|                                                                                                                                                                                                          |    |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| <b>Free Vibration of Composite Rectangular Plates with Internal Crack</b><br>M. Abd ul-Zahra Dookhi .....                                                                                                | 1  |
| <b>Analysis of Spur Gear Design Parameters and Surface Finish for Robotic Applications</b><br>S.K.A. Abdelfattah.....                                                                                    | 2  |
| <b>An Efficient Hybrid Metaheuristic Algorithm Rede-nm for Solving Industrial Optimization Problems Paper Title</b><br>H. Abderazek, A. Laouissi, M. Nouioua and I. Atanasovska .....                    | 3  |
| <b>Moisture Content and Measurement Methods of Polymers</b><br>T. Ábri, T.J. Szabó and K. Marossy.....                                                                                                   | 6  |
| <b>Modeling and Measuring Residual Stresses in a Thick-Walled Pipe Structure Welded with a Buried-Arc Technique: A Comparative Study</b><br>M. Alhafadhi, M. Alsigar, H. Vemanaboina and F. Mohanad..... | 7  |
| <b>Investigation of the Impact of Surface Roughness on Vehicle's Resistance</b><br>Z. Ali and G. Bogнар.....                                                                                             | 8  |
| <b>Fuzzy Logic Integration for Enhanced Mobile Robot Path Planning and Navigation</b><br>S. Al-Kamil, E. Laufer and R. Szabolcsi .....                                                                   | 9  |
| <b>Lattice Structured Hip Implant Optimization Using the Linear Regression Method</b><br>R. Alkentar and T. Mankovits.....                                                                               | 10 |
| <b>Study the Internal Corrosion of Petroleum Pipes</b><br>A. Al-Mosawi and S.A. Abdulsada.....                                                                                                           | 11 |
| <b>Optimizing Grinding Cycle Times for Maximum Efficiency through Dynamic Programming</b><br>M. Alsigar, M. Alhafadhi, P. Pereverzev and F. Mohanad.....                                                 | 12 |
| <b>Design of Equipment Suitable for Jigsaw Testing</b><br>S. Apáti and G. Hegedűs.....                                                                                                                   | 13 |
| <b>Modeling the Interaction of Air and Aluminum at the Free Surface in High-Pressure Die Casting Using CFD</b><br>K. Arrif and R. Laouar .....                                                           | 14 |
| <b>Analysis of the Evolution of Pressure Losses in a High Pressure Hydraulic System</b><br>B. Azzedine and G. Mounir .....                                                                               | 15 |
| <b>The Influence of the Superficial Plastic Deformation by Rolling on Double Layer Sintered Materials Based on NC100.24 and Astaloy Mo</b><br>G. Batin and B. Kasal.....                                 | 16 |
| <b>Using Bayesian Optimization for Charge-Mixing can Reduce Density Functional Theory Simulation Time</b><br>M. Benaissa, T. Ouahrani, D. Sébilleau and A. Madouri .....                                 | 17 |
| <b>Natural Frequency Examination in Industrial Robot</b><br>D. Bodnar and K. Jarmai.....                                                                                                                 | 18 |
| <b>Analysis of Horizontal and Vertical Grinding Technologies</b><br>S. Bodzás.....                                                                                                                       | 19 |
