

Table of Contents

Foreword, Honouring Henry L. Ehrlich, Committees & Sponsors

Chapter 1: Geomicrobiology, Biogeochemical Cycles, Genetics and Molecular Biology

New Insights into Salt-Tolerance in Acidophilic Iron-Oxidising Bacteria D.B. Johnson, B.M. Grail and V. Bonnefoy	3
Microbial Communities in Sediments in Acidic, Metal-Rich Mine Lakes: Results from a Study in South-West Spain C. Falagan, F.J. Sánchez-España, I. Yusta and D.B. Johnson	7
Influence of Different Growth Conditions on the Composition of Extracellular Polymeric Substances of <i>Acidithiobacillus ferrooxidans</i> and <i>Acidithiobacillus ferrivorans</i> Species N.C. Teubner, S. Bellenberg, M. Vera and W. Sand	11
Comparative Genomics Underlines the Functional and Taxonomic Diversity of Novel “<i>Ferrovum</i>” Related Iron Oxidizing Bacteria S.R. Ullrich, A. Poehlein, R. Daniel, J.S. Tischler, S. Vogel, M. Schlömann and M. Mühling	15
Screening and Isolation of Bacterial Strains with the Biotechnological Potential to Destruct Cyanide-Bearing Compounds under the Conditions of Extreme Continental Climate M.P. Belykh, S.V. Petrov, V.F. Petrov, A.Y. Chikin and N.L. Belkova	19
Dyp-Type Peroxidase (DypA) from the Bioleaching Acidophilic Bacterium <i>Leptospirillum ferriphilum</i> DSM 14647 M. Contreras, C. Mascayano, R. Chávez, A. Ferrer, B. Paillavil and G.J. Levicán	23
Global Transcriptional Responses of <i>Acidithiobacillus ferrooxidans</i> Wenelen under Different Sulfide Minerals	28
Comparison of Microbial and Geochemical Conditions of Lignite Coal Spoil and Overburden Areas and their Environmental Impact S. Willscher, M. Schaum, J. Goldammer, D. Knippert, D. Kühn, H. Ihling and T. Schaarschmidt	32
Characteristics of <i>Acidibacillus</i> Spp.: A Novel Genus of Acidophilic Iron-Oxidising <i>Firmicutes</i> R. Holanda, S. Hedrich, C. Falagán, I. Nancucheo, H. Dall’Agnol, B.M. Grail and D.B. Johnson	36
Microarray-Based Characterization of Microbial Community Functional Structure and Heterogeneity Associated with Acid Mine Drainages L. Shen, H.Q. Yin, Q. Hu, X.D. Liu and G.Z. Qiu	40
Microbial Community Structure Analysis of Blood Pond Hell Hot Spring in Japan and Search for Metal-Reducing Microbes Y. Masaki, S.I. Hirano and N. Okibe	45
Thermodynamic Modelling of Geo-Biometallurgical Oxidation of Sulfide Ores S.S. Gudkov, Y.Y. Yemelianov, L.Y. Shketova, N.V. Kopylova and T.Y. Afonina	50
Diversity of Bioleaching Microorganisms in Interfacial Emulsion of Copper Solvent Extraction X.R. Liu, C. Su, D.J. Chi, X.S. Zheng, H.L. Yu and J.H. Shen	55
Neutrophilic Microbial Community with High Rate of Elemental Sulfur Oxidation A.V. Belyi, T.F. Kondrat’eva, A. Bulaev, N.V. Solopova, N.V. Grigor’eva, M.I. Murav’yov, A.E. Panyushkina and I.A. Tsaplina	59
Organotrophic and Mixotrophic Sulfur Oxidation in an Acidic Salt Flat in Northern Chile L. Escudero, J. Bijman, G.M. Mariela, J.J. Pueyo Mur, G. Chong and C. Demergasso	63
Theoretical Model of the Structure and the Reaction Mechanisms of Sulfur Oxygenase Reductase in <i>Acidithiobacillus thiooxidans</i> X. Zhang, H.Q. Yin, Y.L. Liang, G.Z. Qiu and X.D. Liu	67
Physiological and Genetic Characteristics of Psychrotolerant Acidophile <i>Acidithiobacillus ferrivorans</i> ZB-1 and DX-1 K. Zou, X. Guo, Y.L. Liang, X. Zhang, L.Y. Ma, G.Z. Qiu, H.Q. Yin and X.D. Liu	71
Microbially Induced Corrosion in Deep Bedrock L. Carpen, P. Rajala and M. Bomberg	75

Biofilm Formation and Stainless Steel Corrosion Analysis of <i>Leptothrix discophora</i> C. Thyssen, D. Holuscha, J. Kuhn, F. Walter, W. Fürbeth and W. Sand	79
Geomicrobiology of Río Tinto, a Model of Interest in Biohydrometallurgy R. Amils	83

Chapter 2: Microbe-Mineral Interactions

The Production of Soluble Ferric Sulfate via Biological and Chemical Processing of Iron Sulfides D. Dreisinger, A. Dreisinger and C. Dreisinger	89
Apparent Absence of Microbial Life inside an Alkaline Slag Dump A. Schippers and D. Rammlmair	93
Changes in <i>Acidithiobacillus ferrooxidans</i> Ability to Reduce Ferric Iron by Elemental Sulfur J. Kucera, E. Pakostova, O. Janiczek and M. Mandl	97
Effect of Cu(II) on Bio-Scorodite Crystallization Using <i>Acidianus brierleyi</i> N. Okibe, S. Morishita, M. Tanaka, T. Hirajima and K. Sasaki	101
Interspecies Interactions of Metal-Oxidizing Thermo-Acidophilic Archaea <i>Acidianus</i> and <i>Sulfolobus</i> R.Y. Zhang, J. Liu, T.R. Neu, Q. Li, S. Bellenberg, W. Sand and M. Vera	105
Bio-Modification of Carbonaceous Matters in Gold Ore: Model Experiments Using Powdered Activated Charcoal and Cell-Free Extracts of <i>Phanerochaete chrysosporium</i> K. Twum Konadu, K. Sasaki, G. Ofori-Sarpong, K. Osseo-Asare and T. Kaneta	109
Industrial Views to Microbe-Metal Interactions in Sub-Arctic Conditions P. Kinnunen, M. Bomberg, P. Rajala and L. Carpén	114
Reactive Oxygen Species Influence Biofilm Formation of Acidophilic Mineral-Oxidizing Bacteria on Pyrite S. Bellenberg, D. Huynh, L. Castro, M. Boretska, W. Sand and M. Vera	118
Characterization of Microbe-Mineral Interfacial Interaction Based on Synchrotron Radiation Techniques J.L. Xia, H.C. Liu, Z.Y. Nie, H.R. Zhu, Y. Yang, L. Wang, J.J. Song, C.H. Zhao, Y.L. Ma, Y.D. Zhao, C.Y. Ma and X.J. Zhen	123
Initial Attachment and Biofilm Formation of a Novel Crenarchaeote on Mineral Sulfides R.Y. Zhang, Y.T. Zhang, T.R. Neu, Q. Li, S. Bellenberg, W. Sand and M. Vera	127
Microbial & Mineralogical Dynamics during Copper Sulfides Bioleaching, the Search for the Missing Link R.A. Bobadilla-Fazzini, P. Piña, V. Gautier, K. Brunel and P. Parada	131
Antimicrobial Activity and Hardness of as Cast and as Homogenized Cu-Ti Alloys D. Nurhayani and A.A. Korda	136
Biofilm Formation of <i>Sulfobacillus thermosulfidooxidans</i> on Pyrite in the Presence of <i>Leptospirillum ferriphilum</i> Q. Li, R.Y. Zhang, B.A. Krok, M. Vera and W. Sand	141
Insight into the Sulfur Metabolism by Thermoacidophilic Archaeon <i>Metallosphaera cuprina</i> with Genomic, Proteomic and Biochemical Tools J.L. Song, C. Jiang and S.J. Liu	145
A Feasibility Study of Arsenopyrite-Bearing Gold Bioleaching and its Characterization S. Hasni, S.X. Juan and M.S. Jian	149
Biofilm Formation and Extracellular Polymeric Substances (EPS) Analysis by New Isolates of <i>Leptospirillum</i>, <i>Acidithiobacillus</i> and <i>Sulfobacillus</i> from Armenia A.K. Vardanyan, N.S. Vardanyan, L. Markosyan, W. Sand, M. Vera and R.Y. Zhang	153
High Copper Tolerant <i>P. lilacinum</i> Strain Isolated from a Rich Environment in Copper, Río Tinto (Sw, Spain) M. Oggerin, C. Escudero, C. del Moral, N. Rodríguez and R. Amils	157
Influence of Oxidation-Reduction Potential on Bio-Oxidation of Olimpiada Flotation Concentrate with High Content of Pyrrhotite A.V. Belyi, S. Drozdov, A. Teleutov and N. Solopova	161
Effects of Ion Stress on the Oxidation Activity of <i>Acidithiobacillus ferrooxidans</i> Y.B. Dong and H. Lin	165

Effect of <i>Phanerochaete chrysosporium</i> on Graphite Degradation during Pre-Treatment of Simulated Gold Preg-Robbing Ore	
Q. Liu, H.Y. Yang, L.L. Tong, L.L. Qiao, J. Peng, Z.L. Zhang and H.L. Liu	169
The Relationship between Metabolic Pathways of Bacteria and Pyrrhotite Bioleaching Behavior	
G.H. Gu, H.S. Yang, C.Q. Wang and X.Y. Xu	175
Electrochemical Research on N-Type and P-Type Semiconductor Pyrite	
J.N. Xu and H.Y. Yang	179
<i>In Situ</i> Characterization of Relevance of Surface Microstructure and Electrochemical Properties of Chalcopyrite to Adsorption of <i>Acidianus manzaensis</i>	
J.L. Xia, H.R. Zhu, L. Wang, H.C. Liu, Z.Y. Nie, Y.D. Zhao, C.Y. Ma, C.H. Hong and X.J. Zhen	183

Chapter 3: Technologies of Bioleaching in Hydrometallurgy

Factors Affecting the Selection of BIOX[®] as the Preferred Technology for the Treatment of a Refractory Gold Concentrate	
J. van Niekerk	191
Base Metal Tank Bioleaching: From Laboratory Test Work to Commercialization	
M. Gericke	197
Geobiotechnical Recovery of Metals from Manganese Nodules: First Experiments	
C. Heller and A. Schippers	201
Saline Water Bioleaching with Thermophilic Fe(II) Oxidising Microorganisms	
M.K. Corbett, D. Collinson, D. Shiers, A.H. Kaksonen, H. Watling and E.L.J. Watkin	205
Role of Microbial Activity in Bioleaching of a Pyritic and a Pure Chalcopyrite Concentrate	
M. Khoshkhoo, M. Dopson and Å. Sandström	209
Oxygen-Enriched Gas in Bioleaching Stirred Reactors and its Impact on the Consortium Behaviour	
C. Joulain, J. Jacob, M. Beaulieu, P. d'Hugues and A.G. Guézennec	214
Organic Carbon Utilisation by Iron(II)-Oxidising Bacteria <i>Sulfobacillus thermosulfidooxidans</i> and <i>Alicyclobacillus</i> Strain FP1 that Inhabit Copper Sulfide Leaching Heaps	
D.W. Shiers, D.M. Collinson and H.R. Watling	218
Effect of Different Solvent Extractants on the Activity and Community Structure of Acidophilic Microorganisms	
B.W. Chen, W.J. Li, G.Y. Zhou, X.Y. Liu and J.K. Wen	222
Ferrous Iron Oxidation in Packed-Bed Reactors at Elevated Temperatures	
A. Bulaev	226
Iron Oxidation and Jarosite Precipitation in a Continuous Two-Stage 70°C Archaeal Bioreactor	
A.H. Kaksonen, C. Morris, J. Wylie, J. Li, K. Usher, F. Hilario and C. du Plessis	230
Optode-Based Oxygen Measurements in Bioleaching Reactors	
F. Giebner, S. Eisen, M. Schlömann and S. Schopf	234
<i>Aspergillus niger</i> PSSG8 Mediated Bioleaching of Monazite for the Recovery of Rare Earth and other Metal Constituents	
K.K. Keekan and J.C. Jalondhara	238
Bioleaching of Complex Refractory Gold Ore Concentrate of China: Comparison of Shake Flask and Continuous Bioreactor	
Y. Song, H.Y. Yang and L.L. Tong	243
Comparative Experiments on Acid Leaching and Bioleaching to a Sandstone Type Uranium Ore	
J.H. Liu, W.J. Shi, Y.J. Liu, Y.P. Zhou and Z.X. Sun	247
Utilization of Metabolic Citric Acid from <i>Aspergillus niger</i> Using Corn Starch in the Nickel Leaching of Indonesian Saprolitic Ore	
W. Astuti, T. Hirajima, K. Sasaki and N. Okibe	251
Development of a Strategy for Selective Metal Recovery from Pregnant Leach Solutions of Kupferschiefer Bioleaching	
S. Hedrich, A. Schippers and D.B. Johnson	255
Interactions between Chalcopyrite and Marmatite during Bioleaching Process	
H.B. Zhao, J. Wang, Y. Zhang and G.Z. Qiu	259

Overcoming the Bacteriostatic Effects of Heavy Metals on <i>A. thiooxidans</i> Direct Bioleaching of Saprolitic Ni Laterite Ores H.C. Jang and M. Valix	263
An <i>In Situ</i> Characterization for the Bioleaching Process of Natural Pyrite Using Electrochemical Noise Technique G.B. Chen, H.Y. Yang and H.J. Li	268
Organic Acid Biogenesis by <i>Aspergillus niger</i> and its Utilization for Indirect Bioleaching of Nickel Laterite Ore M.Z. Mubarak, R.S. Sulistyo, S.K. Chaerun and W.P. Minwal	273
Influence of Carbonate Solubilisation on Copper Leaching from Kupferschiefer with Organic Acids S. Kostudis, K. Bachmann, S. Kutschke, K. Pollmann and J. Gutzmer	278
Evolution of Leaching Products on the Surface of Chalcopyrite by Mesophiles and Thermophiles Based on SR-XRD and XANES Spectroscopy H.C. Liu, J.L. Xia, Z.Y. Nie, H.R. Zhu, Y.D. Zhao, C.Y. Ma and L. Zheng	282
Iron Oxidized Acidophiles Distribution and Activities in an Uranium <i>In Situ</i> Bioleaching Site Y.J. Liu, J. Li, Y.P. Zhou, L.L. Xu, W.Y. Xu, X.G. Wang, G.B. Yang, J.H. Liu, Z.X. Sun and J.S. Liu	287
Solution pH and Jarosite Management during Ferrous Iron Biooxidation in a Novel Packed-Column Bioreactor M. Wanjiya, F. Chowdhury and T.V. Ojumu	291
Metal Recovery and Exploitation of Lignite Ashes by Combined Physicochemical and Biotechnological Approaches R. Kermer, S. Hedrich, B. Brett, D. Schrader, K. Räuchle, P. Schönherr, A. Schippers, S. Reichel, F. Glombitza and E. Janneck	296
Bioleaching of a Molybdenite Concentrate by Thermophilic Microorganisms in a New RELVA-RBAL 1 AIR LIFT Bio-Reactor R.E. Rivera Santillan, F. Patricio Ramirez and F.A. Lopez Lopez	300
Physical Peeling of Passivating Layers on Chalcopyrite Leached with Ferric Ion Using Small Alumina Balls S. Joe, C. Inoue and T. Chida	304
Utilisation of Inorganic Substrates by <i>Alicyclobacillus</i> - Like Strain FP1 H.R. Watling, D.M. Collinson, F.A. Perrot and D.W. Shiers	308
Systems Biology of Acidophile Biofilms for Efficient Metal Extraction S. Christel, M. Dopson, M. Vera, W. Sand, M. Herold, P. Wilmes, A. Buetti-Dinh, I. Pivkin, C. Trötschel, A. Poetsch, J. Nygren and M. Kubista	312
A Study of Permeability and Diffusion at the Agglomerate-Scale in Heap (Bio)Leaching Systems E. Govender, A. Kotsiopoulos and S.T.L. Harrison	316
Bioreactor Process Optimization for Bioleaching of Fine-Grained Residues from Copper Smelting C. Klink, J. Heim, B. Daus, S. Eisen, M. Schlömann and S. Schopf	321
Microstructure Evolution of Ore Particles during Bioleaching Based on X-Ray Micro-Computed Tomography Images B.H. Yang, A.X. Wu, X.X. Miao and H.B. Liu	325
Biooxidation of a Gold-Arsenic Sulphide Concentrate by a Two-Stage Oxidation Using Consecutively Acidophilic and Neutrophilic Bacteria A.V. Belyi, N. Solopova, V. Sekachev, A. Teleutov, A. Malashonok and G. Krasilnikov	329
Blue-Copper Proteins: Expression of Coding Genes from <i>Sulfobacillus</i> Spp. and Iron Oxidation in Column Bioleaching Tests M. Acosta, P.A. Galleguillos, S. Marín, C. Chibwana, H. Strauss and C. Demergasso	333
Bioleaching of Chalcopyrite by Thermophilic Archaea J.L. Song, S.J. Liu and C. Jiang	338
Comparative Study of Iron and Sulfur Speciation Transformation of Pyrite and Marcasite by Extreme Thermophilic Archaea <i>Acidianus manzaensis</i> H.C. Liu, J.L. Xia, Z.Y. Nie, H.R. Zhu, Y.D. Zhao, C.Y. Ma, L. Zheng and C.H. Hong	342
Reductive Dissolution of Iron Oxides and Manganese Bioleaching by <i>Acidiphilium cryptum</i> JF-5 E. González, F. González, J.A. Muñoz, M.L. Blázquez and A. Ballester	347

Reductive Dissolution of Ferric Iron in Laterite Overburden Using <i>Acidithiobacillus</i> Spp. and Neutrophilic Iron-Reducing Consortia J. Marrero, O. Coto and A. Schippers	351
Primary Copper Ore Leaching by Leaching Solution Adjusted Oxidation-Reduction Potential in Column T. Shinkawa, T. Kamiya, K. Kojima and T. Chida	355
Bioprocess for Leaching of Copper Concentrate M.I. Muravyov, N.V. Fomchenko and T.F. Kondrat'eva	359
Bioleaching of Orpiment (As₂S₃) in Absence of Fe³⁺ G.J. Zhang, Q. Yang and C. Yang	363
Insights into the Active Carbon Fixation Pathways of a Microbial Community in a Chalcopyrite Bioleaching Column S. Marín, M. Acosta, P. Galleguillos, C. Chibwana, H. Strauss and C. Demergasso	367
Study on Bioleaching of Sulfur in Iron Ore by Mixed Culture H. Shang, J.K. Wen, B. Wu and X.L. Mo	371
Effect of Particle Size on the Column Bioleaching of Tibet Yulong Copper Ore L. Kai, Y.G. Wang, L.J. Zhang, C. Zhu, M. Feng and H.B. Zhou	375
Study on the Gold Recovery of Double Refractory Gold Ore Concentrate by Biological Oxidation Pretreatment W.J. Luo, H.Y. Yang and Z.N. Jin	379
Spectroscopic and Microscopic Investigation for Biohydrometallurgy K. Sasaki	383
Influence of Biological and Environmental Factors on Leaching Efficiency during Chalcopyrite Bioleaching Process L.Y. Ma, X.J. Wang, X. Feng, X. Guo, Q. Hu, Y.H. Xiao, X.D. Hao, Y.L. Liang, H.Q. Yin and X.D. Liu	387
Indium Extraction from Reiche Zeche Sphalerite and Community Analysis of Acidic Mine Water N. Gelhaar, S. Schopf and M. Schlömann	392
Chalcopyrite Bioleaching at High Sulfate Concentrations S.M. Rea, N.J. Boxall, J. Li, C. Morris and A.H. Kaksonen	396
Enhanced Column Bioleaching of Copper Sulfides by Forced Aeration M.Q. Huang, Y.M. Wang, S.H. Yin and A.X. Wu	400
Fluoride Toxicity in Bioleaching of Fluorapatite J. Mäkinen, P. Kinnunen, M. Arnold, O. Priha and T. Sarlin	406
Roles of Oligotrophic Acidophiles (<i>Alicyclobacillus</i>) in Chalcopyrite Bioleaching System: Shake Flask Evaluation X.Y. Liu, M.J. Zhang, W.Y. Liu, B.W. Chen, C.Y. Meng and J.K. Wen	410
Bioleaching of Aluminum Slags with Thermophilic Bacteria R.E. Rivera Santillan, F. Patricio Ramirez and V.D. Aguilar Perez	414
Bioleaching of Copper Sulphide Ore by a Microbial Consortium Isolated from Acid Mine Drainage: Influence of [Fe²⁺] L. Salcedo-Mejía, L. Ramírez-Osco, H. Cayo-Gonzales and V. Arias-Arce	418
Bioleaching vs. Chloride Leaching: Real Advantages and Drawbacks for Primary Sulfides R.A. Bobadilla-Fazzini, V. Gautier, H. Jordan and P. Parada	423
The Microbial Ecology of Moderately Thermophilic Mineral Leaching Reactors: The Effect of Solids Loading and Organic Carbon Supplementation on Reactor Performance J. Dean, R.P. van Hille and S.T.L. Harrison	427
Different Leaching Efficiency and Microbial Community Structure Variation in Chalcopyrite Bioleaching Process Based on Different Initial Microbe Proportions X. Feng, L.Y. Ma, Y. Deng, A.J. Chen, K. Zou, Y.L. Liang, G.Z. Qiu and X.D. Liu	431
Enhance Column Bioleaching of Uranium Embedded in Brannerite by a Mesophilic Acidophilic Bacteria X.G. Wang, J. Li, Z.X. Sun and Y.J. Liu	436
Biooxidation of Carbonaceous Refractory Gold Ores by an Iron-Sulfur-Oxidizing Mixotrophic Bacterium at Neutral pH R. Winarko, M.Z. Mubarak, I.N. Rizki and S.K. Chaerun	440
Process Parameter Study of Ferric Production in an Immobilization Bioreactor Y.Y. Li, J. Du, H. Zhao, J.Y. Cao, G.J. Zhang and C. Yang	445

Reductive Leaching of Jarosites by <i>Shewanella putrefaciens</i> - Influence of Humic Substances and Chelators in Mineral Dissolution	
L. Castro, J.A. Muñoz, F. González, M.L. Blázquez and A. Ballester	450
Additions of Pyrite or Chalcopyrite Alters the Microbial Community Diversity, Composition and Function in Sphalerite Bioleaching Systems	
Y.H. Xiao, X.D. Liu, H.Q. Yin, W.L. Dong, Y.L. Liang, L.Y. Ma and G.Z. Qiu	454
Column Bioleaching of Refractory Gold Ores	
A. Bulaev, Z.K. Kanayeva, M.I. Muravyov, A.T. Kanayev and T.F. Kondrat'eva	459
Differential Surface Properties and Iron Distribution of <i>Acidianus manzaensis</i> YN25 Grown on Four Different Energy Substrates	
Z.Y. Nie, H.C. Liu, J.L. Xia, Z.W. Yin, L.Z. Liu, J.J. Song, H.R. Zhu, Y. Yang, X.J. Zhen and G.Z. Qiu	463
Study of Microorganism Trench-Leaching of a Chinese High Fluorine-Bearing Uranium Ore	
X.L. Mo, J.K. Wen, C.Y. Xu, B. Wu, B.W. Chen and H. Shang	468
Microbial Leaching of Copper from Tailings of Low Grade Sulphide Ores in Zambia	
Y.L. Liang, H.Q. Yin, Y.H. Xiao, M. Tang, X. Feng, Z.Y. Xie, G.Z. Qiu and X.D. Liu	473
New Technology of Base Metals Precipitation by Hydrogen Sulfide Obtained Using <i>Desulfurella acetivorans</i> and <i>Desulfurella kamchatkensis</i>	
A.N. Mikhailova, A.A. Faiberg, S.S. Gudkov and V.Y. Dementev	477

Chapter 4: Bioflotation, Biobeneficiation, Biosorption and Bioaccumulation

Influence of Bacterial Detachment on the Bioflotation of Malachite	
G.H. Kim, S.Y. Park, K.Y. Park, J.Y. Choi, S.Y.Q. Choi, S.K. Kim and H.J. Kim	485
Isolation and Selection of Halophilic Ureolytic Bacteria for Biocementation of Calcium and Magnesium from Seawater	
D. Arias, P. Valdes, L.A. Cisternas and M. Rivas	489
Possible Role of the Biosurfactant-Producing and Fe-S-Oxidizing Bacterium in Silicate and Sulfide Bioflotation Processes	
E. Sanwani, R. Zendy Mirahati and S.K. Chaerun	493
Uranium (VI) Sorption Using Functionalized-Chitosan Magnetic Nanobased Particles	
A.A. Galhoum, M.G. Mahfouz, N.M. Gomaa, T. Vincent and E. Guibal	499
FTIR Analysis on Organic Sulfur Distribution: Aliphatic Mercaptans in Lignite, Prior and after Multistage Artificial Biotreatment Process	
I. Handayani, Y. Paisal, S.K. Chaerun and S. Soepriyanto	503
Biopolymers as Encapsulating Agents for the Immobilization of Prussian Blue and Analogues for the Sorption of Cesium	
C. Vincent, Y. Barré, T. Vincent and E. Guibal	507
Selective Recovery of Au(III) from Binary Metal Solution Using Aliquat-336-Impregnated Alginate Capsule	
W. Wei, M.H. Song, S. Kim, J.K. Bediako and Y.S. Yun	511
Assessment of Surface Properties of Silica-Bacterial Cell Complex: A Potential Application for Silicate Bioflotation Processes	
E. Sanwani, T. Wahyuningsih and S.K. Chaerun	515
Adsorption Kinetics and Surface Characterization of Microorganisms Grown under Different Conditions	
Z.L. Wu, W.Z. Kong, J.Y. Liu, Z. Wu, S.P. Zhong and Y.G. Zhu	519
Organic Sulfur Reduction on Lignite Coal Using Multistage Artificial Biotreatment (A-Bmt)	
Y. Paisal, I. Handayani, S.K. Chaerun and S. Soepriyanto	524
Biopolymer Encapsulation of PEI-Derivatives for Heavy Metal Sorption	
C. Bertagnolli, T. Vincent and E. Guibal	529

Chapter 5: Bioremediation and Bio Recovery of Metals from Wastes, Impact of Mining Technologies on the Environment

Biometal Demonstration Plant for the Biological Rehabilitation of Metal Bearing-Wastewaters (Biometal Demo)	
M.R. Jimeno, A. Ballester, M.G. Roig, E. Guibal and M.C. Costa	535
Dynamic Modelling of Biofilm Reactors with Immobilised Sulfate-Reducing Bacteria	
A. Hatzikioseyan, P. Kousi, E. Remoundaki and M. Tsezos	539
Biorecovery of Rare Earth Elements: Potential Application for Mine Water Remediation	
A.J. Murray, S. Singh, M.R. Tolley and L.E. Macaskie	543
Passive System for Bio-Recovery of Copper from Acid Mine Drainage	
A. Schwarz, G. Chaparro and N. Pérez	547
Bioremediation and Metal Resistant Bacteria in a Closed, Cold Northern Mine	
M. Bomberg, M. Arnold and P. Kinnunen	551
Biosynthesis of Zinc Sulfide Quantum Dots Using Waste Off-Gas from Metal Bioremediation Process	
J. Roussel, A.J. Murray, J. Rolley, D.B. Johnson and L.E. Macaskie	555
Enhancing ARD Mitigation by Application of Benign Tailings to Reduce the Permeability of Waste Rock Dumps	
A. Kotsiopoulos and S.T.L. Harrison	560
Metal Removal from Spent Catalyst Using <i>Microbacterium liquefaciens</i> in Solid Culture	
N.G. Rojas-Avelizapa, M. Gomez-Ramirez and A.M. Diana Grecia	564
Study on As Uptake and Rhizobacteria of Two as Hyperaccumulators Forward to As Phytoremediation	
M.F. Chien, R. Makita, K. Sugawara and C. Inoue	568
Phytoremediation of Heavy Metal Contaminated Soil by Selection of Plant Species	
T. Luo, B.K.C. Chan and R.Y. Wang	572
Ruthenium Recovery from Acetic Acid Waste Solution by Using PEI-Coated Biomass-Chitosan Composite Fiber	
J.A. Kim, M.H. Song and Y.S. Yun	577
Enrichment and Isolation of Acidophilic Microorganisms from Sediments of Gold Mine Waste Leachate	
A. Bulaev, N.V. Pimenov, D.A. Ivashenko and O.V. Karnachuk	581
Isolation and Characterization of Toxic Metal Removing Bacterial Biofloculants	
K. Karthiga Devi and K.A. Natarajan	585
Culture/Co-Culture Dependent and Independent Identification of Bacterial Communities along a Chronosequence of Spontaneous Reclamation on Gold Mine Spoils in Peru	
M. Cornejo, K. Pretell, A. Arévalo, Y. Sernaqué and E. Mialhe	589
pH and Concentration Dependent Heavy Metal Uptake by <i>Helianthus tuberosus</i> in Phytoremediation Experiments	
L. Jablonski, Z. Fona, R. Rahmi, J. Wittig and S. Willscher	594
The Effect of <i>Streptomyces sp.</i> Isolated from Acidic Cultures of Minerals on Plant Development in Environments Polluted with Mercury	
S.L. Pacheco, P. Sheen and J. Hurtado	598
Prevention of the Generation of Acid Mine Drainage in a Dump Rich-In Pyrite Uranium Ore	
V. Groudeva, R. Ilieva, M. Iliev and S.N. Groudev	602
Combined Recovery of Copper and Mitigation of Pollution Potential of a Synthetic Metal-Rich Stream Draining a Copper Mine in Brazil	
A.L. Santos and D.B. Johnson	606
Effects of Mining Pollution on the Longjiang River in China	
M.J. Zhang, F.K. Huang, N. Wang, G.Y. Wang, X.Y. Liu, J.K. Wen, X.S. Zhang and Y.S. Huang	610
Analysis of the Microbial Community Associated with a Bioprocess System for Bioremediation of Thiocyanate- and Cyanide-Laden Mine Water Effluents	
R.J. Huddy, R. Kantor, W. van Zyl, R.P. van Hille, J.F. Banfield and S.T.L. Harrison	614
Biogeotechnology Application in the Recovery of Metals from the Wastes of Processing Plants	
A.N. Seleznev, S.V. Balikov, L.Y. Shketova and N.V. Kopylova	618
Potential for Conversion of Waste Platinum Group Metals in Road Dust into Biocatalysts for Cracking Heavy Oil	
A.J. Murray, J. Omajali, Y. Del Mastio, A. Hart, J. Wood and L.E. Macaskie	623

Potentials of some Waste Biomaterials as Sorbents for Gold- and Silver-Cyanide Removal from Aqueous Matrices Y. Patil, S. Gaddi and R. Hunashal	627
Sorptive Removal of Cadmium Ions from Solution Phases Using Textile Fiber Waste Coated with Carboxymethyl Cellulose J.K. Bediako, W. Wei and Y.S. Yun	631
Assessing Environmental Risks Associated with Ultrafine Coal Wastes Using Laboratory-Scale Tests A.K.B. Opitz, J.L. Broadhurst and S.T.L. Harrison	635
A Novel Biological Strategy for the Management Industrial Effluents with Simultaneous Recovery of Metal Resource Y. Patil and P. Rao	640
Mining Impacts on the Environment - Water Footprint Assessment of Copper Cathode and Copper Concentrate B.K.C. Chan, M.Y. Xiong and G.P. Zhang	644
Bioremediation of Steel Plant Wastewater and Improved Electricity Generation in Bio-Electrochemical Desalination Cell H. Pradhan, O.A. Shinde, M.M. Ghangrekar and S. Sarkar	648
Microbially Supported Recovery of Precious Metals and Rare Earth Elements from Urban Household Waste Incineration Slag E.M. Muehe, C. Schmidt, J. He, T. Helle and A. Kappler	652
Natural Organic Matter Affects the Treatment of Mine Tailings through Bioleaching Processes R.A. Silva, J.H. Park, J.S. Hong, H.J. Kim, J.H. Park and H.J. Kim	656
Acid Leaching of Cu and Zn from a Smelter Slag with a Bacterial Consortium O.H. Tuovinen, S. Särkijärvi, E. Peuraniemi, S. Junnikkala, J.A. Puhakka and A.H. Kaksonen	660
Biotechnological Recovery of Valuable Metals from Lignite Ash S. Hedrich, S. Bellenberg, R. Kermer, T. Gehrke, W. Sand, A. Schippers, S. Reichel, F. Glombitza and E. Janneck	664
Gold Biodissolution from Electronic Scrap and Biomineralization of Bacterial Gold Nanoparticles S. Das, B. Dong and Y.P. Ting	668
Novel Filamentous Fungi for Metal Removal from Spent Catalyst M. Gómez-Ramírez, A. Plata-González, G. Fierros-Romero and N.G. Rojas-Avelizapa	673
Research Progress on Recovering Valuable Metals from Wasted Circuit Board by Bio-Hydrometallurgy Technology H. Lin, Y.B. Dong and X. Wang	677
The Re-Usability of <i>Ecklonia maxima</i> (Brown Seaweed) in the Treatment of Mine Effluent A.B. Marshall and D.I.O. Ikhu-Omoregbe	681
Removal of Cd(II) from Water System Using Novel Biosorbent Derived from Persimmon Fallen Leaves R.Y. Fan, Q.P. Yi, Q.L. Zhang and Z.R. Luo	685
Biosorptive Removal of Hexavalent Chromium from Aqueous Industrial Solutions by a Novel Wood Apple Shell Powder Biomass N. Itankar and Y. Patil	689
Adsorption and Desorption Potential of Cadmium Using Green Algae: Equilibrium and Kinetic Studies Z.S. Birungi and E.M.N. Chirwa	693
An Innovative Model of Managing Silver Metal from Electronic Scrap Using a Combination of Chemical Leaching Followed by Biosorption and Biodegradation Y. Patil, V. Bhat and P. Rao	697
