function Containing Alternative Raw Materials T. Melichar and J. Bydžovský	138
Microstructure of Lightweight and Decorative Renders with Modified Composition J. Bydžovský, T. Melichar and N. Žížková	142
Effect of High Temperatures on Microstructure of Repair Mortars Containing Artificial Aggregate Based on Sintered Ash J. Bydžovský, T. Melichar, Á. Dufka and M. Fiedlerová	147
Effect of Concrete Mixture Composition on Acoustic Emission and Fracture Parameters Obtained from Three-Point Bending Test L. Topolář, H. Šimonová and P. Misák	152
The Laboratory Verification of the Absorption of Bitumen Waterproofing Sheets in the Dependence on Selected Parameters J. Plachý, J. Vysoka, Z. Caha, R. Vejmelka and V. Petranek	156
Temperature Control in High Performance Concrete M. Sedlmajer, J. Zach, J. Hroudová and L. Bodnárová	162
Epoxy Screed as Possible Protection of Floor Surfaces L. Mészárosová, E. Tumova and R. Drochytka	166
The Effect of Additives on the Properties of Lightweight Concrete Screed E. Tumova, L. Mészárosová and R. Drochytka	170
Possibilities of Sugar Content Reduction in Filler of Cement-Bonded Particleboards Š. Keprdová, T. Melichar, J. Bydžovský and M. Vacula	174
Experimental Determination of Mechanical Characteristics of Four Types of Stones and their Influence on the Construction Machinery Parts Wear V. Lazić, D. Arsić, R.R. Nikolić, B. Hadzima and M. Mutavdžić	178
Test of Adhesion and Shear Strength of Polyurethane Adhesives to Cement-Bonded Particleboard B. Nečasová, P. Liška and J. Šlanhof	185
Testing of Waterproofing Gels Penetration Rate while Exposure to Higher Temperature J. Melichar, R. Drochytka and P. Dohnálek	189
Comparison of Dynamic Young's Modulus of Elasticity Values Measured by Ultrasonic Pulse and Resonance Methods J. Brožovský and Á. Dufka	193

The Study of Washed Recycled Concrete Aggregates and Blast Furnace Slag Utilization in Concrete Production	
J. Junak and N. Števílová	197
Beneficial Reuse of Reservoir Sediments in Concrete Production	
N. Junakova and J. Junak	202
Secondary Raw Materials Obtained from Solar Panels and their Use in Material Engineering	
J. Hodná, Á. Dufka and V. Petranek	207
The Examination of Waste Industry Sludge Solidification/Stabilization Possibility	
B. Dohnalkova, R. Drochytka, J. Hodul and T. Ťažký	211
