

Table of Contents

Preface

Chapter 1: Steel and Alloys

Simulative Study on Anisotropic Deformation of a Large Sheet-Hydroformed Motorcycle Fuel Tank	
D. Kumpunya, K. Chongbunwatana, W. Polpruk and S. Panich	3
Multi-Stage Forming Process Design through an Innovative, Iterative Full-Cycle Simulation with Automatic Springback Compensation for an Aluminum Hood Outer Panel	
J. Saengpetch, S. Panich, K. Suwannarod and K. Chongbunwattana	11

Chapter 2: Functional Materials

Effect of Polyethylene Glycol (PEG) and Cellulose Acetate (CA) Loading on the Characteristics of Polyethersulfone (PES) Membrane	
Y. Fahni, W. Frastia, I. Triwahyuni, W.A. Auriyani, D.R. Saputri, D. Damayanti and A. Sanjaya	21
Bimetal Modified HKUST-1 as Electrode Material for Supercapacitor	
I. Abdulhakim, C.C. Mariani, H.A. Muzhaffar, A.S. Rahmah, M. Amri, N.A. Mulyawan, K.M. Shandy, M.A. Nuruzzahrar, M.H.I. Haekal, G. Shukri, N.L.W. Septiani and A.G. Saputro	31

Chapter 3: Biocomposites

Effects of Grewia Bicolor (GB) Fiber Extraction Methods in the Reinforcement of a Biosourced Detarium Microcarpum(DM) Tannin Matrix Material	
M.M. Taoga, B. Ndiwe, F.B. Ebanga, P.M.A. Noah, J.P.E. Mbang, A. Ngue, C. Mansassou and A. Pizzi	43
Study of the Potential of Typha Domingensis Fibers as Reinforcement for Composite Materials	
G. Diouf, P.B. Gning, M.M. Sarr, C. Herbelot and A. Imad	55
Surface Treatment Effects of Sugarcane Fiber and Addition of Basalt Powder on Flammability and Mechanical Properties of Sugarcane Fiber/Basalt Composites for Particle Board Applications	
S. Prabowo, W. Astuti, M. Amin, T. Haryono, N.I. Putri and S. Suprihatin	69
Exploring the Impact of Pressing Techniques on Mycelium-Based Biocomposites	
N.C. Maideen, K.M. Hyie, H. Yussof, J. Jamaluddin, J. Abdullah, N. Abdul Wahab and Y.F. Buys	75

Chapter 4: Biomass Processing and Valorisation

Synthesis of Activated Carbon Derived from Banana Peel for Application as a Catalyst Support in Fuel Cells	
A. Paramita, M. Elma, H. Setywan, A. Rahma and M. Pusfitasari	87
Effects of Liquid Fraction Recirculation during Microwave-Assisted Hydrothermal Carbonization on Properties of Coffee Parchment	
R. Raudah, R. Hasibuan, I. Irvan and E. Misran	95

Chapter 5: Green Building Materials

Impact of the Efflorescence Formation on the Salt Colonization of the Surface of Heterogeneous Porous Medium	
B. Diouf	111

Highlighting of Design and Mechanical Behavior of Adobe Clay Bricks Made with Biomass Waste

L.S. Soumbou, C.F.P. Nziengui, J.E. Boulingui, S.E. Ango, J. Temdie and R. Moutou Pitti

119
